THE MAGAZINES

I was delighted to see that Mr. [illegible], publisher of the Western Tiller, was in to see [illegible] for the Com[illegible] Publications to say a word in favor of [illegible] Government defending [illegible] magazine and weekly [illegible]. It is good that [illegible] Publications are having a voice here. What is needed is [illegible] and [illegible] of readership as in such as Maclean's, Chatelaine, Farmer's and Hobbies.

I think the American publishers are most friendly and receptive to the Canadian writer.

Nevertheless our own Canadian magazines are the best market for the Canadian writer who wants to deal almost exclusively with Canadian topics and background. ELEPHANT BRAND FERTILIZER PAID FOR THIS TRUCK
This is an example of what can be bought with profits from the use of fertilizer. The money could have been used for a new car, home improvements or any one of the hundred things that make for better living.
You make more money in two different ways when you fertilize with Elephant Brand. You grow better grade crops which sell for higher prices; you get greater profit from each bushel because it has cost you less to produce each bushel.

GROWING OATS?
You can make extra profits of $6.25 per acre and even more by fertilizing your oat crop.
Here is an example of how fertilizer increases profit from oats.

| | |
|---|---|
| Increased yield per acre with ELEPHANT BRAND | 18 bus. |
| Value of increase (Oats valued at 97 cents per bushel) | $9.00 |
| Approximate cost of fertilizer (50 lbs. per acre of 11-48-0 on summerfallow)* | $2.75 |
| EXTRA PROFIT PER ACRE | $6.25 |

*Oats on stubble, when properly fertilized can show equally profitable returns.

ELEPHANT BRAND PLUS VALUES
- Uniform size
- Free-Flowing
- Pulverized
- All fertilizers highly water soluble
- Strong, weather resistant one ply bags

# Fire Destroys 4 Places of Business on Main Street of Ryley Wednesday

Wednesday, March 15 started out just like any other day in Ryley, but before it ended four business places had been destroyed by fire and nine persons were left homeless. Estimates of the damage have run as high as $400,000.00, but more realistic estimates put the loss at a figure somewhere between $100,000, and $200,000. It is known that some insurance was carried, but exactly how much is not known. The owner of Tony's restaurant, estimated that his insurance would cover only 25 per cent of his loss.

For three hours the Ryley fire brigade assisted by the Holden and Tofield units battled the thirsty flames, which threatened to wipe out the complete block on Main Street.

Destroyed in the fire was Ted's Meat Market on the corner and the living quarters of Mr. and Mrs. Ted Ninkovitch and their son Milton upstairs. The office of Finseth's Real Estate and Insurance; Tony's restaurant and the living quarters of Mr. and Mrs. William Adair, the owners, upstairs; the egg grading station owned by Alberta Poultry Marketers of Edmonton. Ryley's second cafe was badly damaged by the water, smoke, fire and in places the firemans axe when it become necessary to cut holes in the wall to stop the spread of the fire.

No one was injured in the fire, but the Ninkovitch and Adair families lost all their personal belongings as they escaped with only the clothes they had on. The fire seemed to start in the wall between the butcher shop and the real estate office and quickly spread in both directions. In just a few minutes all the buildings were a roaring inferno with only the fire-walls of the egg grading station showing its onslaught enough so that the hardworking fireman had their first chance to check it. Even then it was nip and tuck as to whether the next cafe could be saved or not. Water poured on its roof turned to steam and time and again the wall started on fire only to be drowned by the stubborn fire fighters. A bulldozer was brought into play and after repeated efforts by the operator the walls of the egg grading station were pushed in away from the cafe. Once it looked like even the dozer would be lost when a malfunction developed and the machine could not back away on its own power. However a truck was rushed up and the dozer pulled up to safety where it was soon put in operation again.

Howard Pratt, owner of the Service Station across the street turned in the alarm shortly after two o'clock and as the heavy black smoke billowed upward people gathered from all the neighboring towns and districts.

The butcher shop was one of the oldest buildings in the village having been constructed around 1906. The restaurant which was destroyed, for years served as Doctor McPherson's office and Drug store. Residents of the area are reminded of the spectacular blaze which wiped out the other end of the same block in 1950. That fire took out everything on the north side of the Silver Seas cafe, now owned by Sai Wong. The is the second time that firefighters have successfully stopped disasterous hotocosts at this building.

Part of the town was without natural gas or electricity during the fire and for a time following it. But the crews of both Northwestern Utilities and Calgary Power soon had services back in operation.

## Candidates For Council Make Statements For Press

### Harold Weatherill .

To the Ratepayers of Tofield Municipal District No. 22

March 17, 1961

Dear Sir:

I would like to thank the Editor for the opportunity to express my views on County affairs.

I wish to congratulate my opponents in the way they have conducted themselves in this contest.

When I first become a councillor many ratepayers came to me wanting their roads repaired. I told them that I could patch their roads if they wished, but if they would give me a little time I would build them a good road. Nearly all ratepayers agreed to wait. By indulging in their patience and pursuing a policy of as little patching as possible and as much good solid construction as possible, we have made more progress in road construction in the last 8 years than at any other time in the history of the Tofield district.

In regards to bus drivers driving without an A license: If the policy of the School Committee is adhered to there is no chance of any one driving a bus without an A license.

At the last council meeting the council discussed a report from a weekly News had been sent to them for their opportunity to express their views on County affairs.

I wish to congratulate my opponents in the way they have conducted themselves in this contest.

In regards to the discount on taxes which was discontinued last year. I would like to point out that this discount is paid to the ratepayer with his own money. The amount of the discount must be included in the budget.

I would like to take this opportunity to thank the ratepayers in division seven for their confidence in me in the past and hope they may see fit to express their same confidence for the future. on March 11th

Yours truly,
Harold Weatherill

### Charlie Sears

Ratepayers of Sub-Division No. 7 of the municipality of Beaver. I would like to submit your support at the forthcoming election Monday acting as trustee for eight years with the Holden School Division. I feel this experience will prove helpful in the County matters. If elected I will endeavour to carry out my duties to the best of my ability.

C.W. Sears

### George Abernathy

To The Ratepayers

I have been approached from time to time to run for County Council and after considerable thought have decided that I can render effective service to the Ratepayers

I therefore solicit your support and vote

Thanks,

## Sunday School Teacher Honored After 40 Years

Mrs. Blanche Hardy and Mrs. Ida Jacobs were the honoured senior members. Mrs Hardy was initiated into the Order of the Eastern Star in Loganland, Colorado in 1907 while Mrs. Jacobs received the degrees of the Order in Emmett Kansas in 1908. Mrs. Hardy became a charter member of Lonic Chapter when it was instituted in 1925. Mrs. Jacobs affiliated with Lonic in 1930. In honour of the occasion, Mrs. Elizabeth Davison, Worthy Matron, and Mr. Neil Philips, Worthy Patron had invited relatives of the members to be present. Those included Mr. J. Hardy, Mr. Don Hardy, Mr. D.W. Jacobs, Mr. and Mrs. Thomas Jacobs who were present to see Mrs. Hardy and Mrs. Jacobs so honoured.

Mrs. Davison welcomed the guests and presented Mrs. Hardy and Mrs. Jacobs with corsages of yellow carnations to symbolize their fifty years in the Order.

Mrs. Grace Phillips gave a summary of the activities of the two honoured members since both have been initiated. Mrs. Hardy has been Worthy Matron three times. Mrs. Jacobs has been organist for many, many years. Both ladies have been hard and willing workers in both the ritualistic and charitable work of the Order.

At the request of Mrs. Davison, Mrs. Ella Hardy pinned on Mrs. Blanche Hardy the fifty-year pin presented by the Chapter Mrs. Esther Lamoureux pinned a similar service for her mother Mrs. Jacobs When the ceremony had been completed, Mrs. Jane Dodds and Mrs. Daisy Young harmonized beautifully in a special song arranged in honour of the fifty-year members. Mrs. Hardy and Mrs. Jacobs then thanking the officers and members of both, and expressed the joy they had experienced in the service of the Order.

After the Chapter's birthday tea, baked by Mrs. Joyce Swift, had been cut by Mrs. Jacobs and Mrs. Hardy, lunch was served. Entertainment was provided during the last hour by the reading of the members horoscopes by Mrs. Davison as the birthday cake drifting into the wishing well, to enrich the coffers of the Chapter.

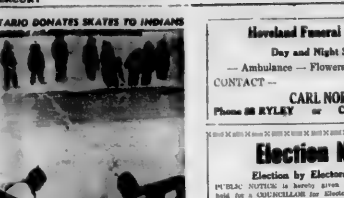
## ONTARIO DONATES SKATES TO INDIANS



More than 300 Indian boys at Fort Albany on James Bay are taking to the ice on real skates for the first time, thanks to a generous southern Ontario response for used skates. The campaign resulted in more than 2,000 used skates being donated for shipment, along with hockey gloves and sticks. Before they received the skates most of the youngsters used barrel staves. Showing their thanks, the Fort Albany boys put on a hockey demonstration, above, for the RCAF crew that flew the shipment in.

## County of Beaver Council Holds February Meeting

The Secretary reported in connection with the proposed transfer of Pt. N.E. 13 51 20 W4, that he had attended the hearing before the Provincial Planning Advisory Board on January 31st, 1961 in the Highway Building. The appellant was Mr. J. Hooper of Lindbrook. The situation in this proposed transfer was fully explained to the Board and the appeal had been allowed.

MOVED that the report be accepted. CARRIED

Notice of the Annual Meeting 1961, of the Alberta Municipal Financing Corporation to be held on Monday, March 27, 1961, at 10:00 a.m. in Room 226, Highway Building, Edmonton, was referred to the Council at this time together with the agenda for the meeting.

MOVED that Cr. B.D. Starky be appointed to act as representative of the County of Beaver No. 9 to attend the Annual Meeting of the Alberta Municipal Financing Corporation, Monday, March 27, 1961, with authority to cast votes for a Director in the class B category.

CARRIED UNANIMOUSLY

MOVED that letter from Mr. R.W. Kornelsen, District Engineer, in regards to the scarping covering road work done under the grant agreement in 1960, be received and filed. CARRIED

The letter indicated that, in inspecting the work, Mr. Kornelsen had found the quality of the construction generally good. A few minor items that he complained of were noted by the Council.

MOVED that information from the PFA Branch in regards to township 51 19 W4, 51 21 W4, and 52 19 W4, having been dealt with at meetings of the Board of Review on January 17th, and January 31st, 1961, be received and filed. CH.

MOVED that proposed transfer of Pt. N.W. 20 46 12 W4th as referred to the Council by the Director of Town- and Rural Planning, be approved.

CARRIED

The usual yearly notice from the Minister of Highways in regards to vote $186 for special Contingency Roads, was referred to the Council. After the yearly notice in regards to vote $106 -(ii) Natural Resources roads.

MOVED that we apply under the Special Contingency Grant road appropriation for the completion of last years road applied for and that in regards to the Natural Resources road, we apply to have the two unsompleted miles listed in last years application completed, and also gravel from No 14 Highway south to connect with the present Natural Resources Road.

Request from Canadian Utilities Limited for approval of proposed power line construction in 50-15-W.5th, was referred to the Council. The proposed power line extension would be located on the proposed District Highway, as referred to above.

MOVED that the Canadian Utilities Limited be advised that application is being made for this District Highway and that if the power company agrees to set the power line back fifteen feet, the request will be approved.

Mr. George Gallimore of Angus (Alberta) Limited, interviewed the Council and stated that they were making available to the Municipalities, expert advice as to cert accounting for the road construction equipment and that he would be pleased to bring some of the experts out to a meeting of the Council. The Council was of the opinion that it would be more convenient to have the time at a School Committee meeting, and it was decided that Mr. Gallimore would attend the School Committee meeting on March 7th at approximately 8:00 p.m.

The Council considered the advisability of disposing of the TD 19-A. cat tractor and dozer, purchased through Richardson Road Machinery last year, as this machine has proved entirely unsatisfactory. Mr. Gallimore mentioned that they had on hand a large stock of 977 tractors with dozers in various price ranges. He also mentioned that they had on hand very good Letourneau scrapers that had been purchased from the American army. These scrapers were selling at $2500.00 or at $3000.00 if other equipment was purchased at the same time.

Mr. Gallimore quoted prices for D7 tractors from $21,000. and down, after appraising the TD 19-A, stated that he would allow a trade-in allowance of $5000. on this piece of equipment.

Cr. Starky brought up the matter of testing for brucellosis especially in beef cattle. He said several other cattle owners were of the opinion that the testing and re-testing two and three times in the same herd was unnecessary and upsetting to the cattle. It was MOVED that we inform the Dominion Veterinarian that it is considered that the checking for Bangs disease in beef cattle is carried too far, that if reactors found at the first test, had been disposed of, no further testing should not be necessary. CARRIED

Mr. W. J. Matthews, Commercial Division Manager of Imperial Real Estate Limited, interviewed the Council at this time in regards to the proposed subdivision of the south shore of Islet Lake. The Council had originally refused approval of this subdivision due to the high cost of road construction into this subdivision. However, they had later given approval in principle to the subdivision providing the developer would agree to stand the cost of constructing all roads and other improvements in and to the proposed subdivision. It was agreed between Mr. Matthews and the Council that the developer would provide the access road as well as roads in the subdivision, with the access road being constructed up to District Highway standards and specifications. A beaver dam at the outlet of Islet Lake was also mentioned. The developer, wished to lower the water level of the lake to some extent and some discussion ensued on this question. Mr. Wendorfi stated that this dam had originally been put in by the Council some seven or eight years ago and that the beavers had since taken over. If the dam was removed it would flood a large bayrnondow, the property of Mr. Mel Wood on N.W. 36 51 20 W4th and Mr. Wood was not in favour of lowering the water level. Mr. Wendorfi also mentioned that the Blackfoot Grazing Association would like to have the water lowered. It was suggested that the Director of Water Resources be contacted in this matter, in regards to the standard of buildings in the subdivision it was agreed that the developer would see the standard which be considered advisable and necessary. It was then MOVED that the above suggestions and resolutions in regards to the proposed subdivision at Islet Lake in N.W. 36 51 20 W4th, be agreed to. CARRIED

In regards to the estimated capital loan requirements for 1961, to be submitted to the Alberta Municipal Financing Corporation, Cr. Wendorfi suggested that an amount should be put in for the possible addition to the Tofield Hospital. It was MOVED that the estimated requirements for 1961 be completed with $20,000.00 for construction of hospitals.

CARRIED

Mr. O. E. Bisney, Supervisor of Male Employment Branch, National Employment Service, attended the Council meeting at this time, at the request of the Secretary - treasurer, in order that the Council might get some first hand advice in connection with the hiring of laborers for the Winter Works Program. Mr. Bisney explained that unemployed registered workers would have first choice and that farmers and farmers' sons would take second place under ordinary conditions However, he did agree that where a farmer or farmer's son was in such financial circumstances that he would possibly require material aid, the employment of such person on the winter Works Program in preference of a registered worker would be quite in order. A number of questions were put to Mr. Bisney and fully replied to and a very interesting discussion took place on the whole question of the Winter Works Incentive Program.

## MINISTIK NEWS ITEMS

Church services were conducted on Sunday by Mr. Howard Munro. In his sermon he gave us much to think about and how fortunate we were to be well physically and mentally. He will be speaking only 2 more Sundays with us before he is sent to a new field for the summer. Mr. Munro will preach the sermon on the last Sunday spent on our field. The Ventnor will be greatly missed, as having spent two years on our field we all became more closely associated with them. We wish them much luck in their new undertaking.

## Couple Honored By Friends On Leaving Farm

Last Monday evening an en-joyable time was spent at the home of Mr. and Mrs Wilfford Holtedhl when relatives and friends and neighbours gathered to honor Mr. and Mrs. Wm. Lamoureux, who have sold their farm in the Lindbrook district and are moving to their newly completed home in Tofield. The evening opened with a game, after which Mr Lawrence Gill read an address of the history which she had researched con-cerning Mr. and Mrs. Lamoureux's life time in the Tofield area. The guests of honor received a table lamp, and a refreshment lamp, with the Rev. Hammett making the presentation in a delightful and jovial manner.

Mr. and Mrs. Lamoureux sin-cerely thanked their friends and Bill completed the event for you with the following poem

Friendship is a golden chain,

Shaped in God's almighty mold.

Each link is kind, a smile, a tear.

A grip of the hand, a word of cheer.

Steadfast as the Apex roll

Forging closer soul to soul,

No matter how long and heavy the load,

Sweet is the journey on friend-ships' road.

After a delicious lunch and the singing of "For They Are Jolly Good Fellows" the evening came to a close.

## To Be Shown At Tofield Community Hall

"Highest Mountain" will be shown on Tuesday night March 28 in the Tofield Community Hall, at 8 p.m. Set against a back-ground of mountain majesty, throbbing with action and fraught as drama, radiant with the glow of spiritual radiance, Highest Mountain tells out the problems in many a young Christian's life and vividly spells out the an-swer.

Rev. H. G. Klassen, Vancouver Mission Director, will be guest speaker at the program spon-sored by Tofield Youth for Christ.

## Rev. Klassen To Speak At Lindbrook Church

Rev Henry Klassen from the Pacific Coast Mission in Van-couver will hold a series of rev-ival meetings in the M. B. Church at Lindbrook starting Sunday ev-ening. For the past ten years Mr. Klassen has been ministering to the Spiritual and Material needs of the dwellers in the slums of Vancouver. He has 2 full time helpers and 20 part-time helpers. Their Sunday School se-ryllment is 282.

The public is cordially invited to all of the meetings in the Church at Lindbrook and all of the services will be in English.

All meetings are at 8:00 p.m. every evening starting on March 26 and ending March 30.

## Girls 4-H Club Holds Meeting

The Tofield 4-H Clothing Club has chosen the the name of "Nifty Needlers" for their club.

They met at the home of Yvonne and Lucille Tiedeman on Tuesday evening March 7th.

Lucille Tiedeman gave a demonstration on being a good hostess. The members brought finished dishes and were shown how to sew an apron by Mrs. Hunt; this being the next sewing project.

At last months meeting they raffled off the "travelling apron which brought $12.11. This was used for expenses for the 4-H skating party which was held in February The apron was won by Betsy Ann Schulz.

The next meeting will be held at the home of Gail Proctor on March 21th, at 7:30 p.m. At the close of the business session Miss Betty Hoover was presented with a cup and saucer from the girls. A delicious luncheon was served by Yvonne and Lucille

## Mrs. Frosbury Buys Library Books at Calgary

Mrs. W. H. Frosbury, Librar-ian, returned this week from a buying trip to Calgary where she added from 60 to 70 new books to the books available to members of Tofield Community Library. Mrs. Frosbury informs us that there is a substantial reduction in price if a personal selection of books is made. Ad-ded to this is the fact that by personally choosing the books that local members have been requesting a wider selection of subjects and interests is possible.

These new books will be on the Library shelves promptly and readers are invited to borrow them.

It wasn't all work for our librarian on this trip for with Mrs. Jeanie Dunkl, Mrs. Frosbury at-tended the Regional Drama Fes-tival at Calmary, in the evenings.

## "Night Of January 16th" A Success Both Nights

Tofield Community Hall was well filled Tuesday and Wednes-day evenings of last week when the Tofield Drama Club present-ed their 3-act play "Night of January 16th" This was the Drama Club's second annual pro-duction and this year was spon-sored by the Community League

Evidence of the long weeks of practice which preceded the presentation of the play was shown in the high quality of acting by all taking part and especially by the leading lady, Joan Imbeault

For the play, a courtroom drama in which Karen Andre is on trial for the murder of her employer Bjorn Faulkner cen-tral staging had been construc-ted with seating arranged so as to make each member of the audience a spectator in the courtroom

Jurors for the trial were chosen by lot from the audience each evening so that the out-come of the trial was directly dependent on the audience and it was the duty of the seven jurors to decide the guilt or in-nocence of Karen Andre (Joan Imbeault) of the murder of Bjorn Faulkner on January 16th, Faulkner or, as the defense claims, the body of Lefty of Trade

A verdict of "not guilty" both evenings left the full burd-en with the question "If she wasn't guilty, who is?"

Others taking part in Court proceedings were the Matron (Evelyn Moore) whose duty was to escort the defendant to and from the court; Court Reporter, (Mrs. Dorothea Prosbury), Counsel Secretaries (Betty Pilger & Elizabeth Severson), Court attendant (Harold Prosbu-sky). Uniformed police on duty at the Hall were Jim Camp-bell and Claude Gallinger.

On the final evening Ed. Re-nuke presented a token of ap-preciation to the director of the play Cal Annis and a lovely bouquet of flowers to Miss. Imbeault.

## Local Couple United in Holy Matrimony

Baskets of mixed flowers decorated the candle-lit altar of Faith Lutheran Church, Bruce, on Feb. 25th for the marri-age of Diane Schacher and Ray-mond Glen Bell, Reverend J. A. Klingbeil performed the double ring ceremony for the youngest daughter of Mrs. Emma Schac-her, Edmonton and Mr Gordon Schacher of Tawatinaw and the youngest son of Mr. & Mrs. John Bell, Tofield.

The bride entered the church on the arm of her father to the strains of the Wedding March played by Mrs. H. Gose. She was lovely in a full length white nylon organza gown fashioned with lace trim and V-panel in skirt back. It featured a V-neck-ed bodice and lily point sleeves. Her chapel veil of illusion net was held in place by a small jewelled crown. She carried a white Bible entranded with pink Sweetheart roses, white stey-hanotis and fern. Her only jewellery was a drop pearl neck-lace, gift of the groom.

Preceeding the bride down the aisle were Mrs. Marilyn Lanzille as matron of honor. Miss. Joy Murray, bridesmaid and Debbie Schacher, Niece of the bride, as flower girl. Mrs Langille wore a lilac full-skirted princess line dress of orange over crinoline. She carried a bouquet of champagne car-nations. Miss. Murray dress was of yellow organza fashioned with full draped skirt over crinoline. Her bouquet was of lilac carnations. Debbie Schac-her wore a bouffant skirted lilac with white dot organdy frock and carried champagne carna-tions

Mr. Howard Bell, cousin of the groom, was best man. Ushe-ring the guests to marked pews were Mr. Gordon Schacher, brother of the bride, and Mr. Dennis Bell, brother of the groom.

During the signing of the register, Mrs. Gordon Everson sang "O Promise Me".

To receive with the bridal party, Mrs. Schacher, mother of the bride, chose a gown of blue floral silk accented with a cor-sage of pink sweetheart roses. Mrs. Bell, mother of the groom, wore a dark blue printed silk dress with strawberry roses, as corsage.

At a reception for 110 guests in the church parlor catered to by the Sunday School teachers of Holy Cross Lutheran Mission, Mr. L. Hetzel acted as Master of ceremonies. Pastor J. A. Kling-beil proposed the toast to the bride to which the groom cap-ably responded, Mrs. L. Holt, the brides' sister, was in charge of the guest book.

Guests were later entertained at the home of Mr. D. Nacatsil, sister of the bride. For going away, the bride chose a pale green jersey knit suit complim-mented by dark green accessor-ies and champagne carnations as corsage.

After a honeymoon spent in Oklahoma, Kadina and Medi-cine Hat, Mr. & Mrs. Bell will be at home on their farm near To-field.

Out-of-town guests, other than those from Tofield, included Mr. & Mrs. Lloyd Schacher, Fort St. John; Mr. A. Mackintosh, Mr. & Mrs. Don Lang-ille Calgary; Mr. & Mrs. R. Fin-ley, Fort Saskatchewan; Mr. & Mrs. A. Borle, Onway.

## Earl Moore Dies suddenly In Edmonton

Mr Earl Moore passed away suddenly Wednesday at the age of 56 years. Mr. Moore and his son John were at the Edmonton Exhibition where they were show-ing cattle. They had just finish-ed showing when Mr. Moore suc-cumbed to a heart attack. He was rushed to the hospital but was dead on arrival.

Funeral services will be held on Monday at 2:00 p.m. from the Tofield United Church.

## CALGARY POWER LTD.

SERVING THE PROVINCE OF ALBERTA

It was called the General store — the place where you could buy a little bit of everything. It was a friendly place, where townfolk gathered to sit and visit awhile around the big pot-bellied stove. But the array of foods was so limited, it was a hard job for the homemaker to plan varied menus for her family.

Today, thanks to inventive minds and the magic of electricity, the attractive, brightly-lit supermarket beckons every homemaker.

Taking a stroll through the frozen food section is an exciting, mouth-watering experience. Gourmet foods of world-famous restaurants too far away to visit are here, ready to be heated and served at your own family table. From frozen breakfast juices to fresh-frozen fruits for dinner desserts, Calgary Power's extensive electrification program makes meal planning interesting and easy. Electricity is helping to make life healthier and happier for town and farm families across Alberta.

ELEPHANT BRAND FERTILIZER PAID FOR THIS CAR

This is not an exaggeration. By the proper and effective use of Elephant Brand fertilizer, thousands of farmers have been able to buy something they wanted, such as a new car or new farm equipment.

You make more money in two different ways when you fertilize with Elephant Brand. You grow better grade crops which sell for higher prices; you get greater profit from each bushel because it has cost you less to produce each bushel.

GROWING BARLEY?

You can make extra profits of $9.25 per acre and even more by fertilizing your barley crop.

Here is an example of how fertilizer increases profit from barley.

| | |
|---|---|
| Increased yield per acre with ELEPHANT BRAND . . . . . | 16 bus. |
| Value of increase (Barley valued at 75 cents per bushel) . . . . . | $12.00 |
| Approximate cost of fertilizer (50 lbs. per acre of 11-48-0 on summerfallow)* . . . . . | $2.75 |
| EXTRA PROFIT PER ACRE . . . . | $9.25 |

*Barley on stubble, when properly fertilized can also equally profitable return.

ELEPHANT BRAND PLUS VALUES
- Uniform size
- Free-flowing
- Pulverized
- All fertilizer is highly water soluble
- Strong, weather-resistant non-slip bags
- Fast, reliable service assured by adequate dealer stock

Ask your dealer for your copy of the ELEPHANT BRAND NEWS BULLETIN

It pays to choose from the Elephant Brand line

On some maps, the dot marking your community may be overshadowed by larger Alberta centres. But on the gas company system map every dot is the same size — for every community is equal in this one important respect: large city, or tiny hamlet, they are all communities where the gas company has the responsibility of providing "The best possible gas service at the lowest possible cost." To this end, the gas company agent serving your community, the company departments, the engineers and other company personnel are dedicated!

## A Letter To The Editor

Dear Mr. Editor,

The other night I felt again the urge of youth reign of stability or spring fever) and put on the old skates for a spell in New Brunk. of course I was compelled to choose a night when it was not too cold, not too warm no rain or storm and little wind. And then I resumed over to the Recreational center recreational room, certainly something to attract attention My attention was somehow captured into the direction of the skating rink and the sounds of good fun and music that the skating rink has also a debce with its magic, moon and myriads of stars which I was very all of the young appreciated.

And when one compares the Two we see why one required all of the Provincial recreational grant they could get Then perhaps it is as it should be that the senior Citizens are much more in need of recreation facilities to keep them out of trouble than the terrible, troublesome, teenagers. It is then that we seniors ask ourselves? "Am I the childrens?" yours

SPRING IMPRESSIONS:

One of the most popular fashions this year is the all around shirt waist dress. It is made in all types of materials ranging from the finest of silks to the most beautiful cottons. The shirt on the shirtwaist dress varies from the fullest pintuck or pleated shirt to a very slim shirt. They are very easy to wear because of easy fit.

Everywhere you look you see pleats, and more pleats They are either pressed in or left unpressed. Pleats have many variations. You will see box pleats or double box pleats that have been either pressed in or left to hang as they wish. They may be very deep or quite shallow Other pleats are knife pleats or a cluster of four or six pleats with a space separating them. The pleats may be stitched down to the hipline or left open from the waistline. Use your imagination when working with pleats because any kind will do these days

CULOTTES. better known as the old riding skirt, are here. There isn't any doubt about it They are ideal for picnics, sports such as tennis, bowling, badminton, boating, golf and even horseback riding. They are made in sturdy materials such as denims, corduroys, light weight wool tweeds and interpersion such linen as gores, pleats and gathers. They always have some fullness

The above mentioned are just a few outstanding features to fashion to-day. The plain sheath is still a smart choice and will stay in style for several years because it is a good basic dress and suits nearly everyone.

## Fashions

CANARY-yellow Moygashel linen makes a chic, wearable dress that can go anywhere, from resort shopping to dinner and dancing. A good cruise selection, too.

Cut on slim and simple lines, it has a self belt at the normal waist that slips through the flapped front. The narrow line of the skirt is eased by a few gathers.

## A. S. B. to deal with Five Topics this Spring

A. S. B. NOTES

There are five topics that the Agricultural Service Board will be dealing with this spring and it might be a good idea to clarify our spring program at this time.

The Spring Brucellosis Vaccinating program will be conducted as usual, notices are in all three local newspapers and cattle owners are expected to fill in one of these notices and mail to the secretary of the Service Board if they have heifer calves in the 4 to 12 mo. age group. Cards will be mailed to notify cattle owners of the day the veterinarian will call. Owners that may be moving their stock out are requested to notify us in order that vaccination may be done at an earlier date.

The quality of Seed grain used this spring will be much better than in the past due to the cleaning done by, the County Seed Cleaning plant. Farmers have cleaned well over 115,000 bushels to date. Seed for 2000 acres has been treated for wireworm control and 20,000 bushels were treated for root rotting blight and root rot. Farmers are making good use of their plant and are reminded that the capacity of plant will allow the cleaning of another 15,000 bushels before the end of the cleaning season. The manager will be pleased to have anyone drop in to discuss seed cleaning and inspect the plant.

Farmers who are planning to use the Country tree planter are advised to let us know in order that routes can be planned and unnecessary mileage avoided. Now is the time to order trees for next year especially resist Poplar and the Evergreen variation. All trees and the use of the planter is free to any ratepayer.

The District Agriculturist or Myself will welcome any inquiries regarding the tree planting program.

Road side seeding will be done in May and it is noted that more farmers than usual have done some work on such slopes. The Service Board is anxious to co-operate by supplying the seed for this work and encouraging the roadside maintenance

—E—

All 1960 coyote baits will be picked up and destroyed within the next two weeks. Strychnine pellets prepared with ten per cent paravax will be released during the summer. Every one in the County is reminded to be on the look out for Norway rats this spring and summer. Recent publicity on rats indicate the danger of these pests carrying diseases such as plague, Rocky mountain spotted fever, Murine typhus, Rat bite fever, Leptospirosis, Trichinosis and Tularaemia. These diseases can affect humans and Livestock and we are advised by authorities in town to very close check on these pests and keep them out of our district Do not hesitate to report any suspicious rat signs.

TRADING STAMPS THREAT TO CANADIAN ECONOMY

OTTAWA, March 30 "Trading Stamps, as we have known them, are a threat to the economy of the country in that they increase the cost of food and household necessities", David A. Gilbert, National General Manager of the Retail Merchants Association of Canada, said in a brief presented today to Prime Min. Diefenbaker The retaliation also asked the Prime Minister to give his personal attention to the Laws on Trading Stamps with a view to introducing legislation in Parliament to outlaw stamps.

The brief, signed by both Mr. Gilbert and Mr. Arnold Rands, General Manager of the National Foods Division of the R. M. A., described the trading stamp as a scheme for obtaining something for nothing; a kind of secondary currency which, if allowed to spread, may well have a pronounced effect on our monetary policy; a potent source of discrimination between large and small retailers The Association submitted that it is the right and duty of the Federal Government to legislate so as to protect the public against these evils

Pointing out that the present provisions of the Criminal Code are not effective against the present day Stamp operations, and that provincial authorities charged with enforcing the law are now faced with an impossible situation, the Association claimed that the public interest requires that some form of compulsory ... which ... easily ... the ... and merchant, make a large profit for the Stamp ... from ... and ... stamps the brief said it contained lengthy arguments against ... under ... following ... stamps are not a substitute for price reduction, ... to ... consumer price; ... and confusion of values; ... are not a substitute for ... stamp schemes are ... discriminatory; they are a ... form of currency

ALARMING BUT TRUE:

Every year moths destroy enough wool to clothe hundreds of thousands of people. Now that spring is here it is time to put away the winter garments. But just a minute — be sure that they are clean. Then place in an airtight and dustproof container.

PRESERVE WINTER CLOTHING CAREFULLY

The moth a little insect with a bad reputation has caused some catastrophes as far as winter clothing is concerned. Wool is not the only fabric for which moths have a yearning. They also like fur, feather, and wool blends but don't touch clean cotton, linen or any of the synthetics.

It is not the full grown moth that feeds on the fabric, but the eggs that develop into worm-like larval that actually does the damage. If you see a moth flying around, you had better check pockets, cuffs and folds in the closet forward any fabrics moth damage. A moth proofing process applied to clothes months only until the garments are laundered or dry cleaned again.

Pantpests and moth killers have to be concentrated to be effective. Clothing stored with moth crystals in boxes, closets or bags must be air tight. The moth crystals evaporate, the length of time depending on how air tight the closet or storage container.

Don't rely on a cedar chest to answer all your moth problems. Moths like warm dark places and humid weather. They can survive at any time.

that if I would now go hunting I would find one for sure, and sure enough I did. I had a better idea of precisely what I was looking for.

Life is much that way. When you have a very clear idea of what you are looking for, life seems to provide it. Charlie looks for human interest, for the warmth and joy of fellowship. And he finds it. Admirably, as his anecdotes will testify.

## OF MANY THINGS

(By Ambrose Hills)

I have a friend called Charlie Herald. Charlie used to be an orchestra leader, so he got around the country a good deal and heard many a story. Most of us do; but Charlie never ignore one. As a result, he is one of the best conversationalists I have ever met. Get him started and he can go on and on, from one story to another. He specializes in stories that are true; and more often than not, they have happened to him.

For example, he likes to tell about the time he was in a restaurant in Maple Creek. A little wizened up man came in and immediately caught Charlie's interest. With him, the little weather beaten man had a dog all cut to small and weather beaten as himself.

"The man sat down at the counter and ordered two steaks," Charlie said. "When they arrived, he put one in front of himself, then cut up the other one and put it down on the floor for his dog.

"That got me. I went over and asked him what the idea was buying an expensive steak like that for a dog.

"Well, he told me he was a sheep herder — he needn't have told me, I could smell it myself — and that his dog was such a good sheep dog he was better than any six men. We came a year," said the little man, "I bring him to town and buy him a steak. This just happens to be that day."

Charlie has dozens of stories like that. I think things happen to him because he has his eyes open for the unusual. He goes more kick out of life than most men, so life does its best to provide him with grist for his mill.

Once, years ago, looking for a certain shell on a beach, I was having no luck. A friend, farther up the beach, was also hunting. When we met, he had three of the precious shells; I had none. I wondered if his eyes were sharper than mine.

He gave me one of his shells, told me to study it very very carefully. I did. He then said

King Olav V, 57, of Norway skis near Oslo, where he crossed the line first in a six-mile race against President Urho Kekkonen, 60, of Finland. The contest opened the 51-mile cross-country event of the Holmenkollen ski games. Kekkonen, who was a ski-length behind Olav, wanted to race the whole 51 miles, but they had to clear the course to make way for the oncoming competitors.

## In Church-State Clash

Stefan Cardinal Wyszynski (top), ready for a showdown struggle, has hurled defiance in Warsaw at Poland's Communist "Caesars" in a heightening church-state struggle. His target was Wladyslaw Gomulka (bottom), first secretary of the Communist party in Poland, who charges the Church with following Vatican directives. The cardinal declared his instructions were "to let Poland act on its own."

## Agricultural Service Board Holds Regular Meeting

Regular meeting of the Agricultural Service Board of the County of Beaver No. 9, held in the Council Chamber Ryley, Feb. 22, 1961.

Present were: Cr Gibson, Cr. Reddish, Mr. Leo Marmoszka, Mr. Peter Hruber and Mr. Ken Boyles, Field Supervisor.

The Chairman, Cr. Gibson, called the meeting to order at 1:45 p.m. and asked for approval of the minutes of the previous meeting of January 18, 1961, be adopted as presented.

Carried.

Cr Reddish asked Mr. Boyles if he had found the 1500 cayuse bait that had disappeared. Mr. Boyles said that this bait had not been found yet.

Leo Marmoszka asked if the Seed Cleaning Plant was doing as good a job as possible. Ken Boyles replied he thought this plant was doing a good job.

Correspondence:

The secretary presented two letters from the Field Crops Branch regarding demonstrations under the Agricultural Service Board Tentative Program is considered.

Moved that the Tentative Program is considered.

Cr Gibson asked Mr. Boyles what had been done to get rid of Russian Thistles on gravel pits.

Mr. Boyles said he thought it would be impossible to spray all these thistles, as the seeds are all through the gravel pits and earthpiles. There would be too much spray and the gravel pits are too rough to go over with spraying equipment.

The secretary read a motion which was passed at the County Council meeting of February 9, 1961. This motion asked that the Ukrainian Veterinarian recommending for brucellosis in herds more reactors have been disposed of.

Moved that this motion be filed. Carried.

The Field Supervisor's Report for February was read.

Field Supervisor's Report

February 22, 1961

During the past month 15 seed samples were picked up at the County Seed Plant for analysis. Twenty five samples were sent to the Supervisor of Special Projects. Seven display cards were made to demonstrate weeds done by the Plant. These displays will be in towns throughout the district. 153 strychnine cubes, sixty pellets, and one 1000 bait were released during the past month.

Tree applications were sent in and two requests for the use of the County tree planter were received.

Roadside weeding surveys are completed. Sixty two miles are to be weeded this year. Four farmers wish to do extra work on herbicides in order that better catches of grass will be obtained.

Ken Boyles.

Field Supervisor

Moved that the Field Supervisor's Report be accepted and included in the minutes of this meeting. Carried.

Ken Boyles advised that the Department of Agriculture will supply grass seed again this year for 25 miles of road and the County would have to supply seed for 24 miles. The cost to the County would be about $253.

Mr Boyles said there were some complaints on the use of Dutch Clover in the green seed mixtures. He said cattle would not eat the straw if it gets into pastures.

Leo Marmoszka said that we should consider deleting Dutch clover from our green mixture this year.

Stan Powers, District Agriculturist, attended at this time.

Ken Boyles asked if the Council was considering marsh brush spraying this year.

Cr. Gibson said he would like to have this until later in the season. He said he would like to spray where the brush had been cut last year.

Ken Boyles said that weed spraying was most effective when the brush was small. He said there was less chance of damage crops as well, because the spray did not need to be shot high enough to go over the fence line.

Copies of the Agricultural Service Board Tentative Program for 1961 were given to the members. The program was discussed and would be completed at the next meeting when a member of the Department of Agriculture, Field Crops Branch would be invited to attend.

Peter Hruber said that Harry Hromeyk was also to attend a compensation for the Veterinarian's fee for doctoring 2 cattle for pneumonia after being tested for brucellosis.

Stan Powers said that this is strictly the responsibility of the Dominion Government. He said that one of the Dominion Government Veterinarians had told him they knew of this complaint and they were going to look into it.

Moved that the meeting adjourn at 5:00 p.m.

FOR THE junior figure, here's a frock that is a charmer, nice to wear north and to dance in come summer.

It is of white cotton piqua for the bodice, while the box-pleated skirt is done in a border print of teal and rose flowers with brown green leaves.

The sleeveless bodice achieves a double-breasted effect with the aid of matching buttons.

Minutes of the regular meeting of the Municipal Council of the Town of Tofield, held Monday April 3, 1961 at 8 P.M.

Members present: Mayor Dr. Freebery, Cmnsr. Herreden, Kidal, Patterson, Allan Smith and Jefferson.

Minutes of the last meeting were read and approved:

Public Utilities Board, acknowledging advice of appointment of Christenson, Morrison & Co. as Auditors for the current year.

Canadian Good Roads Assoc. as to a convention to be held in Banff, pertined and filed.

Civil Defence as to Emergency Training Program, filed.

Tofield M. H. D. No. 47, respecting Assessment figures for the current year, which had been replied to and to effect that these cannot be given until more is known of the new Plan projected by the Prov Govt. for School financing and the Equalized Assessment for Tofield.

Civil Defence, as to National Attack Warning System and the method of operation and urging that a local test be made coincident with the Army Testing Program

Department of Public Works, Canada, Edmonton, notification that they will vacate the building now used as a Post Office Building prior to April 30, 1961, and asking receipt of the notice.

Tofield Community League asking that expenditures for 1961 include funds to improving the Sports Ground parking facilities extension, levelling, or what to the Baseball Backstop. This would be considered when the estimates are made up.

Alberta Emergency Measures Organization as to Civil Defence Fire Pumpers and that jurisdiction for these has been Transferred to the Department of the Provincial Secretary, Fire Commissioner's Office, and who was to be contacted for further probable loss of training of auxiliary firemen and trucks.

Dept. of Provincial Highways as to the Canadian Good Roads convention at Banff in September and drawing attention to the valuable information to be had by attending same. No action taken to request a delegate meantime.

Dept. of Public Health as to operational revenue grants 1961, and outlining equalization and taxation program as it now appears to be projected. Nothing could be done for the present until more details to hand.

Dept. of Public Health as to a Correspondence Course for operators of Treatment Plants and to which Mr. A. G. Clark has applied to take at a cost of $10.00 fee, to be paid by the Town of Tofield, and approved by the Council.

Accounts were approved for payment as submitted.

Report by Constable Wall for March was perused and filed.

## Double Ring Ceremony Held in Tofield United Church

A double ring ceremony in Tofield United Church recently solemnized the marriage of Miss Elizabeth Keitha Brown and Mr. Howard Clive Gudmundson.

Rev Bruce McNeil conducted the ceremony for the daughter of Mr and Mrs Stanley Brown of Tofield, and the son of Mr. and Mrs. Leo Gudmundson of New Sarepta

Baskets of flowers and yellow bows on the guest pews marked the spring season.

The bride wore a full-skirted floor length gown of white pouidesoie ordered with lace. The overskirt was caught up in the front with lace bows. The fitted bodice had a lace-edged neckline and lily point sleeves Her veil was edged with matching lace and held in place by a crown of lace and pearls. She carried a shower bouquet of red roses Her only jewelry was a cultured pearl locket and earrings, a gift from the groom.

Her sister, Mrs. Alex. Scott, was her matron of honor and Miss. Donna Ferguson was bridesmaid They were identical sheath gowns of green pouidesoie with pleated shirts They carried bouquets of yellow carnations. The flower girl was Betty Anne Scott, the bride's niece, who wore a full skirted dress of white flocked nylon with wide green belt and bow. She carried a nose gay of spring flowers.

Attending the groom were Mr. Gerald Trempner and Mr. Leroy Gudmundson, while the ushers were Mr. Douglas Larsen and Mr. Peter Brown. Mrs. Stinson was organist and the groom's cousin Mr Theodor Benedictson was soloist.

Receiving the guests the bride's mother wore a dark green crepe sheath with brown accessories and a corsage of red roses. The groom's mother wore a two-piece dress of brown silk print with beige accessories, and a corsage of red roses.

At the reception held in the Church Hall, Rev. Bruce McNeil said the blessing and Mr. Garnet Harnwick was master of ceremonies Rev. McNeil proposed the toast to the bride

For a wedding trip to Montana the bride wore a royal blue silk and lace suit with [illegible] mink collar and hips and black patent accessories. Her corsage was of pink carnations.

Out of town guests were from Vancouver, Nanaimo and Agassiz B. C., Spirit Lake, Saskatchewan, New Sarepta Edmonton, Irvington Valley, Red Deer, Ledue, Gurney and Clearvue

## What Makes a "Teener" Tick?

### As Written By a Teenager

One of today's common examples of Juvenile immaturity is the "bicycle". Today's "wild 1-speeder" would rather be seen cranking down Commercial Street backwards, than pedalling an economical, time-saving bicycle. Not only do these feelings show a direct symptom of lack of economical values, but also an indication of following the leader in other words, if you don't do what the "gang" does, you are an outcast.

In the early Twentieth Century, if you owned a bicycle, you were a very fortunate person, because those were the days when everyone recognized the value of a dollar, and a bicycle was the next best thing to an automobile. Today, a dollar is thought of merely as a drop in the bucket.

Another baffling instance concerning our younger generation is the relationship between a teenager and his parents. If he were seen kissing his mother on the eve of an excursion, his reputation as a teenager would be shot. Perhaps it is the fact that the common conclusion is attempting to mature too quickly from bewildered, insecure children, to mentally mature individuals it may be that the so-called beat generation is composed of this section of our younger society. Some parents place the blame of our youngsters on the present day international situations, concerning the threat of war over population, and other mental apprehensions. This may be true, but is it not a fact that today's parents tend to be slightly overpossessive concerning their child ren? That is to say that they are afraid to let their youngsters grow up, is this the fact that motivates the child's feelings of individuality? They reach the stage where they feel that they want to be an adult, but are mentally inexperienced and immature due to their sheltered up-bringing.

The only principle that is going to save our next generation from these perplexities is stricter parental discipline and more thought to the word loyalty.

Alvin Hisey, Jos Dominik and Ken Pederson took the sale at Schulte's at Bruderheim on Monday.

* * *

Hope you folks are still keeping your weeding around for a while yet, this kind of weather feels worse than winter after such a mild one.

* * * * * *

We hope this weather will be more co-operative for our church service this Sunday. This will be Ken Jordan the student Minister, last service with us. We hope to have our Communion Service as well. You are always welcome folks, Sunday school and church service at 2:30 p.m. We would like to say a cheery ine lil to Robert Antonuik, Sylvia Sharon, and David Zwesick still hospitalized from the Bus accident at the Archer Memorial Hospital.

* * * * * *

Grandpa McLachlan is at the Archer Memorial Hospital. A visit or a card would help shorten his stay.

* * *

The Joseph McLachlan family visited grandma McLachlan and sister Ella Rogers on Thursday, after shopping. Sunday Pederson went along to visit her mother and sister too.

### DANISH ROYAL FAMILY

Gathered in the Fredensborg castle in the northern Zealand area of Denmark, members of Danish royal family stand for a group portrait. They attended Princess Anne-Marie's confirmation at the Danish church. In the group (left to right) are: Princess Benedikte; Queen Ingrid; Princess Anne-Marie; King Frederick and Princess Margrethe.

## Fashions

Coming up fast on the revised color card is a delicious shade — a creamy banana-yellow that is most becoming. It is the shade selected for this pretty suit dress of light-weight wool worsted.

The sleeveless frock has a shallow scooped neckline and gathers from the waist to ease the top part of the skirt. The black satin sash is optional.

A cropped jacket has nice tabbed detail at the cuffs and a matching yellow chiffon scarf.

## OF MANY THINGS

My wife has been busy at winter construction. She rebuilt a roof, house, barn and improved shed — with oil paints, that is.

It all started at Christmas time when son Bill presented her with an oil set and instruction books. In the loft we had visited the old farm site near Cobre River. Nothing remained but the cement foundation of the home, the willows her father had planted long ago, and enough memories to bring tears. The nostalgia remained with her, but now she feels much better.

She has used her oils to reconstruct the farm with all the details she can remember. Perhaps it isn't a master piece, for she's a complete amateur, but some of her feelings about the old farm, the river she skated on as a youngster, the beautiful flowers and pathway to her uncle's farm which she walked barefoot so often have found their way into the painting and made it very special in our eyes. In the cold days when she was a young girl on that farm, she says, she didn't realize how happy she was. Only now, on looking back, remembering the walks in river ice while the trees snapped in the frost, or evenings when the sunset seemed to set the willows on fire, does she fully appreciate the delights of those days.

Of course, that's our nature. We are so well aware of hardships, or inconvenience of any kind; but so inclined to take delights for granted until memory brings them back to us to a great torrent of nostalgia. Too bad we couldn't learn to be a little more alive and aware at the moment of experience.

Good thing, though, that memories and oil paints gave us a second chance.

### PERENNIAL VINES

Perennial vines can be used for many practical purposes and give lasting beauty as well.

As shown in the accompanying Garden Graph, a perennial vine that will grow in sandy, poor soil, sun or shade and give blossoms larger than a sweet-pea is Lathyrus, the perennial sweetpea. The blossoms are not fragrant but are fine for cutting. It is available in white, pink or red flowers.

The vines die down over winter but vigorous new growth begins each spring so it is very hardy. It grows to a height of 6 to 10 feet.

The vine known as Dutchman's Pipe is one of the best for use as a porch screen. This becomes its large, handsome leaves overlap one another. Its unique blooms are in the shape of an old-fashioned pipe, as illustrated. The flowers are a yellowish brown in color.

This vine has other good points to recommend it. It is resistant to fungus disease and insects. It can be grown in sun or shade and will even thrive in the midst of city smoke and dirt. It often grows to a height of 30 feet.

Because of its vigorous growth, Dutchman's Pipe needs a lot of extra nourishment. The fertilizer should be added to the soil at the time of planting the vine or during its summer growth.

FROZEN BREAD:

Does the crust of frozen bread separate from the bread during the thawing time? Perhaps the following will give you the answer.

When frozen bread is defrosted in high humidity, moisture from the air will condense on the cold surface, just as it does on the outside of a glass of ice water. This may make the crust soggy and cause it to separate or peel from the loaf.

For this reason, we recommend that frozen bread be defrosted in the wrapper in this way, if the air is very humid the moisture will condense on the outside of the wrapper, and as the bread becomes warmer it will evaporate just as it does from the outside of a glass of water as it warms to room temperature.)

Of course, if it is desired to serve the bread hot, the bread may be defrosted in a moderate oven. In this case a full wrap will protect the bread and keep it from drying out during the defrosting and heating period.

It is also recommended that the bread be thoroughly cooled before freezing.

## ALCOHOLIC

Are You an Alcoholic? — To answer this question, ask yourself the following questions and answer them as honestly as you can.

1. Do you lose time from work due to drinking?
2. Is drinking making your home life unhappy?
3. Do you drink because you are shy with other people?
4. Is drinking affecting your reputation?
5. Have you ever felt remorse after drinking?
6. Have you gotten into financial difficulties as a result of drinking?
7. Do you turn to lower companions and an inferior environment when drinking?
8. Does your drinking make you careless of your family's welfare?
9. Has your ambition decreased since drinking?
10. Do you crave a drink at a definite time daily?
11. Do you want a drink the next morning?
12. Does drinking cause you to have difficulty in sleeping?
13. Has your efficiency decreased since drinking?
14. Is drinking jeopardizing your job or business?
15. Do you drink to escape from worries or trouble?
16. Do you drink alone?
17. Have you ever had a complete loss of memory as a result of your drinking?
18. Has your physician ever treated you for drinking?
19. Do you drink to build up your self-confidence?
20. Have you ever been to a hospital or institution on account of drinking?

The above test questions are used by Johns Hopkins University Hospital, Baltimore, Md., in deciding whether or not a patient is alcoholic.

If you have answered YES to any of the questions, there is a definite warning that YOU MAY BE ALCOHOLIC.

If you have answered YES to any two, the chances are that you ARE AN ALCOHOLIC. If you have answered YES to three or more, you are DEFINITELY ALCOHOLIC.

## Robes — Aitkens Wedding In Ryley Catholic Church

The Ryley Catholic Church was the scene of a pretty wedding on Tuesday April 11 when Fern Robes became the bride of John Aitkens of Duffield. Father Purcell performed the ceremony.

The bride entered the church on the arm of brother Ray in the strains of the wedding march played by Miss Lorna Henderson. The bride's floor length gown of Wax of white net over taffeta with long lily point sleeves and sweetie trim.

Her finger tip veil of illusion lace was held in place with a sequin bandeau. Her only jewelry was a pearl necklace and earrings, gift of the groom and now carried a bouquet of red roses Maid of honor was Gloria Robes, sister of the bride, she was dressed in a gown of blue net over taffeta and carrying a bouquet of white carnations.

The groom's attendant was his brother Robert Aitkens Mr Roy Robes gave the bride away and after the vows were spoken Mrs. Danny Manderson and Mrs. Walter Krupielacki sang "Mother Dear Oh Pray for Me." During the singing of the register Mrs. Manderson was accompanist for both selections.

A reception for about 35 guests was held in the parish hall. The bride's table was beautifully laid and centered with a three tiered wedding cake. Father Purcell proposed the toast to the bride.

Mr. and Mrs. Aitkens will make their home in Duffield.

## CANADIAN LIBRARY WEEK

If your children enjoy reading, take a bow. It probably means you enjoy reading too, or that you have shown an interest in their reading. Primary teachers' can tell when a child has been read to at home He comes to the first grade eager to have stories read aloud and to read for himself.

Your influence continues. Every time you read aloud to children, every time you introduce new story book friends, everytime you visit a library or read books of your own you are influencing their reading. If you show that something is important, then they want to do it too.

Equally important is the fact that though reading he is growing and developing as a person. If you can provide him with continuing delight in reading, you are contributing to his development, as a happy, self-reliant individual. Through reading the visits different lands and different periods of history. So his horizons broaden and he expands accordingly If you have chosen wise to ask questions and get to the root of what he reads, his reading helps him to develop as a person who thinks as he sees lovely illustrations and hears the rhythmical language of children's books, he is beginning to get satisfaction from the beautiful.

As a child reads, he begins to establish his pattern of values. His respect for other people takes shape. His own satisfaction in making him a more secure person. By his questions and comparisons he is becoming a more creative thinker.

Your influence in this unfolding process is tremendous for you are with the child much more and your thinking permeates his way of doing things. Your guidance in harmony with the guidance of his teacher will fill his needs.

There are thousands of books published every year. Not all recommended by any means. We have book selection aids and could help you choose books for children of all ages: from baby carriage to tricycle; from 1 to 6 when he first starts school as he begins to read; and when he is on his own in reading. I should be happy to help you any time. EDNA BOWICK

## Department of National Defence To Hold Civil Defence Exercise

Edmonton, Alta., April 19 — The province of Alberta will take part in a nation-wide national survival and Emergency Measures organization training exercise on May 5. It was announced jointly today by the Canadian Army and the Emergency Measures Organization.

The exercise will be known as "Tecula 1961", and is designed to see how the Alberta Emergency Measures Organization, as part of the Federal Emergency Measures set-up, would react if an actual nuclear attack was made on Canada, and warning of an attack was given to the public by the Army's warning system.

The aim of the exercise is to practise those emergency measures necessary for national survival and the continuity of all levels of government, to test those measures for which preparations have been finalized and to direct attention to whatever gaps in planning and preparation will exist.

In Alberta the emergency national headquarters for the exercise will be set up at RCAF Station, Penhold, where existing communications on National Defence property are readily available and which is physically located outside what may be considered major target areas in Alberta.

The beginning of the exercise will be signalled by the Canadian Army by the sounding of attack warning sirens in Alberta municipalities which have them installed, and in smaller communities by the various signals that local civil defence authorities have arranged.

Army authorities emphasized that when the warning signals are sounded, no action need be taken by the public other than to tune their local radio station for a national broadcast in association with the exercise. It was stressed that unless the actual warning system is brought into play, the exercise would not be realistic.

Sometime on May 5 all Federal and Provincial Agencies and Canadian Army attack warning personnel will start to handle simulated problems, that might occur when a number of atomic bombs are dropped on Alberta. They do not know exactly when or where the bombs will be dropped, and their efficiency in handling the situations when the exercise control staff tells them a bomb has landed, will show where the weaknesses, in the organizations lie, and how improvement can be made that someday might mean the difference between existence and non-existence for the various communities of Alberta.

Co-directors of the exercise in Alberta are G. R. Newman, regional officer for the Federal Emergency Measures Organization, A. J. Lavoie, co-ordinator of the Alberta Emergency Measures Organization, and Brig. J. S. Ross, commander, Alberta Area.

While the public is being asked only to listen to the evening radio broadcast after the initial exercise warning is given, Army officers pointed out that the actual meaning of the siren signals is:

Steady three-minute note on sirens or other warning devices would signal "alert warning". Action to be taken would be to tune to local radio station.

Undulating note on sirens or other warning devices for three minutes would signal the "take cover" warning. Action to be taken would be to get to the best shelter at once.

For exercise "Tecula 1961" only the alert warning will be given

## Calgary Power's Annual Report

The Directors of Calgary Power Ltd. in their Annual Report for 1960 issued today, noted that the Company's load were over the one thousand million Kilowatt hour mark for the first time, and was an increase of 16.1 per cent above that of 1959. Although the increase was less than experienced in the previous year, the balancing rate of load growth is due, at least in part, to the rising mild fall and winter, as well as to a temporary slowing of expansion in the province.

The Company increased its property account by 31¼ millions of dollars from $121,966,611 in 1959 to $153,231,943 in 1960. This increase was due mainly to the completion of additions of 66,000 kilowatts of hydro power to the Spray-Ensuite plants near Canmore, work progressing on new steam generation and the coal mine at Wabamun, west of Edmonton, together with various transmission lines and substations.

The gross revenue from operations amounted to $35,671,750 an increase of 10 per cent over the previous year. The net income before dividends increased to $6,936,259 from $5,304,228 $1,811,218 of the net income was retained for use in the business.

No matter what the name, No Iron, Drip Dry or Easy Care

they all dry quickly when washed and can be worn with little or no wrinkle. All wash and wear fabrics fall into three major classifications: (1) fabrics woven or knit from 100% synthetic yarns such as Dacron, Orlon, Arnel, Avril, Nylon, etc. These are usually highly crease resistant and won't stretch, shrink or lose their shape (2) the blends and combinations which contain any of these synthetics plus another fiber. To be truly wash and wear, such a blend must contain a high percentage of the synthetic fiber usually over 50%. (3) cotton wash and repeat which have been chemically treated to make cresse resistant and quick drying.

When sewing these fabrics be sure to check the following points

Correct Fabric Grain — be sure the fabric grain is correct and true. The thinkes used on wash and wear fabrics are permanent, so off grain fibres are locked in position and its impossible to straighten them by steaming and pulling.

Choice of Pattern — choose simple, uncomplicated patterns, not broken up too many seams or topstitching. Avoid patterns with curved seams set in sleeves.

Correct notions — use synthetic thread for hemming for garment construction. Use fine sharp needles and pins to prevent large holes

Interfacing — the interfacing should have the same qualities as the garment fabric "Wash and wear" interfacings are available. An interfacing must never be heavier than the garment

Stitch setting — use a medium to long stitch about 10 — 12 stitches to the inch.

Machine Tension — use a looser tension than usual so that the fabric lies flat and is not pulled in and puckered. Also, check the pressure of the pressure foot. If it is too heavy, the two layers of fabric will travel under the pressure foot at the same speed.

Seam finishes — if the fabric is firm, edge stitch ¼" from the raw edge and pink. If the fabric ravels, use zigzag stitching or hand overcasting

Hems — do not finish the hem with seam tape because it may shrink or pucker and wears out more quickly than the garment

ORDINARY CARS

can't begin to match!

EXTRA QUALITY Body by Fisher

A heritage of quality exclusively yours in General Motors cars. This extra quality is insured by the famous Fisher coach emblem on the lower door sill . . . signature of a job well done — a body built as only Fisher can build it.

EXTRA SMOOTH RIDE

Smooth? Extra Smooth, in fact, here is the one great ride of all. Call it what you will — smooth — soft — level — any way to describe the floating-on-air quality of the Ride Master Six of which just hasn't been equalled in the world of motoring. You, there's extra smoothness here — try it — treat yourself to a Chevrolet ride.

EXTRA DOLLAR STRETCHING ECONOMY

Drive a Chevrolet for one year — and you'll know why it pays to buy by extra economy. Here, your best guarantee, you will find that just the right combination of thrift and worry keepers power with economy — that its stylish ways are practical, too — and, most important, that Chevrolet stays in demand year after year — including the year that you'll trade it!

EXTRA SPARKLING PERFORMANCE

There's extra go — extra gumption — and you know it the moment you touch your toe to the accelerator. Make your choice for performance and economy from a wide range of power teams.

EXTRA SAFETY

Extras where they count! Safety-Master Brakes — Safety Plate Glass in every window — Clear-vision Windshield Wipers — Precision Balanced Wheels — Fast-operated Parking Brake. All for Safety-plus!

EXTRA CUSHIONED QUIET

You're cuddled in an insulated hush! Sealed in the extra comfort of Chevrolet's virtually vibration-free quietness. Metal to metal contact has almost been abandoned and sound waves are smothered in an insulating blanket.

EXTRA CONVENIENCE

In a car you want to enjoy yourself — and Chevrolet makes it easy! Front armrests, crank-operated ventipanes, one key locking and a low-loading trunk! These are just a few of Chevrolet's convenience extras. Let your dealer tell you more about the delightful surprises in store.

EXTRA ROOM

You just have to sit in this amazing car to realize all the extra room. Outside, Chevrolet is roomier, trimmer, inside, everything has been done to give you extra roominess. Lowered transmission tunnel. Chair-high seats. Extra headroom. And, greater in-and-out room.

## Camrose Lutheran College News

A new concept in fund raising inaugurated by the Camrose Lutheran College, California, choirs groups of performing musical skipper for a program of development that shall require an outlay of one million dollars in the next ten years. A total of $95,000 has been subscribed to the college's Golden Anniversary Appeal as of April 15. Since only three sisters of the Alumni and Church-centered phases of this appeal are even partially represented in this total, from which sources it is hoped to secure the largest share of the immediate $500,000 objective, officials of the college's Development Council find grounds for optimism in the present achievement. It is expected that the appeal goal ultimately involve more than twenty Church and Alumni sections. The personal approach being used is aimed at securing committees of the long range development program for whom substantial financial giving is a corollary of the equally essential gifts of interest, representation, counsel and intercession. Each new associate is challenged to become involved in the solicitation of more associates. It is the intention of the plan ultimately to involve more than seven hundred associates in a close and mutually enriching relationship with the college.

Of the present total, the Alumni sector has subscribed $15,350 (the unofficial figure is $20,775). the College Staff, $9,925 the Church sector $6,550, the Camrose Area (now fifty five per cent complete) $17,325, Students $6,000 completed Corporations and Foundations $1000 and Non sector Gifts, $250.

Completion date for the Golden Anniversary appeal is October, at which time fiftieth anniversary observances will be held.

Serving as chairmen of the Church sector, of which this area is a part, are Ingvold Nese of Kingman and the Rev George Strand, viking.

## Fashions

Looking ahead to garden, terrace or patio evenings is this pretty costume that comes in a variety of gay prints.

The bodice is actually part of a little sheath in brilliant butterfly printed cotton. This version has a background of shocking pink.

Over the sheath is an ankle-length skirt with a string tie at the waist and low-placed pockets. The skirts is of yellow denim.

SERVING THE PROVINCE OF ALBERTA

Does the picture on the left look familiar? Not any more thank goodness! Blue Monday was certainly a suitable name for washdays fifty years ago. Do you remember the boilers of water set to heat on the coal and wood stove? The job it was filling the wash tubs, the back-breaking labour of washing with a washboard or hand-powered tub? It was not only a messy business but hard work too.

Today — just a flick of a switch fills your automatic washer. Clothes are washed easily, more efficiently with no effort on your part. Damp clothes are transferred to your automatic electric dryer . . . damp dried for easy ironing . . . or fluffy dried, ready to be folded and put away. Electricity — the modern miracle — works for you not only on washdays but in every way, every day.

MILESTONES IN MEDICAL HISTORY

In 1628, the English physician William Harvey reported his discovery of blood circulation, leading to a tremendous new development in the field of medicine.

In 1948, a group of public spirited Alberta citizens in co-operation with the Medical Profession formed M.S.I. to bring comprehensive pre-paid medical care to Albertans. A non-profit organization, designed to provide the greatest protection at the lowest cost, its services are today enjoyed by over 458,000 Albertans.

By budgeting for your medical expenses through M.S.I. you can enjoy freedom from worry . . . security in the knowledge of pre-paid medical care. There is no age limit to have M.S.I., nor exclusion for chronic or pre-existing ailments.

M.S.I. services include home, office and hospital calls, diagnosis, treatment, surgery and many others.

Plan "A" for groups of three or more of one employer. Plan "C" for individuals.

ELEPHANT BRAND FERTILIZER PAID FOR THIS TRACTOR

This is how we illustrate a basic principle — "It doesn't cost, it pays to use fertilizer." Fertilizer can provide the money for those many things you need to make the job easier or your family living better.

You make more money in two different ways when you fertilize with Elephant Brand. You grow better grade crops which sell for higher prices; you get greater profit from each bushel because it has cost you less to produce each bushel.

GROWING WHEAT?

You can make extra profits of $9.75 per acre and even more by fertilizing your wheat crop.

Here is an example of how fertilizer increases profit from wheat.

| | |
|---|---|
| Increased yield per acre with ELEPHANT BRAND | 10 bus. |
| Value of increase (Wheat valued at $1.25 per bushel) | $12.50 |
| Approximate cost of fertilizer (60 lbs. per acre of 11-48-0 on summerfallow.)* | $ 2.75 |
| EXTRA PROFIT PER ACRE | $ 9.75 |

*Most on stubble, when properly fertilized can show equally profitable

## Canadians Becoming "A Nation Of Dental Cripples"

Canadians are rapidly becoming a nation of dental cripples, medical experts claim. Kate Watts in the current Maclean's.

More than 80 percent of school Children in Canada have open cavities needing treatment. 70 percent have decayed teeth or permeable teeth and 20 percent have abscesses, Kate reports adding "With children living on a diet of soft foods and nibbling sweets, the rate of tooth destruction is bound to increase."

The condition of adults tooth is just as bad, he says "Despite the $100 million we're spending on dentistry each year, a hasty leg of $100 million worth of work remains."

He says Canada has 5,500 dentists and needs about three times that number some communities have no dentists at all. One explanation why Canadians are so lax about dental services is that the public grossly underestimates the hazards of bad teeth.

"You don't die if a tooth becomes bad and has to be extracted but continued neglect of the mouth can lead to pain, discomfort, general illness and in some cases death."

Kate quotes Charles H. Mayo, the famous clinician, as saying: "Life might well be prolonged ten years through dentistry alone."

CHEVROLET INDEPENDENT FRONT SUSPENSION TRUCKS
ARE BIGGER SAVERS BECAUSE
THEY'RE SMOOTHER RIDERS

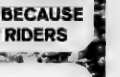
smoother because...
In pickups, middleweights or heavy-duty tandems, there's a Chevy Independent Front Suspension truck to save you time and money. A truck that works harder, rides smoother and lasts longer! And here's the reason why...

LOCKING TYPE FRONT AXLE. A stubborn design that transmits road shock right through the truck.

CHEVY INDEPENDENT FRONT SUSPENSION. Wheels flex independently, minimize wear and tear.

easier on the driver
Independent Front Suspension cuts road shock and vibration before they can reach the cab and driver. He's relaxed, comfortable, able to do more work in a day.

easier on the load
Chevy's Independent Front Suspension protects valuable payloads, and owner reports prove it. You can take a fragile cargo over the roughest roads with far less worry about costly damage.



easier on the truck
Less wear and tear on the truck's body and sheet metal makes for lower upkeep and longer truck life.

MOVING DAYS
ARE HERE
We are moving the balance of our stock into the old Post Office building — but the sale continues — whether you find what you want in the present store, in the old Post Office, or on the street being moved — we will sell it. There are real bargains for you but we confess we don't know where everything is.

# Calgary Power Electrical coming to Tofield Wednesday

In co-operation with the Tofield Lions club Calgary Power Ltd. will put on an Electrical Fair in Tofield on Wednesday, May 10. The afternoon will feature a cooking school directed by Miss Doris Purves, Home Service director of Calgary Power Ltd. She is a graduate of the University of Manitoba, where she gained a B.sc in Home Economics. After graduation, Doris attended the Ontario College of Education at Peterborough. She has a wide knowledge of many aspects of Home Planning, having been Assistant Fabrics Buyer for a large London, Ontario department store, a graduate of the Academy of Lighting Arts; in addition to her knowledge of food preparation, cooking and kitchen planning.

She is assisted by Miss Mary-Ellen Bradley who comes from Lacombe Mary-Ellen completed a Food Service Management Course at the Provincial Institute of Technology and Art in Calgary, and has worked in a Steak House cook in the General Hospital, Calgary and the Municipal Hospital in Red Deer.

The evening program will be enjoyed by every member of the family. It will feature Adventure in sound, Adequate wiring etc. An item of particular interest to all will be the "Electronic Range" with microwave cooking.

Microwaves are a particular type of high frequency radio energy which when applied to food produces heat within the food. Microwave energy can be transmitted, reflected and absorbed. When it is absorbed and only when it is absorbed, it is converted into heat. Heat absorbs the energy and consequently becomes hot.

Cooking in an electronic range with microwave energy is amazing fast! an egg cooks in 20 seconds, bacon needs only 75 seconds, a hot dog 20 seconds; a 5-lb roast is done in 20 minutes compared to over 3 hours required by usual methods. There are only a few examples of the unbelievable speed at which this range operates. However seeing is believing!

It all adds up to a program that every member of the family will enjoy. Tickets are on sale from any member of the Tofield Lions club and there are some very valuable door prizes that will be given away.

## Funeral Services Held For Mrs. Magdelena Reil

Magdelena Reil, daughter of Joseph R. and Mary Ruth Stauffer, was born near Flemingan, Illinois, December 26, 1874, and passed away at the Tofield Hospital on April 27, 1961, aged 86 years, 3 months, and 30 days. In November of 1904 she was united in marriage to Peter Reil who predeceased her in 1945. Surviving are ten children Jos, of Edmonton; Barbara, Mrs. Eli Solberg, of Chilliwack, B.C.; John of Tofield, Ezra, of Ryley; Joe of Edmonton; Mary, Mrs. Dalton, Portland, Oregon; Willie, Edmonton; Pauline, Mrs Jos Lytle, Ryley, Dave, Edmonton, and Clara, Mrs. Harold Vergutis, of Ryley. She also leaves twenty four grand-children and thirty nine great grandchildren.

In 1877 she with her parents moved from Illinois to Seward County, Nebraska, where she lived until 1910 when she with her husband and family moved to a farm near Ryley, Alberta. Here she made her home until the time of her death.

Funeral services were held at the Salem Mennonite Church on Saturday, April 29, 1961 at 2 p.m. with Bishop J. B. Stauffer and Bishop Paul Voegtlin officiating. The services was as follows: Song "Home Sweet Day" Bishop Stauffer spoke on the 45th Psalm 15 verses. Song "Sweet By and By". Bishop Voegtlin spoke on the 13th Chapter of the Hebrews verses 12 to 16 and the 2nd Timothy Chapter 4, verses five to eight. Two songs by Ladies Trio. "There is no one like Mother to me" and "I am weary" Interment took place in the Church cemetery. Pallbearers were Glen Reil; Donals Reil, Blaine Lyale; Denzil Solberg; Gary Vergutis, Howard Reil.

Hoverland Funeral Home was in charge of arrangements.

## Hill Christensen is Tofield's "Mr. Power"

Bill Christensen is "Mr. Power" in Tofield. He was born in Camrose, and received most of his education there. After 3 years in the navy, he completed his schooling at the provincial institute of mining at Haileybury, Ontario. He joining Calgary Power, Bill work ed as an engineering assistant with Messrs Mines in the Kirkland Lakes area of Ontario.

In July 1949, he joined Calgary Power and has worked with the Company in Holden and at Wabamun before being appointed District Manager at Tofield. With a "parish" of over 900 square miles, and some 1100 customers, Bill finds being a District Manager a pretty full time job. Even when winter is over, the weather can play tricks that can cause sleepless nights when power lines have to be kept in service. Perhaps one of the worst - and least necessary of the District Manager's problems are thoughtless hunters who use insulators as targets. Bill is married and has two children. He is an active member of the Community League and the Canadian Legion. He is assisted in his work by Bill Francis.

## Guest Speaker At Last Tofield F. U. A. Meeting

## Tofield Historical Society Adopts New Constitution

At a meeting of the Tofield Historical Society on April 27, a constitution was adopted after clause by clause consideration. The society is thus able to comply with the regulations required by the Societies' Act.

A vacancy on the board of directors, caused by the resignation of Mrs Edna Howick to the office of treasurer was filled by the election of Mr. Stanley Dunham to the board.

Tofield already has the excellent Lions' club museum which displays native birds and animals, the Historical Society hopes to have a museum which will exhibit relics of Indian and pioneer days. Negotiations are already in progress for a building to house such exhibits, and the Historical Society, under its able president, Harold Schultz, has arranged for canvassers of the various committees to be in charge of collection of such items. These are: Documents and Photographs, Hazel Patterson; Homes Francis; Household effects, Petra Stauffer; Small tools, Conrad Patterson; Fireplace, Alan Warner and Bonnie Gray; Church history, Vonah Appleby. Exhibits in the museum, Mary Tiedemann and Hazel Patterson. Other committees may be created as the need arises.

Anyone who would care to donate items to the museum is asked to contact the appropriate chairman. The chairman will list your item and then will be in a position to pick it up when the museum is ready. Acting on the advice of experts in the field the Society decided to accept only such items as will be desired in the museum and are relative to the Indian and pioneer eras of Alberta. Any items of special significance to the Tofield area will be particularly welcome.

STUDENTS IN SELLING

Prof. Cyril Pronch, of the University of Alberta, wrote an ad for for the American Journal of Sociology last fall, detailing with some of the characteristics of those who achieve success in retail selling It is mainly likely to be of some comfort to the salesman who is caught with his quotas down.

Although the study is phrased in professional language, the point seems to be that the easy going, amiable, sincere, pleasant lad with not any "side" is not often at the top in the sales figure. Instead, the boy who might cope pro somewhat, who would be pushy and even somewhat slippery, often rates pretty high for sales volume.

As I say, this may be a comfort to salesmen who miss the boat at bonus time. It should not other detail, can be replaced with neater customs type hand items. Current seems to prevail crayling, reinforce any work stitching.

14. Smooth leather shoes and bags keep their good looks longer than suede will and respect better to do it yourself care

15. Look for linings in slim wool skirts. If they're absent, lists at least the look of dressy and skirts with tailors to keep them from getting out of shape.

16. Buy a few small bright cosmetics are not as warm or as versatile for fashion. A shorty looks well only with straight skirts.

17. There's greater fashion mileage for your budget dollars in the purchase of a plain cloth which costs less than a coat trimmed with fur, and much less than an average all fur coat.

18. Add a luxury touch. For instance, a dollar or so will buy a quarter yard of silk taffeta to make a smart scarf the shade of your coat or suit. Hand roll the edges and fringe the ends.

19 Choose plain washable gloves. Embroidered gloves are always in good taste, suit many outfits. Washability relieves you of cleaning bills. Opaque nylon or cotton is fine, while for example in black or your basic wardrobe tone for winter, will see you through most occasions.

20 Wear tasteful costume jewelry and wear it without shame. Well made imitation pearls, pieces of sterling silver, copper or crystal are lovely to look at, attractively combine a wide variety of your dresses and suits, and will never appear tawdry.

## This Octopus Means Low Housepower

As your own experience may tell you, this illustration is not an exaggeration The electrical "octopus" is a familiar sight which obviously means — not enough outlets. Not so obviously, it means a home starved of electric power.

The FULL HOUSEPOWER symbol represents a home that has ample, instantaneous supply of electric power to every room. There are enough lighting circuits to provide power for all the permanent and portable lamps you could ever need, as well as for the many portable electric appliances which are to be found in the modern home. And in particular, there is an adequate supply of outlets in the kitchen where so many of these appliances are used.

In addition, for heavy duty appliances such as range, water heater, dryer, washer, air conditioner and freezer there are special circuits.

The result is that everything works better. Operating at full voltage lamps give their maximum light without annoying flicker and dimming; the record player turns at the proper speed and reproduces sound correctly; the TV picture is always full size . . . washer, dryer, freezer, mixer etc. all operate as intended and give faster, better, longer service.

Be sure and see the electrical fair in Tofield on Wednesday, May 10th

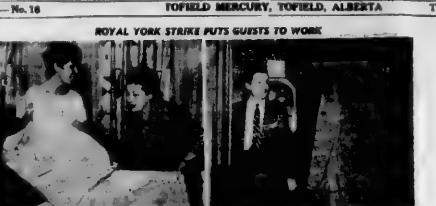
ROYAL YORK STRIKE PUTS GUESTS TO WORK



Workers at the 1,600-room Royal York hotel in Toronto went on strike for the first time in the hotel's history. The Canadian Pacific Railway hotel continued operations on a "do-it-yourself" basis, with guests making their own beds and providing their own room service. The hotel has brought waitresses from out of town and hired 300 non-union employees. Above, guests are shown piling up beds and running the elevators.

## Tofield Town Council has busy meeting

The regular meeting of the Municipal Council of the Town of Tofield was held on Monday, May 1, 1961 at 8 p.m.

The meeting was adjourned at 8 p.m. for the Court of Revision for appeals against assessment.

Following the Court of Revision, the Council meeting was resumed and minutes of the last meeting read and approved.

Board of Transport Commissioners, Calgary, saying that Mr. D. H. Dunphy would be in Tofield, April 25th at 2 p.m. to inspect the west crossing as to improving vision from the North side. He had duly arrived and talked with two Councillors and Alta. A. C. Francis, after which it was agreed some trimming of trees on her property will be done later on.

The appeal of St Johns Ambulance was perused and filed.

Associated Engineering Services Ltd. enclosing print of the proposed extension of water and sewer services on Avenue, from Main to Alberta Street; and quoting $4,485.00 for estimated contract price Main to Queen and $13,943.00 Main to Alberta as Alternate A and B.

By-laws numbers 324 and 327 being by-laws for the installation of the above services were in hand and given first reading on motion of Britt and Allen.

Application was authorized to be made for the necessary funds to be borrowed from Alberta Municipal Financing Corp.

Northwinds Utilities Ltd., advising of certain appointments of personnel in charge of Sales and industrial development of their Company, and offering their services to try and attract industry to this area. An appointment has been made with their Mr. Duffy at a later date, at Tofield.

CHRB appeal for a grant was received and filed.

Alberta Emergency measures organization as in Conference at Arnprior, Ontario in June, filed.

E. M. O. as to exercise TOCSIN for May 8th, brought to the attention of the various persons responsible for taking calls on that date.

Fire Commissioner, Alberta, as to interest in rural protection and of interested farmers who might organize units and take training. Some discussion took place at the time as to the possibility of setting up a local organization for Tofield and vicinity, is being realized that an efficient organization and some equipment are a must very soon. Some new bidders and bees have been acquired by the Town recently. Matter of advance storage must also be provided for.

Equalized Assessment Figures have now been received for the requisition for school purposes, and being a total of $969,176.00 on which 72 mills will be payable as school monies to the Dept. of Education. No action can be taken until more requisitions come in hand from the County of Denver and Tofield Hospital, if any.

Dept. of Municipal Affairs saying that $15,000.00 has been appropriated by the Provincial Government for Municipal Assistance for 1961 for all municipalities, payable on a census basis, and showing how to arrive at our share

Dept. of Public Welfare outlining changes made in handling Social Assistance and Allowance programs.

Dept. of Industry and Development asking for a letter of views as to an application of Johns TV and Radio Repair to cover operation as a Retail Dealer in Radios Televis on Receivers and Electrical Appliances, approved accordingly.

Watson Tofield Ltd., offer to purchase Post Office Building on Lots 1 and 2 Block 11, Plan 0 for amount of $1,000.00, leaving the grounds clear by removal within one year. Their offer was otherwise quite. They also requested an option to purchase the land and erect a building suitable for customers use. The Council felt that they did not wish to accept the offer for the present, and the Company to be advised.

Watson Tofield Ltd., offer to lease Post Office Building at $65.00 per month, still to exist for 6 to 12 months with a provision that if numerous wants to buy, notice of one month to be given to vacate. Council authorized a lease to be drawn accordingly, effective from May 1, 1961.

Dept. of Public Works of Canada as to notice to vacate the Post Office Premises on July 25, and that they would do so also enclosing an order for $35 to pay half the cost of putting crushed gravel on the lane the rear, from the corner of 10th Ave. to property to be left beyond the Crown property Th gravelling, had been done satisfactorily.

County of Beaver School Minutes were read and filed.

Accounts were authorized for payment as presented.

The Secretary Treasurer was appointed Enumerator for 1961

A notice of CLEANUP WEEK ending May 13th to be published when rubbish would be picked up for removal.

Messers. Wm Sims and Arney Klassen were present to buy Lot 12 Block 32 to be divided equally between them for more space to their residences. Mr. Klassen wished to build a garage on his share. The lot is very low and wet. Council agreed to sell for $100 and title to be provided when the property is brought up to a reasonable state of appearance and Mr. Klassen build his garage.

Mr. H. L. Wilson asked approval in support of a deal to develop an area of land he contemplates purchasing from Walter Tiedemann, for dwellings to be erected in due course. This was agreed to following a previous consent on behalf of Mr. Tiedemann in 1960 for the same purpose The property fronts on the South side of 3rd Avenue, West of Alberta Street.

## Canadian Census To Start June 1

Midnight of May 31 is the chosen hour of the count for the 1961 census That does not mean Canadians will be disturbed by the cop of his census taker Census officials have a more workable plan. The actual census taking will begin June 1 in all parts of Canada except the far north The bulk of counting is expected to be finished in the cities in two weeks and rural areas in three weeks

Because of the chosen hour babies born after midnight on May 31 are not to be included in the tabulations, even if it census taker arrives in mid-afternoon the day after May 31 are to be included in the count.

In isolated areas, dog sleds, boats and pack horses will have to be used. In spurious areas planes has had to be chartered to reach four or five people. And planes will be chartered again when necessary It is cheaper than sending two men in a canoe for a two-week trip. For their part, the R C M P will take the census in the far north; they know where trappers live and can find them more easily. In less northern but still isolated areas, census takers must know the country or be supplied with a guide. In Labrador and the far north, census taking had to be done by winter because of the difficulties of hernia Some returns from Labrador, in fact, arrived in Ottawa as early as February.

## CHILDHOOD HABITS PERSIST THROUGHOUT LIFETIME

Instinct can sometimes be over-rated, according to Horace Seller, manager of the Bank of Montreal's Tofield branch.

For instance, he says, many of the Successful business men among his customers attribute their habit of regular saving to instinct, rather than to being taught the advantages of saving as children.

But it's much more likely, Mr. Seller believes, that their habit of regular saving was begun when very young, at the suggestion of far-sighted parents.

Either way, Mr. Seller says there's no doubt that the best time to learn the habit of regular saving is in childhood and the younger the better. It's a simple lesson that gives youngster a good Start in life, and the knowledge that there's a savings account to fall back on in emergencies is often a source of confidence to youngsters when they start out on their own.

A single dollar will start your child's Savings Account at the B. of M. As Mr. Seller puts it: "It might be only a small beginning, but it's a fine way to help develop habits that will be mighty valuable in the future."

If your child really wants something special — and it can be anything from a bicycle to a college education — having a personal savings account will be a strong encouragement for him to put away part of his weekly pocket-money towards the objective. And it will help to develop the habit of saving.

Drop in soon to see Mr. Seller and ask him for a free copy of the B. of M's folder entitled, "How to teach your youngsters to save". Parents everywhere are finding it helpful.

Considerable time was spent in discussing public works for the coming season and the allocation of funds for such. Councillor No decisions were made.

Cr Johnston asked for authorization to hire a cat and a scraper from Smoosh Hnason Contracting Ltd., to hotslope the road North of NE. 10-49-13 W.6th. It was moved that Cr. Johnston's request be authorized.

Written complaints regarding certain roads in Division No. 1 principally referring to lack of gravel which, in wet weather, causes the road to be dangerous for the school buses to travel over, were referred to the Council. It was moved that the letters be received and filed and that Cr. Johnston look into the complaints with view of having them rectified.

Moved that this meeting now adjourns to Thursday, April 13, at 10 o'clock a.m.

## Plans for Office Addition Approved by County Council

The Council of the County of Beaver convened in regular meeting on April 18, 1961.

Present were Crs. Magnuson, Gibson, Krupinski, Mahonin and Reddick, Warby and Weatherill

Mr. Milton O'Brien representing Ferguson Supply Ltd., attended the meeting at this time and placed before the Council information on the Model Allwheel Drive 2011-E Scraper. This machine had been demonstrated in the County as well as in the M.I.A. of Wainwright on the month of 1960 and the cars were satisfied with the way that this equipment was capable of doing. The price quoted on this machine was $53,925.00 dlr. O'Brien mentioned that the Company had a rental purchase arrangement that was set up on the following system Rental of $1500.00 per month for 200 hours per month $7.50 per hour in excess of 200 hours per month. Rental only for months the full rental paid, would be applied on the purchase. If a longer period was arranged for interest at approximately 6 per cent would be charged on amount owing from time to time. The machine would carry the usual one year warranty and the purchaser would only be responsible for usual running repairs, such as blades, filters etc.

The Council gave considerable thought to the advisability of obtaining a machine of this type but no action was taken at this time.

Mr. Ian Litwin, driver of a County school bus, out of Tofield attended the meeting and requested that some thought be given to improvement and gravel on the roads, that he travels on. He pointed out that at times the roads were impassable and that, in his opinion much of the road was dangerous to travel on, when it was wet and muddy. The roads in quest on were the roads on which the children from the Spillstead and Woodlawn districts were brought to Tofield School. Mr Litwin was of the opinion that five to six miles every day had, if it was not still occurred in Mr Litwins statement, but was of the opinion that approximately eight miles were in bad condition, it was moved that the Road Foreman inspected when the Councillors inspect the roads, placed on Road "A".

Mr Nick Lenkoski and Mr M. O. Afesh attended the meeting on behalf of the Hoden Creek Drainage District No. 1. in regards to the drainage District patch being cleared. Although the County Whom this request had been made to was pointed out to the County, in order to be assured that from Federal Sales tax, could and sell culverts or other material to any person or corporation A letter from Warren Lambert, M.P., Parliamentary Secretary to the Minister of National Revenue, for Mr. C. S. Smallwood M.P. copy of which was referred to the Council, indicated that the County would be permitted to sell culverts to the Drainage District, providing the County sold the culverts at cost and providing the County collected sales tax. The secretary pointed out that, until he had confirmation direct from the Department of National Revenue, he would not recommend that culverts be sold to the Drainage District. It was moved that providing the Secretary Treasurer obtains clearance from the Dept of National Revenue, culverts be sold to the Holden Drainage District No. 1, as they require them at cost plus Federal sales tax.

The minutes of the meeting of the Agricultural Service Board, held on March 29, were referred to the Council, and some items in the minutes discussed.

It was noted that the Veterinarian, Dr. J. S. Robertson, requested in cents per calf vaccinated during the spring brucellosis campaign. The A. S. B. Board recommended 10 cents per head. After some discussion it was moved that Dr. J. S. Robertson be paid 15 cents per calf vaccinated during the spring vaccination period. The motion lost. It was then moved that Dr. J. S. Robertson be paid 15 cents per calf during the spring vaccination period. Carried

The Agricultural Service Board also recommended that two weed inspectors be employed for one month during the summer with payment at the rate of $1.25 per hour and 10 cents per mile necessarily travelled. The Field Supervisor stated that, after considering the question, he had come to the conclusion it would be better to employ one man for two months. The Council agreed in this and it was moved that one additional weed inspector be employed to assist the Field Supervisor for a period of two months, when needed, with payment at the rate of $1.25 per hour and 10 cents per mile, necessarily travelled.

The proposed Agricultural Service Board Program between the County and the Department of Agriculture for the year 1961 was now referred to the Council and discussed.

Moved that the tentative program be approved and signed by the Chairman and Secretary-Treasurer.

The Field Supervisor suggested that the County should take over the control of weeds on the road allowances, as it proved impossible to get the full cooperation of the land owners to do this work, even though the various Weed Act laid the onus on the land owner to keep the road allowance, to the center line, free of weeds. Mr Boyles was of the opinion that the cost would be approximately $250.00 per mile per year, for the weed control of the most infested roads, and that additional equipment required would cost approximately $450.00 The suggestion was fully discussed the Council agreed that, prior to be able to control properly the weeds on road allowances the county would be well advised to take over this work. It was agreed that the County, as noted in the Noxious Weeds Act, undertake to prevent noxious weeds from growing upon roads road allowances, and lanes in the County

Mr. George Hughes, of the Alberta and Great Waterways Railway, attended the meeting of this time and explained to the Council the method of assessment and rebating that his firm uses, also their charges for various work. The Council received these figures and with Mr. Hughes explanations and it was decided to keep the matter of appointing the firm as assessors for the County further considered at a later meeting.

Plans and specifications, with estimated cost, for the addition to the County office was referred to the Council at this time. The plans called for an addition 24 ft. x 50 ft. on the west side of the present building. The addition would contain a vault, machine room and school supplies room. The school supplies to be moved from the basement and the available space there used for a Civil Defence Control Room. The plans and specifications were submitted by Western Construction Consultants Ltd. The construct on would be concrete and concrete blocks and the estimated cost $17,455.00. It was planned to carry out the construction under the winter works program. The Federal and Provincial Governments paying 75 per cent of the direct labour cost. The direct labour cost would account for approximately one third of the estimated cost, of this the County would pay 25 per cent. The construction would be done by local labour with a foreman in charge. Financing for the addition had been arranged by a five year loan, approved by the Minister of Education.

The council was fully satisfied with the plans and specifications and it was moved that the plans and specifications for the addition to the County office be approved, and that the Building Committee make the necessary arrangements to have the work started as soon as possible.

The Secretary-Treasurer informed the Council that the application for permission to borrow, under the Local Authorities Act, the amount of $26,000.00 for purchase of school buses, and for the extension to the Shop Office had been approved by the Minister of Education.

Letter from Gladstone F.U.A. advising of a meeting to be held in Gladstone Curling Rink on Thursday, April 20th, 1961 at 8 p.m. for the purpose of further considering the condition and occupancy of the "correction line Road" connecting Camrose to Viking.

It had been suggested at the first meeting that this road, be improved and that, the Provincial Government should be requested to declare it a Provincial Highway The letter requested representation from the Council at this meeting. Crs Hnatky and Reddick were appointed delegates from the County Council to attend this meeting.

Moved that letter from the Workmen's Compensation Board, advising that Kenneth Field successfully completed a First Aid Class held in Edmonton in February 1961, be received and filed.

Moved that request from Mike Kupinchko to purchase an old mailbunker be referred to Cr. Krupinski for investigation and recommendation.

Moved that the request from Canadian National Railways, for permission to remove fences on the south side of the right of way from Mile 6. west of Viking, to Mile 8 1/4 about one and one-half mile west of Tofield be granted

Moved that all Councillors and the Road Foreman travel over all roads, placed on Form "A" by the individual Councillors, in order that the Councillors be made familiar with the roads, that it is proposed to work on during the 1961 season and that this be done on Friday and Saturday, April 21and 22nd starting in division 7.

Moved that the meeting now adjourn to Friday, April 14th at 10 o'clock a.m

The council reconvened in regular meeting on Friday, April 14th, 1961. Present were Crs R. M. Magnuson, Gibson, Johnson Krupinski, Roddick, Warby & Weatherill. The meeting was called to order at 10:15 a.m

## AROUND THE TOWN

• • •

The Explorer Group held their Mother and Daughter Banquet in the United Church parlors on Monday evening. Afterward they had the service of affiliation with the Women's

The matter of a New Council table was referred to the Council the proposed table having been ordered with on the floor of the Council Chamber by the Shop Foreman. The Council found the proposed table satisfactory and also agreed that the desk around the Council Chamber should be in the same material as the top of the Council table, and Hitch was decided upon for this purpose.

Moved that the Council table, as drawn by the Shop Foreman, be constructed in the School carpenter shop, that birch veneer be used for table top and that the desks in the Council Chamber be of the same material as the table, and that the question of revisiting the Council Chamber be re-discussed.

The Secretary-Treasurer referred to the business assessment by-law and suggested that, power and natural gas companies would be taxed under the new legislation, therefore not assessable for business tax, if the Council should consider the advisability of rescinding the by-law The Secretary Treasurer was of the opinion that the small revenue, received from the assessment of grain elevators and small companies in the County, hardly justified the by-law, especially as the Council always had been of the opinion that the small businesses had been overtaxed by the imposition of the business tax The Council agreed to this and it was decided to rescind the by law

It was noted that By-law No 79 to provide business tax by law No 78 was then referred to the Council and given the necessary three readings.

Imperial Oil Limited desired to erect a bulk station east of Barker and Brown's Garage at Kinsella Plan of the proposed setup was referred to the Council.

Moved that this Council has no objection to the Imperial Oil Limited erecting the bulk station east of Barker and Brown's Garage at Kinsella providing the Council will not be called upon for any road or other improvements in or to the proposed bulk station.

It was moved that this council now adjourn to the call of the chair or to the next regular meeting date

## Census Taking to Start In Canada June 1st

Language hurdles will be leaped successfully when the census takers visit Canadian homes be ginning June 1.

In recent decades Canada has attracted immigrants from almost every country in the world

To help the flow of communication between census takers & those who speak little English or French, a three-pronged solution is planned direction of census takers who speak foreign languages the use of interpreters, and translation of census questionnaires into other tongues.

Languages encountered by the census takers will vary from part of Canada to another. Vancouver, for example has several thousand Chinese residents. To help enumerate them, the population census form is being translated, as in 1951 and 1954 And interpreters who speak the Cantonese and Mandarin dialects of Chinese will be hired Elsewhere in British Columbia, Russian interpreters will be called into play. Interpreters will also be employed for Italians

Western Canada, and especially Alberta is an area of widely scattered people of many origins including Ukrainian, German, and Chinese. In such case, enumerators obtain the census information from the head of the household, both by language and by ethnic origin.

## Winners at Variety Bingo

A number of lucky persons went home from the Bingo in Tofield Wednesday night with some valuable prize. Following is a list of the prizes and the lucky winners:

Ladies hair dryer, Mrs. Herman Klein; Electric Fry Pan, Miss Gerald; Electric Table Lamp, Mrs Ursula Electric Coffee Pot, Mrs Lawrence Kitt; Transistor Radio, K. Disterlis, Electric Mixer, L. Hamor, Electric Table Lamp, Jim Kallal. Electric Fan, Joyce Anderson, Electric Fry Pan, Mrs Hagen Vancouver, Tofield Glasses, Mrs. Plaig; Electric Coffee Pot Bill Fyshenko of Chinese will be hired Fyshenko in British Columbia, Russian interpreters will be called into play. Interpreters will also be employed for Italians

## Letter of Thanks From Red Cross

Mrs Elizabeth Davison, has received, on behalf of the local Chapter, C. R. S., a letter of acknowledgement and thanks from the Red Cross Society for the donations received during the Red Cross Drive in March. The total donation received by the Red Cross Society from Tofield was $566.66.

Writing for the Red Cross, Mr. Hilton says, "It is such volunteers and their assistants who are the strength of the Red Cross Society across Canada and throughout the world." This is truly "people helping people."

Local Chapter wishes to thank all those who kindly helped canvass the district Without their help, Tofield's contribution would not have been so large.

## Church

Mr Koch has spent several years in Jamaica under the West Indies Mission. God has blessed his Bible teaching ministry both in the Peace River Bible Institute and in Jamaica. Mr Koch, who is the father in law of Pastor Kennedy, is now Pastor of the Skiff Evangelical Free Church near Lethbridge.

• • •

Mr. and Mrs. Robert Ritchie and Mrs. Vander Boon were visitors at the rectory on Sunday

• • •

Mr. and Mrs. J. W. Robinson, Cdr. Wm. Lansmour, Mrs. E. Baller and the Rev. and Mrs. Hammet attended the ordination of the Rt. Rev W. G. Burch as Bishop of Edmonton in All Saints Cathedral.

## GOLDEN HAWKS FOR GOLDEN ANNIVERSARY

## Agricultural Service Board Notes

POCKET GOPHER POISONING

At present poisoning offers the most economical and effective way of control where pocket gophers are infesting large fields. Cubed carrots dusted with strychnine placed in run ways will reduce pocket gophers 60-70%. A second and third baiting will further reduce them to a point where trapping can quickly clean up the stragglers.

To prepare poison carrots are cut into cubes the size of dice and placed in a gallon jar to which two inches of the cup, one quarter of an ounce of strychnine powder is added and the lid must be screwed on tight. The correct ratios must be thoroughly covered with the strychnine powder by vigorous shaking and turning this is important! A sharp probe the size of a broom handle is used to locate the main runs between mounds, one, two or three pieces of poison are dropped into the runs and the hole covered over. When using strychnine precaution is important to avoid inhaling the dust Do not leave the poison the bulk or the mixing container within the reach of children, livestock or pets. Label all containers - POISON

SHELTER BELT SPRAYING

Surveys indicate that there may be an increase in insect damage to shelter belts, ornamental trees and gardens this spring Reports of this damage have increased the past three years and farmers are advised to be on the look out for insect damage before it is too late. The Agricultural Service Board has purchased a spraying unit that is suitable for spraying insecticides and will keep on hand Malathion chemical if the number of requests justify an insect control program. Malathion will control the majority of insects, aphids, mites and caterpillar that infest trees and plant growth Anyone using insecticides should remember that their use, precautions and directions on the containers must be followed.

Detailed information on spraying a during for insect control is available from the Dept. of Agriculture through the District Agriculturist or our office. We will be pleased to assist anyone with insect damage problems.

WILD OAT CHEMICALS

The result obtained from the use of Avadex and Carbyne last year justify their use in a wild oat control program. It must be remembered that these chemicals must be used according to directions in order to avoid crop damage and do a satisfactory kill on wild oats Dealers throughout the district will be handling Avadex and Carbyne in stock Detailed information on the use of these chemicals will be given farmers before they plan to use them.

## Baby Bonus Can Help To Buy College Education

Most parents are only too well aware that it takes a good deal more than brains for a boy or girl to go to college. That's why far-sighted mothers and fathers who want to give their children the best possible in life plan far in advance for the rising costs of higher educa.on.

For many Canadian parents, the monthly family allowance cheque provides an opportunity to lay the groundwork of a savings programme designed to cover the costs of higher education for their children.

Family allowance cheques for one child, if deposited in a B of M savings account until the age of 16, will total more than $1,600, including interest the bank pays. It's a tidy sum towards a college career.

If you're in doubt as to what it might cost in the long run to send your boy or girl to college, why not drop in at the Tofield branch of the Bank of Montreal, Horace Seller, the manager, will be glad to give you a copy of the B of M folder outlining a typical education savings program which can easily be adapted to the special requirements of your youngster.

Here's a real saga of the old West, a story that fires the imagination of every Westerner. The building of HORSE-SHOE, the first major hydro-electric development in the West, is a story of courage and vision that helped to open up this country.

In the early 1900's the only source of hydro power in the West was a small 280 h.p. water wheel plant at the Eau Claire sawmill on the Bow River. However, in 1909 work started on HORSESHOE. Imagine the problems of excavating without modern power equipment. The only power was muscle . . . provided by 200 men with picks and shovels. Horsepower was just that . . . horse drawn slips and fresnos.

Cement came by rail spur from the Canada Cement Plant at Exshaw, and sand and gravel (150 car loads) was hauled in by rail to be fed to the cement mixers. Friendly Stony Indians dropped into the camp from time to time.

The trials and tribulations were many. At one time the complete coffer dam was washed out by a flood. Slowly, however, the dam took shape and on May 21, 1911 HORSESHOE was completed with a capacity of 20,000 h.p. Here is a lasting memorial to the courage and vision of the men who planned and built the first large hydro-electric development "out West".

FRUIT JUICES OR FRUIT DRINKS

An undesirable situation has gradually developed in which some can be seriously "duped" when she buys what she thinks are fruit juices but are actually fruit drinks. The difference of one word can sometimes mean the difference between a product that is 100% genuine juice and one that is less than 10% fruit juice with a balance of sugar, acid and water.

The homemaker is attracted by the price. Possibly two 48 oz. cans of Apple Drink will sell for 49c whereas one can will sell for 29c. In many cases she does not appreciate the difference in quality and purchases a product that has little more nutrition value than its equivalent value in pop. This situation is most serious in Canada in apple juice but also exists with orange, grape and a few others.

You will get more for your money if you are on guard and buy juices not drinks!

USING FRUIT JUICE IN COOKING

A few drops of lemon juice added to rice while it is boiling will keep the grains separate and make the rice whiter.

Freeze left over fruit juice in an ice cube tray and add these cubes of cool sweetness to lemonade and other fruit drinks. You will enjoy saving the otherwise wasted vitamins and your family will enjoy the extra goodness in their liquid refreshments.

Pierce a lemon with fork tines when you want just a few drops of juice. Wrap lemon in foil or wax paper and return to refrigerator for future use.

Lemon or orange juice sprinkled on sliced bananas will keep them from turning dark. If you have no fresh juice on hand use the frozen juices

To grate lemon rind, use a serrated steak knife. It is an easier method and leaves no waste. Easier to wash and no metal fingers to tape

## E. A. Brown Store at Ryley Renovated

For the past couple of months the store owned by Ernest Brown has been undergoing a complete face lifting. A complete modernization program has been undertaken and the store. The old front has been taken out and a new one almost entirely of glass installed. Most of the floor has been replaced and covered with tile giving a very bright and cheery atmosphere. Two new glass doors are in the centre of the building letting customers go either into the grocery section or the dry goods department.

At the back of the store has been installed a meat department which will be under the able management of Ted Nimoth and Milton. The latest equipment has been installed here with a 5-ft. meat display case, also counters, etc. At the very back of the store are two wash rooms, one for men and one for ladies.

The entire was started by E. W. Brown in 1914. In 1946 Ernest took over from his father and has operated it ever since. In 1948 he changed it over to a self-serve grocery and now again in 1961 he has given his progressive thinking by giving the store a complete modernistic face lifting.

## Ryley Pathfinders Hear Local Postmaster

Members of the Stamp Club brother of Ryley Pathfinders enjoyed a talk by Postmaster Leonard Williams at the Fire residence Saturday evening.

Mr Williams spoke on the beginning of postal service, following through the development to the present.

Present were Donald and Mrs. Price Sr. and Mrs. Roland Booth, Mr and Mrs. L. Hause, Mr and Mrs. Cliff Brown, Larry Booth, Donald Price, Valerie Block and Patsy Taylor.

Lunch was served by the hostess at the conclusion of the meeting.

Pathfinder members are required to know much of the information given by Mr Williams in order to qualify for their stamp honor. In addition each honor mechanic must collect, classify and mount correctly a collection of at least 1000 different stamps.

## Food & Clothing Clubs Hold Joint Achievement Day

The Ryley 4-H girls Food and Clothing Clubs held a joint achievement display and demonstration, coupled with a short program on Monday evening, May 15. There was a large crowd in attendance and everyone enjoyed the evening very much.

The girls planned and managed the whole display and program including the lunch served after the program.

Miss Dolling, District Home Economist judged the baking and Mrs. Lillian Johnson sewing instructor at the Vermilion School of Agriculture, judged the sewing. The girls were, especially the third year sewing, consisting of a wool suit and white blouse to match was exceptionally well done. Much credit is due the leaders of the club as well as the girls themselves

Peggy Smith was mistress of ceremonies for the evening. The program consisted of a sing-song led by Sonja Dagger, a demonstration on soup finished by Sonja Dagne and Sharon Kosolyniuk, a pantomime by the clothing club girls, a demonstration of appropriate and inappropriate clothing for various occasions by the Food Club girls, and a table setting demonstration by Sharon Jacobs and Bobbie Fish and a fiction reading number by Judy Anderson. Peggy Fiske and Laura Anderson.

The clothing club girls presented their leaders, Mrs. Annie Pope, Mrs. Margaret Dagne and Mrs. Doris Upton with cape and scarves and the Food club girls presented their leaders, Mrs. Erna Maaren and Mrs. Marvel Dawe with the same The leaders in turn presented each of the girls with a gift. The clothing club girls each received a sewing gauge and the cooking club girls each received a [illegible]

Miss Dolling and Mrs Johnson gave and the leaders and the each gave a few remarks for their decision in judging as well as giving a few hints on how

**IN MEMORIAM**

In loving memory of Mr. David Lehman, who passed away May 20th, 1960.

God took him home, it was His sweet will
But in our hearts we love him still;
His memory is as dear today,
As in the hour he passed away.
We often sit and think of him,
When we are all alone.
For memory is the only friend
That grief can call its own.
Ever remembered by his loving wife Velma, daughters Marvis, Lois and son in law William Lesher.

## Tofield 4-H Beef Club to Hold Annual Achievement Day

The final meeting of the season for the Tofield 4-H beef club was held on May 11. It opened with the Repeating of the 4-H pledge

The main item was planning the Achievement Day which is planned for May 29. The members are to meet at the Tofield Block yards at 10:30 a.m. The calves will then be weighed at 11:30 a.m. in the 10:01, steertor with the parade to the fair grounds immediately following. The livestock show planned in combination will be judged at 12:30 and the judging of the members' calves will commence at 1:00 with the sale starting at 2:00 p.m.

The Lindbrook Friendly Circle met with the lunch counter at the fair grounds.

The annual banquet will be held at 7:00 p.m. in the Community Hall catered to by the Junior W. A. of the Tofield United Church. The guest speakers will be the two top winners of the County public speaking contest being held in Holden on May 26. The bandstable will consist of the 4-H members themselves.

Adult committees were drawn up to help for the Achievement Day. They are: Parade Committee: Bob Wyllie, Arthur Williams and Martin Lawson. The marking committee consists of Howard Ferguson and Mel Coode. The loading committee is Sandy Scott, Lawrence Gill and Clifford Appleby.

The final judging competition was held on Wednesday, May 17 at Stanley Brown's farm.

The various canvassing committees were drawn up. Allan Gill and Don Woods are in canvass in town; Margaret Woods and Loverta Ferguson north of town, Dave Penner east of Tofield; Dwight Beare and Duncan Lawson south of town and Conrad Scott and Kenneth Appleby west of town.

The members decided to sponsor the Amateur Hour, formerly sponsored by the Farmers' Union.

The wind-up party is to be held at Lakeview on July 7. The committee in charge consists of Loverta Ferguson, Gail Gill and Dennis Lawson.

## Tofield Clothing Club Holds Achievement Day

The Tofield Nifty Needlers held their Achievement Day on May 16 at 2:30 p.m. displaying articles made and giving demonstrations of their years work.

Miss Phillips, District Home Economist judged the project books and Mrs. Johnson, sewing instructor at the Vermilion School of Agriculture judged the girls' sewing. Miss Dalling told the girls that the project books were very good and Mrs Johnson said the sewing articles had been done very neatly and well. Articles made were: aprons, dickey, laundry bag, sewing kit, dressing cape, tooth paste, hand cream and hand lotion.

Betty Ann Schultz was Minerva of ceremonies for the evening. The program consisted of a piano solo by Clarice Jacobson, a fashion show entitled "Teenage Wardrobe" in which each girl took part, talk on Good Grooming by Janice Ferguson, piano solo by Verna Lawson, and a talk on Etiquette given by Glayis Brett and Carol Rudzicki.

Miss Dalling and Mrs Johnson gave their reasons for their decisions in judging and told us to keep up the good work.

After God Save The Queen was sung the girls served lunch and the visitors were invited to look over the girls' work.

## Two New Business Buildings Planned For Tofield

Water and sewer lines were put in today to service the business lots just north of the new Post Office. Watson (Tofield) Limited plan on building on the two lots immediately north of the Post Office and John's T. V. will build on the other lot. Both firms plan to begin construction in the near future

## "United We Progress" is theme of July 1st Sports

It's getting to be that time again! Tuesday was First of July celebration in only six weeks time! The Community League, under the presidency of Dick Motion has chosen "United, We Progress" as the theme for this year's Big Day. It is intended to be a tribute to all the nationalities to which the members of our community belong. It is hoped that our always spectacular parade will feature floats which will exemplify this theme and show how proud we are that we are a cosmopolitan community. The "West" will be the key note of the national costume of the country of your origin.

Once again, the First of July will be a day to remember. The Community League is sparing no effort to make it a momentous occasion to everyone. From toddlers to senior citizen, entertainment will be provided. Races, rides and the ever popular merry-go-round will provide thrills for the children; the display of school work will interest parents; ball games will draw the avid ball fans; and once again the Golden Ranch will have its beautiful cutting horses and quarter horses on display; the jumping will be a featured attraction and hope the rain doesn't interrupt their performance this year. Provision will be made for the convient of the Senior Citizens of this and other localities; this year the lobby of the new curlin rink will be made available for them. Those who have enjoyed the barbecue supper of other years may participate as usual by phoning Mrs. Chas. Tofield's commodious Community Centre will complete the day's activities. What more could be asked for?

Now is the time to plan that float. Who will win the cup for the district Best? Ketchamont and Bardo have been rivals for it in other years. Commercial floats, school floats, homemade floats, club floats, commercial floats, rich floats, youth floats floats from cultural and church groups are all welcome and will all illustrate our theme.

The Community League truly wishes this year's celebration to be a sincere tribute to the many nationalities who, working together in our community, have so amply demonstrated that, **"United, We Progress."**

## Tofield Gymnastic Club To Present Display on June 2

The Tofield Gymnastic club will put on a display in the High School Gymnasium on Friday, June 2 at 8:00 p.m. In conjunction the Grade 9 Glee Komposition class will put on a Fashion Show and the Grade 6 class will present some choral singing.

Special feature of the evening will be John Moore and his Indian clubs. The public is cordially invited to attend and there will be no admission charge.

## Mother & Daughter Banquet Held in United Church

The CGIT together with the G.A. (Girls Auxiliary) of the Anglican Church held their annual Mother and daughter banquet on Wednesday evening of last week, in the United Church parlours. After the banquet, a number of CGIT songs were sung and the G.A. put on a much enjoyed pantomime, for which they had received a prize in Edmonton earlier this year. All then went upstairs for a worship service, followed by the silliness of the CGIT with the Woman's Missionary Society. World Friendship badges were presented by the President of W.M.S. to ten girls who have completed their first year in CGIT. Her W. Hammett presented badges to the members of the G.A.

Guest speaker of the evening was Miss Esther de Boer, a medical student from Edmonton who went to Africa last summer. She will return there this fall to work as a medical missionary. She also showed slides of her trip and had a display table of interesting souvenirs.

## Bride Elect Honored At Shower in Bardo

The Lutheran Church basement was decorated with pink and white on Monday evening when about 60 ladies were assembled to honor Maureen Fossum whose marriage takes place on May 27. The entertainment for the evening was in the form of games and contests.

Mrs. Leonard Stadler on behalf of the friends gave presented Maureen with a well filled basket of beautiful gifts and best wishes of the community.

Maureen's sister Diane and cousin Arlene Hobkan assisted in unwrapping the gifts. In her usual charming manner, Maureen thanked for the gifts and everything that had been done to make the evening so pleasant. The ladies in charge of arrangements and lunch were Mrs. Petra Stauffer, Mrs. Ragna Hellberg, Mrs. Alice Hobkan, Mrs. Gladys Severson and Mrs. Pauline Rude.

## Twenty Men and Tractors Plant Crop On Shymko Farm

Last Tuesday a farm in the Snow district south of Ryley was a virtual hive of activity as some twenty men on tractors and other implements converged on the Shymko farm to cultivate and seed the entire farm in one day

The occasion was a work bee organized to assist Mrs. Mike Shymko who was recently widowed and was unable to handle the spring operations.

It was a surprised lady who was awakened shortly after sunup by the roar of tractors and rumble of machinery streaming past her house into the fields and it was a very grateful lady who at the end of the long day rode the rounds of all the men and women present thanking them personally for their part in this very fine display of neighborliness.

The whole operation was a masterpiece of organization with all machines being utilized to the full during the day and all work, which included the tilling and seeding of the entire farm, completed in good time for all present to enjoy supper together.

Mr Nick Kushnerick who organized the bee and supervised the entire operation was a very busy man all day directing the efforts of all the men and machines

A near neighbor and a district old timer, Mr Fred Nordenvald, was on hand assisting Nick and taking his turn on a tractor when the need arose.

Paul Sadownick was kept busy supplying seed to the four seed drills in operation, while the Rosen Brothers Peter, Harold and Andrew kept their tillers going steadily to keep ahead of the drills. Following the drills were Steve and Paul Tomko and Metro Kisbort with harrows to complete the operation.

The crew was however not satisfied with merely seeding the land and went on to make the first cut on cqmmerfallow in preparation for the next year's crop. This took several tillers and harrows and these were manned by Peter Hrabec, Joe Kandan, Louis Stefura, Alex Dragoo and Mike Kowalchuk and they were followed by Lawrence Pearce, Jerry Kushnerick and Fred Lucia.

It was indeed an awe inspiring sight to see this vast array of men and machines working a bountiful soil, while the gulls, sensing something afoot congregated by the hundred and followed each machine picking up worms and other insects that were brought to the surface by the machines. The weather man came into the act by providing

## Speaking Contest Finalists To Meet Fri., May 26

Finalists from all 4-H Clubs in the County will be competing in the County Public speaking Competition in Holden on Friday, May 26th for the honor of representing the County of Beaver at the Provincial Competition in July.

During the past few months all 4-H clubs in the County have conducted club competitions to select the top speaker in each club. These winners will be the contestants in this inter club competition.

The Beaver 4-H Council, the organization, representing all 4-H clubs in the County, is the sponsor of this event, with arrangements being handled by the Public Speaking committee which is headed by Miss Sonja Dorge assisting and assisted by Miss Sharon Kolodychuk and Miss Peggy Bentzin also of Ryley. Alvin Fedorchuk, council chairman, who directs all council activities will preside at the functions.

Ten speakers, representing all the 4-H clubs in the County will be taking part. An independent panel of judges of selected persons from outside the county will adjudicate the talks.

The general public is invited to attend and the Council would especially like to have High School students and 4-H Members in attendance.

The programme will commence at 8:00 p.m. and is being held in the Holden Community Hall.

**HIGHEST MAN HONORED BY HIGHER UPS**

President John F. Kennedy congratulates Cmdr. Alan B. Shepard Jr. on his flight into space as Mrs. Kennedy and Mrs. Shepard look on at the White House. The first U.S. astronaut was met by his wife at Andrews Air Force Base when he arrived from Grand Bahama Island. Kennedy expressed "great satisfaction" with Shepard's achievement.

## Post Office Now Provides Free Change of Address

The more than six million Canadians who change their address this year will get a free house-warming present from the Post Office, it was revealed today by the Hon. William Hamilton, Postmaster General. The $120,000 gift will take the form of an offer of free postage to post office patrons wishing to inform correspondents of their change of address.

Noting that according to the Dominion Bureau of Statistics figures, more than a third of Canada's population moves each year, the Postmaster General said that arrangements had been made to permit official change of address cards to be posted by any mail patron free of charge. The cards may be obtained at any post office and there is no restriction on the number that may be mailed.

He noted that the change of address cards had been available for some years but that the Post Office had charged the regular two-cent postage rate for their transmission. The free service, he said, is designed to increase the use of the cards and to promote better mailing practices.

The Postmaster General hastened to add that the free service is in addition to the change of address cards which the Post Office asks its patrons to file with their local postmasters when they move, and which enables mail to be sent on to a patron's new address for three months after he has moved (insured mailers to combine both services in order to ensure uninterrupted mail delivery.

## Farmers Day June 9 Picnic

Mr. Earl Hardy M. L. A. attended the last meeting of the Tofield Farmers' Union and discussed a number of subjects that were before the last session of the Legislature including that which got delayed to the County Picnic Plan.

At the next meeting June 12, it is hoped to have a speaker from the Scenic Caves Branch to explain the total Crop Insurance Plan of the Federal Government. This is believed to be in effect on a trial basis in some parts of Manitoba.

Also the question of forming a rural fire fighting unit will be up for discussion. Some of the districts that already have this have been written for particulars. Bush fires, always a bugbear of the rural interest to all farmers and a good crowd is expected.

Farmers' Day picnic will be held at Miquetan Beach on Friday, June 9 starting with pot luck at noon, tug of war, sports and treats for the youngsters and lots of ice cream. Only those will be back at night for the dance in the Tofield Community Hall

## County of Beaver School Community holds meeting

The comm. of Beaver No. 9 School Committee meeting was held on Tue-day, May 9th, with Cre Stark, Gibson, Johnston, Krajcinbrink, Sugimoto, Rudzki present and Mr Nord of Ryley. Mr Arnold of Tofield, Mr Gotha of Viking and Mr. Pike super intendent of schools.

The meeting was called to order at 10:1- a.m. and it was moved that the minutes of the April 18th meeting be approved as written.

Moved that the minutes of the salary negotiating committee held on April 17th be approved as written.

Moved that the debentures statement i April 20th be approved and p ovided to the Committee at this time.

BUSINESS ARISING FROM MINUTES:

In regards to the account from the village of Holden in the amount of $421.-- dealt with by the committee the Secretary presented to the committee a letter giving the required information in regards to details of the wages included in the statement. There had also been a slight error in computing the account mistake of total of $21.35. Moved that the information be received and the account paid.

In regard to Sunnita Appeals Ltd. tender for carrying out a dental survey at the schools and building - owned by the County, the Secretary advised that he had not taken any further action in this matter as the County Council re-appointed a change of assessor and if this was done the proposed assessor, Ig Hyrt and Associates, would be able to make the proposed appraisal at possible a lower rate than the rate quoted by Sunnita Appraisals Ltd

With regards to the assessment notice on Lot 24, Block 9, Plan [illegible] Tenants of Ryley the Secretary informed the Committee that a speech from the Land Titles Office indicated that this lot did belong to the County As it was considered that some other or later, housing would have to be arranged for, for teachers in Ryley Moved that we retain this lot.

The proposed salary schedule, as listed in the minutes of the meeting of April 17th, was discussed at this time and Cr Stark reported further on this meeting Mr Starky also advised that the County's present salary schedule, especially in the maximum had been adopted by the Zone on the proposed schedule this year and that it therefore, was felt that it was necessary for the County to stay with this schedule.

After some considerable discussion it was MOVED that we advise the teachers negotiating committee that the County feels it necessary to stay with the present salary schedule.

The Secretary then placed before the committee a proposed budget for the operation of the schools for the current year some considerable discussion and some changes were made in the budget with the final amount of expenditure being set at $10,515.12-6. It was anticipated that the total revenue from the government including grants and 4-mill rate from the foundation program would amount to $978, 11-6.-, leaving an amount of $23,115.25 to be obtained either from additional grants or from requisitions from the contributing authorities. It appeared that no increase in the mill rate would be necessary, and it was considered that no additional grant would be obtainable, however, nothing definite could be stated in this case until the proposed budget had been dealt with by the Department of Education. It was moved that the budget as set up at this time be adopted for the year 1961.

CORRESPONDENCE

Moved that letter from Holden Local No 79 A.T.A. concerning the sports policy of Uting school astic achievement with particular ference to school sports with reference to the direction from the school committee in this matter be received and filed.

Moved that inspection reports from the fire commissioners of fice in regards to the Holden and Tofield schools be received and filed and that the recommendations be carried out.

A letter from Western School Bus Sales and Exchange Ltd, concerning a lease program in regards to school buses was referred to the committee.

Moved that the information requested by the Western School Bus Sales and Exchange Ltd., be supplied and that they in turn be requested to forward further information in regards to the proposed program.

Report of inter Zone meeting held in the Corona Hotel, Ed monton on Saturday, April 22nd, 1961 was now read to the committee, and after some discussion the minutes it was moved that the minutes be accepted and filed.

The minutes of the Alberta School Trustees Association Zone Three meeting bargaining committee held Wednesday, April 5, 1961, at Viking was read to the committee

The Secretary referred to the committee the cost or cleaning the incinerator at the Tofield school, this being in the amount of $10.00 each time. This was the only school where a charge was made for this service, and it was felt that this service should be supplied by the town of Tofield as well.

It was Moved that the Secretary-Treasurer write the Council of the Town of Tofield in this matter.

Mr. W. Bernhoft and Mr. Lalonde Olson attended the meeting at this time, and Mr. Bernhoft requested that the present Home Economics building be left in the Tofield Drug yard. When the new buildings are constructed at Ryley and Viking this building is to be used for the 12th School Board. Scouts and Cubs. Mr. Bruchet stated that at the present time these groups were accomodated in the gymnasium and that this made extra work for the janitor and requested his coming down to the building and alarm on those nights that these groups were using the auditorium of the school. It also felt that possibly in some future time this building would be need ed as a class room. Mr. Pike mentioned that this building would be a fire hazard, inflammable, etc., and that it was only good policy to have the building torn down and asked the groups mentioned by Mr. Bruchet to use the building. The committee agreed to this and suggested that the matter be further dealt with when the building is being vacated by the Home Economics class.

Mr. Olson referred to the annual games meet for the County Schools to be held on tuesday at Holden. He stated that one, possibly two loads of sand was required for the jumping pit and that some leveling of the run-ways on the sports ground was required as well. He also mentioned the advisability of hard surfacing an area on the south side of the gymnasium which could be used for certain sport activities in the winter time. Mr. Bruchet in regards to the last mentioned item felt that this could be a somewhat costly venture and should be investigated as to cost before any decision was made.

Cr. Wasylkiw suggested that a skating rink on the school ground might be more appropriate and Mr. Olson quite agreed to this providing that it was a skating rink for the use of students during school hours only. Mr. Olson was shortened to obtain the necessary sand and to contract the patrol operator at Holden to have it leveling done as he required it.

In regards to Farmers' Day on June 9th the Superintendent advised the committee that this was, as far as the rural areas and all towns were concerned, a statutory school holiday.

Moved that applications for it. Buschmann and O. Shy er be approved for the standard "B" program, second year

## First of July Celebration Less than a Month Away

The annual First of July celebration is less than a month away. A large effort for this parade is planned yours? The theme is titled We Progress," with Da suggested Ideas to as Exhibitions should inspire many an excellent float.

This year the parade will not enter the exhibition grounds, as it has done in previous years due to the new skating rink and curling rink, this area is somewhat restricted in space. The parade will now use the gate on block farther north This will extend the parade route and give more room for spectators to view the parade.

Speaking of the new curling rink! This year the director Curling will be using the waiting room of the new rink as a tea dressed. Here coffee will be provided for our old Timers who can "remember when" in cool comfort

Our school population is busy writing essays on various topics related to the general theme of "Tofield, We Progress." Art work will also be on display

How about writing some former resident of Tofield and are living in other parts of the province on our Big Day? The "get together" of old friends is one of the highlights of the day

The Women's Community League will serve dinners on the same day as usual from their booth at the Exhibition grounds.

This year the men can cook the hot dogs in comfort They will be using the facilities of the curling rink The public will be served through the wicket

Baseball will be a major attraction Four teams are expected to participate in the tourna ment

Holden drum majorettes accompanied by the band will lead the parade. This precision group was a great attraction last year we are glad to know they are coming again.

All lovers of beautiful horses are assured of an enjoyable afternoon of watching the cutting horse series from the Holden Ranch as well as the Jumping contest by members of the Canadian Jumping Horse Association. The riders expressed themselves as very pleased with last year's facilities for the Jumping contests. These only a few of the highlights of the week and Dick Mathew will do what he can about that, this year.

## Two District Boys Killed In Freak Tractor Accident

Tragedy struck early Saturday afternoon when a farm tractor overturned in the Ketchamont district instantly killing the young driver and his brother, a passenger on the vehicle

The occupants of the tractor were, Gilbert Hoffner, age 16, and his younger brother, Bryan Birrett, age 8.

The accident took place about half a mile south and the same distance west of the Ketchamont School.

Two young girls riding their bicycles came across the tractor upset in the ditch at about 1:30 p.m. Saturday afternoon and it is believed that the accident occurred very shortly before that time. The girls, Beth Ingram and Gwen Sears, turned and made directly for help. When they got to Mrs. Ray Lee's place she immediately phoned her neighbor, and they raced to the scene of the accident to remove the tractor from the ditch

The boys are survived by their mother and father, Mr. and Mrs. Birrett. a sister, Betsy Ann, and another brother, Robert.

The funeral of Bryan Birrett took place in the United Church on Wednesday afternoon at 2. The funeral for Gilbert Hoffner, took place at 10 a. m. in the Tofield Catholic Church. Both were buried in the Kingman Cemetery.

## CONGO EMBARGO BRINGS TROUBLE

Congolese soldiers near Leopoldville question a man who has just crossed the river from Brazzaville in the former French Congo. The president of the latter nation, Fulbert Youlou, demanded the release of Katanga President Moise Tshombe, thus arousing the ire of Congolese President Joseph Kasavubu. Since then traffic between the two Congos has been brought to a standstill by an order suspending all means of transportation across the river.

## Fashions

Beach beauties are taking on a new look, judging from what is selling in cruise and sports wear departments. This beach dress, which can be worn by itself, is thoroughly feminine with its snug bodice and full, gathered skirt. It is of striped cotton in tones such as hot pink with orange or aqua with green. The matching pants would go nicely with any solid color blouse, top or sweater.

## DESCRIBES TORTURE

Dr. George Wellers, physiology professor at the Sorbonne in Paris, tells about "The Spinning Top" torture at the Adolf Eichmann trial in Jerusalem—how "a short stake would be driven into the ground. The Jews would be forced to put their right hand on the stake and hold their left hand before them. Then they were ordered to run around the stake as fast as they could while the Germans beat them with truncheons. About three times around the stake was about all a man could endure. But the Germans made them go around 10 times if they had not fainted first."

## Calgary Power Development

Last Saturday Calgary Power took a number of members of the press and radio on a flight over its Brazeau Development and Wabamun Steam Plant. Mr. Walter Kidner was the official representative of the Tofield Mercury and he was accompanied by Edwin Schroeder.

The above pictures were both taken on the flight. The top one shows the upstream cofferdam with the river flowing through the two unwatering conduits. The smaller downstream cofferdam can also be seen with equipment working on it. The main dam will be built between these two cofferdams which will eventually become part of the finished dam.

The second picture shows the steel work for the new 206,000 horse power power unit rising above the present structure. The intake and outlet canals are clearly visible. This third unit will be coal fired, burning coal which will be strip mined from the adjacent Wabamun Coal Field.

## Council discusses Lowering of water level in Islet Lake

The regular meeting of the Council of the County of Beaver was held on Tuesday, May 11

Present: The Chairman Cr. R. M. Magnuson, Cm. W. D. Johnston, V. Krupnicklnki, J. H. Redlich, P. B. Stacky, A. L. Gibson and F. Westervelt

The meeting was called to order at 10:10 a.m. and the minutes of the meetings held in April were approved as written

The district engineer, Mr. R. W. Kornelsen and Assistant District Engineer, Mr. J. Bossard, attended the meeting at this time, to decide with the council on roads to be listed in the Articles of Agreement for the current year Mr Kornelsen informed the Council that with an assistant engineer it would now be possible for the Department of Highways to have a survey party that would be prepared to assist the Municipalities in survey work in regards to profiles etc etc especially District Highways.

Mr. Kornelsen informed the Council that a grant of $150,000. had been appropriated for the Natural Resources road and that $35,000.00 had been appropriated for the Contingency Grant Road. It was considered that the $35,000.00 would not go very far on the Contingency Grant road. It was moved that we request the department of Highways to appropriate sufficient funds for the Contingency Grant road to complete this road to SWk 6 47 12 W4th

If the road was completed to this point it would cut down the cost of gravel haul to the lower end of the County considerably

Mr. Kornelsen also brought up the matter of wood spraying of Provincial Highways No. 14 and 34 and he stated that the Department of Highways would be interested in having the Council do this work for the Department. He did not consider that every mile of Provincial Highway would have to be sprayed, only those sections where the sections weeds were in evidence. He stated that the Department was willing to use some money on the road in order to keep the roadsides along the Provincial Highways in a Clean condition.

The planning of District Highways to be placed on the Articles of Agreement occupied the Council from shortly after 10 o'clock until 12 o'clock noon.

Mr. Bowman, Surveyor for the Dept. of Water Resources attended the meeting in regards to the proposed sub-division at Islet Lake, stating that Imperial Canal Estate Ltd. the party requesting the sub-division, had made submissions to have the water level of the lake lowered. He also stated the Blackfoot Grazing Association had indicated that they wished to have the water level lowered as a considerable amount of grazing land was now covered by water Mr. Bowman discussed this matter fully with the Council and it appeared that letting the water out through the dam, constructed at the east end of the lake, could cause serious flooding on the land owned by Mr. M. C. Wood. Cr. Westervelt was of the opinion that a ditch could be made along the road at the point where flooding was likely to take place. If this could be done there would be very little danger of flooding. Mr. Bowman was of the opinion that, if a sufficient number of interested people requested it, the director of Water Resources, Mr. F. L. Grindley would very likely arrange for a survey of the creek from Islet Lake into Beaver Hill Lake and it could be possible that the cost of the work necessary to provide proper drainage from Islet Lake to Beaver Lake, could be arranged on a 50-50 basis between the County and the Government. Mr. Bowman suggested that a letter should be sent to Mr. Grindley together with a petition signed by the people interested in the lowering of Islet Lake and also indicating how many parents were affected and how many land owners around the lake were in favor of this work being undertaken.

It was moved that decisions made and actions taken by the School Committees at the meeting, May 10th, be approved and concurred in.

Moved that the financial statement to April 30th be approved as presented to the Council at this time.

Moved that the accounts as presented to the Council at this time be approved and passed for payment.

Moved that the minutes of the Agricultural Service Board Meeting, April 26th be accepted.

The Secretary reported that the sale of SWk 21 49 12 W4th to Arthur C. Erickson had been approved by the Minister of Municipal Affairs.

(Continued Next Week)

## Horse Show Again Featured at July 1st Celebration

Both the Community League and the Women's Auxiliary to the Community League held meetings this week to complete plans for the First of July celebration. A great deal of time and thought have gone into the plans and the first should be a memorable occasion

Art Francis in his usual capacity of parade marshall will get the parade underway at 11:30 a.m. from the C. N. depot. It is requested that you enter your float with Mrs. Pigeon at the Royal Alexandra Motel as soon as possible. After the parade prizes have been awarded, baseball will be one of the main attractions, the first game beginning at 1 o'clock and others following at 7 30 and 6.00 p.m. Teams from Ryley, Round Hill, Breda and Tofield will participate in the ball tournament. Pony League games will also be featured.

This year, something new has been planned which will be of special interest to the younger set. A Kids Pony Show will be held This will be judged, in 2 classes; 1st boot horse and rider 16 years and under; 2nd best horse and rider 14 years and under and 3rd best horse All entries are to be returned to Bill Finn before June 23

All children entering this competition are invited to participate in the parade. The skating rink will be used as a show ring and the judging will take place at 1 o'clock

Ribbons and prizes will be awarded in each of the three classes.

The leisure committee of the Community League will run two shows, one at 2 o'clock and one at 7 o'clock, at the Community Hall. The popcorn machine will be operated by members of the Grace Phillips

W.A.T.C.I.

The horse show will be a major attraction if last year's attendance is any indication There will be 2 "pre rounds" during the afternoon. This year there will be no extra charge for the horse show! The entry fee at the gate will be $1.00 for all adults, 50c for students, children under 12 free.

For the children there will be the usual races. There will also be the idea brought by Ola the Swede

Other items will have the barbecued meat ready in time for Bill Davison's crew of workers to serve supper in record time

The ladies of the W.A.T.C.I. will be serving salad, pie, buns, ice cream in the food booth, soft drinks in the other booth John Baergen's workers will serve hot dogs and coffee from the circular booth.

There is a terrific amount of work to be done on the First and the ladies would be most happy to have help from anyone who can spare a couple of hours to serve in one of the booths If you would like to make this contribution to Tofield's big day please phone Mrs. Georgia Christensen at 198 to volunteer your services. A large crowd is expected, many plan will be needed and all donations of assistance will be gratefully received.

The Ketchamont W.A. will be serving coffee to the Old Timers so they have done so capably in the past.

There will be an exhibition of the work done by the adult art class this winter in Tofield. This is another "first" for Tofield

The dance at night is scheduled from 9 to 12 to complete the celebration of Dominion Day

Grace Phillips

## Line Break On 3rd Avenue Cuts Water Pressure in Town

A water leak was discovered and fixed this week on 3rd avenue east of the United Church A break had occurred at the street off here leading into the home of Jim Takahoshi and a small stream of water was going down the sewer Council members are hopeful that fixing of this leak will greatly reduce the water consumption in town

Although the dam is full of water the treatment plant has been taxed during the hot weather to keep up with the demand On occasion it has been necessary to turn the water off at night for an hour to let the treatment plant catch up The national average of the consumption of water is 60 to 65 gallons per day The consumption in Tofield in recent weeks has been 125 gallons per day The system in Tofield is designed to give 75 gallons per day before any drop of pressure is noticed. At time of writing it is too early to tell what effect the repairing of the leak will have on the water consumption but it is hoped that will be greatly reduced Meanwhile the water department is continuing its search for more leaks. Mr Swift of the utilities committee states that any unusual consumption in water systems should be reported He also asks that everyone should check their taps and toilets for leaks as there is not to waste water. It is not that water is scarce but the high cost of treating that the council is trying to cut

## Caucus Taking In Full Swing in District

Caucus takers are out in full force in the town and district counting noses and a number of other things. A phone call from one of them asked that we mention that if the farmers would have the farm filled out that they received in the mail it would greatly speed up the work of the census takers.

## Lindbrook Home basement damaged by fire

Mr and Mrs. Kricha and son, who have bought the John Siemmas' farm, had a frightening experience, when a fire started in their basement. Their home would have been entirely destroyed had it not been for the quick action of the Velocity Surveyors Party No. One who happened to be at Lindbrook Store when Mrs Kricha came to obtain help. The men immediately left to get their water truck, three miles up the highway and made the six miles in the fire in time to save the house, although the basement was very badly burned and will need extensive repairs.

The Lindbrook Hall will have a variety show, which should prove of interest. The show will be put on by Judge O. Allen and Mrs Allen and Mr. and Mrs. Gifford Nash, on June 16th, at 8:30 p.m. There will also be a variety Bingo near the end of June. Admission to the show will be a silver collection. Everyone is welcome.

## Bardo Lutheran Church Scene of Pretty Spring Wedding

Baskets of pink and white gladioli flanked white tapes in candelabrum at the altar of Bardo Lutheran Church at 4 o'clock in the afternoon on May 27 when Maureen Anita Louise eldest daughter of Mr and Mrs Ivan Pomeroy became the bride of Mr. Edwin Leo Wenzer of Edmonton eldest son of Mr and Mrs. Leonard Wenzer of Swan River Manitoba. Pastor R Bae of Kinsman gave the message and the ceremony was performed by pastor A W Hudson of Edmonton.

The bride entered the church on the arm of her father to the strain of Bach's "Jesu Joy Of Man's Desiring." She was radiant in a floor length gown of white marquesa over net and satin fashioned with tight bodice and full skirt both trimmed with appliqued on the front featuring round neck and lily point sleeves. Her four tiered chapel veil was held in place by a sparkling coronet. Her only jewelry was tiny white earrings and she carried a cascade bouquet of pink delight roses & white stephanotis.

The maid of honor Miss Diane Pomeroy and brides maid Miss Caroline Pomeroy sisters of the bride were lovely in identical blue street length norgazon sheath dresses with lace overskirts. The brides attendant sister Phyllis was Junior brides maid and wore a blue norgazon dress with full skirt and overskirt. The attendants were matching blue veil and flower headdress white gloves and shoes and carried bouquets of white Pom Pom Mums

The maid of honor and brides maid wore pearl earrings and necklaces and the Junior brides maid wore pearl necklace which were gifts of the bride.

The groom was attended by his brother Edward Wenzer and cousin Art Wenzer dressed in dark suits with white ties and handkies. Mr. Olaf Hansen and Mr Herb Mosgrit ushered the guests to pews marked with white satin bows.

After the bride, mother was escorted Mrs. Nick Hrdik, aunt of the bride — Lord Who at thrin of Bach's "Jesu Joy Of Man's Desiring." She was radiant in a floor length gown of white marquesa over net and satin fashioned with tight bodice and full skirt both trimmed with appliqued on the front featuring round neck and lily point sleeves. Her four tiered chapel veil was held in place by a sparkling coronet. Her only jewelry was tiny white earrings and she carried a cascade bouquet of pink delight roses & white stephanotis.

## SUNDAY PIONEER

Toronto theatres and burlesque shows opened their doors to the public last Sunday. Stripper Cup Cake Cassidy, above, helped send Toronto's dead day into oblivion when she performed before a packed house. In most movie houses, however, the financial picture wasn't so rosy.

# Minutes for the County of Beaver held on May 11

(Continued from Page 3)

Russel Hansen Contracting Ltd who had the contract from the Provincial Government for the work on the Contingency Grade Road, did not have a Maintainer, and that it would be possible to get the Adam's grader from Div. No. 1 to work on this job. It was realized that the grader would have to be licensed.

Moved that, if the Adam's grader is put to work on the Contingency Grade Road with Russell Hansen Contracting Ltd., this machine be licensed. Carried

A letter from Mr and Mrs. Donald MacGregor of Mallaig, requesting that the road to their land N.W. 27 and N.E. 25—47—16 W5th be completed and the land bush cleared, was referred to Council.

Moved that the request be referred to Dr. Gibson for possible action. Carried.

The secretary informed the Council that the Assessor had as yet not made the inspection in connection with the appeals against the adopted assessment for 1961, and that it now would not be possible to have the Court of Revision prior to May 31st. This necessitated request for extension of time to complete the business of the Court of Revision.

Moved that we apply to the Minister of Municipal Affairs for an extension of time to Court of Revision in connection with the 1961 Adopted Assessment. Carried.

Moved that the Court of Revision to deal with appeals against 1961 Adopted Assessment, be held on June 7th commencing at 10:00 o'clock a.m. Carried

The Secretary - Treasurer advised the Council that the appeal by Calgary Power Ltd., against the 1961 business assessment Appeal Board and that the Assessment of Calgary Power Ltd., had been reduced from $46,050.00 to $5,000.00 and on Canadian Utilities Ltd., from $1,230.00 to $250.00.

Moved that the information be received and filed. Carried.

The Council now completed the list of roads to be included in the Articles of Agreement with the Dept. of Highways for 1961. Moved that the roads now third be included in the Articles of Agreement for the year 1961. Carried.

Moved that forms 'A', as completed by each Councillor, be approved and form the basis for the Public Works program for the year 1961. Carried.

It was also considered that it would be advisable to have a timekeeper during the construction season who could keep track of the hours worked by the different machines and the cost of repairs, fuel, grease and labor, so that a closer check could be made on the efficiency of the machines and the actual cost of operating them it was felt that a timekeeper could be used 4 to 5 months during the construction season and a salary of $200.00 per month was considered adequate.

Mr. George Gow, who used to be foreman for the Bridge Branch some years ago, was asked to attend the meeting with a view of employing him as timekeeper The suggested duties of the timekeeper was discussed with Mr. Gow, also the salary offered, and Mr Gow indicated that he considered himself capable of handling the work and that he was also satisfied with the salary offered.

Moved that Mr. George Gow be employed as timekeeper at a salary of $200.00 per month for the construction season. Carried.

The Secretary Treasurer referred to the Council the fact that a special budget meeting had to be held.

Moved that a budget meeting be held as soon as the Secretary has been able to set up a proposed budget. Carried

Moved that this meeting now adjourns to the call of the Chair or the next regular meeting. Carried.

**BARBECUES** — are you an expert or a beginner? The following may be of help to you.

1 Always light the barbecue about 1 hour before you intend to use it. The gas given off before the briquettes are covered with white ashes may make you ill.

2 Be sure to light enough briquettes to cook your whole meal.

3. Experiment with your menu before you plan on serving it to guests

4 Have everybody help with the barbecue.

5 Have the necessary equipment and seasonings handy to avoid too many steps. Equipment necessary may be a long handled fork, skewer, tongs, hollow-ed pot holder type mitts, pastry brush to brush the barbecue sauce on the meat, sprinkling bottle.

**Some foods to barbecue are:**

1 LAMBURGERS (meat on a stick) Use long metal rods (skewers) or hardwood sticks Use a combination of meats and vegetables that require the same cooking time Vegetable to use are mushrooms, onions, potatoes quartered tomatoes, mushrooms Meats to use are ham, bacon, wieners, hamburger, pork cubes, lamb, pork cubes To add a different flavor brush or cook with a barbecue sauce while cooking.

2 **HAMBURGER a la FOIL** — For ½ pound chopped meat mix a patty about ¾ inch thick. Spread well with prepared mustard. Place some potato & carrot slices on top and along sides of the meat Slice some onion on top If desired Season with salt and pepper, sprinkle with water and wrap Then cook 7 minutes on each side

3. **BISCUITS** — Mix prepared biscuit flour according to directions Pat dough into ½ inch thick biscuits Wrap each biscuit loosely in a separate package, leaving room for dough to rise Bake for about 7 minutes on each side

4 **BAKED APPLES** — Cut a "lid" off the top and bottom of the apple. Remove the core and scrub with raisins and a teaspoon of brown sugar. Replace the lids and place the apple in the centre of a sheet of aluminum foil. Sprinkle with water Bring the corners up over the apple and twist them together. Wrap on other sheet in the same manner Bake 15 minutes on each side.

**ALL AMERICAN BARBECUE SAUCE** —

½ cup un-sifted molasses
¼ cup prepared mustard.
1 teaspoon tabasco sauce
2 tablespoons vinegar
2 tablespoons Worchestershire sauce.

Blend together molasses and mustard add vinegar, worchestershire sauce and tobacco. Mix well Cover tightly, store at room temperature or in refrigerator. Brush all sides indefinitely Yield three-quarter cup.

**VARIATION** — For Tomato Barbecue Sauce — add ¼ cup catchup to the above recipe.

6 **BARBECUED CHICKEN OR TURKY** — Dip the chicken or turkey in barbecue sauce and the coals, skin side up, turn frequently, every 5 to 7 minutes to prevent burning. Turning may be done with long handled forks or gloved hands. Be sure to turn all portions each time so they are all being cooked over with all skins up or all skins down.

Barbecuing requires 1 to 1½ hours for chicken Time approximately the same time or a little longer for turkey depending on the pieces of the turkey to be cooked. Allow the chicken to cook until done.

Cooking is older than recorded history . . . nearly as old as man himself. The use of heat to make food more palatable dates back to the cave-man's open fire. But to bring it a little more up-to-date, maybe you remember how your mother complained about the old coal and wood stove. True, it's warmth was welcome in the kitchen during the winter, but not so welcome in the heat of summer. And what a nuisance it was keeping the woodbox filled, keeping the stove clean, carrying out ashes. Today, it's electric cooking — the clean, fast, economical method that makes cooking fun — assures you of perfect results every time. All you have to do is set the oven time, put your meal in, and forget it. When you're ready for dinner . . . dinner's ready! YOU live better ELECTRICALLY!

### MUSICAL GROUNDBREAKING

Toronto musicians really dig this kind of music. Alan Wood, president of the Toronto Musicians' Association, was presented with a trowel ground for the group's permanent headquarters building in Thorncliffe Park. The two-storey building will have offices on the ground floor and a large auditorium two floors above.

## Final Preparations For Tofield's July First Big Celebration Almost Complete

The final preparations for Tofield's big Thy Are underway. Mrs. Pigeon is receiving parade entries, Art Prescott is planning the arrangement of these entries to the 11:30 a.m. parade and the Riders have been secured. News has just reached Dick Mather that the band of the R.C.A.M.C will be on hand to lead the parade as it was last year The Holden Majorettes with the Holden drum and bugle band will also be a big attraction.

Dick Mallow announces that the parade route will have a new look this year for two reasons. First, he has secured a large number of signal flags which will line Main Street giving a gala appearance to the parade route as they were gaily in the breeze Secondly, the Tofield Community League will offer a cup to the business establishment best decorated for Tofield's big celebration. There will no doubt be keen competition for this cup The winner will be announced when the parade winners are declared.

The ladies of the Women's Auxiliary have planned the amounts of food necessary for the booth. They will be greatest for your donations of pies and also of a couple of hours of your time. Mrs. Georgh Christensen will be glad to hear from you if you would like to help.

The Marathon under the direction of Vince Baker will be the usual big attraction. Entries will be forthcoured to feed 700 people. Bill Davison and Charles Kaltal are organizing their committee to serve those 700 with other items of the banquet supper. As in other years a double serving line will be used to facilitate feeding the crowd

The Old Timers will be guests in the Curling Rink waiting room Free coffee, flash pictures, moving pictures and tape-recorded interviews will highlight the day for them. But, of course, seeing old friends is the greatest pleasure of the day so, Old Timers, come along and join in the fun

The museum under the direction of the newly formed Tofield Historical Association will display relics of Tofield's pioneers. If you have an early picture contact Hazel or Conrad Patterson, Harold Schultz, Alan Warner, Jim Francis or Stanley Denham. Come into the museum and see if you can recognize acquaintances in Jim Francis' collection of pictures of early days

At the door of the museum, Edith Davison will give a demonstration of spinning. Get in touch with is an expert. She will have an assortment of wide-eyed spectators admiring her skill.

Plain grade 1 to 11 Tofield School students have written either essays, paragraphs or essays centered around the theme "Trained We Progress." Mr. Marvin Orbis newly appointed superintendent of Schools will judge these entries. The winners will be displayed Mrs. R. A. Pike, a talented local artist, will judge the entries in the school art contests These will also be displayed. Social Studies displays from the various grades will also be featured

Mrs. Pike is also collecting for display in the Curling Rink waiting room. the pictures painted by the Adult Art class this past winter under the direction of an instructor from the University of Alberta. Several local artists as well as some from nearby towns will be represented in this showing.

The Jumping Sweepstakes and the Calling Horse contest will thrill all spectators and our local youngsters will participate in their own Kid's Pony Show Ike. If you like horses, Tofield is the place to be on July 1st.

The merry-go-round, races and rides will entertain the smallest fry while the Negro ones will join the jolly baking baseball fans. If you prefer senior baseball, there's plenty of that too There will be picture shows during the day at the Community Centre and, of course the last event of the day is the big dance at night

Dick Mallow, president of the Community League and his committee are working very hard to make the July 1st celebration a real success Come along and share the fun!

Grace Phillips

## County of Beaver No. 9 School Committee Holds Meeting

County of Beaver No 9 School Committee Meeting held on Tuesday, June 6th 1961

Present were Fr B. Hardy in the chair and Mrs A. L. Gibson, J W Johnston, W. Krepsiakiski, H. R Masterson, J. H. Westphal, Mr A. M Colks, representing the town of Viking and the Superior of Instruction Marvin Bruce. The Superintendent of Schools, Mr. H. A. Pike, present in the afternoon.

Letter from the Safety Division of the Highway Traffic Board relative to spare tires on school buses, regulation 6 12.6, was referred to the Committee The letter indicated that much controversy had resulted regarding the carrying of a spare tire on the school bus. Suggestions on file in the Department indicated that some authorities wanted the section referred to repealed Others that the regulation be amended to apply to single wheeled units only and others that the regulations be left as in. The Committee, as stated at previous meetings, was not in favor of spare tires having to be carried on buses with dual wheels It was, however, equivalent that the carrying of a spare tire on single wheeled units was advisable.

Moved that we recommend to the Highway Traffic Board that the regulations 6 12.6 be amended to apply to single wheeled units only

Moved that letter from Mr R. H Harris, principal of Tofield School, advising that he has been officially accepted at the Montana State University in Missoula, Montana, and was in his present application for the leave granted him in order that he be able to attend the University be received and filed

The requisitions from the Department of Education from the Flood Foundation Program Fund for 1961, in the amount of $799, which is being in the form of 22

### School Committee Holds Meeting

Continued From Page 1)

A list of equipment recommended by the Industrial Arts and Home Economics shops at Ryley and Viking by day laborer rather than by contract was discussed at this time. This method of construction was authorized by motion 229 of the School Act, and the Secretary pointed out that Mr. Stan Kohen who had been employed by the Board in addition to the County Office and also has been supervising for the County and for the architects erecting the latest addition to the Tofield School, felt that some saving could be effected by using the same system of supervising for building in question sub-trades, such as electrical work, plumbing and heating and the building of the cement block walls would, of course, be contracted. Mr. Kohen attended the meeting at this time and after much considerable discussion as to the availability of local labour and the time necessary for construction of the buildings it was

MOVED BY that we apply to the Department of Education for permission to construct the Home Economics and Industrial Art buildings at the Ryley & Viking under the provisions of Section 229 of the School Act.

CARRIED

Moved that if the request is approved the County's building Committee be authorized to proceed with the construction without a formal meeting. The resolution, adopting the method of construction to be passed at the next regular meeting of the School Committee

CARRIED

Mr. Goths felt that it would be advisable to have a representative from the Immediate Viking area on the building Committee to look after the construction of these two buildings.

The Secretary informed the Committee that a T.V. set had been rented from Maxwell's Ltd. at Tofield for use in the Tofield school for 3 months at $15.00 per month, and that the set could be purchased for $75.00 with the rental applied against the purchase price in other words $60.00 over and above the rental fee would buy this set. It was a reconditioned set and according to the Superintendent of Schools operated very satisfactorily and he had strongly recommended purchase of this TV set.

It was moved that we purchase the used T.V. set from Maxwell's Ltd. at Tofield for the amount of $15.00

Moved that we purchase from F. Edmund, piano tuner, of Don Mills, Ontario, 2 only pianos with matching benches, 2 only mach pins packing and freight in the approximate amount of $190.00 for each piano.

Moved that we purchase one incinerator for each of the six schools in the County from Safety Plants Sales at the Motor Products and Industrial Art buildings at the Ryley & Viking under the provisions of Section 229 of the School Act.

CARRIED

Moved that if the request is approved the County's building Committee be authorized to proceed with the construction without a formal meeting. The resolution, adopting the method of construction to be passed at the next regular meeting of the School Committee

CARRIED

Moved that the following be appointed members of the Ryley School Board: Mrs. Charlie Holden; Mr. Johnnie Fish, Ryley; Mr. Steve Kolodychuk, Ryley; Mr. Erling Sea, Ryley; Mr. R. W. Dyer, Ryley; Mr. Stanley Gardner, Ryley; Mr. N. Kushner, Ryley; Mr. O. H. Overbeck, Ryley; Mr Ronald V. Dalton, Jarrow; Mr. S. Doerksen, Ryley; and Mr. Sam Alex of Ryley. After careful consideration it was moved that Mr. Ed Tyrer be accepted as janitor of the Ryley School with the usual 90 day trial period, appointment effective July 1st, 1961.

Carried.

Moved that the resignation of Mr. Ben Parker, Inspector of Safety Division of the Highway Traffic Board, on the condition of the school buses, recently inspected by him in the County be received and filed.

A. Gibson stated that Mr W. J Burke was prepared to purchase a new bus providing he was assured that he would have his present contract, which expires on August 31st, 1961, renewed for a further period of three years.

Moved that Mr. W. J. Burke be informed that, all things being equal, he may consider his contract will be renewed for a further period of three years after expiry, August 31, 1961.

The superintendent reported that Mrs A. Callard of the Tofield teaching staff had had a serious operation and intended to quit teaching However, she did not like to resign as she wanted to be kept on the list of teachers for substitute work and the Superintendent suggested that Mrs Callard be given sick leave for the balance of this term and leave of absence for the 1961-62 school year.

Moved that Mrs. Ada Callard be granted sick leave for the balance of the present school term and that she be given leave of absence for the 1961-62 school year.

BE CAUTIOUS ! ! !

Just I don't want to come between you and your pleasure, but I think you should be cautious. How often have you heard your children say these same words? Despite the heat many young men seem to thrive on their outdoor activities. Do you spend long hours working in a hot kitchen on warm days — at the same time you are worrying about your children becoming ill ? Remember that each of the old wives tales concerning sun stroke, heat exhaustion and heat cramps contain a grain of truth. Let's look at them.

1. HEAT or SUN STROKE can strike suddenly. The most usual symptoms are sweating STOPS, body temperature mounts, skin is dry, may be orange, mauve, and headache. The victim may fall into a coma. Most simply, heat stroke is a breakdown of the bodies ability to cool itself. Sun stroke usually occurs after a period of extended activity, without proper rest and fluid intake. In hot weather. Symptoms are restless perspiring, faintness, palpitations, nausea and headaches. Immediate treatment is to rest flat on your back in a cool place. Try taking a sponge bath with cool water to control any fever that may occur.

Heat exhaustion is not restricted to the aged or infirm but may also strike young, strong and active people.

To prevent heat and exhaustion one can add supplements to replace minerals lost by excessive body perspiration. This mineral loss sets up the heat induced collapse. Added salt intake can be accomplished by adding food (including liquids) more liberally or by taking salt tablets. In addition it is recommended that you drink more liquids, avoid overexertion in the sun or in hot rooms, offices, etc and get plenty of sleep and rest.

HOUSEHOLD HINT:

Attractive ice cubes can be made by placing a sprig of mint, and a cherry or piece of an orange section in each cube.

Apply dry - with a damp cloth, baking soda removes bugs and dirt from automobile windshields and lights.

## Mr. and Mrs. August Ginter Celebrate Fiftieth Wedding Anniversary

On Sunday June 18, Mr. and Mrs. August Ginter of Ryley held open house in the Legion Hall on the occasion of their 50th Wedding Anniversary. Over 250 persons attended to wish them well and help them celebrate the happy occasion.

Seated at the head table with the honored couple were their daughter Florence and husband, Mr. and Mrs. Jack Spears, sons, Mr. and Mrs. Irvin Ginter and Mr. and Mrs. Art Ginter, Mr. August Newman, best man at the wedding and brother of the bride, the bridesmaid is living in Washington U. S. A. but was unable to attend, Rev. E. Hicks, a nephew of the Ginters, and Mr. and Mrs. Carl Hardy of Holden. Fred Loeda, of Ryley was Master of Ceremonies.

Mr Hardy, representing Lieutenant Governor Page and Premier Manning, presented Mr. and Mrs. Ginter with a scroll. Mr. Newman presented them with a special plaque inscribed in German with a large 50 done in gold. Many other gifts and scores of cards and telegrams were presented from many parts of the U.S.A. and the West coast.

Special music was supplied by Mrs. Art Ginter and Mrs. H. Harkey who sang solos and by Varner and Also Jensen on their accordions.

The Ladies Auxiliary of the Ryley Canadian Legion catered for lunch.

Mrs. Ginter, then Miss Newman came to Canada from a German settlement in Russia with her parents, in 1901 and settled near Edmonton in 1911. Mr. Ginter came out from the same country to Edmonton and worked around there, finally coming to work at the Newman farm, Mr. and Mrs. Ginter were married on June 17, 1911 and farmed near Edmonton till 1920 when they moved to Daysland then moved into Daysland and finally to Ryley in 1946 where they have lived ever since.

## Of Many Things

(by Ambrose Hills)
BIORHYTHM

Biorhythm tell us that the physical, mental and emotional states vary on a cyclical basis.

A pep-cast included in the gear will give the children a place to play or snooze.

And camp is the ideal place to practice pioneer skills such as one-pot-cookery, foil cooking. Cooking without utensils, handicraft and firelighting.

This last can be a real lifesaver, because the first rule when lost is to light a fire and stay with it.

In wet weather,small dry branches taken from the inside of evergreens will be useful for kindling a campfire. Chips from an upright snag will also warm and so will cones or pitch.

Fun sticks are a sure way to start that reluctant blaze. Putting one end of a stick in the ground. Cut shavings — not quite through, cutting away from you. Covered of these combine sticks, arranged teepee — style burn as quickly as real cones.

Another idea is to spread rubber cement on brown paper. When dry cut down the size of a 50c piece and carry with you. These burn as if dipped in candles.

If the ground is soaking and you have aluminum foil handy — lay a sheet of it on the earth and light your fire on top of it.

## FAMILY CAMPING HINTS

SUSIE GUIDE SAYS: "More than 7,000 Girl Guides will take to the trails again this summer — many families too will take the annual migration back to nature.

Our Girl Guide Association of B. C. suggest that planning a few activities in advance lives up the holiday hours.

A star map and flashlight provide after dark interest in the constellations and how to find directions at night.

Whole families will have fun if a selection of small, pocket-size nature books are taken along. It's nice to know the name of the bugs that are biting you, as well as the names of the flowers trees and shrubs that surround your campsite. Games and puzzles are rainy day life-savers — as are trips to nearby places of interest.

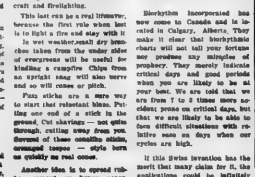
## Garden Graph

by SEAN HALLIDAY



HANGING GARDENS

Baskets of plants hanging between the porch pillars were standard decorations a generation ago. With the change in home design the hanging baskets disappeared with the front porches.

Today, with modern terraces and more outdoor living, they again are popular.

Many hanging decorations are made of pottery, with or without attached saucers and with three chains to hang them by. They look fine, work but do not provide adequate drainage as wire baskets.

Take care in preparing a porch basket to guard against its drying out too rapidly. It should be lined with moss, as shown in the accompanying Garden-Graph. Over this should be placed a layer of "lining" of burlap to prevent the soil from working through.

To keep the basket from drying out too quickly a clay saucer placed between the moss and the burlap is helpful. A bottom lining of foil between the moss and soil will hold the moisture in.

There is a wide variety of plants to use in the hanging baskets. As above, the ivy-leaf geranium is lovely with its drooping habit of growth and decorative leaves. It can be had in single or semi-double flowers. The pendulan tuberous - begonias are exquisite. Last year I saw a beautiful basket of just blue Torenia used in the shade. These are just a few of many plants suitable for hanging containers.

## BARDO DISTRICT NEWS ITEMS

BARDO — A most welcome rain of about 1-10 of an inch fell Monday evening. It looked very grim before that as the fields were turning brown, pastures drying up and the late grain just did not germinate. It is wonderful to see how quickly everything revives again.

Mrs. Inga Ness was well enough to come out of the hospital on Tuesday. She spent nearly six weeks there this time. Her daughter Mrs. Ralph Dahl is staying with her on the farm.

Bardo defeated Round Hill at Bardo on Monday evening 7-5. Owing to a nice shower of rain they only played 5 innings and nobody complained about that after looking for rain for such a long time.

Douglas Flesch had seven boys in for his 9th birthday after school on Tuesday. David Strand was an overnight guest and Mr. and Mrs Ed Hanson and Craig came out from Edmonton for the evening.

Mr. and Mrs. Clarence Rude and Mrs. Alma Foshang visited at the George Foshang home on Tuesday evening.

Mrs. Lars Rude and little daughter Tarren Dawn came home from the hospital on Friday evening.

Mr and Mrs Leif Foshang and boys and grandma Foshang visited at the George Foshang home on Thursday evening on the occasion of Gwendolyn's birthday.

Miss Louisa Virkner and Rudolf Tiefel were Sunday evening visitors at the Clarence Rude home.

Mr and Mrs George Roth announce the birth of twins a boy and a girl.

Mr and Mrs. Leonard Stauffer left for the Peace River country for a visit on Friday returning on Monday.

Mrs Ralph Dahl returned to her home in Camrose on Saturday and Mrs. Alma Foshang is staying with Mrs. Hans.

A family gathering and potluck dinner was enjoyed at the Elmer Sisler home on Sunday in honor of father's day and Mr. and Mrs John Lamb and family who are here on a visit. Mrs. Lamb is the former Hester Hrivinsky who was a neighbor to the Willie Simonson family before moving to the States. The following families were present at the occasion: Mr. and Mrs. Willie Simonson, Mr. and Mrs. John Lamb and family; Mr and Mrs Sam Chmanow and Sharon; Mr and Mrs Wilfred Simonson and girls, Mr and Mrs Herman Swanson and girls; Mr and Mrs Jill Simonson and family and Mr and Mrs Glen Sisler and son.

On Sats day afternoon 7 out of 12, 1958-1960 grade six pupils of Mrs. Lester Severson, other classmates and the confirmation class gathered at the Jubilee Park in Camrose for a pot luck supper and visit. The following families were present for the happy occasion. Pastor and Mrs Ferdi Ragin and family who are soon leaving for the Mission field in Tanganyika. Mr and Mrs Aristoferson, Mr and Mrs. Olaf Johnston and family. Mr. and Mrs Leroy Nelson and family, Mr. and Mrs. Philip Anderson and family Mr. and Mrs. Keith Francis and family, Mr and Mrs. Joseph Voeglin and family, Mr. and Mrs Leonard King and family, Mr and Mrs Leroy Plesuth and family, Mr and Mrs. Charles Rude and family, Mr and Mrs. George Gendrickson and Mr and Mrs Lester Severson Mrs Bagto and Mrs. Christoferson are daughters of Mr and Mrs Otto Johnson and Olaf is a son They all resided here in Bardo before moving to the west coast.

A very enjoyable day was spent at the Beaverberry bird sanctuary on Sunday when the Bardo Sunday school held their picnic there. Before partaking of a pot luck dinner served at picnic tables among the lovely trees a few choruses were sung and Olaf Anderson led in scripture reading and prayer. After dinner we were divided up into groups and taken on a tour of the place to see all the fruit trees and other planting, birds and animals. Then a soft ball game was played and everybody enjoyed lunch and tea cream before returning home. We will long remember this picnic and the hospitality of the Bowthorpe's.

Mrs. Evelyne Stauffer will be hostess for the June meeting of the Lutheran Church Women on Thursday, June 29.

Sunday school will meet next Sunday at 10:30 This will be the last class until next fall after the holidays.

### CANADA MAY BUILD IT

This type of grain unloading machine, needed to deliver Canadian wheat sold to Red China, will be built in Canada if the U.S. won't supply them. Canada has signed up to sell 375 million bushels of grain to China this year. American law forbids trade with Red China and it has been revealed that the U.S. had blocked shipment to Canada of U.S. made unloading equipment essential to the operation.

# Car-Truck Accident South of Ryley Kills two persons, injures four

A car-truck collision Saturday afternoon three miles south of Ryley took the lives of an Edmonton man and his wife The accident occurred when the 1951 Chevrolet driven by Leonway was in collision with a tandem gravel truck with a load of gravel driven by Ivan Jacobsen of Ryley. Looking at the tracks it appeared that the truck headed north street the Leonway car heading east and then west and down and landing the gravel box on the car, then rolling off. The entire load of gravel was dumped in and around the car To get the children and Mr. Leonway out it was necessary to get jacks and raise the roof of the car about a foot off the seat The three older children were pinned in the back seat and Mr Leonway underneath the steering column

Mrs Leonway, of 4122, 120 Ave, Beverly was instantly killed

Mr. Leonway was taken to Tofield Hospital and later to Edmonton General Hospital where he died Sunday as a result of injuries received in the accident.

The four Leonway children, Robin, 8, Shirley, 6, Neil, 3, and Lynn, 1, were taken to Tofield Hospital None is in serious condition Neil suffered extensive scalp cuts, Shirley received a broken jaw and cuts, while the other two escaped with cuts and bruises

The driver of the truck, Ivan Jacobsen, of Ryley, escaped without injury.

Dr G. M. Price, of Ryley was called to the scene and gave emergency aid. An inquest will be held, RCMP said

Rev den Ass children, Mr. Leonway is survived by his mother Mrs. Annie Leonway, Tofield; six brothers Jack, Beverly, Nick and Mike, Tofield, Fred, Vermilie, Peter, Drumheller and Joe, Edmonton, seven sisters, Mrs Mary Kuhn, Tofield, Mrs Katie Larkho, Andrew, Mrs. Rosie Millman and Mrs. Annie Pinhach Lewey, Mrs. Jong Muirhead Bedgewick; Mrs Tekma Petrie, Ryley and Mrs. Emily Lucyk, Holden.

## County of Beaver No. 9 Council Holds Regular Meeting

In connection with the proposed sub-division at Islet Lake on N W 36-41 20 W 4 and the request for lowering of the lake level, a letter from the Chief Engineer of the Department of Water Resources was referred to the Council. The letter indicated that the Department had no objections to the proposed sub-division and that the lowering of the lake could be done by removing the beaver dam at the outlet of the lake This could reduce the lake level up to two feet. The Department, however was somewhat concerned with the possibility of flooding the numerous small hay meadows along the first six miles of the creek. If the removal of the beaver dam could be done by progressive stages, so as to prevent any great surge of water going down the creek at any time, once the lake is lowered it is thought that its added retention would prevent any abnormally large flood flows from coming in the creek in the future. Mr. George Lust had indicated to the Engineer that he would be prepared to supervise the breaching of the dam to prevent the beavers from building it up again. The Department, however felt that the only solution to the beaver activity was to have the beaver removed and it was suggested that the removal of the dam would be in effect restoring natural outlet conditions, and once the lake level was lowered and equilibrium once again established that these living dams would not hold any one great rainfall for any fluctuations in flow in the creek since they would be entirely natural in nature. The Department suggested that the County should be the local organization to supervise this undertaking. The Department wanted the assurance that the Government would be indemnified from any liability arising out of damage claims and if the County was prepared to take this responsibility the Department would be most agreeable in authorizing the suggested proposal.

Cr. Westberlie stated that the following parties would be directly concerned with this drainage problem: G. Last, M.C. Wood, W.C. Tiedermann and C.E. Herbert M.C. Wood had done some ditching on part of his land and this ditch would be part of the drainage course. Mr. Wood had advised Cr. Westberlie that he would have no objection to the lowering of Islet Lake, providing the work was done in the fall after the hay had been taken off the meadows. He also requested that the County pay part of the costs of the ditch referred to above. The total cost of the ditch being $186.00. Mr. Wood requested payment of $100.00 and that the County's equipment be used to spread the earth taken out of the ditch. It was suggested that agreements between the County and the farmers affected be obtained indemnifying the County from all claims from possible flooding, and that the lowering of the lake be undertaken in the fall of the year at a time suitable to all parties affected.

MOVED that agreements as referred to in above preamble be drawn up by the County Solicitor and that Mr. M.C. Wood's re-

## Committee Appointed To Investigate Formation of Rural Fire Protection Unit

A group of rural residents met in the meeting room on Tuesday night to discuss the formation of a rural fire fighting unit. Mr Bill McKay of the provincial government was in attendance and outlined the different methods for forming a unit. He gave detailed information as to how different ones already formed in the provincial west. He also showed pictures of the equipment used by the different units. It was pointed out that a five percent reduction in insurances was given by insurance in areas where Rural Fire Brigades had been formed Another 5 per cent is given if a quantity of water is available to fight fire with.

Mr McKay pointed out that there were two methods of setting up a unit, one through the County and the second through co-operatives. Both methods are operating successfully in the province. The average initial cost ranges from $14,000 to $12,000. Share Capital on a co-operative basis several runs at $4.00 per farm. Although Leduc with 350 members started with $40.00 and their yearly dues are $5.00 for two years. All units make a charge for going to a fire of a non-member with the Leduc unit charging $150.00 for the first hour and $50.00 an hour after that.

After some informative discussion a committee was set up to investigate a unit for this area. It was agreed that a co-operative would work best here as members could be had from four different divisions. Appointed to head the committee was Elmer Gaughlin with Reg Crispin as secretary. Others appointed were Charlie Sears, Ed Ferguson, Stanley Beyers, Ivy Wyrlie, Ingvald Ness, and Phillip Anderson. Three other persons were to be contacted to see if they would also act.

## Ed Regehr Installed as Lions President

Ed Regehr was officially installed as President of the Tofield Lions Club at their regular meeting on Tuesday night. Other officers installed were 1st vice-president Alan Warner; 2nd vice-president, Don Ritz; 3rd vice-president, Bob Nahrebecki; Lion Tamer Walter Klinker, Tail Twister Dave Dugald; Two year directors are Merrin Mantyka and John Wasylowski Installation of four to the awarding was 1st Past person' charted president of the club.

Past President Gordon Garford made the presentations to the outgoing officers as well as a as well as a three year perfect attendance pin to John Wall and a treasurer perfect attendance button.

Business was kept to a min mum but it was agreed that if at all possible the skating rink building should receive a coat of stucco before the first of July.

[illegible] per [illegible] down

[illegible] about that a brand must be found and also carry to [illegible] how cherished jobs

I am now an expert on the subject I don't [illegible] travel by air [illegible] but I have made a [illegible] point of staying in [illegible] Lovely situation if [illegible] oh nice seat belt trip, and I recommend that location to [illegible] that plan to [illegible]

I trust you there are no [illegible] in existence but they are not [illegible] be others, either I have [illegible] a few real peeches who [illegible] and down, I have known some medium attractive [illegible] who were hired.

The point I am trying to get [illegible] is that I have never yet run across an airline [illegible] who wasn't bright friendly courteous [illegible]. It seems to me that whoever handles personnel for [illegible] two great airlines ought to [illegible] a medal. They do a superb job. It would be interesting to know how they both are so select so many fine, well-tempered gals who are so much alike in spite of the [illegible] in which they were [illegible]

It doesn't matter whether you are a hostess or just [illegible] operator using [illegible] type. The girls treat you as if you were [illegible] himself. Women travelling with a couple of youngsters find that the air hostesses are ministering angels. All this courtesy is provided without benefit of tips ... and the fact that there is no tipping may [illegible] have a good deal to do with the consistent quality of the service.

I am also impressed with the [illegible] addresses I don't mind them a bit, are quite good looking, but I don't think looks have much to do with their popularity it [illegible] a question of attitude and [illegible] and courtesy I [illegible] that I am a rather [illegible] male in spite of [illegible] but receiving this, a rather [illegible] red Adam's apple, and a few other minor flaws, but I get no special treatment. Everybody gets the same deal ... Warmth, courtesy, attention, helpfulness.

I'd better stop now. I am [illegible] to get really excited about this subject, and my wife always reads this column. So I think I'll just wind up by saying that my wife would certainly make a fine airline stewardess!

grant for payment and work be accepted as.

CARRIED

Cr Gibson reported that Harry Thacyk of R.R. 2, Holden had agreed to take over the pound operated by Mr John Shumlanski the location of the pound would be N.E. 19-49-16 W 4th.

MOVED that Mr Harry Thacyk of R.R. 2, Holden be hereby appointed pound keeper with pound located on N.E. 19-49-16 W 4th.

CARRIED.

The Council felt that the current rate of the various pounds were not kept in sufficiently good state of repairs to hold all animals that might be impounded and it was felt that with the present economic[illegible] paid $10 or per year it would hardly be expected that the pound keepers would pay much attention to the repairs.

MOVED that the retainer for the pound keeper be increased to $25.00 per year provided the pound keeper keeps the property in good repair.

CARRIED.

COUNCIL MEETING HELD ON TUESDAY JUNE 27th, 1961

The Secretary was requested to advise the pound keepers of this increase in his retainer, providing the corral was kept in good repair and that the corral would be inspected before the larger retainer would be paid.

In regards to the equaline assessment for 1961 referred to the resolution 236, at the May 11th meeting, the Secretary reported that the equaled assessment had been revised from $8,421,940 to $8,344,604 for a decrease of $73,336.00 This was due to the fact that a certain pipeline assessment had been wrongly assessed to the County of Beaver No. 9, whereas it should have been assessed in the M. D. of Flacher Creek No. 8.

MOVED that information be received and filed.

CARRIED

Due to the reduction of equalized assessment, the requisition on the Alberta Hospitals Act Bill has been corrected and reduced from $27,457.87 to $27,292.26

MOVED that the new requisition be accepted and paid as required.

CARRIED

MOVED that advice from department of Highways that in response to a letter from the County dated May 17th, the matter of additional funds over and above $35,000.00 already Allocated for the special contingency road appropriation for the County for the Year 1961, would be kept on file and given the [illegible] consideration, should more money be required to do the amount of work requested, received and did.

Moved that the matter of the County's proposed purchase of the CNR water storage dam at Holden be tabled until the next meeting, as no information had been received as to the village of Holden's intention in the matter.

Cr Starky reported that the easing in the community well at the Hamlet of Bruce was leaking, giving water from the pit at the well an opportunity to drain back into the well making the water unsanitary. The well was considered to be approximately 55 years old and Cr Starky had considered the well driller Who was supposed to find out whether the well could be repaired or if it could be necessary to drill a new well, Cr Starky personally felt that it would be better to drill a new well and estimated the cost at about $500. The Council concurred in Mr. Starky's opinion and it was moved that a new well be drilled for the Hamlet of Bruce, if it is found that the present well cannot be readily repaired.

Cr. Krepiakiski referred to the Haigh well stating that the wiring to the pump of this well was in very poor condition and also that in his opinion a small building should be erected around the pump and motor. He mentioned that if the County supplies the material some of the residents at Haight were prepared to supply the work.

Moved that we supply the necessary materials for shed for the well and pump at Haight and that the necessary wiring be done as well.

CARRIED.

## Garden Graph

By DEAN HALLIDAY

### MOSTAS THRIVE IN SHADE

For the shady garden hosta is ideal. Once the plants become established, they do not require any care, taking care of themselves.

Pests do not bother them when they grow in the shade. In the sun the red spider often attack them. Severe cold never harms them, nor does a prolonged dry spell. I have never seen them wilt as many other plants do. They are definitely permanent and hardy.

There are many different hosta, a narrow leafed variety and several broadleaved kinds. Some are a green color, others blue-green. Still others have foliage edged white while some have white leaves with green edges, as shown in the accompanying Garden-Graph. Flowers are either white or lilac blue, shown in a flower spike of the large, white, lily-shaped flowers.

The flower spikes appear in late July and in August. After the blooming season is finished, the flower spikes can be cut back and the plant again assumes its formal full-grown appearance, varying in height from 12 to 30 inches.

The many varieties of hosta are easily propagated by division of the roots in early spring. Perhaps a neighbor can give you a supply. Because of the dense foliage of these plants, do not group them too close together. Some gardeners dig up a plant or two, pot, and grow them through the winter in a shady window indoors.

IT'S SALAD TIME

The health rule is: "Two raw fruits or vegetable a day" in winter as well as in summer. SALADS provide an excellent source of serving these your foods. In cooking there is a considerable loss of essential Vitamins and minerals, especially "Vitamin C". An abundance of Vitamin C in a diet will help prevent dental caries, sore gums, sore and stiff joints, colow complexion, tiredness, fruitful disposition, hemorrhagic spots of the skin. Also fresh fruits and vegetables provide roughage necessary to prevent constipation. To get the most food value from your salad do not soak the vegetables in water, and do not prepare salads until ready to serve.

KEEP IN MIND:

1. The greens should be cool, fresh and crisp.
2. All other ingredients should be chilled.
3. Salad ingredients should be cut into pieces — diced, slices, wedges, strips or circles.
4. Make sure vegetables and cut fruits are well drained before they are put into a salad.
5. Fish, meat, and vegetables may be marinated (allowed to stand in French dressing) about an hour before combining with other ingredients to add zest and flavour
6. Never mash or crush salad ingredients. Toss lightly with a fork to blend with the dressing.
7. Put the salad together just before serving.
8. Salads vary in food value according to the ingredients used. some are quite hardy, others are light.
9. Salads are so varied that they can be used in every course of the meal — first, main, salad or dessert.
10. The type of salad used for each meal depends on the meal. Light salads are used with heavy meals, and hearty salads with light meals.

Mrs. Doris Kushniruk and son Darrell and Mrs. Freda Olsen visited at the home of Imbad and Winnifred Sunday afternoon.

11 To get that extra tang in your salad, rub the salad bowl with a clove of garlic.

JELLIED WALDORF SALAD — Here is a salad you might try

1 pkg lemon jelly powder
1½ cups boiling water
¼ cup salt
½ cup lemon juice
1 cup diced celery
2 cups diced apple

Dissolve jelly powder in water and stir. Add lemon juice and salt When mixture begins to set, add the celery and apples Pour into a square pan and chill. Cut into squares and serve on lettuce with mayonnaise.

Salads are a boon to those who count their calories.

## County of Beaver No. 9 School Committee Holds Meeting

(continued From Last Week)

The superintendent informed the Committee that he had received a request for the grade one in Tofield school to visit the Zoo in Edmonton. This, Mr Pike stated, would entail the necessity of supplying two superbuses for the afternoon run for the two buses that would make the trip to Edmonton It was pointed out that the School Committee had authorized trips to the Game Farm for students in grade one to six and it was considered that this was sufficient The Superintendent himself, was not particularly in favour of requested trip to Edmonton.

MOVED that the request not be granted.

CARRIED

The Superintendent referred to the Committee the resolutions in regards to letters of authority and stated that some of the letters of authority now in effect would not be renewed for the coming year in as much as the holders of the letters of authority had made no effort to improve their academic standing and take further courses towards certification Each case would be judged on its own merits and those teachers holding a letter of authority that had made some effort to improve the academic standing would be granted a further letter of authority)

Application for positions of Supervisor of Instruction had been received from the following teachers on the County's teaching staff

Mr W Chrynchuk Mr N Laskoski of the Holden Staff, Mr J Kulbe, Principal at the Bruce School; Mr. C. Jones, Mr. H Garrie, and Mr K. H Harris, of the Tofield teaching staff

MOVED that Mr Ralph Garrie be appointed Supervisor of Instruction for the County of Beaver No 9 as from July 1st, 1961

CARRIED

MOVED that resignation submitted by Miss Pamela Kolody-Inch John Hrodebrehil and Mrs Doris Brown be accepted

CARRIED

MOVED that the following bursary applications be approved— Marilyn Hanson standard "S" Matilda Commeringer standard "S" Mary Evans standard "S", Shirley MacArthur, standard "S", Lee Korba Edmonton standard "S", served year CARRIED

Moved that Matilda Commeringer, be given leave of absence for the 1961-62 school year to attend the Faculty of Education. In connection with her studies for the standard "C" Certificate

CARRIED

MOVED that the Inspector's report in connection with the Commercial Course in high school in Tofield be accepted

CARRIED.

Mr Pike advised the Committee that the Local A.T.A. were considering putting up a cash prize for the two top students in grade twelve in any school within the County that were completing the academic pattern in one year The A.T.A. was prepared to put up the amount of $100.00 per year or $50.00 per each student The Committee spoke a favor of this idea and agreed to the suggestion of the local A.T.A that the County do something along this line as well Mr "Ed" that the County put up $100 for each student in the category concerned.

CARRIED

The question of the outstanding teacher for the 1960-61 school year was discussed and Cr. Reddick suggested that Mr Karl Kindley, the Vice Principal at the Viking School. The suggestion was very favorably accepted by the Superintendent.

MOVED that Mr Karl KindSey of the Viking School be elected the outstanding teacher in the County for the 1960-61 school year. CARRIED

The Superintendent advised that he had received only one application for the position of Vice-Principal of Bruce School, the applicant being Mr. Stuart Iverson.

MOVED that Mr. Iverson be appointed Vice-Principal of the Bruce School as from September 1st, 1961.

CARRIED

In connection with the County of Beaver Continuous Progress Plan— the Superintendent of Schools recommended that a modified grade system do be known as the County of Beaver Continuous Progress Plan be introduced into all of the County of Beaver Schools in grades one, two and three effective September 1st, 1961.

The Continuous Progress is designed to overcome many of the limitations of the conventional grade system. It is designed to benefit all pupils by facilitating their progression through the elementary grades at varying rates according to their ability. Brighter pupils will be able to complete the regular six years of work in five years without slipping. Slower pupils will take longer than average pupils but they will not have to fail or repeat grades as at present but will take longer than the normal six years

Because of the administrative problems associated with supervising the program and to allow time for experimentation and for teachers and principals to gain familiarity with the program, it is recommended that the program be implemented in only Grades one, two and three this year. Grade four will be added next year; grade five the following year; and grade six the year following that. At the end of four years the Plan will be in full operation from Grades one to six.

To ease administration of the making policy uniform throughout the County and to provide more effective teaching and learning for all pupils with a the County. It is recommended that the Plan be introduced into all schools in the first three grades on September 1st, 1961.

The recommendation was fully discussed by the Committee who agreed to the suggestion

MOVED that the School Committee endorse the Plan to provide instruction to students suited to their level of ability by varying their rate of progress through the elementary grades and by modifying the curriculum content and that a modified grade system to be known as the County of Beaver Continuous Progress Plan be implemented in grades one, two and three in all of the County of Beaver Schools, effective September 1st, 196 .

CARRIED.

The Superintendent referred to the new mathematics programs in Grades one to six.

The Elementary Arithmetic sub-committee has been working several series of arithmetic texts during the last few years, with a view toward authorizing a new series on several series for use in grades one to six. As yet no new texts have been authorized. However, experimentation with and trial of some of these new arithmetic programs is being carried on and will be continued on next year Mr R M Pure a Director of Elementary has advised that it is planned to devote in each of two series for each grade one from one to six are being made available by the publishers to the County of Beaver for trial.

Since the County Schools will be embarking upon a Continuous Progress Plan in September it is anticipated that this arithmetic program will prove very effective and useful. Pupils will be grouped for instruction and different groups will be assigned for instruction in one of the two series in each grade, providing a suitable degree of competition as well as providing a more interesting and challenging approach to arithmetic.

Arising from these considerations it is recommended that we accept this offer and that the experimental program in arithmetic be implemented in grades one to six starting September 1st, 1961.

## County of Beaver No. 9 Council Holds Regular Meeting

(Continued from last week)

Dr. Johnson again referred to the matter of the Public Railway Crossing east of Chauvin, being blocked by trains for very long periods of time. This had before been referred to the Area Engineer, and the suggestion had been made that anyone wanting to arrest the railway should communicate some of the train crews so that the train could be split. This would take a considerable amount of time and necessitate the party concerned having to walk a considerable distance, and the solution was not considered satisfactory by the Council.

MOVED that the Area Engineer, Mr. Linke be requested to set a date when he could be in Chauvin, so that Dr. Johnston would be able to arrange to meet him there and further discuss this situation with him.

A letter from the District Engineer of the Department of Highways requesting the County's assistance in the construction known along the Provincial Highway #14 and #26 through the County was referred to the Council at this time.

MOVED that the letter be received and filed, and that the suggested capital monies be agreed to, and that the same be turned over to the Field Supervisor for attention.

A letter from T. Weichner, Kinsella, inquiring what is going to be done with the park at Camp Lake. He stated that people were coming from all over with the majority on Sundays to the park and that nothing has been done on the by the County. He also stated that he would like final settlement from the land taken and that acreage removed from the tax roll in regards to the latter part of the letter the Secretary stated that he expected to have the survey within the near future as it was the last land that had to be removed from the tax roll.

Dr. Johnson stated that in his opinion the park was required for the park and also that some tables ought to be made available for the people visiting the park. A few tables had been made but were left to be ruined by picnickers as no wood was available and the tables had been used for that purpose.

It was considered that Mr. Weichner would be able to act as caretaker and that he should also be given the right to have a concession booth at the park.

MOVED that Mr. Weichner be paid $100.00 for the season as caretaker for the park plus the right to have a concession booth on the grounds. Also that he be authorized to construct four tables and benches for the park.

BRUCE CEMETERY

A letter from Bruce Women's Institute concerning the Bruce cemetery and a request for information as to where they could obtain a surveyor to survey the cemetery into lots and blocks was presented to the Council.

The Secretary mentioned that possibly the survey could be done by the County's Surveyor under next years winter works program, or if not too expensive it could be done at any time that the surveyors were in the district. Cr. Starky stated that the Women's Institute had been prepared to stand the cost of the survey, but as the Secretary pointed out, it was actually Municipal Cemetery and the County, no doubt, would be more or less responsible for the survey. The Secretary considered that the work could possibly be done for $200.00 or $300.00.

MOVED that the survey of Bruce Cemetery be authorized and if the cost is $200.00 to $300.00 the survey be done as soon as possible but if the cost is over $300.00 it be left to next years winter works program.

A letter from L.G. Dobry requesting permission to close a 33 foot road allowance going east and west, North of N.W. 7-46-17 W 4th was referred to the council Cr. Johnson informed the Council that this road was no longer used and he could see no reason why these roads should not be cancelled.

MOVED that arrangements for cancellation of the 33 foot road allowance running east and west North of N.W. 7-46-17 W 4th be made.

CARRIED.

## Tractor Care Extremely Important In Heat and Drought

This year's record heat and drought, dangerous to people crops, can also play havoc with tractor engines.

Before undertaking any major repairs to correct overheating, engineers at Champion Spark Plug Company of Windsor, Ontario, advise a thorough check of the engine points:

(1) All drive belts should be properly tensioned.

(2) Radiator cap must release pressure at specified pounds per square inch.

(3) Engine idle speed must be set to proper specifications. (4) Radiator and hoses must be leak-free.

(5) Check the water flow when engine reaches normal temperature, carefully remove the radiator cap and look at the coolant in the radiator. If you can't see the water circulating when the engine is slightly accelerated, check the thermostats for proper operation.

(6) Check the tightness of the pulley hub on the water pump and the water pump gasket.

One more hazard that can ruin your engine unless your air cleaner is working efficiently, Champion engineers recommend servicing the air cleaner not only daily, cleaning the centre pipe assembly, and removing and cleaning the entire filter at least once a year.

A dust clogged filter cuts down on the flow of air enter ng the carburetor, resulting in an overly rich mixture in the combustion chamber. This may cause excessive carbon build-up, fouled spark plugs, fuel dilution, oil dilution sludge and loss of power.

Even more important is the fact that as the filter becomes clogged, small particles of dust and dirt enter the carburetor & mix with the lubricating oil to form an effective or added compound. It can be rubbing your cylinder walls, rings and valves with sandpaper. The result is excessive wear and shorter engine life

## Friday's Rain Washes Out Sports Day

Rain started on Thursday afternoon and continued most of the day Friday until a total of 2.46 inches of rain had fallen on the district. Monday previous 1.46 inches fell giving a total for the week of 1.46 inches. The rain brought relief to the crops that were becoming parched from the lack of moisture and the difference in the late crops can already be seen.

However the rain although welcome caused the cancellation of the annual July Sports Day. The committee met late Friday afternoon and called off the sports day when it was found by that seven o'clock it did not stop the lawns and some of the ball diamonds would still be muddy as loose clay had been just tackled in during the week.

As we go to press plans have been started for a picnic the first part of August but as yet nothing has jelled in that regards.

## Drivers Warned To Protect Their Eyes From Sun Glare

Summertime is highway driving time and drivers are warned to take the precaution of protecting their eyes from prolonged exposure to the sun.

Drivers who do not protect their eyes from the sun face an increased risk of being involved in accidents after sundown.

This assertion was made by Dr. B. J. Cox of New Westminster Research Director of the B. C. Optometric Association.

Dr Cox pointed out that many British Columbians will be taking to the highways this summer for extended periods, and he stressed the importance of wearing sun glasses.

"The greatest benefit from wearing sun glasses comes to drivers after the sun goes down," said Dr Cox.

"When a person is exposed to bright light all day, without the protection of sun glasses, the photo-sensitive pigments in the eyes are bleached, or used up faster than they can be manufactured by the body." he explained.

The optometric researcher cited a recent study by the Maryland Eye Research Foundation, which disclosed that after extended exposure to bright light, a person requiring long periods in subdued light to recapture his best retinal sensitivity.

"While all drivers who do not protect their eyes from this prolonged exposure become increased accident risks after sundown," said Dr. Cox, "the over 40 age group is especially vulnerable."

## Tree Farming Manual Published for B. C. Farmers

For owners of private forest land, large or small, a new manual, "Tree Farming in British Columbia's Douglas Fir Region", has been compiled by professional foresters for the Canadian Forestry Association of B. C. and published by McCulloch of Canada Ltd.

Designed to encourage the growth of trees on private land as continuous revenue producing crop the Tree Farm movement embraces everything from a pedant 5-acre stand to commercial forests many thousands of acres in extent. As wood more continue to expand our forest industries are going to become more and more dependent on all forest properties. Here is where Tree Farming enters the picture on a practical basis because the small landholder or farmer can often give his woodlot even more intensive management than the big forest industry. Topics dealt with include:

a.) How to harvest timber economically while at the same time constantly improving the stand

b.) How to harvest timber stands for maximum-like dollar and selling

c.) How to measure products most advantageously.

d.) Tree planting technique.

e.) Protection of forest from fire, insect, disease and grazing damage.

Copies of this manual may be obtained free of charge by writing the Canadian Forestry Association of B. C., 1201 Melville St., Vancouver 5, B. C.

## Ralph C. Young, Sec. of The Board of Men; Granted 3 Years Leave of Absence

TORONTO — Dr. Ernest H. Long, Secretary of the General Council, The United Church of Canada, announced today that Ralph C. Young, Secretary of The Board of Men since 1951 has been granted a leave of absence up to three years, in order to accept the post of Executive Secretary, Department on the Laity of the World Council of Churches, Geneva.

Concurrent with the announcement of Mr. Young's leave of absence, Dr. Long said that Mr. Donald S. Cameron, Jr., of Toronto, has accepted a temporary appointment as Acting Secretary of the Board of Men. "The arrangement has been made with the full accord and co-operation of other members of the staff," Dr. Long said. He stated that Ralph F. Wilson, Associate Secretary, and Phil H. Spence, Secretary of the United Church Acts Men's Club Department, would continue in these positions as usual during his absence. Fred G. Holborton, Lethbridge, and Alison MacMinon Charlottetown.

Mr. Young was born in Dorchester, N. B., the son of a United Church minister, Rev. H. R. Young and Mrs. Young. He was educated at Truro Normal College, Mount Allison University and Dalhousie University.

He is married to the former Margaret Louise Clark, daughter of Rev. and Mrs. G. T. Clark of Lancaster, N. B., and has one son, Andrew. Since 1944 Mr. Young has taken an active interest in interdenominational work. He is a member of the executive of the Canadian Council of Churches and Chairman of its Committee on the Work of the Laity. He has also served as a member of the Department on the Laity of the World Council of Churches. Mr. Young and his family will sail for Geneva on October 27th.

Donald S. Cameron Jr. is president of Cameron-Mohawk Limited a nationally prominent store planning firm. He has been active in church work since early manhood and was general chairman of the Elgin Huron-Kenora national conference (1958) and president of Toronto Conference Men. He is a member of the executive of the Board of Men and chairman of its leadership development committee. Mr. Cameron served for three years with the Queen's Own Rifles, Toronto, retiring with the rank of Major. He is married, with two sons, both of whom are in business with him. Mr Cameron will retain the presidency of his company during his three-year term as Acting Secretary of the Board of Men of the United Church.

## Overweight Editor Finds Reducing Plan With Weight-losing After-effects

The overweight articles editor of Maclean's Magazine, Eric Hutton, has tried all manner of diets from bananas and buttermilk to lettuce heads. All of them worked; in 20 years of dieting he took off 200 pounds. But all of them failed, all his lost 200 pounds found him out in the end

At last, Hutton has found a reducing plan that works. He has lost a pound a day for three weeks and keeps on working After the treatment is over (still the same, he's losing five pounds a week). He reports on his weight-losing experience at the Battle Creek Health Centre in Michigan in the July 15 Maclean's. Of all the Maclean's writers, Hutton, at 379 pounds, was best qualified for this assignment.

The Battle Creek centre was founded 85 years ago by the Seventh-Day Adventists; they believe that it is a man's duty to ben Judgment Day in the best possible physical, as well as spiritual condition. Among many of the guests go to the centre, to shed pounds. One in five is a fat person, among the mixed Canadian guests (most of whom go for relaxing rather than reducing) are Toronto clothing magnate David Dunguleman, the dean of Canadian lawyers, Dean Falconbridge of Winnipeg; Senator Neil McLean, a elite Martinizer; the late millionaire Harry McLean; Sir Ellsworth Flavelle, the Toronto banker and a Toronto society girl who felt she just had to lose three pounds.

Hutton, like any other Battle Creek guest, spent the first few days undergoing medical and physical examinations at the hands of half a dozen specialists and technicians, and a constipation called the universal dynamometer. Doctors told him he needed reading glasses, that his blood pressure and cholesterol level were a little high. The universal dynamometer noted weakness in the right hand extensors, the left abdominus dorsal and the neck posterior.

The 100-a-day diet had already started: dairy food, vegetables, fruit and fresh vegetables; no alcohol or tobacco. After medical examinations, Hutton settled down to work. His working day at Battle Creek started at 7:45 a.m. with a prayer meeting and calisthenics before breakfast—juice, poached egg on melba toast, tea or coffee substitutes.

After walking upstairs to change into his gym suit and down again (turning up calories all the way) Hutton went for his daily two-hour treatment. Bundled in wet sheets he was doused with hot and cold water; in the electric light bath, he boiled gently; in a hot fomentation bed, he steamed. He was massaged, steamed and rubbed with salt, before the daily pre-lunch weigh-in.

After lunch, he took his exercise: bands, pumps and pushups. And then he proceeded to the recreational gymnasium. "You ride horses that gallop and bust; you sit on loose-jointed chairs on which it takes energy just to stay put; you lie on beds that jounce like a branch-the Pullman berth; you lower yourself into electric chairs....."

Then Hutton could relax, with shuffle-board, tennis, gardening, or health lectures, before dinner and the perspected march—"an intricate pattern of marching in the gymnasium, rather like the RCMP's musical ride on foot."

For returns weight-loser Hutton all this was not new. What was new at Battle Creek, for Hutton, was a total change of scene and way of life; a don't-be-downcast-like atmosphere created by the staff; a strong religious overtone; and the guiding spirit of Dr. John Harvey Kellogg, who operated the Battle Creek centre from 1876 to 1943, devised most of the procedures and all the therapeutic and exercise equipment at the centre. He died in 1943. But for Hutton "he still runs Battle Creek."

Dr. Kellogg also invented corn flakes, and toned them like crumbs to a dog, to his brother, Will, who made a fortune out of them that was bitter controversial for by the doctor. The brother was W. K. Kellogg, whose signature has become one of the world's most familiar trademarks.

**NOTICE**
**THE COUNTY OF BEAVER NO. 9**
The following letter has been received in the County Office from Chanda, Department of Agriculture, Prairie Farm Assistance and is published for the attention of all farmers.
"To All Municipal Councils:
We have been receiving a number of requests from municipal officials and from farmers for direction as to the correct procedure in cases where the farmer decides to plow down acreages of seeded grain.
It would be of great assistance to speed up inspection work, to our field staff, and would help if the farmer would list with the municipal secretary-treasurer, the quarter-section concerned and the acreage and type of grain plowed under. It would also be helpful if the farmer could leave a few feet of crop standing at the end of the field so that our field inspectors could identify the acreage in their reports
Whatever co-operation your council could give in this respect would be greatly appreciated by this department and will help us give better service to the farmers in your municipality.
Yours very truly,
H. E. Riddell,
Director."

IT'S RHUBARB TIME

Perhaps this is the time of year to refresh your minds as to the ways of preserving rhubarb. There are several methods that you may use.

FREEZING

(1.) Choose young, tender stalks of good color. (2) Wash & Cut the stalks in one inch lengths packing with or without sugar. To pack with sugar use 4 lbs. of prepared fruit (about 11 cups) to one lb. dry sugar (2 cups) OR (3) Remove leaves and root ends cut stalks into uniform size, about 8 to 10 inches long. Tie in bundles and wrap OR (4) Make the rhubarb into a sauce, sweeten to taste and pack cold. (5) Blanch ny raw rhubarb one minute and cooling quickly helps to retain color and flavor.

CANNING

1. Use a medium syrup. To make a medium syrup use 1 cup sugar & 1 cup water to yield about 1½ cups syrup. (2) Use the Cold Pack method. Wash, cut in inch pieces. Pack in containers. Cover with boiling syrup, leaving headspace. (3) Process in the boiling bath for 10 minutes for quart sealers. (4) If you prefer to use a pressure canner, use the cold Pack Method and allow 5 minutes at 5 pounds pressure for all containers.

JAMS — Strawberry & Rhubarb
1. Use 6 cups crushed strawberries and 4 cups cut rhubarb (2) Combine fruit, bring to boil and proceed for 15 minutes. (3) Add 6 cups sugar, bring to a boil and boil 10 to 12 minutes uncovered, to jam stage.

RHUBARB CAKE
½ cup shortening
½ cup sugar
2 tbsp. dark molasses
1 egg add, then unsweetened rhubarb sauce.
1 tsp Soda
1 tsp baking powder
1 tsp. cloves
1 tsp. cinnamon
2 cups s'fted flour
1 cup raisins or
½ cup each of raisins & nuts.
Cream shortening & sugar well. Add molasses and rhubarb sauce and blend together. Sift dry ingredients together and add to first quarter. Add fruit and nuts and bake in a greased loaf pan in a moderate oven 350 degrees F., for about 50 minutes or until done.

This picture represents several of the best techniques of baby picture making—the subject is certainly happy, rested and well-fed; the background is free of clutter; the "camera" is natural and flattering; and it is a good close-up view.

**Baby Picture-Taking Tips**

In a recent interview, one of the top baby photographers whose pictures appear on the covers of some of the leading magazines outlined a few very basic rules for working with tiny subjects.

These rules seemed to us to make so much sense that we thought we'd share them with the young parents—and doting grandparents—among our readers.

Here they are:

1) A happy, rested, well-fed baby is the best subject—and will make the best picture.
2) Remember, patience is a "must" when you snap a baby.
3) A simple, uncluttered background is necessary to show off Baby to his best advantage.
4) Baby's clothes should be simple—even a diaper makes a flattering costume!
5) Close-ups are often the most effective shots of Baby.
6) Keep it natural—the only prop you need is a rattle or a cuddly toy.
7) Experiment with "bounce-ing" flash or flood lights from the ceiling for a soft over-all lighting effect.
8) A last-minute look through the viewfinder before snapping is always a wise precaution!

Don't you agree that if simple rules like these work for a famous professional photographer, they should help you get better baby pictures, too? Remember, Mayfime is picture time—which makes it a fine time to snap the baby at your house!

CATNAPPER

Maternal instinct has gone wild on the Harold Shelton farm near Hillsboro, O., and the farmer is watching developments. This old hen entrapped four kittens with their mother was catnapping, and adopted the kittens as her own. Now, the mama cat and the hen steal the kittens from each other daily and take turns mothering them. The kittens are as happy with the hen as they are with their own mother, except at meal time.

## Rain needed to grow grass on golf course

Work is proceeding steadily on a golf course for Tofield but lots of rain is needed according to the owner Charlie Kallal. A full 9 hole golf course is planned and Charlie had hopes of having 6 holes ready for play by the first of August and with this he in mind he purchased a brand new set of fairway mowers but he hasn't any grass to cut.

The course laid out just north of highway 14 will be tricky and with lots of water holes. It will cross the creek twice which will present a real challenge to the best golfers. Construction of the golf course began in 1959 to start this week and Charlie has asked all the players to note him their used oil.

The interest in golfing has been on the growing locally and every Saturday and Sunday there are three or four carloads of local people playing the 6th inland course. The opening of a course at Tofield is looked forward to by many

**Rural Co-op being formed to buy Fire Engine**

A meeting was held Monday night in the town office when it was decided to incorporate a new co-op to be known as the Tofield Rural Fire Protection Assn. Ltd With Mr Jerry Heath of the Co-operatives Power representative Bill Christenson. An early storm was also turned by a member of the McGregor Telephone Co living in the trailer court nearby

Fire extinguishers from the fire hall were rushed to the scene and controlled the fire before the switch was destroyed. Bill Christenson and Bill Francis worked for almost an hour to by-pass the town and restore power to the residence.

Tomorrow morning early Pct the power will be off for half an hour while the oil switch is replaced with a new one.

**Community Picnic To Be Held On Monday, August 7**

## Oil Swich Fire Puts Town in Darkness Saturday

Saturday evening the town of Tofield was suddenly plunged into darkness when an oil switch on the east end of town caught fire. Mr J E Stinson stabbing on his front porch 2 blocks away saw it break into flames and immediately contacted Enlarge Power representative Bill Christenson. An early alarm was also turned by a member of the McGregor Telephone Co living in the trailer court nearby

Fire extinguishers from the fire hall were rushed to the scene and controlled the fire before the switch was destroyed. Bill Christenson and Bill Francis worked for almost an hour to by-pass the town and restore power to the residence.

Tomorrow morning early Pct the power will be off for half an hour while the oil switch is replaced with a new one.

## New Sidewalk on main street

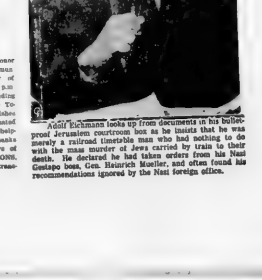
JUST A DEATH TRAIN DISPATCHER



Adolf Eichmann looks up from documents in his bullet-proof Jerusalem courtroom box as he insists that he was merely a railroad timetable man who had nothing to do merely a railroad timetable man who had nothing to do with the mass murder of Jews carried by train to their death. He declared he had taken orders from his Nazi Gestapo boss, Gen. Heinrich Mueller, and often found his recommendations ignored by the Nazi foreign office.

### THE ART OF PACKING A PICNIC HAMPER

It's an art to pack a picnic hamper with the kind of food that makes the members say they didn't stay home. Cold fried chicken or little cold veal or ham slices, flavorful with mustard. Delicious out-of-hand eating. Pack the potato salad in a jar to combine with crisp lettuce which has been brought in a damp towel.

Pack all sorts of things—Spaghetti with mushrooms and chicken livers, baked beans, or chick cittoroni, in picnic logs to be served hours later. This way you do not have to rely on finding picnic spots with stoves or firepleces or light a fire on the ground and thus start a forest or ground fire.

If you plan on doing considerable picnicking it is a good idea to buy a hamper with paraffine silver, aluminum or plastic plates and cups, a vacuum bottle or so and a cork screw and bottle opener. Water proofed paper bags for leftovers paper napkins and such are a wise precaution if there is no time to burn trash and then see the area is well out.

Try some of these suggestions, see how you make out with your next picnic

## Fashions

The little jacket that makes such a fine cover-up is really indispensable this year, the year of the sleeveless styles. Made to be worn smartly over many types of dresses, either slim or flared, this short coat of lightweight wool jersey comes in white, black or beige and is lined in silk. Collarless, side-buttoned, it is seamed to shape the figure just slightly. Silk print is the fabric for a dramatic evening pump in black and white or a magenta and/or turquoise on white—just the thing to walk out in with a black or white evening costume

## Agricultural Service Board Holds Regular Meeting

The Chairman, Cr. Gibson called the meeting to order at 1:45 p.m. with the following members present: Cr. Reddick, Lou Mar-kuszenka, Peter Krahec; District Agriculturist Stan Powers, Ken Boyles, Field Supervisor was also present.

MOVED by Leo Marcuszenka that the minutes of the meeting held on April 26, 1961 be approved. CARRIED.

The advisability of having a tour to look over demonstrations and weed problems was discussed.

MOVED by Cr. Reddick that a two day tour be held on July 25th and 26th or July 26 and 27th, 1961; the exact dates to be set so that it does not fall on the date of the Bruce Stampede.

Lindbrook Hall on July 13 at 8 p.m. 31lb

CARRIED.

Cr. Reddick asked Mr. Boyles how the brush spraying was progressing. Mr. Boyles said that the shortage of water was slowing up the program.

Cr. Gibson said he had cancelled part of his brush spraying due to lack of water.

The Field Supervisor's report was read at this time.

**Field Supervisor's Report**

June 28, 1961.

The Spring Range vaccination program was completed on May 16. 184 applications were received by Dr. John Robertson.

84 miles of new road was seeded to grass and legumes. Buckshegow and horror pea were seeded where possible; 150 lbs. of seed was furnished to farmers to sow down buckshegow.

4 farmers used the tree-planter.

Dr. Shetler-boil planting

One pasture spraying demonstration was completed on June 1st where 35 acres of willow and poplar were sprayed at a chemical cost of 12.95 per acre.

Weed inspection to date has been checks on problem farms where weed control was not properly done last fall. All requests for information on spray ing have been followed up.

The county brush spraying program got under way early in June and should be completed by July 10th.

Very little coyote poison was released the past two months. 71 pellets were taken out by 3 farmers.

15 mile were made where shelter belt damage was reported; most cases: bag-pack sprayers were necessary to apply insect spray

Spraying equipment has been purchased and ready to install for weed spraying on highways and County roads.

The Field Supervisors convention for the control zone was attended in Camrose on May 31st. Most time was spent on chemical weed control and discussing the Noxious Weed Act.

Ken Boyles,
Field Supervisor

County of Beaver No. 5

MOVED by Mrs. Krahec that the Field Supervisor's report be accepted and incorporating into the minutes of this meeting.

CARRIED.

Ken Boyles advised that the new sprayer for roadside spraying of weeds was received. The cost was $460.00 for the sprayer and $50.00 for the regulator. He also said that all the grass seed he was down that had been planned.

Cr. Reddick said that one herd of cattle had been missed in the Range testing campaign.

Miss Powers said that this was a matter for the Dominion Government Veterinarian but as it had been brought to the attention of the Service Board; we should write to Dr. Norton for information regarding this case.

Lou Marcuszenka asked when it would be possible to start the roadside weed spraying.

Mr. Boyles advised that the brush spraying should be completed by July 10th and the weed spraying would start immediately. He said it would take about three days to spray the highways.

Ken Boyles asked who the Service Board wished to organize the weed spraying work.

MOVED by Cr. Reddick that Ken Boyles organize the weed spraying work on a County basis.

The demonstrations on emulsified in the memorandum of Agreement were discussed.

Ken Boyles advised that the pasture spraying demonstration had cost about $118.50 so that it might be necessary to cut out some of the other demonstrations.

Miss Powers said that he felt that when a demonstration is

**WELL AND UNWELL**

Another trouble spot crops up with Iraq's claim to oil-rich Kuwait, a 9,000-square-mile sheikdom perched atop the world's largest underground oil lake. Iraq's premier announced the claim barely a week after Kuwait became independent, ending a 63-year British protectorate status. Kuwait's oil brings its 180,000 population $300 a minute. British purchases 57 per cent of its oil from there, and 13 per cent from Iraq.

**Community Picnic at Tofield on August 7th will please the family**

Remember, the Community Pic-on Monday August 7, beginning at 1 p.m.! The proprietors or custodians — the Community League, the Legion, the Lions and the Farmers Union — are planning a day which should be of interest to the whole community. The children will have races, the pony show and Little League ball. Also the children's school work display which was originally scheduled for showing on July 12th will be on view. At the end of the day, each child may take his work home, com-plete with ribbon awarded by the Community League

The stage show on the grounds under the direction of Mr. Horace Mellody promises to be a major attraction. More definite information about this will be available next week.

Pony Leagues and Senior baseball will picture a large proportion of the participants at the picnic. The bands will not let down, you can bet.

At supper time, the picnic baskets will be opened and free coffee for adults and cold drinks for the children will be served.

The final feature of the day will be a dance in the community Hall. So, save August 7!, lets enjoy a get-together with your friends at the Tofield Community Picnic.

**1.5 in. Rain falls on District over week end**

Last week end the parched ground of the district received welcome relief when Friday night 30 inches of rain fell and then on Sunday 1.20 inches fell bringing the total of the week end to 1½ inches.

Doug McKernan; local U.G.G. agent reports that there is about the same amount of wheat seeded in the district this year as last; 5% more oats and 5 per cent less Barley. He says the average height of the wheat is 36" with oats standing at 15" and Barley 14". Oats to per cent in head and Barley 20%.

He has estimated the yields as follows: Wheat 20 bu. per acre; Oats 30 and Barley 16. Last year wheat averaged 25; Oats 50 and Barley 32. Assuming he his estimates the dry weather has cut the yield by 20 per cent

Another interesting set of figures from the Legumbe Records manual Extension sent out that in June the soil temperature reached a high of 70 degrees with a low of 44 degrees. This is the highest it has ever been since such records were started five years ago. It compares with a high last year of 59.2 degrees.

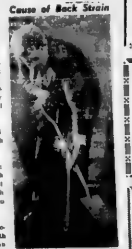
### Cause of Back Strain



President John F. Kennedy is shown at the tree-planting ceremony in Ottawa, Canada, last May when his efforts at spading caused a back strain that may force him to use crutches for a few days. As he started for a brief rest in Miami, the president said he would try to get along without them, but it was revealed that he had used crutches shortly before his European journey.

## Agricultural Service Board holds meeting

(Continued From Page 1)

considered the farmer should be asked to pay part of the cost. It has been his experience that the farmer will show more interest in it and also he would know if the cost makes a project practical.

Rev. Doyles suggested that if the County is going to increase their brush spraying they should consider more equipment for another year so that they could get more value for the labor expended.

MOVED by Leo Marmoreska that the County Council consider increasing their brush spraying equipment.

CARRIED.

Peter Strobeck said that he has noticed places where people are dumping rubbish on road allowances.

Rev. Doyles said there are places where farmers have dump ed roots and rocks on new bushlines making it impossible to seed

MOVED by Cr. Gibson that the matter of the dumping of rocks, roots and other rubbish be referred to Council.

CARRIED.

Rev. Doyles said that at the conference of Field Supervisors it was mentioned that there are municipalities that give a 10% reduction in assessment to farmers who cooperate in bushlopping roads that abut their land.

The question of an assistant weed inspector was discussed. Mr. Doyles said he did not have anyone as yet and wondered if we should advertise.

Stan Powers said he did not see the necessity to advertise as Rev Boyles was the best person to know who would be the best man for the job.

Moved by Peter Strobeck that Rev Boyles be authorized to hire an assistant at the rates set out at the meeting of March 29.

CARRIED

Stan Powers suggested that the County should consider putting up signs on the highways with some of the main roads showing where the boundaries of the County are. He said that he had had people in his office from distant points that did not know what municipality they were in. The signs could give the location of the office and other pertinent information. He said that if we put information such as "Buzza Tree Area" we could get a great deal more publicity section of the Memorandum of Agreement.

MOVED by Cr. Gibson that we get prices on these signs.

CARRIED.

As there was no further business it was

MOVED by Leo Marmoreska that the meeting adjourn at 5:00 p.m.

## To Tofield's Community Picnic Everyone From Far and Near Is Invited

The committee in charge of the Community Picnic on August 7 held a meeting Wednesday evening to complete arrangements for the big event.

It was announced that Bardo and Tofield will play senior ball for the prizes of $30 and $10. In both the Pony League and the Little Leagues contests, Ryley and Tofield will be rivals for the $10 prize. In each case the loser will be awarded $6.00.

It is hoped to have r ladies' softball game between Ross Creek and Ryley for the same prize (The wagon of the horseshoe tournament will also be given a five dollar bill

Judges are being secured for the Kids' Pony Show. The children will be interested also in seeing their school work displayed in one of the large tents reserved for purposed by the Tofield Community Leagve

The waiting room of the new Tofield Curling Rink will be made available for senior citizens to visit with each other

At 6 p.m. Horace McIntefoy, Tofield's Master of Ceremonies par excellence will present a stage show utilizing the talent of local artists. Mr Dave Dugald will make the welkin ring with the stirring music of the bagpipes. Three generations of the musical Thomson family, Bert and Donald will entertain with a specialty number Johnny Moore who has entertained Tofield crowds many times with his skillful club swinging act, will again do so. An acrobatic number will be presented by Mrs. Kyrna Wynne and her sister Miss Linda. Turner Bros. Francis, who is the Physical education teacher in the Tofield school, will also present some of her agpils in a gymnastic display. There are rumors of another act being prepared which will make famous its participants. And of course Horace McIntefoy will entertain the crowd in his inimitable manner. After the stage show, the picnic lunches will be enjoyed along with the free coffee and cold drinks served by the committee. Since the drinks are free at lunch time, it is only fair that each thirsty child or adult supply his own cup. Don't forget — bring your own dishes; they will not be supplied.

Anyone who will volunteer to help in either the hot dog booth or the ice-cream and cold drink booth will win the gratitude of the committee. If you can help please contact Dick Mutlow, Bill Reposte, Charley Sears or Norman Glover.

After the picnic, you may wish to go to the music of LARRY Harris and his "Bugar Beats" in Norman Glover's Dance Pavilion is to be run like the Edmonton Exhibition. Everyone pays at the gate and the attraction is free. So plan to come along and enjoy the day.

## Seed Plant to close during August

At a recent meeting of the Seed Plant Board it was decided to close the Seed Plant at Holden during the month of August and perhaps a portion of September. This move was necessitated due to the lack of grain to be cleaned at this time and the prospect of a less than normal grain yields in the district.

Although the plant will be closed during this period it will accept cleaning orders and will do any cleaning required by appointment. Appointments can be made by writing or phoning either Elvin Knudslien at Kiil at Ryley or Lyle Crockford at Hill Holden.

Elvin Knudslien was named Plant Manager to replace Mr. Lorne Meyer who resigned to accept a similar position at Bersmith. Mr. Knudslien was employed as an operator at the plant during the past season and was selected to fill the post from a number of applicants. He is a local man who has both farm and grain elevator experience which is an ideal background for the position.

The plant will open for cleaning of commercial grain immediately after harvest commences as it is felt that most farmers will wish to retain all decimer for feed purposes. With the prospect of short crop it would be wise to clean all grain prior to delivery to the elevator. Commercial cleaning charges are 2 cents per bushel.

## ATOMIC WEATHER STATION

This is a cutaway drawing of the world's first atomic powered weather station, illustrating how it will be installed in a barren region north of Canada. It was built by the Martin Company for AEC. The atomic generator by the Martin Company for AEC. The atomic generator at bottom of cylinder derives power from pellets of strontium 90 via a thermoelectric conversion system to keep the weather instruments going. It will transmit weather data automatically every three hours.

## AROUND THE TOWN

A former Tofield School principal Mr. F.D. Fiddes and Mrs. Fiddes celebrated their golden wedding anniversary in Edmonton (no week).

Mr Fiddes was high school teacher and principal in Tofield about 1916 and 1917, in the original brick school which burned to the ground in October 1916. School classes were held for the remainder of the year upstairs in what is now called the O.K. store building. The new school was built in 1917 and opened that fall.

Mr. Fiddes went from Tofield to Edmonton where he taught high school for many years. From 1938 until his retirement in 1946 he was principal of Strathcona High School.

Mrs. Fiddes was Vergil and two daughters.

The Fiddes have four sons Ron of Edmonton, William, Brockton, Ohio, of Colmer Mrs. J. W. (Dorothy) Chalmers and Mrs. M.A. (Leona) Nugent both of Edmonton. They also have 21 grandchildren and one great-grandchild. The entire family attended the celebration

## Bird Causes Power Interruption At Holden

Lightning and bird seem are commonly thought of as the cause of power failures. However those are not the only causes of occasional service.

On the morning of July 21 a bird attempting to fly through the Calgary Power substation at Holden spanned two transformer bushings with its wings. The resulting short blew the substation main fuses and caused a power shortage of one hour in this area.

ELIGIBLE, NOW

## Garden Graph

By DEAN HALLIDAY

### PLANTING ROCKS

Not every garden has space for a full-fledged rock garden, but many gardeners combine rock and plants at entrances to ways and on terraces very attractively.

Frequently, in driving around the city, one sees these rock gardens slipping out of position. This is usually due to using stones much too small or to poor anchoring the stones correctly.

The stones used should be large enough so as not to shift out of position, once placed. Unstable rocks are dangerous. To give a solid and permanent effect buy the rocks at least one-third their depth.

As shown in the accompanying Garden-Graph, do not stand a rock on end. Each rock should be "planted" on its broadest base.

All the strata or grain of the rocks should slope or dip in the same direction and at about the same pitch. This allows the rain to drain back and downwards into the plant's roots.

Porous rock is preferable to a non-porous rock, but, of course, using rock found in your own locality serves to give a "natural" effect to the rock garden. Weathered limestone and sandstone are especially desirable as they hold moisture. Shale rock crumbles too quickly.

Do not space the rocks at exact intervals, since this tends to give a monotonous effect. Irregularity lends more interest, by forming large as well as small and pockets for planting pansies.

sold for the sum of $576.00 were refused to the Committee at this time. The Secretary advised that the representative of Canadian Tiat Products Ltd., Mr. G. C. Gruden had interviewed him and the Sup rintendent of Schools in this matter. It appeared that the Tinting is quite satisfactory and widely used in B.C. where the

Company is situated Mr Gruden phoned during the morning and stated that he was doing some work in Wainwright and could do the work at Tofield at the same time The question had come up at the Committee meeting what would happen if school children made scratches on the tinted windows, and Mr Gruden advised that there was a way of touching up these scratches, but that, to date, they had had very little trouble in this regard The Committee noticed that the work was fully guaranteed for two years. The Superintendent stated that he was either necessary to provide blinds for the rooms mentioned the Committee visited here on Sunday

A letter from P.O. Nordstrom Agencies requesting renewal of the School Accident Insurance Policy was received by the Committee and the letter advised that the rate for the coming year would be at the flat rate of $1.00 per pupil registered in comparison to $1.35 last year.

The letter also stated that since two claims had been dealt with during the past year, ranging from $1.60 to $84.60 to a total of $90.00. The Secretary informed the Committee that he had information in regards to a student accident insurance policy from B.T. and Company, Calgary. The premium was at the same rate as quoted by P.O. Nordstrom and in the odd instance, the benefits were a little higher How ever it was felt that it was not worth changing insurance companies

MOVED that the School Accident Insurance be renewed for the 1961-1962 school year with P.O. Nordstrom Agencies.

### LUXURY MOBILIZATION IN KUWAIT

Sitting in his shiny new car with rifle in hand, an unidentified sheik in Kuwait chats with a British corporal. Determined to fight any Iraqi annexation attempts, many Kuwait sheiks have rushed to the borders of the new nation with armed lmousines. The Arab League is trying to pressure Iraq into giving up its claim to Kuwait.

## New Parcel Post and Newspaper Rates between Canada and United States

Postmaster General William Hamilton today reminded Canadians mailers of the recently announced new convention governing the postal service between Canada and the United States effective July 1, 1961. Under the new convention, there are changes in parcel post and newspaper rates from Canada to the United States and an increase in registration indemnity for articles posted in Canada and destined for the United States.

Mr. Hamilton, in reminding the mailing public of the changes pointed out that under the new agreement the weight limit on parcels mailed in Canada to the United States has been increased from 11 pounds to 22 pounds, and the maximum indemnity for the loss of a registered article mailed in Canada to the United States has been raised from $25 to to $50.00.

Under the new rate, Canadian parcels mailed in the United States will require postage ranging from $.60 for a one-pound parcel to $4.80 for a 20 pound package. Registration Fees on mail for the United States will now be identical with domestic rates, ranging from $.20 for a maximum indemnity of $25.00 to $.60 for a maximum indemnity of 100.00

Mr. Hamilton noted that the United States administration had recently announced increases in rates governing printed matter, samples, registration and parcel post on items mailed in the United States for delivery in Canada.

## County of Beaver Council Holds Regular Meeting

Cr. Myers was advised that he had provided for construction of a road North on 20-49-18 With a ... bed in Plow A Tiny mile of road was situated in a slough, which this year was dry, therefore it was an ideal opportunity for construction of this road Cr. Magowan Firth & ... tioned that a petition had been signed by the farmers in the area to have this work done and that, therefore, he had decided to do the work.

MOVED that the construction of the road North of 20-49-18 With S application.

CARRIED

The recommendation in the Agricultural Service Board Minutes concerning additional spraying equipment was noted and Cr. Boddis advised that the Farm Electric Co-op's would like the County to do the spraying along the power lines. No decision was made in the matter

It was also noted that reference was made in the Agricultural Service Board Minutes in regard to road allowances or in water courses, and that they be requested to clean up the road allowances with the condition ceases.

CARRIED

Cr. Johnston brought up the matter of his 4 sloping roads, stating that he had had a large num ber of requests for this work After some discussion it was decided to leave the problem of back sloping to the individual Councillors

A delegation from the Village of Holden, consisting of the Secretary-Treasurer, Mr. R. C Shoreland, and Mr M Zaharchuk, and Mr. L. Kairuzy, attended the meeting at this time, and requested that the County Council improve the road, West of W ¼ 11-49-16; this being a road through the Village's water storage dam. The dam at the present time was dry and it would be an opportune time to have this road constructed it should be possible to get road clay at the bottom of the dam, and by using this it would help the Village in getting a de per storage dam. It was mentioned that the Village of Holden owed the County an amount of $1,800.00 for work done on the dam some years ago and that the Council might consider doing the requested road construction providing that the Village would endeavor to pay the outstanding account This appeared agreeable to the delegation, and it was

MOVED that we are a to build the road West of W¼ 11-49-16 providing the Village endeavors to pay the amount owing to the County

The matter of the C.N.R. Water Storage Dam was also discussed, the County having made an application to the C.N.R. for the purchase of this dam for park purposes However, the delegation stated that the Village of Holden was definitely interested in acquiring the dam and it was indicated that the County Council would withdraw its application under the circumstances.

BUSINESS ARISING FROM THE MINUTES

Once using the proposed purchase of the Water Storage Dam in Sections 5 & 6 -49-15-W4th from the Canadien National Railways, it was

MOVED that, in view of the fact that the Village of Holden is not vested in this storage dam we withdraw our application.

## Ball Games, Stage Shows Feature of Community Picnic

The weatherman turned in a nice day Monday and everyone at the Community Picnic enjoyed themselves. Ball games were the order of the day with both Ryley Little League teams proving keen competition to the local entries. A softball game between the Rose Creek Indians and the married men of Tofield proved lots of fun for both the players and spectators. Oh yes, the ladies were victorious. The final ball game of the day between Tofield and Ryley proved interesting as Tofield was forced to come from behind to win 13-7

A stage show of local talent was put on by the Heroes Mc Ridley inspite of microphone trouble which plagued temporarily Those taking part were Tenderman Orchestra, Lynn Ingvald, John Moore Myrna Davis Tumbling Trio, Ed Reeder and Keith Appleby Keith also challenged all to a tiger contest but could get no one that was willing to compete despite him

Childrens races, a horse show a parade supper and dance in the evening finished off the day.

Winner of the tent trailer was Mrs. Lottie Moon and I. Brumm of Kingman won the pigeon

Members present: Mayor Dr. W St. Freebury, Coun. Patterson, Jefferson, Smith, Kallal, Herndon.
Previous to the meeting tenders had been opened for the construction of water and sewer services on 2nd. Ave., West, three present being councillors, Jefferson, Kallal, Herndon. Swift, Paterson, Lowrie with Mr. Brian Hills of Associated Engineering Services Ltd., Necessity. H. S. Christenson, Secretary, Treasurer, and the Secretary Treasurer.
Tenders were opened by the Secretary Treasurer, and handed to Mr. Hills for perusal they were
Ackerman $12,396.85 Complete in 14 days from Commencement.
Watson Tofield Ltd. $13,661.75 60 days N.E. Paviian $13,961.55 25 days.
The tenders were for the complete project and in accordance with the specifications as drawn by the Engineers.
Mr. Hills stated that he would go over the figures submitted and make a recommendation within a couple of days as to awarding of the contract.
Minutes of the previous Council Meeting were read and approved as
COMMUNICATIONS. St. John's Ambulance Society-Blind. Co. of Beaver No. 9 minutes read and filed.
Work Crossing— Granted by Transport Commissioners, Ottawa, saying, they could authorize a construction toward the cutting of trees on the West Railway Crossing, they could not do so for providing advance warning signs it was agreed by the Council that the cutting of trees was a very minor consideration, and that the matter hardly worth any more attention
Civil Defence minutes read and filed
School Rooms— Co. Beaver No 9 stating that there are 32 school rooms in actual operation in Tofield, three extra teachers being Mrs. Veterinarian, Physical Education and Librarian. The letter was in response to ours as to changes to be made for water and sewer services to the School, applicable to the number of rooms operated
Water Supply— D partment of Sanitary Engineering, Dept. of Public Health saying that numerous cases of shortage of water supply have been brought to their attention, particularly as regards supply from wells. They wished to set up an inspection program and request if a report from the Council as to any steps being taken to remedy Tofield, and to be replied to.
Caretaker of Parks— Some discussion had taken place with Mr Ellis as to caretaker of water lines and a specialist headed him for examination by his staff for a post as to any solution. For the present it appears damage to wat r lines is on account of the soil, and not unknown in other district.
Accounts were initialled for payment as presented.
Police Report— Police report was perused, showing a continuation of the usual variety of cases such as traffic tickets, house check, accidents investigations, thefts, 1.ay doors left open at night, complaints and so on.

## Stannoes Fluoride For Young Pupil's Teeth

Fluoride is a mineral componentive rent the Vegreville Health Unit has employed a Dental Officer for the purpose of applying stannous fluoride solution to the teeth of last year's grade one pupils.
Consent cards were previously sent to the parents of eligible students, and the appointments were made.
The portable dentists' chair and equipment were set up in each school. The procedure consists of cleaning, examining and finally applying the stannous fluoride to the teeth. It has been proven that the application of stannous fluoride has reduced new cavities by 40 per cent.
Mr Quinn and the Health Unit Staff would like to thank Mrs Donald Bit and Mrs. Cal Agnis of Tofield and Mrs. W B Reddy, and Mrs. Rudy Mirvos and Mrs. Hugo Hielsen of Ryley for their assistance in the program

## Norson Williams and Cornelius Neufeld Exchange Marriage Vows

At a recent afternoon wedding in Tofield United Church vows were exchanged between Miss Sylvia Norson Williams and Mr. Cornelius Peter Neufeld. — Rev. McNeill read the double ring marriage service for the eldest daughter of Mr George Williams and the son of Mr. and Mrs. Peter Neufeld
Bouquets of yellow and white roses decorated the church for the ceremony at which the bride was given in marriage by her father
For her wedding Norson chose a floor length gown of white organza over taffeta with semi-loop-d necklines and long lily-point sleeves. Her finger tip veil was held in place by a lace headpiece with sequins.
She carried a bouquet of red roses.
Her jewellery was a matching pearl necklace and ear rings. Gift of the groom.
The bridesmaids were Miss Bren Neufeld and Miss Barbara Williams who were identical in frocks, of yellow silk organza. They wore white lace veiled hats and carried bouquets of variegated yellow and white carnations.
Miss Gaylene Neufeld was junior bridesmaid, her white floor length gown was worn over crinolines and she carried yellow and white carnations.
Mr. Edward Williams and Mr. Arthur Neufeld attended the groom.
Ushers were Mr Lawrence Williams and Mr. Bill Neufeld.
Mrs. Dr. Annis played the wedding music and Miss Margaret Hamon sang the wedding. Hamon sang "A Wedding Prayer" while the couple were signing the register.
Mr. George Calcutt proposed the toast to the bride at the reception which was to the home ment of the church.
The bride cut and Mrs. Jim Williams wore a two piece yellow and brown dress and matching hat with brown accessories and a corsage of red roses.
The groom's mother wore a navy dress with white accessories with a corsage of red roses.
For a honeymoon to Banff the bride wore a green sheath dress with a tan coat and black accessories. Her corsage was of red roses.
Mr and Mrs. Neufeld will make their home in Tofield.

## Mr. and Mrs. Henry Yoder Celebrate Fiftieth Wedding Anniversary

In celebration of their golden Anniversary, open house was held for them at their home to 100 friends and relatives, on Thursday afternoon and evening.
Henry L. Yoder and Lovina Kauffman were married on July 27 1911, near Parnell town, at the home of the Kauffmans. The ceremony was pronounced by J. C. Yoder.
In the spring of 1912 they moved to Tofield, Alberta, and lived on a farm near there, where they still reside. Their son Leslie took over management of the farm on Mr. Yoder's retirement.
Mr and Mrs. Yoder have two sons, Lloyd of Camrose, and Leslie of Tofield, and one daughter, Mrs. Velma Lehman, also of Tofield. There are eleven grandchildren.
The table was centered by a lovely and wedding cake and two beautiful bouquets of yellow roses and mums presented by them by their grandchildren.
The wedding cake was baked by Mrs. Lloyd Yoder of Camrose, and beautifully decorated by Mrs Norman Stauffer of Tofield.
They received a lovely gift from relatives in Canada, a purse of money from friends and relatives, and a gift of money from the children.
They would like to take this opportunity to thank all those who helped make their 50th Anniversary a success. Also for your attendance and gifts.

## Rural Fire Protection Council Visits Unit at Leduc

Rural Fire Protection Unit
Last Saturday evening, the Board of the Tofield Rural Fire Protective Association travelled to Leduc to obtain first hand information on organizing and operating such an enterprise. The delegation met with a considerable amount of knowledge obtained certainly justified the trip
It was gratifying to learn that Leduc, undertaking is very successful and working to the satisfaction of all concerned. There is an efficient $10,000.00 unit, capable of carrying 750 gal. of water, has a front-end mounted 45gal-deep-cycle pump for greater accessibility to any source of water, one hundred two or more lines of hose of which it carries 500 ft. of 2½" and 400 ft. of 1½" and has a magnificently powered auxiliary pump at the rear plus a large suction hose, ladders, etc. It might be mentioned that such a truck should be very effective in combatting grass or stubble fires.
The unit is housed in Leduc's spacious fire hall along with two units belonging to the town. In return for the housing and servicing it is available to the

## SECOND LOOK ESSENTIAL ON FARM, CITY GIRL FINDS

Tom, the village philosopher says the best education doesn't come from books and like knowin and such, but from taking a second look at things. That's the one that counts, he figures and a second glance can often save you from making a fool of yourself.

To illustrate his point Tom tells the story of his niece, Dolly, who visited from the city a couple of weeks ago.

"I took her around to see by brother Ed - the one who runs a farm. 'Oh, what a strange looking cow', says Dolly. 'Why hasn't she any horns?' So Ed says, 'Well, some cows is born without horns and never had any, and others shed theirs, and some we de-horn, and some breeds ain't supposed to have any born at all. There's all kinds of reasons why some cows ain't got horns, but the reason this one ain't is because she ain't a cow. She's a horse!"

Which leads us to wonder if a second look isn't called for in personal planning sometimes. If you find your money slips through your fingers, consider regular saving with a Bank of Montreal savings account. Deposit so much of each pay-cheque into a B. of M. Savings Account. In that way you make sure of getting your share of your own income.

Horace Seiler, manager of the Tofield branch of the B. of M. will be happy to tell you how easy it is - and how profitable.

Mrs. Sidney Whitford of Calgary Mr. and Mrs. Fred Sherwood of Kilkam Alberta, Mr. and Mrs. Fabyan Hugh, Mrs. George O'Brien, Mrs. Bill Cattnach, and Mr Jim McCauly all of Edmonton.

Friday, August 11th. friends gathered from near and far to attend the funeral of Mrs. Florence Draney, many of the old school chums of Mrs. Gosbay's sons Frank and Ronald were in attendance.

Mr. and Mrs. Stanley George left Wednesday morning on a months travelling by way of though Caribou country.

## NEW LIFESAVER

A new type lifesaver, a foam plastic ball in a loose rope netting, is demonstrated in Vienna. It can be thrown more accurately than the conventional ring, its makers proclaim, which means quicker rescue in drownings.

## Of Many Things

(by Ambrose Hill)

Canada will soon have a private television network. The CBC and some of its champions are crying that this can lead to disastrous results for Canadian broadcasting. What they mean, of course, is that it might be disastrous for the CBC. But the CBC and Broadcasting are not necessarily synonymous.

John Public wants news, information and entertainment. He does not care too much whether it is provided by a tax-supported network or a tax-paying network. He is not likely to care about the bowls of anguish from the CBC.

When private TV was first allowed in the major Canadian centres, the CBC people predicted dire results. The results, however, have been good. In Winnipeg, at least, the CBC sustained up considerably when faced with competition from Channel 7. The audiences tallied in their ratings on a far more friendly basis. The CBC had to consider the viewers, if it wanted to retain decent ratings.

In Montreal recently, I watched CFCF, the new private TV station. The programming was lively, imaginative, and well loaded with Canadiana. The announcers were bright young Canadians doing a thoroughly professional and pleasant job. Yet the station was costing the taxpayer nothing — indeed it pays taxes for the right to operate.

While it may be true that the Toronto private station had a slower more fumbling start, it is said to be operating quite well now. In a matter of months the private broadcasters seem to have at least rivalled if they have not surpassed the CBC, which has many years experience and millions of tax dollars to go on.

The CBC has also had a great deal of advertising money. And it is in this area that it may deserving feel the pinch. Not too long, in spite of its monopoly position it took an unrealistic attitude toward what advertisers ought to pay. It seemed altogether too ready to make "deals" which allowed sponsors to Pick up only part of the tab for expensive programs. This sort of rate quoting doesn't bring success or respect in the advertising world. It does considerable harm to other advertising media, such as magazines and newspapers.

TV may be one of the most methods of advertising. What remains to be seen, some of the original impact, due to the novelty of a new form, has disappeared. Many larger advertisers have returned to the old, reliable printed word. Local retailers are finding TV advertising costly. It seems to be a media only the bigger advertiser can afford to experiment in.

For these reason, the private stations are wise to link themselves into networks and concentrate on satisfying the larger advertiser with a budget big enough to experiment. And the BBG, in the public interest, will do well to give them a fair opportunity in the network field.

## Post Office Announces New Stamp

A special postage stamp illustrating the multiple use of Canada's renewable natural resources is to be issued on the 11th of October, according to an announcement by the Postmaster General, the Honorable William Hamilton.

Mr. Hamilton said the new stamp is part of the Post Office Department's contribution to the "Resources for Tomorrow" programme, a long range project designed to ensure the effective multiple use of Canada's natural resources. The programme, is to be inaugurated by a Federal-Provincial conference scheduled for Montreal in October. The Federal Government and all ten Provincial Governments, are participating in the conference and are vigorously supporting the programme

The Postmaster General noted that the "Resources for Tomorrow" programme was first suggested by the Prime Minister as a means of co-ordinating efforts to improve the management of Canada's natural resources. A major objective of the conference will be an improved understanding of the necessity of public support for the effective multiple use of renewable resources. The stamp, symbolizing the renewable resources of agriculture, forestry, water power, fisheries and wildlife, and linking them with the wheel of industry, is intended to make all who use it in Canada and abroad conscious of the need for the effective multiple use of our resources today if we are to enjoy them in undiminished form tomorrow.

The new stamp is in addition to special issues commemorating Northern Development, Indian people, Pauline Johnson, the late Honorable Arthur Meighen, former Prime Minister of Canada, and the 10th Anniversary of the Colombo Plan, already announced for production during this year

**Consul Capri To Be Unveiled In Canada At P. N. E.**

World premiere of a new car for the connoisseur will be a highlight of this year's Pacific National Exhibition.

Ford of Europe will unveil its new Consul Capri Aug. 19, opening day of the Exhibition.

This will be the first showing of a car that has the verve of a sportscar, the styling of the automotive thoroughbreds, and the adaptability of the family sedan.

And the Capri is tried and tested.

Before the model passed the rigid specifications of Ford the Capri camouflaged, underwent more than 50,000 miles of Canadian highway driving in all weathers to ensure it is fitted to this country's climate.

Capri has 84½ - horsepower and can cruise all day at 60 miles an hour with a passing speeds that touch the century mark.

It is economical, too, giving 36 miles to the gallon under normal driving conditions.

Capri has two bucket seats up front and occasional seating in the rear for three. It has a column shift and disc brakes.

It will not make its homeland debut until the Earl's Court Motor Show in early fall.

Other new cars on show at the Ford exhibit at the PNE will be the 1962 new Consul

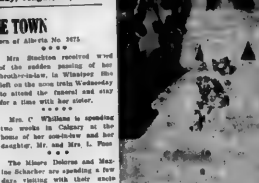
Vol. 9 — No. 25 TOFIELD MERCURY, TOFIELD, ALBERTA Thursday, August 31, 1961.

**ADDITION TO BRITISH FLEET DEMONSTRATES ABILITY**



HMS Hermes, 27,800 tons, one of Great Britain's newest aircraft carriers, shows jets different from the supersonic flying and fighting variety while exercising in the Channel. The spray system cleans exterior surfaces of the fallout which would be encountered on the fringe of an all-out nuclear warfare.

## County of Beaver School Committee holds meeting

The regular meeting of the County of Beaver No. 9 School Committee meeting was held on Tuesday August 8 1961.

Present: Deputy-chairman Cr. J. H Reddick in the chair, Crs. A. L. Gibson, W. D. Johnson, W. Krupitzki, E. M Madsen, and A. Woelkwitz; Mr. G. Arnett, representing the Town of Tofield Mr. A. G. Sallis, representing the Town of Viking, Mr. L. Hord representing the village of Ryley Also present the Superintendent of Schools Mr. H. A. Pike.

Business Arising From The Minutes

In connection with a suggested uniform Sports Policy for the schools in the County it was moved that the Superintendent of Schools arrange for this matter to be discussed at the next principals meeting on or about Sept 27 and the arrangements be made for the House and School Association of Viking to be represented at the meeting.

In connection with the request for permission to continue to use Mr. R. P. Brown panel truck as a school van for the 1961-62 and possibly the 1962-63 school year. The Secretary referred to the Committee a copy of a letter from the Director, Safety Division, Highway Traffic Board to Mr. Brown advising that the Highway Traffic Board was prepared to license the vehicle, for the 1961-62 school year providing the unit meets with all safety standards and is in good mechanical condition. The Secretary also referred to the Committee a copy of the letter to Mr. Ken C. Brown, Inspector of the Safety Division in this matter.

Moved that the information be received and filed.

Correspondence

A letter from Canadian Electronics Limited being in connection with supply and install a Rogers School Sound System in Tofield was referred to the Committee. The quotation was in the amount of $1156.00. Mr Pike suggested that this was a very reasonable price and that he would like to check the quotations and see that it covered what was required to supply a satisfactory Sound System. Moved that the matter and quotation be referred to Mr. Pike with power to act.

A letter from the Town of Viking advising that the building permit for a teach-range had been approved by the Town Council with a recommendation that a full basement be constructed, was referred to the Committee. The Committee was of the opinion that if a full basement was constructed, the rent, that would have to be charg d for this building, would be rather high, and that this teacherage, was being constructed to furnish a dormi tory accomodation. It would also be necessary to change the architectural plan of the house and as the frame work was all completed it would add greatly to the cost. Moved that we do not construct this teacherage with a full basement, but adhere to the original plan, and that we so advise the Town of Viking that we are certain that this building will be pleasant to Viking, and on thought it does not have a full basement

In regards to the new teacherages to be constructed at Ryley, the Superintendent reported that it now appears that the teachers, for whom this teacherage was let added, may have made their own arrangements and that the teacherage may not be needed this coming term. Moved that Mr Pike and Mr. Wagar look into the matter and that, if they consider it advantageous, they be given authority to have this building placed in some other location

The matter of rents to be charged for the various teacherages in the County was discussed at this time, and it was felt that rent should be considered in connection with the assessed value of the various teacherages. After some discussion it was moved that the rent for the teacherages in the County be based on 2 per cent of assessed value per month plus utilities.

The Secretary mentioned that the teacherages at Bruce and at Kinsella did not carry any assessment value at the present, but that they would be assessed during the course of the year and he suggested that the time being the rent in these points be left at the present rate to be adjusted after the assessment has been completed This was agreed to by the Committee.

In regard to the Pre-School invitation, the Secretary read the School Van Drivers Schools on August 31 and Sept 1, Mr. Pike reported that arrangements were being finalized and that the situation was well in hand.

Moved that the new contract between the County and H. P. Brown for operating his panel truck in the Lindbrook area be renewed for the 1961-62 School year at the same rate and conditions as the previous contract.

In regard, to the purchase of one teacherage for Ryley and one for Viking, Cr. Reddick and Magnuson reported that they had ordered three from C Kalial Lumber of Tofield The two bedroom building for Ryley, complete with heating, plumbing, wiring and storm windows and doors, etc was priced at $3,900.00 for Viking On account of the two buildings being purchased at the same time a discount of $300.00 had been allowed on the deal However, some modification had been necessary in the heating system at Ryley and this had added $185.00 to the unit

Moved that this report be accepted and the action of the Committee concurred in

Moved that the resignation of D Rix from the Tofield teaching staff be accepted

Moved that the following teachers be appointed to the County teaching staff: Helen Tessem Gerald Ramsey Georgina Demchenki Gertrude Coen and Anne Mclaren.

Moved that the following bursaries applications be accepted: Bruce—Edward Maxwell, Gail Lumber, Joan Crispin.

The Secretary informed the Committee that Mrs. D Wright of Tofield had advised him that she had a four bedroom basement value at the present, but that they would be assessed during the course of the year and he suggested that for the time being the rent in these points be left at the present rate to be adjusted after the assessment has been completed This was agreed to by the Committee.

In regard to the Pre-School invitation, the Secretary read the School Van Drivers Schools on August 31 and Sept 1, Mr. Pike reported that arrangements were being finalized and that the situation was well in hand.

Moved that the new contract between the County and H. P. Brown for operating his panel truck in the Lindbrook area be renewed for the 1961-62 School year at the same rate and conditions as the previous contract.

In regard, to the purchase of one teacherage for Ryley and one for Viking, Cr. Reddick and Magnuson reported that they had ordered three from C Kalial Lumber of Tofield The two bedroom building for Ryley, complete with heating, plumbing, wiring and storm windows and doors, etc was priced at $3,900.00 for Viking On account of the two buildings being purchased at the same time a discount of $300.00 had been allowed on the deal However, some modification had been necessary in the heating system at Ryley

Cr. Gibson informed the Committee that Mr. Fred Mylski of Daysland had offered $20.00 for the page wire around the old Sandstone School site The wire in question on three sides only. not on the side bordering the road Moved that the wire at the Sandstorm School site be sold for $20.00 to Mr Mylski of Daysland, with the understandi ng that it was considered that this would be the last allowance to be not included in the sale

Cr. Gibson further advised that Mr Mike Yak had offered $20.00 for an old log shelter on N.E. 21-47-16 The Secretary stated that this could be used as a coal shed at the County home in Dodds Moved that if Mr Mishmek considers the shelter good enough for a coal shed it be taken to the County home at Dodds, if not that it be sold to Mike Sak for $20.00.

**NIGERIA SEEKS AID**

Sir Abubakar Tafawa Balewa and President Kennedy shake hands at the White House, where the prime minister of Africa's most populous (maybe even most powerful, too) nation went to see about a slice of U.S. foreign aid. The $100 million Niger dam was discussed and [illegible] promised top priority consideration.

## Donna Mae Duncan Becomes Bride Of Daniel A. Kading

On Saturday afternoon, August 26, Calvin United Church in Ryley was the scene of a very pretty wedding of wide interest, when Donna Mae Duncan, daughter of Mr. and Mrs. W. B. Reddy of Ryley became the bride of Daniel A. Kading, son of Mr. and Mrs. Adolf Kading of Bellevue, Saskatchewan. The Rev. C. K. Hessels of Holden officiated and the bride was given in marriage by Mr. W. B. Reddy She looked lovely in a white waltz length gown of nylon organza over satin. The fitted bodice was finished with a scalloped neckline cut fined with hand clipped lace and sequins, carried on over the shoulders to form cap sleeves. Bands of lace were repeated around the low waist and small appliques showered down the bouffant skirt. Her fingertip veil of imported illusion lace was held in place with a crown of lace and pearls centered with a drop pearl on the forehead She carried sweet heart roses on a white Bible

Her sister Miss Jacquie Reddy attended the bride. She was dressed of nile green organza over taffeta. The bodice had a high straigh neckline and was tied on the shoulders with small bows The short bouffant skirt with deep hem was heavily embroid ered in shaded silk Her small cap wa, of petals and sequin, in nile green. Her bouquet was of stephanot, with tulle and lime green ribbon

Mr. Alpo Jensen of Ryley attended the groom.

Organist was Mr. Harold Pedersen of Ryley, during the signing of the registry Miss. Marie Grafton sang "Oh Promise Me".

For her daughter's wedding Mrs. Reddy chose a two piece dress of lilac crepe with matching shoes and white accessories.

The groom's mother, Mrs. Kading wore a dress of brown faille with white accessories. Both wore corsages of white South

Following the wedding a reception for a large number of guests was held in the Ryley Legion Hall. The bride's table was ventered with a beautiful three tiered wedding cake, decorated by the Tryner Jeanne. Sweet peas and gladiola bloosoms, embedded in tulle surrounded the cake and white tapers in candle crystal candle sticks were on either side.

Mr. Gerald Birch of Calgary was toastmaster and Mr. J. D MacDonald proposed the toast to the bride. The Rev. C. K Hessels asked the blessing for the meal.

Following the supper there were a few hours of dancing and wedding gifts were opened during this time. Also Miss Marie Graham sang.

For going away the bride wore a suit of gold wool with chocolate brown accessories and red rose corsage.

Out of town guests were Mr. and Mrs. Adolf Kading and Mr. and Mrs. Walter Kading of Balcome, Sask.; Mr. and Mrs. G. Birch, Mr. and Mrs. D. Westmacott and Leonard Hutchinson Jr of Calgary, Mr and Mrs Sidney Peters, Mr. and Mrs W. Lemke, Mr and Mrs. K. Richardson, Mr. and Mrs. M. Barker, Miss Lorraine Staples, Mr. K. Webb, Miss Marie Graf lake, Mr Wm Stevenson, Mr. and Mrs W. Swashow, Mr. and Mrs. J. Puck (Marie Godfrey) Miss Phyllis Reddy, Mr. and Mrs. V. Myers (Iona Beecham) Mrs. Harry and the Misses Mary and Joan Hoenigsl, Mr. W. Stibbe, Mr. K. Porter, Mrs. L. Urquhart, Mrs. L. Dexter, Mr Gordon Thompson and Miss Rosalie Hallenan, all of Edmonton; also Mr. and Mrs Oliver Thompson of Kingman and Rev and Mrs. C. Hessels, Mr. and Mrs. E. Nord, Mr. and Mrs. Art Grinde and Mrs R. Grinde of Holden; Mrs. R. Geddis, Mr. and Mrs. of Drayton Valley. A telegram was received from Mr. and Mrs. Warren Bates (Pam Lake of Calgary, who could not be present.

Mr. and Mrs. Kading will make their home at 10804 - 98 St. Edmonton.

The former Donna Duncan now Mrs. Dan Kading was guest of honor at a lovely shower held in the United Church parlor on Wednesday evening, August 23. The evening began with sing songs led by Mrs. J. D. MacDonald. The songs were familiar tunes with words adapted for the occasion. Following this the bride to be with her mother and sister Jacquie Reddy were seated at a table decorated in white and pink. Also seated with her to assist with opening the host of lovely gifts were Mrs. Bob Hardacre and Mrs. Alex Adams. Mrs. Hammer made the presentations on behalf of those present, wishing Donna and her husband - to - be a happy future. After the opening of the gifts grace was sung and a lovely lunch served.

Donna was also honored at three gatherings in Edmonton. Those with whom she worked at the Correspondence Branch held a supper at the Seven Seas for her. The young adult group of MacDonald United Church had a party in her honor and Mrs. Vernon Wyse, (nee Bernhardt) held a shower in her home.

## Two Bus Loads of County 4-H'ers Tour Hinton Pulp Mill

Fifty 4-H Boys and Girls from the 4-H Clubs in the County had the red carpet rolled out for them when they visited the Northwest Pulp and Power Limited Pulp Mill at Hinton last Thursday. The members were given the welcome and attention normally accorded a visiting dignitaries and they enjoyed every minute of it.

Two school bus loads of 4-H members left early Wednesday morning and travelled to Mistie Hot Springs where all took a dip in the famous pool and did some mountain climbing. For most it was their first trip into the mountains and except for a few anxious moments, on the windy roads they all enjoyed the trip immensely After expiesting the village of Mistie and a visit to the waterfall shed they journeyed back to Hinton, where with a stop for a picnic at Fiddle Creek Camp Grounds in Jasper Park.

On arrival at the Pulp Mill the group was met and welcomed by Mr. Sawyer Manager of the Industrial Relations Department of the firm They were then lodged in the Company Guest house for the night. Early morning they were treated to a real lumberjack breakfast of ham, bacon and eggs, potatoes, mountains of toast and all the trimmings of a good old fashioned meal. The boys and girls opposites were equal to the occasion and they left very a crust. The group was amazed at the excellence and speed of the service with the entire group of 50 served in less than 10 minutes.

Immediately following breakfast four busses boarded the buses for a trip into the woods to see the operation in the bush. Their guide was R. A. Hunt Assistant Manager of the Industrial Relations Department who led them to the Woodlands and then turned the groups over to the woodsmen Percy Stevens, who explained the logging operations. Here the group saw loggers falling, barking and piling the logs which would eventually end up in some of the World finest pulps after they had been processed in the Company Mill.

All members were amazed at the planning and design which went into the harvesting of the logs and the arrangements for reforestation. The trees being cut were up to 200 years old and the group was surprised to learn that both the Company and Government were interested in ensuring a regrowth for the next harvest 100 years hence.

After viewing the logging operations the group was served dinner at the bush camp dining hall and again they paid tribute to the cook, by eating every morsel of the delicious food set before them. They were now prepared to continue the tour and embarked for the trip back to the Pulp Mill

At the mill they were met by the entire staff of the Security Police who acted as guides on the tour of the mill. Here they saw the logs entering the mill from the wood yard by way of a flume, an artificial stream, and go through the various processes which transformed the logs into 1117bric pulp reputed to be the whitest and strongest pulp

The 4-H group departed from the mill hearing that bag goes the Alberta portion of Canada's largest industry Prior to their departure Miss Gail Gill of the Tofield Beef Club thanked officials of the firm for their hospitality and attention they had received and assured them they would report other 4-H groups from the County in the future.

The tour was arranged by the County of Beaver 4-H Council and District Agriculturist, R. G. Pierson. The busses were accompanied by an adult group which organized the tour. They were Mrs A. C Swiencki of Tofield Beef Club thanked officials of the firm for their hospitality, and attention they had received and assured them they would report other 4-H groups from the County in the future.

The tour was arranged by the County of Beaver 4-H Council and District Agriculturist, R. G. Pierson. The busses were accompanied by an adult group which organized the tour. They were Mrs A. C Swiencki of Tofield Beef Club thanked officials of the firm for their hospitality, and Mr and Mrs G C Pearson, Ryley. Mr. Rudy Miners, Mr Edwin Hawerlay and Mr Harold Baton provided the busses and handled the driving chores.

**For "Shooting Seedlings" New Method Being Developed**

Guns and "bullets" may soon take the place of the planting hoe, spade and dibble in reforestation operations on terrain unsuitable for the use of tree planting machines reports J. Walters, University of B. C. research forester who designed the device while an undergraduate at UBC Experiment, being conducted at the UBC Research Forest at Haney indicate that the new technique may speed up hand planting to as high as 1200 seedlings per hour at 5-foot spacings. The planting gun is a tubular device which drives a plastic bullet-shaped projectile containing a tree seedling into the ground when a drawn ward force is applied manually to the handle of the gun. Seeds are sown and germinated individually in the bullets. The bullets are made of styrene plastic in a form designed to withstand the force required to drive them into the ground and yet provide complete freedom for the growing seedling which eventually shatters the casing as it grows in diameter Douglas fir and Sitka pine seedlings shattered the bullets after three or four growing seasons without suffering any apparent injury.

**Doug Squirrel No Help**

In February, 1961, considerable damage to young Douglas fir on the University of B. C. Research Forest at Haney, was observed. The injury was distinct from that caused by hares, deer or grouse and was traced to squirrels. The species was identified by Dr. J. F. Bendell of the Zoology Department at UBC as the Douglas squirrel. The animal was observed cutting the terminal and lateral shoots of young trees and throwing the cut portions to the ground. The buds on these portions were eaten by the squirrels on returning to the ground.

## County of Beaver Council holds regular meeting

The Municipal inspector's report dated July 14, 1961 was now referred to the Council. The report was considered quite satisfactory and it was moved that the Municipal Inspector's report be accepted and that the required reply to the Deputy Minister be attended to by the Chairman. Carried

**Business Arising From The Minutes**

In regards to the account owing by the Village of Holden for cleaning the Water Dam in 1960, the Secretary informed the Council that Holden had been receipted on account. Moved that the information be received. Carried.

In connection with the proposed Provincial Park on N½ of T 49 R 15 W4th, the Secretary advised that he had received a letter from Mr Earl Hordy M.L.A. that stated that he had discussed the matter with the Water Resources Branch. The letter indicated that if the County requested it, the Water Resources Branch would undertake the survey of the area to determine how much water could be stored and if feasible would result on any adjacent land The Secretary further informed the Council that he'd written the Director of Water Resources requesting this service. Moved that the information be received and that the Secretary's action be concurred in. Carried

**Correspondence**

Moved that advice from the Dept of Highways that an additional allotment of $5000.00 had been approved to complete the Viking Highways 15-5-44 to the S.W 6-12-11-W4th be received and filed. Carried

A letter from the Superintendent of the Alberta Wheat Pool re concerns concerning the condition of the approach road to the elevator at Bruce was received by the Council The letter indicated that the road required to be graded and gravelled and was a request for this work. Cr Magnuson had been contacted in this regard and stated that about one-third of a m'le of road was involved and this road was best well maintained although some gravel would greatly improve it. However, Cr. Westbrik, in whose division this particular road is situated was unable to definitely state how much gravel the road in this year. It was moved that the Alberta Wheat Pool Superintendent be advised that the road would be re-graded as soon as possible. Carried

A letter from Long Lion, of Kinsella requesting some gravel be added to their farm was referred to the Council. Cr. Johnston investigated the request and advised that this road only requires regular maintaining, at least one-half mile of road being involved, and that, as a rule, the road was maintained when needed. Moved that the report be accepted Carried.

A letter from E. Weidman of Kinsella, caretaker of the Municipal Park at Camp Lake, was read to the Council. The letter advised that some noises, a drowning room and possibly a diving board was required at the lake, and that also some more brush should be cut from the park Cr Johnston take the necessary action in this matter. Carried

A letter from the Village of Holden requesting some immediate action on the building of the road across their water supply dam, as discussed with the delegation from the Village at the July meeting, was referred to the Council. It was not considered advisable to move the construction equipment from the north end of the County to do this work immediately and it was moved that the Village of Holden be advised that we might be able to do the work in two or three weeks time, weather permitting, when the equipment is in the vicinity. Carried

A letter from Mr. V. P. Fincati, Veterinarian of Minnedosa, Manitoba, addressed to the Mayor of Viking, was referred to the Council The letter indicated that Mr. Fincati was interested in starting a veterinarian practice in Viking if he'd the position of Fire Guardian and Poundkeeper on all the Pull vaccination work in the County be referred to the Agricultural Service Board.

Moved that application from Fred Bolger of Holden for position of Licensed Bus Driver be accepted, provid ng he passes his test and examinations for a "A" Class Drivers License. Carried

A copy of the Application from the C.N.R. to the Board of Transport Commissioner of Canada for authority to close as a station the agency at Kinsella was received by the Council moved that the Board of Transport Commissioners of Canada be informed that the Council has no objections to the closing of the station at Kinsella.

Carried

A copy of the application from the C.N.R. to the Board of Transport Commissioners of Canada for authority to close as an agency the station at Bruce was referred to the Council. Moved that the Board of Transport Commissioners of Canada be advised that the Council personally has no objections to the closing of the station at Bruce, but that it has been mentioned that some opposition may be coming from residents from the Hamlet of Bruce and surrounding area, and that a meeting would be called to consider the question. Should this be the case, and should the meeting decide to make representation against the closing of the station, the County Council reserves the right to support the opinion of the meeting Carried

Application from Dennis Hirst to purchase Lot 5, Block 9, Plan 4154 AT in the Hamlet of Bruce for $2.00 cash was referred to the Council Moved that the application be approved. Carried.

**Council Meeting August 15, 1961.**

Moved that whereas the Council of the County of Beaver, No. 9, of the Province of Alberta, by virtue of the Borrowing Powers vested in the said Council by the School Act, 1958, and amendments thereto and otherwise as expressed in the said Act, may borrow such sums of money as the said Council may deem necessary; and whereas the Council deems it necessary to borrow the sum of Fifteen Thousand Dollars ($15,000.00)

Now Therefore be it resolved by the said Council as follows:

1. That the said County do borrow from the Provincial Treasurer of Alberta the sum of Fifteen Thousand Dollars ($15,000.00) repayable as follows: in five equal installments First installment due in 1962 do hereby order to pay the interest thereon obligatory to advance or at maturity, and in either case after maturity until it's paid, at the rate of 8½ per centum per annum.

2. That the amount so borrowed together with interest thereon shall be and is hereby made charge on any sums of money due or accruing or to accrue or become due or payable to the said County during the current calendar year and during the subsequent years over which repayment is to be made as hereinbefore provided and that without limiting the generality of the foregoing, whether by way of taxes levied or to be levied or requisitions to be made, or in any otherway, all of which sums of money are hereby assigned to the Provincial Treasurer as collateral security for the repayment of the said amount so borrowed together with interest thereon, but the said Provincial Treasurer is not to be restricted to such moneys for payment of the same borrowed hereunder

3. That the same so borrowed and interest thereon be evidenced and secured by the promissory note or notes of the Chairman and Treasurer of the said County given on its behalf and the Chairman and Treasurer are hereby authorized and directed to execute and give such promissory note or notes on behalf of the said Council as may be required by the said Provincial Treasurer.

4. That the moneys thereof so aforesaid shall, when collected, be paid into a special account to the Government of the Province of Alberta, Treasury Branch.

Passed the 15th day of August, 1961. Carried Unanimously.

Moved that information from Mr. Chief Brooks Hastings re completion of the bridge located W.S.W. 7-56-14-W4th, July 31st 1961 and the transfer of the bridge to the control of the County, be received and filed. Carried

The Secretary reported on Tax Collections to July 31st as follows: Current Taxes collected $64,186.53. ## County of Beaver Council holds regular meeting

(Continued from Page 1)

The Secretary informed the Council that according to Section 9 of the Regulations to the Vehicle and Highway Act, the Councils motor graders and patrols were required to carry amber lights and Cr Reddish stated that this was also necessary on the trailers being pulled by any of the County equipment This regulation had come into effect in the Spring of 1957 and had apparently been overlooked. Moved that arrangements be made to obtain proper signal lights for the County's Road Patrols. Carried.

The Secretary also informed the Council that under Section 76 (8) of the Vehicle & Highway Act, the Council had the authority to designate any local highway, street or intersection as a highway, or street intersection at which vehicles would be required to stop or yield the right-of-way, and could authorize the erecting of stop and yield signs as desired.

Discussion was held in regard to this matter and it was felt that the authority should be exercised with caution so that not too many stop or yield signs were erected in the County.

It was decided that each Councillor would bring in his suggested list of stop and yield signs for the next meeting, and the Secretary - Treasurer would have the proper by-law prepared

The Council was informed that Mr. Frank Zelinski by telephone had complained of the condition of the road N. of 19 and 20 N. of 2- and 29 in 16-11-Web Moved that the complaint be referred to Cr Johnston for investigation and necessary action. Carried.

Two petitions from residents in the Hamlet of Dodds were placed before the Council. I. Requesting street lights for the Hamlet

Coal Mine this week it weighed 2 lbs 2 oz. The average at the mine is 11 lbs/box. He was fishing with David Harris Fred Loades weighed and measured the fish.

2. Requesting water for the Hamlet.

Cr Magnuson stated that he felt that a couple of street lights might be advisable in the subdivision and also that it could be that the present well is not in the best condition it was decided that the Secretary should, after Cr Magnuson had looked into the matter, contact the Calgary Power Ltd to see what can be done about street lights. Moved that the requests be referred to Cr Magnuson for investigation and the necessary power to act. Carried.

A request from the Town and Rural Planning for the Council's approval or a lease on the C.N.R. Gravel Pits at Kinsella to Twin Bridges Sand & Gravel of Edmonton was referred to the Council. Moved that this Council has no objection to the proposed lease it Section 20-52-19—46-11-W5th to Twin Bridges Sand & Gravel providing the County will not be called upon to make any improvements in or to the lease. Carried.

Cr. Johnston mentioned that the Manager of the University Farm at Kinsella would like to install two tenns gates on certain roads on the farm and he suggested that the Assn's Solicitor, Mr Brownlee had referred to some gates at the last Convention, stating that, as far as Mr Johnston could recall, if any accidents occured due to these gates, the Municipality concerning could be held liable. The Secretary was requested to contact Mr. Brownlee for further information on this question The Manager of the University Farm had also inquired if the County would stand part of the cost of installing the tenns gates

The Secretary mentioned the fact that this farm, now being Provincial Government Property, is not taxable Moved that, subject to satisfactory information from Mr A. Brownlee, permission be given for the installation of the two texas rates, but that the County are not contribute to the cost of those texas gates Carried.

SERVING THE PROVINCE OF ALBERTA

As Grandma treadled her old sewing machine by the light of the flickering kerosene lamp, she must have thought "there must be an easier way". Today there *is* an easier way — thanks to the advantages of modern electrical living. Now, you merely plug in a cord, press a button, and miracles begin to happen. Decorative stitching, mending, all your sewing is done so easily.

Every task around your home, washing, cleaning — even much of your leisure-time entertainment is due to dependable, economical electric power. Modern electrical equipment comes in all shapes and sizes, and is designed for dozens of purposes. Through wide-spread distribution of electric power Calgary Power helps you LIVE BETTER ELECTRICALLY!

**CLEAN GRAIN**

* Stores Better * Sells Better

Have your grain cleaned immediately after threshing and avoid extra handling and spoilage.

Most Grain has high percentage of green weed seeds this year. Have this removed at your County Seed Plant before delivery to your elevator or storing it. Removal of these weeds can increase the grade and reduce the moisture content.

Book your cleaning order now by phoning or writing the Plant Manager today.

## Canadian Bible Society to Canvass for Funds in Tofield

Lorne Chapman of the Canadian Bible Society, Auxiliary of the British and Foreign Bible Society

According to last years records it is interesting to note that the year was one of continued growth and encouragement for the Can Lan Bible Society There were impressive developments in the translation, production and distribution of the Scriptures The Scriptures were published in fifteen new languages last year. The scriptures have been distributed in 1,165 languages and the Annual World circulation has approached 30 millions which is greater than ever before The Canadian Bible Society is at full tide for Bible work outside of Canada which was an increase over the previous year New Bible Society officers were elected in Hamilton Part-time Colonial North Bay Ontario and in St. John's Newfoundland, increasing the number of District Offices from fifteen to seventeen. Although the growth in the society's service in Canada and the world has been impressive it is still short of our resources for making available to men the Word of God in their tongue The Bible Society's work in Canada and the world is being increasingly recognized as vital to the welfare of Christ' Church and the World

The Bible Society serves all the Churches and missionaries by providing the Scriptures in the languages and quantities they require The work of translating, printing and distributing must be greatly increased to meet the needs.

The Translation Department is currently at work in some 250 languages

In this century the Scriptures have been translated into more than 800 new languages The Canadian Bible Society seeks to hold forth the Word of Life and share the Scriptures with the people of Canada and the whole world

The men in whom we live is renowned for its scientific accomplishments and its power over nature This forces of tyranny move slowly forward, the world's population threatens to overpass the point where human life will be intolerable and over all hangs the threat of atomic annihilation

This darkness of this world was penetrated by the Living Word of God, Jesus Christ, over nineteen centuries ago and that Light pierces the darkness of the world in this and every age through the Holy Bible. The message of the Bible with its note of victory and hope stands out in contrast with the encircling gloom of our time. The sure word of prophecy will ever shed abroad the light of the glorious dawning of the Morning Star day dawn and the day star arise in your hearts."

The Bible is the dawning Word of God and brings hope and peace to all men who read it in their own language.

The local canvassers; Mrs J. W. Robinson is anticipating the pleasures and cheerful response as in former years and is anxious to contact new countries. Those join in advance our and all.

## Don't Shoot Large White Birds They May Be Whooping Cranes

From now until the snow flies no large white bird should be molested in the area from east of Alberta to south Manitoba as MIGHT be one of the few remaining whooping cranes, which will be making its annual fall migration to their wintering nesting ground in Texas.

In issuing its annual appeal for assistance for the whooping crane, the Canadian Audubon Society reports splendid co-operation by the public over the past fifteen years. Through the help of observation remains critical, hopes have been raised by the birds' remarkable breeding success in recent years Right now there are approximately forty left in the wild and they will all be passing along their annual flyway over the prairie provinces starting in early September.

The natural hazards facing the birds on their 3,500 mile flight are formidable enough. We cannot offset the loss of a single individual by thoughtless shooting of whooping cranes, but protection measures begin, and through the co-operation of newspapers and radio stations, there have been few instances of hunters shooting at the whooping crane in recent times. However, unless everyone is prepared to do his part in the preservation of each single bird in the survival of the species, it is possible that one or two birds brought down by gunfire together with bones from natural causes, could spell disaster Conservation and nature groups, especially the Audubon 4-H clubs and citizens generally is urged to spread the word:

## Ed Rogelo Heads Tofield Drama Club

A meeting of the Drama club was held Tuesday and officers elected for the coming year. Ed Rogelo was elected as president Jean Dalloull vice president and Edith Barrson as secretary

It was agreed that a play be staged the latter part of November and that six one Night plays are being looked over to find one suitable. Jean Dalloull gave an interesting account of the Summer School she attended at Olds this summer The matter of a sponsor for the club was discussed and it was indicated a number were available but it was felt that the Community League should be given the first opportunity.

## PFRA Assistance Available For Farm Dugouts

GRANTS FOR DUGOUTS — The renewal announcement by the federal Department of Agriculture stating that PFRA boundaries had been extended to include all of Western Canada, together with the dry summer has created a widespread interest in the construction of dugouts for water supply

With a promise of early completion of harvest and of all conditions for earnwall it is likely that many farmers will be arranging for excavation dugouts in the next two months

Grants of up to $250.00 per dugout are paid if they are built to specifications set out by P F R A. The quality for such grant farmers must make prior application and have the site and dugout inspected before and after excavate a Application forms and information are available at all District Agriculture offices or the P F R A Office in Wainwright.

## Good Seed Crop for Replanting Burned Forest Areas

As fire ravages thousands of acres of first class forest in B. C.'s interior, Nature appears to be taking steps to replace the losses.

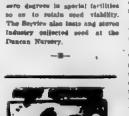
Forest Service surveys indicate that there is a bumper cone crop throughout most of the interior which will provide highly valuable seed for reforestation purposes. The inventory, pending, fir cone crop is light, however, with a good yield anticipated of yellow pine and larch.

Service cone collecting crews will soon be in the field and hope to collect sufficient seed for some 40,000,000 seedlings or enough to replant, over the next ten years, 80,000 acres of burned-over interior forest land.

Forest tree seed collecting is now an important business in B. C. due to replanting needs on large burns and the sustained-yield reforestation requirements of both the Government and industry.

Douglas fir seed on the open market is estimated to be worth some $16.00 per pound.

On the Coast, the fir and Sitka spruce cone crop has deteriorated to the extent that



in the way he should go: and when he is old, he will not depart from it." As they left Mrs. Short's gripping talk Mrs. J. Francis was in charge of a good Lesbian service for 14 Little White Ribbonettes and their mothers pledged never to give their child ren alcoholic beverages and to teach them the wrong of its use The following song by word and had white ribbons tied to their wrists and each was presented with a flower. Mrs. M. ## OF MANY THINGS

BY AMBROSE HILLS

One of the most difficult but top rated tasks in business is that of the sales executives. A sales force headed by the right man may be very well, but flop badly when led by the wrong one.

The same applies to production A good executive is likely to improve production even with exactly the same men and machines which produced poorly under a mediocre executive.

Men may look alike talk the same language, claim similar education and experience, yet be quite different in executive ability Those who possess or develop keen executive skill command high salaries — and earn them many times over for the company alert enough to recognize and employ them.

There is the rub. How to develop executive skill. It isn't easy, yet it can be done.

In his book, "The Men From The Boys" Perin Stryker a Fortune magazine editor considered the matter in detail. He concluded that while there are many subtle differences in the qualities that distinguish ordinary managers from those who have reached full executive stature, the road to the top is fairly direct. The secret of becoming executive material has been known since the time of Socrates

Socrates said, "For the just man does not permit several elements within him to interfere with one another, or any of them to do the work of others — he sets in order his inner life and is his own master and his own law and is at peace with himself"

DO YOU USE INTERFACING?

If the garments you have sewn do not keep their original shape or size or do not keep their pertness, it is probably because you haven't used an interfacing in the correct place

With winter coming soon you will be doing some of your sewing now Do not neglect an interfacing.

An Interfacing:

1. Serves as a foundation to give firmness where you need it.
2. Gives you a crisp, bouffant effect or soft dropped effect.
3. Protects against sagging and distortion of your garment.

TYPES OF INTERFACING ON THE MARKET TODAY ARE

1. Canvas — cotton with a permanent finish since weave shearsoon and a tendency to curve. It is used in flat areas such as collars, cuffs, blouse fronts of sheer cottons, silks, synthetics tightly gives soft but crisp lines.

2. Muslin — is cotton light to heavy weight; must be preshrunk after purchase. It is washable may be bleached or unbleached. It is used in back and front panels of coats and dresses. It is pliable and yields to curved lines.

Powder puff muslin, also cotton, does not press crisp is light-weight and firmly woven. It is used in the same places as organdy and gives soft body to the garment.

3. Nets and Tulles — fibers used may be nylon cotton or rayon They are inclined to curl and the design may press through on a thin fabric Nets and tulles are used on dresses of silk, synthetics, light cottons They give a crisp firm finish.

4. Bonded Fabrics such as Pellon, interlon, Throe are made of of wood, cotton's hair rayon, or other fibers and are bonded with a thermoplastic They are non-woven crease resistant, washable and dry cleanable These is no grainline Bonded fabrics come in various weights and are not suited for areas with darts. They are used in flat areas of dresses, coats, suits Bonded fabrics give firm resilient support, and does not give with the fabric

The above listed interfacings are only a few found on the market today Some others are polimide tissue-on pellon; hair canvas, crinn, sisl, self-fabric. QUALITIES TO LOOK FOR WHEN YOU ARE SELECTING AN INTERFACING ARE:

1. Preshrunk or dimensionally stable. 2 Shape retentive - Non-stretching. 3. Gives shapes as they than bulkiness 4 Color fastness 5. Crease resistance. 6. Firmness on cut edges. 7. Dry cleanable or washable 8. Permanence in crispness through life of garment 9 Is able to support design without boundy appearance 10. Is it of proper weight to blend with the fabric (usually slightly lighter, weight). 11. Is it a smooth surface without texture to prevent shrunk and show on the right side.

Be sure to use no interfacing when you are sewing as it will make your garment much more satisfactory and it will stand up and look nicer longer

## Graduation Exercises For County held Saturday evening

The Tofield Community Centre was filled Saturday evening for the graduation exercises for grade twelve students of the County of Beaver, in the most grandiose exercises have been held in spring to usher winter the rest year it was decided to combine the ceremony and hold it in the fall. It was an successful and that it will now be an annual event being held in a different place each year.

The evening started off with a banquet followed by the Graduation Exercises. Miss Doris Fouts was organist for the evening and Mr. H. Harris, principal of the Tofield School acted as master of ceremonies.

Following the singing of O Canada, Rev. Fr. Venettin of the Ryley parish offered the invocation. Mr. Harris then explained the reasons for the new system of holding the graduation. The Northernires, a barber shop quartet from Camrose consisters of Rudy Magnuson, Arne Ishl, Gordie Ness and Rene Gould entertained the receptive audience with a number of selections.

The Valedictory address was given by Miss Dorothea Schwabe of Holden. Miss Schwabe obtained an average of 80+. in her grade 12 examinations This was followed by an Organ Solo by Mrs. Doris Fouts

Guest speaker for the evening was the Minister of Highways for the Province of Alberta, Hon. Gordon Taylor. He gave an interesting and informative address paying tribute to the youth of today who will be the leaders of tomorrow. He told the graduands that there still are many new fields to conquer

Mr. Ed Wransson chairman of the County of Beaver Council presented Miss Schwabe with a cheque for $100.00 from the County Th's is an annual presentation to the student receiving the highest marks in grade 12. Mr. John Kuhn, president of the A.T.A. local also presented her with a cheque for $100.00 from the local. Mr. B. B. Starky, chairman of the County school committee presented Glenda Otterson with a cheque for $100.00 for receiving second highest mark.

Following some more songs by the quartette the diplomas and pins were presented Mr. James Hemphill of the County Principals Association presented the diplomas and Mr. R. Comarisco, head of the County Students Unions presented the pins.

Following is a list of the students graduating from the various schools in the County

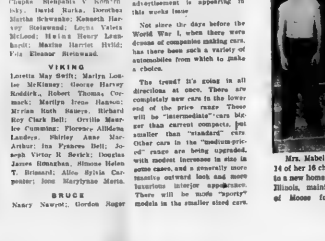
### New Cars On Display This Week

If Canadians were confused by a multiplicity of car models last year, they'll be bewildered by the new offering coming up, says Ralph P. Young in The Financial Post Many of the 1962 model automobiles will be on dealer showrooms in Tofield by the end of this month. The first advertisement is appearing in this weeks issue

Not since the days before the World War I, when there were dozens of companies making cars, has there been such a variety of automobiles from which to make a choice.

The trend? It's going in all directions at once. There are completely new cars in the lower end of the price range. There will be "intermediate"-cars Larger than current compacts, but smaller than "standard" cars. Other cars in the "medium-priced" range are being upgraded, with modest increases in size in some cases, and a generally more massive outward look and more luxurious interior appointment. There will be more "sporty" models in the smaller sized cars.

### FLEW ACROSS U.S. IN 84 DAYS



On Sept. 17, 1911, Calbraith Perry Rodgers, shown at the controls of his biplane, took off from Sheepshead bay, Long Island, N.Y., on the first successful flight across the United States. He landed 84 days later at Long Beach, Calif. The 25-year-old, cigar-smoking pilot made only 64 landings, including 15 crashes, on the 4,321 mile flight.

### St. Johns Ambulance Association To Make Local Canvass

On Saturday, September 23rd 1961 you will be approached by a volunteer canvasser, soliciting your financial support for the St. John Ambulance Association to help further the training of First Aid and Home Nursing throughout the province

For over nine hundred years the St. John Ambulance has dedicated itself to the relief of those in distress without consideration of race, colour or creed. Those volunteers have brought aid to the injured and succor to those in need of assistance.

During the year of 1960, 8,535 Albertans were trained in First Aid and home Nursing. Several reports have been received where lives have been saved as a direct result of this training During the first six months of 1961 training has shown a 26% increase over the same period last year, and with the fall programme still to come, a record training year is indicated. Although a small fee is charged for these courses, it does not nearly cover the actual cost involved, and the deficit is met by paid, subscription.

It is felt that if the close ties was raised many people would be unable to take the valuable training and thus defeat the objective of St. John. When the St. John Ambulance canvasser calls on St. please bear in mind they are volunteers and that any amount you care to give will greatly assist in the furthering of this good work. Your donation may indirectly mean assistance given or perhaps the saving of a life of one near and dear to you.

## A Disappointment

An item recently appeared in the Edmonton Journal to the effect that a Chronic Hospital to serve the Counties of Beaver and Flagstaff would be built at Killam. The item went on to say that a new active Hospital also be constructed and the present hospital turned into a staff residence. This announcement is sad news to the Doctors & Board Members of the local Hospital who have cherished the hope that perhaps a Chronic Hospital would be built here and thus relieve the crowded condition of the present hospital.

It all comes back to the fact that some how we need a representative in the legislature who will stand up for the Bruce constituency. Some time back the sitting member was approached on the matter of the Chronic Hospitals and he stated he knew nothing about them. Shortly after that Mr. Baker of Clover Bar was approached as part of the local Hospital district Les in his area. Why he said this was decided quite a while ago. He also added that had he known we were interested he would have given us a hand in presenting our case to the government. We wonder where the local M.L.A. has been since the last election?

It is obvious that Killam has an active M.L.A. for the pleasing of the Hospital at Killam was political. No other reason can be given. All travel is east-west towards Edmonton, not north-south. The population is rising rapidly in this district as people from Edmonton spread out more and more. There are a number of reasons why this area would have been a logical choice. However, it would not matter so much if the local M.L.A. would come alive and help the local Hospital Board get the much needed addition to this hospital.

## OF MANY THINGS

By Andrew Hilbi

**STEAMING AHEAD**

There are indications that very good times are on the way.

I always hesitate to make such predictions because prosperity is never just around the corner for anyone who isn't prepared to go looking. Yet things are starting to up rather quickly, and it will be a big surprise if there isn't something in the nature of a small boom in Canada before another fall rolls around.

The U.S. economy has already started to drive forward. Our own is almost certain to follow.

For these reasons it seems to me it is a good time to buy essential items. Improvements to property, too, should be planned, and when it does it always causes a number of price increases in the process. I put in an order for a new typewriter on that theory, anyhow, so I am following my own advice. If I were a farmer and needed equipment badly, I'd do my darndest to make the outlay now instead of later.

Gobaltimes, in the sense of a boom, aren't necessarily something to rave about unless, at the same time, governments refrain from going overboard on spending. Goodtimes accepted too casually can create inflation that weakens the buying power of the dollar. This leads to the sad situation where pensioners and all those on fixed incomes suffer while those who are earning larger incomes are having a heyday.

Goodtimes, too, are inclined to lead to union leaders to start a round of huge wage demands. If these demands exceed the increase in productivity that brings about a boom, they soon kill the boom and cause a further and deeper depression.

Nevertheless, it is good to know there is still a lot of room in our economy and that with any kind of common sense we can take big steps ahead in the 60's.

Sad, though, that with the opportunities existing to build a prosperous land, the threat of war may spoil it all. Mr. K. may be alarmed by the Pinkos but I'm almost everything he does seems to be summed for starting bomb testing again and threatening to terrorize the world.

## $200 Scholarships Awarded to 3 4-H Members

Three Alberta agricultural 4-H club girls have been awarded scholarships worth $200 each by the Alberta Wheat Pool. The winners are Diane Stretch, Peoria; Joan Hollestad, Waterhen; and Ruby Hutterwick, Bromhead.

The scholarships are intended to assist Garden Club members to take the Household Economics course at the University of Alberta in Edmonton with the idea of becoming District Home Economists upon graduation. One scholarship is awarded to a girl in each year of the three-year course.

Diane Stretch, who received the first-year award, has been active in garden and dairy clubs for the past three years as well as in various community activities.

The second-year award went to Joan Heimland who has been active in clothing, gardening, beef and field crops clubs for the past eight years. As well as winning other awards Miss Heimland was a delegate to National Club Week in Toronto in 1958.

Ruby Butterwick, also active in 4-H since 1953, as a club member and then a Junior leader, is now entering her third year of Household Economics. She, too, has participated in many community activities.

## Donna Lillian Stockton Weds Garth Franklin in Ft. Saskatchewan

The First United church in Fort Saskatchewan was the scene of a very pretty wedding which united in marriage Donna Lillian, youngest daughter of Mr. and Mrs. E. Stockton of Tofield, and Garth Wilmer Franklin, only son of Mr. and Mrs. W. J. Franklin of Fort Saskatchewan.

Rev. F. T. Ream performed the double ring ceremony while Mr. Lawrence Ipsakian was organist.

Given in marriage by her father, the bride chose an original gown of white lace, styled with bestle back in tiers of lace, a fitted waist line, scalloped neckline and lily petal sleeves. Her fingertip veil fell softly from a crown of sequins and pearls. She carried a bouquet of red roses.

Attending the bride was Miss Carol Franklin, sister of the groom, and flower girl Maria Ilnaschuk, niece of the bride. Both girls were blue nylon sheer dresses and carried bouquets of pink apple blossoms.

Mr. Wayne Moore attended the groom as best man and Ronald Schilbrock was ring bearer.

Mr. Bryan Turner and Mr. Bruce Pickett acted as ushers.

For her daughter's wedding, Mrs. Stockton chose a slim fitting dress of cornbell beigaline with white accessories and pink rose corsage.

The groom's mother, Mrs. Franklin wore an aqua nylon lace over taffeta with white accessories and pink rose corsage.

A reception was held at the Union Hall in Fort Saskatchewan. Mr. Roy Schilbrock proposed the toast to the bride and Mr. William Thomas read several telegrams from Tindale, Saskatchewan and one from San Jose, California.

For a wedding trip to Jasper and Banff the bride changed to a white sheath dress and jacket with mauve accessories.

Out of town guests were from Tofield, Irma, Edmonton and Lamont.

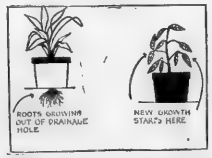
## Garden Graph

By DEAN HALLIDAY



### HOUSE PLANTS SOON RETURN INDOORS

Cool weather is just a couple of weeks away and the potted house plants, which have been vacationing in the garden this summer, should be brought indoors soon before even a light frost endangers them.

Plants which were set out in their own pots are easy to lift and bring indoors. Check them thoroughly for signs of disease or insect. Many plants can stay in the same pot three years by replacing the top inch of soil with a fresh, rich mixture or by fertilizing.

A pot-bound plant with roots as numerous they form a net-work on the outside of the soil ball indicates that the plant needs more room. Frequently, the roots become so crowded they grow out of the drainage hole, as shown in the accompanying Garden-Graph.

Such plants should be moved into a pot one size larger.

Fuchsia plants should not be re-potted before November. Beginning in October, water them less and less. When re-potting, cut back the top growth one-half or more. Cut where the leaves join the stem, as shown, and new growth will start at the joints next spring.

After re-potting, give the plant a thorough soaking. Then place it in a cool, dark cellar and give just enough water from time to time to keep the soil from becoming bone dry.

In March, place the plant on a window sill in a warm room.

**1962 PONTIAC**

A brand new roofline, almost identical in appearance to that of the convertible, is a striking style feature of the 1962 Pontiac Parisienne and Laurentian two-door hardtops. Pontiac features a new lighter weight automatic transmission with the optional Astro Flame 850 h.p. engine.

## Restyling & Engineering Refinements Among Features of 1962 Pontiac

OSHAWA, Ont. — Body restyling and engineering refinements are among the features of the 1962 Pontiac announced here today by General Motors of Canada.

The most outstanding styling change is a totally new roofline on the Parisienne and Laurentian two-door hardtops. These models, seen amazingly like soft-top convertibles.

Pontiac has a new grille design as well as new tail lights. A new, lighter weight automatic transmission is available with the optional Astro Flame 850 h.p. engine only. The transmission is made of aluminum and is some 25 pounds lighter.

The 1962 Pontiac Canadian-built series will be the Parisienne, Laurentian and Strato-Chief offering 13 models.

Overall length of the Canadian Pontiac is 211.6 inches. Width is 78.6 inches. Pontiac's wheelbase is 119inches.

In addition to the Canadian models, Pontiac will be available in the imported Bonneville (two and four-door hardtops, four-door station wagon and convertible), a new sports model, Grand Prix, four Chief (four-door hardtop, 4-4 four-door sedan), Catalina (two and four-door sedan, two and four-door hardtop, six and nine passenger Safaris and convertible) and the smaller-sized four-cylinder Tempest.

For the first time Tempest is available in a convertible model. The Tempest North American's only production car with a front engine and rear transmission, is redesigned. It has a new grille and chrome ornamentation.

In addition to the convertible, Tempest comes in a four-door sedan, four-door Safari station wagon, two-door coupe and two-door sports coupe.

### HERE'S HOW TO COOK IT

WILD BIRDS! — as a rule wild birds are less intelligent handling than furred game, probably because inexperienced sportsmen bag the birds immediately after shooting them, which results in sweating and moulding, then when the bag is emptied at home, a sorry mass of spoiled flesh is discloused, or the birds may spoil when even heat results, then

Here is the correct way:

1 desparate the birds (don't pile them); cool quickly, the B. Treasport them so air circulates around them.

2. As soon as you get home, pluck them. They are usually plucked dry, the feathers being pulled out in the same direction as they grow, don't break the skin.

3. Next, draw and clean them as you do poultry. Put a stalk of celery inside each bird; store in refrigerator.

4 Wild birds make best eating if they're refrigerated before cooking, small birds for 2 to 4 days with a loose freezer, game can be frozen as soon as plucked, drawn, cleaned, and chilled

A WILD DUCK — the tweezers to remove stubborn pinfeathers. Refrigerate 2 or 3 days before cooking. Half a duck serves one. Cook ducks rare - rich red juice, tender flavor. If you don't like it rare, cook a little longer (although this may toughen the bird). Serve with wild rice or fried hominy, turnips or green peas, and currant or cranberry jelly

B PARTRIDGE — to best when hunting season starts - young and tender, with breastbone that breaks easily when bent. Half a bird serves one. To bring out its superb flavor, plank draw, clean; then refrigerate for 1 or 2 days. Roast young ones, well wrapped in bacon or salt pork slices. Braise or make, and from "old-sters". Sauerkraut or cabbage goes well with partridge.

C PHEASANT — pluck, draw and clean it as you would a chicken. Then cook a celery stalk inside; refrigerate at least 2 days before cooking. One bird serves 2 to 4 people. Cook by age. If spay at back is pliable and end is rounded, the pheasant's young. Just right in broil or roast, well covered with salt-pork slices. Strains older birds. Especially nice served with cabbage, braised celery, wild rice, or tart celery.

DUCK A LA ORANGE SAUCE — clean a four pound duck. Wipe dry and fill unpeeled apples quartered and 1 onion sliced. Skewer legs and wings to body. Place unstoned on rack in shallow pan. Lay 3 thin slices of orange on breast, set in oven at 400 degrees for 30 minutes, remove and pour off all fat. Braid ½ cup orange juice and pour quickly over duck. Return to moderate oven at 350 degrees F to roast 1 hour longer. Garnish with orange slices. Serve with sauce. Pour off excess fat leaving 4 tablespoons juice and fat in pan. Stir in 2 tablespoons of flour until smooth; then stir in ½ cup orange juice and a bit of coarsely grated rind. Simmer 2 minutes. Serve hot with duck.

### IN MEMORIAM

In loving memory of our beloved husband and father Bruno Richard Klein, who passed away September 24, 1953.
Three years have passed since that sad day
When God took our loved one away.
His memory is so dear today,
As in the here he passed away.
We loved him but God loved him best,
And took him home to eternal rest
Ever remembered and sadly missed by his loving wife Ellen and family, Walter and Evelyn Eaton, Leroy and Shirley Eaton and Rita and Herb Siemens, also the grandchildren.

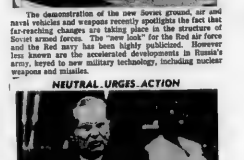
*Russian Short-Range Missiles on Carriers*

The demonstration of the new Soviet ground, air and naval vehicles and weapons recently spotlights the fact that far-reaching changes are taking place in the structure of Soviet armed forces. The "new look" for the Red air force and the Red navy has been highly publicized. However less known are the accelerated developments in Russia's army, keyed to new military technology, including nuclear weapons and missiles.

*NEUTRAL URGES ACTION*



Opening the summit conference, first of its kind, of 24 unaligned nations in Belgrade, Yugoslavia, host President Tito warns that World War III could break out at any moment, urges that immediate action be taken, primarily through the United Nations, to prevent such a catastrophe. Representatives at the conference are from Asian, African and Latin American countries.

## Turkey Bingo To Be Held On Wednesday, October 4th

Attend the Community League Thanksgiving turkey bingo, to be held in the Community Centre on Wednesday, October 4th., starting at 8.15 p.m. They will be 25 games and the prize each time will be a lovely oven roaster turkey for some lucky person's Thanksgiving table.

Plans are being finalized for the Grand Old Time Harvest Ball. Music will be supplied by Bill Hayshaw Orchestra, and various novelty dances and other prizes will be in the offering. That's at the Community Centre, on Friday evening, October 13, in the Grand Harvest Ball.

The final figure on the loss sustained by the Community League by the cancellation of the July 1 Sports Day has been totalled. Total non recoverable expenses was set at $437.47. The full support of the people of the district is requested in the solution to be stayed during the coming months in an attempt to overcome this loss. President R. Mattice has stated that the Turkey bingo and Thanksgiving Dance will be the first chance for all to give the league the support it needs to actively function.

## County of Beaver School Committee Holds Regular Meeting

Mr. Archer Ryy at the request of the Superintendent of Schools, attended the meeting and stated that he manufactured bicycle racks, the price for a ten foot rack, sufficient for approximately 16 bicycles, was quoted at $95. He also manufactured fence on ten foot posts, five feet apart, 1¼" pipe, material 50c per foot. Installation 10c per foot. It appeared that the cost would be approximately $30.00 per hundred foot complete. Mr. Ryy also manufactured teeter totters and other playground equipment, and ornamental railing for stairways.

It was felt that the 1¼" pipe would not be sufficiently strong for fences at the school and Mr. Pike suggested that possibly some maintenance forces could locate some heavier pipe in the city and that the work could be done by our own staff. It was moved that we order 5 - 16 ft. bicycle racks from Mr. Archer Ryy. Carried.

Moved that Nick Skolnicki be authorized to locate and purchase the necessary amount of 1¼ to 2" pipe to use as fencing at the various schools.

The Superintendent informed the Committee that the matter of a uniform Sports Policy for the County Schools, would be considered at a Principals' meeting on September 26 at 7 p.m. in the Holden School Moved that Mrs. Scarby, Roddick and Mr. Golka be appointed a Committee to represent the School Committee at this meeting. Carried.

In connection with the Sound System at Tofield School and the question from Canadian Electronics Limited in the amount of $1,750.00 as referred to the Committee on August 3 The Superintendent informed the Committee that in checking the quotation he had found that certain items had been left out, and that after discussing the matter with the Company, a price of $2,040 00 had been arrived at. The Company had been advised to go ahead with the installation but as far they had not done so. Moved that the report be accepted and arrangements concurred in. Carried.

Referring to Resolution 241 at the August meeting, the Secretary reported that the proposed lease for the old United Church manse had not been proceeded with, in view of the fact that the County did not require the accommodation, and also because the present tenant wished to continue to rent the building. Therefore the new tenchenage had been moved into Ryley as was occupied by Mr. and Mrs. Johnson, teachers that had arrived from England. Moved that the report be accepted and the arrangements concurred in. Carried

Moved that resolution No. 260 passed at the July 31 meeting, authorizing the lease of the United Church manse at Ryley be and hereby is rescinded. Carried. Moved that the letter from Mr. Wilbur H. Anderson of RR No. 2 Kingman cancelling his application for the position as spare bus driver be received and filed. Carried.

Moved that the letter from Mr. John Keller, Principal of the Bruce School thanking the School Committee for having been authorized to attend the leadership Course for School Principals for the second consecutive year be received and filed. Carried.

A letter from Mr Steve Tomchin of Holden offering to purchase the Standard School, situated on the Ryley School grounds, was referred to the Committee. As this school building is not required by the County and as the site is not for sale, to advertise the building for sale. It was Moved that the Standard School be offered for sale by tender. Carried.

A letter from Rudolf Steinwand of Holden applying for the position of school bus driver at Holden was referred to the Committee. Cr. Gibson reported that Jos Kennedy, now driving a bus, did not want to continue as a bus driver and that a permanent driver would be required. It was pointed out that H. Rempel, a spare bus driver at Holden, had requested a permanent position. Moved that Cr. Gibson and Superintendent be appointed a Committee to interview Mr. Steinwand and Mr. Rempel and to appoint a bus driver to take the place of Mr. Konarenkiy. Carried.

Moved that an Apprenticeship Progress report in regards to Neil Reid in his third year in Motors Vehicle repair be received and filed. Carried.

Moved that Mr. Neil Reid be advised in response to his request for a $25 a month increase in wages, that no increase can be considered at the present time. Carried.

Moved that the letter from Mr Mari Kiedley of Viking, thanking the School Committee for having been chosen the outstanding teacher for the 1960 - 61 school year be received and filed. Carried.

Cr. Gibson reported that on September 5 the first day of school term a large number of children, attending the school at Holden, had arrived without any lunches apparently not aware of the fact that the school would be in session all day He presented accounts from Sam's Grill and Coffee Bar for sandwiches in the amount of $27.55 and for 99 bottles of milk supplied by the School Principal stating that he had felt it necessary to make these arrangements. Moved that the arrangements made by Cr. Gibson for lunches on September 5 in view of the fact that many people that had not brought their own lunches be concurred in and the accounts paid.

The Secretary reported that he had placed Fire Insurance on the new teacherage at Ryley in the amount of $500. on furniture, amount of $7,000. on the new teacherage at Viking, and that he had placed Fire Insurance in the amount of $500 on furniture while the County had placed in the Ryley teacherage. Moved that the report be accepted and concurred in.

It was reported that furniture in the amount of $437.76 had been purchased for the new teacherage at Ryley and that two single beds, one dresser and one chiffobbe had been purchased for the basement suite at one of the teacherages re (Continued on Page 8.)

## Six Nominated for 3 positions on Ryley Council

Six men were nominated Wednesday to fill three seats on the Ryley Village Council. Normally only one seat becomes vacant at a time but the village ratepayers recently voted to increase the size of the Council from three to five. Those nominated were: Fred G. Leadlow, whose term has expired; Mr. William S. Reddy; Mr. Robert Greig; Mr. Edward Albrecht; Mr. R. O. Malberg and Mr. Udd Dybech.

The election will take place on October 18.

The councillor receiving the highest vote will be elected for three years, second highest two years and third highest one year.

## Former Dodds District Resident Killed in Shooting Accident

Funeral Services were held on Thursday, September 21 for the late Ernest Chappell of Viking, Alberta Ernest, aged 44, was killed in a freak accident on September 19 around 7 a.m. He had gone out to get the cows and taken the 22 rifle to shoot magpies. In opening a wire gate he evidently became caught and fell and the gun discharged. He was found a short time later by the hired man, Allan Davies.

Ernest had been married less than a year and besides his loving wife he leaves to mourn his mother and dad and two brothers Bob and Arnold, all of Viking.

He was well known in Tofield and Ryley districts having lived there until 1947. He was active in sports during that time. Later he was a partner with his brother in the Dodds Coal Mine although he did not take a active part in its operations

## Cold Weather Delays Harvest Operations here

Although unseasonably cool weather with intermittent precipitation delayed operations during the past week, the 19c harvest in Alberta has now been almost completed Tofield generally have been somewhat busier than anticipated early in the season with grades in the higher brackets. The wheat crop has been of good quality, the per cent grade being No. Two Manitoba Northern

Charlie Nolan of the Alberta Wheat Pool here in Tofield estimates that 70% of the harvest is finished in the area. He states that where in averaging 35 bags per acre, Coste 45 and Barley 30. This is well above the average for the province, which is estimated at: Wheat 18; Oats 32 and Barley 24

The rain was ideal for woodland crops that were not sprayed to kill the weeds are requiring cleaning before being marketed Some report a dockage of 50% and over if not cleaned.

One week of good weather should see the completion of the harvest in the Tofield and Ryley areas.

CBC AND ADVERTISING

It was suggested that the CBC ... newspapers a boost... ...ers more advertising that ... and ... It would ... this ... CBC ... would draw at its best ... commercials), but now seems to be bragging about its dual ... this connection. The release is not likely to please editors of newspapers which are subsidized TV ceiling into their own ...

There was something else quite questionable about the CBC's boast of quick and effective ... ing. The story carefully avoided mentioning that the sales ... were won due, in part at least, to an important change in policy.

The change is a strange one. CBC salesmen no longer ... that a big advertiser ... Canadian material if he wants a big American show. Not at all. Several big advertisers are on imported American shows and are not even sponsoring any Canadian programs at all. Even friends of the CBC will be a bit surprised at this radical about face.

Another thing that makes the CBC's boast somewhat hollow is the fact that its competitor, the forthcoming private network, CTV, is abiding by the old rule that a sponsor who wants an American show must also invest something in a Canadian show. Surely it is strange that the private network which is not receiving ... should be the one to carry the ball for Canadian ... while the CBC, a very ... for the development of ... is not.

What is the BBG doing about this? Surely the least it can do is ask the CBC at a public hearing why it abandoned the policy of requiring advertisers to do some Canadian broadcasting along with their American shows! If it cannot give a good answer, the politicians would surely wonder if they aren't subsidizing a wrong network.

## Tofield Historical Society

Lacombe in the name is a term written by Harold Noble with regards to the recently formed Historical Society. The name of the newly formed organization show the thoughtfulness of its founders. All too often the historical area is lost and never regained. It is the hope of this society that through the efforts of its members the history of the district can be retained for future generations. It would be too much to expect that all persons would take an active part in the society, but all can play a part by not destroying the things related to the past, but turn them over to the Society to be preserved for future generations.

The map also is for suggested news about the Lacombe "all out war" in the Congo's Katanga province.

## Letters To The Editor

The Tofield Mercury
The Editor
Tofield, Alberta

Dear Sir:

On Saturday, September 23rd, members of the St. Johns Ambulance Brigade conducted a canvass in the Town of Tofield.

All members of the team have remarked on the courtesy of the people they came in contact with. This made, what is at times an unpleasant job, to say the least, a real enjoyable experience.

We, therefore, hope you can find space in the Mercury to let the friends of St. Johns Ambulance in Tofield know their attitude and assistance is very much appreciated, and further, that the financial support given will assist in furthering our service to the people of Alberta.

Yours very truly,
W. L. Wyke
Provincial Vice-president

To The Editor:
Tofield Mercury,
Tofield, Alberta

Dear Mercury Readers

In the past few months a committee of interested folk have been busy laying the ground work for the forming of a Tofield Historical Society. Matters of constitution, selection of officers, and committees have been attended to. We have secured the Amisk Creek School from the County to be used as a museum building to house our exhibits referring to the past. We hope at some future date and opportune time a fitting ceremony can be arranged on that the building may be dedicated in memory of the pioneers of this area Tofield, in the heart of Beaver Lake country the scene of a glorious, yesterday Long before the coming of the white man Beaver Lake was known as hunting grounds for both the Blackfeet and Cree Indians. Later, as the white man came, many stirring events took place and green were the exploits of these early settlers.

The purpose of our Society is to preserve some of its past so that the sons of the pioneers may be a bit familiar with some of the sacrifices of their kin folk made to give us the great land in which we live today.

It is the hope and desire of the executive that we will be offered a sufficient supply of items pertaining to this age to fill the exhibit building. If you possess any article that played a part in the building of the Tofield District any one of the committee would be very happy to talk to you about it. If you possess any interesting information that possibly would be interested in please let us know our secretary will hear your story and record it for us. We try to keep what belongs to the history of the area and not in some [illegible] lies away. I would [illegible]

## Plan Dugouts Carefully

Since the recent announcement that P F R A. extended its sphere of operations to include all of Western Canada a large number of farmers are planning to excavate dugouts to provide or supplement their farm water supply. P F R A. grants normally cover one-third to one-half of the cost of excavation, with grant being based on the volume of excavation.

To be eligible for a grant farmers must excavate dugouts to P F R A. specifications. The minimum requirements demand that dugouts must have a capacity of 1,000 cubic yards and be at least 10 feet deep, with side and end slopes as specified by regulations.

There are also a number of other factors to consider which, although not necessarily required by P F R A., will add considerably to the value of the dugout. Firstly, it should be located in an area where there is sufficient runoff to fill each spring, and it is estimated that a runoff from 25 to 40 acres is required to fill an average sized dugout. Care should be taken to secure that no runoff from the farmyard enters the dugout.

Secondly, the dugout should not be placed in a creek bed or water course as water running in after it is filled will only silt up the contents and reduce the capacity after each runoff. If at all possible it should be located that water will by pass the dugout after it is filled.

Where dugouts are dug in or near farmyards consideration should be given to locating it in such a place that it can be used not only as a stock watering reservoir but also as a source of water fighting in the event of fire.

This may be particularly useful in the Tofield area where consideration is being given to a farm fire fighting service. There is a strong possibility that the farmers will have a fire fighting unit in the very near future. An adequate water supply near the farm yard would make it much more effective.

Where good well water is difficult to obtain for household use, dugout water can be used if a proper filtering system is installed. This can be done by having water from the trench run through a gravel filled trench or a sand and gravel filter installed in the dugout itself

Farmers contemplating excavating dugouts would be well advised to acquire themselves that the contracts is aware of the P F R A specifications which can be obtained by contacting the P F R A Engineer in Wainwright

Information and application forms may be had from the P F R A office or your district Agriculturists Office

## 1962 Plymouth is New in Style and Proportion with Emphasis on Economy

...reveal a 30% increase in boot strength. Likewise increased rigidity is reported. Ouch. This represents the second straight year that these areas have been improved.

The re-designed Torsion-Aire suspension system provides improved insulation from road noise and vibration. New engine mounts, larger rubber bushings and/or bearings. The brake system noise levels have been reduced.

Plymouth's improved six stage 6 reports current production problems, to further supplemented in 1962 by the use of sub-zero cool for the heavy-gauge body side rails. Combined with the dip-spray process this ensures maximum protection in the most critical underbody areas. Good moisture drainage of and body areas also contributes to premature rust prevention.

A new weather conditioning system is incorporated with a new heating and defrosting system to provide continuous hot or cold weather comfort. Using a turbine-type blower (the first of its kind in the automobile industry) and a newly developed air distributing system, this unit will deliver 225 cubic feet of cooling air every minute, even when the car is stationary.

The blower is so effective that it can force up to two changes of fresh air through the car every minute.

Better fuel economy is obtained by taking advantage of the car weight reduction to reduce engine speed with lower axle ratios thereby causing the engine to run more efficiently at cruising speeds.

Additional protection against carburetor flooding and consequent engine stalling, is provided by the introduction of a 15-inch rise in the carburetor fuel line on six-cylinder engines. Detail design modifications in the automatic choke system used on all Plymouth engines increase the operating efficiency of this unit and ensure constant closing of the choke. These changes improve starting reliability.

Starting with this model year, periodic lubrications at the previous 2,000-mile intervals will no longer be necessary. The chain lubrication points are prelubricated and sealed at the factory. Ball joints have plugs which can be removed for replenishment of the lubricant at 12,000-mile intervals. The tie rod ends are sealed for life.

The brakes on the 1962 Plymouth will require very little maintenance. A self-adjusting feature incorporated in the design makes it unnecessary to have them adjusted periodically.

## PLYMOUTH CARS ALL NEW IN 1962

The 1962 Plymouth passenger cars from Chrysler Corp. heads feature a clean, crisp design that is new from the attractive grille treatment to the swept-line rear deck. The design of this series of Plymouths also is enhanced by a reduction in overall length and a wheelbase of 116 inches, although there is no appreciable reduction in passenger space. Pictured is the Plymouth Fury two-door hardtop.

### SPICES AND HERBS

Storage - should always be kept tightly covered in a cool dark, dry place. Light and heat affect the volatile substance which gives them flavor and aroma.

It is not advisable to buy spices in large quantities, because even under the best storage conditions the flavor potency is lost. They should be replaced every six months if possible.

WHAT THEY ARE AND HOW TO USE THEM

ALLSPICE (spice) - a berry from a large West Indian tree. The flavor resembles a blend of cloves and cinnamon. Used in pickling, fruit preserving, spicy meat dishes, sauces and combinations.

BAY LEAVES (bay) dried leaves of the laurel tree of the family. Used in soups, gravies, meat sauces and pickled beets.

CARAWAY (herb) fruit or seed of the caraway family. Used in breads, cakes, vegetables, meats and pickles, also crushed in cottage cheese.

CHILI POWDER (spice) - made from the pods of the chili pepper which is used in pickles. The powder is used in chili con carne or other Southern and Mexican dishes.

CHIVES (herb) - member of the onion family. Have a small bulb and fine leaves resembling grass. The entire plant is used for seasoning and garnishing cottage cheese, soups, egg dishes, salads, etc.

CINNAMON (spice) - inner bark of the cinnamon tree grown in tropical countries. Sold as stick cinnamon (the claimed peeled bark) or as ground cinnamon. Flue in beverages, desserts, soups, fish, meat, pies, pastries and breads. Often mixed with sugar for topping waffles, muffin cake or hot buttered toast.

CLOVES (spice) - dried unopened flower buds of the clove tree imported from the Spice Islands also from the East and West Indies. Used whole or ground in pickles, stuffings, sauces and gravies, pickles, chutneys, etc.

CURRY POWDER (spice) - a combination of as many as fifteen different herbs and spices. The result is a high seasoning. The spicing value is due to Tumeric. A dash makes delicious dishes to suit a tenderly inhibi and enriched with rice.

DILL (herb) - associated with the parsley family. Seeds and leaves used chiefly in making pickles, but has many culinary uses. A few sprigs are sometimes added to new potatoes when they are half done. Also may be added to crabmeat or salmon, lamb, salads, tomatoes or other vegetables.

Watch out in next week for more information on spices and herbs.

Several Ryley folk attended the Car Races at Viking but did not bring home any prizes. A Holden man won the car.

* * * *

A few careless and thoughtless hunters, my not improvise hunter — farmer relations in the Ryley district. Besides, dead livestock being reported by a few farmers, one farmer was most unhappy to find several bale stooks on fire and the fire advancing on a large granary full of grain. Most depressing was the fact that the [illegible] had burned after the fire was started. Had it not been for the prompt action of a few [illegible] the fire [illegible] out of control.

GERANIUM CUTTING

## GERANIUM CUTTINGS FOR WINTER USE

The geranium, no doubt, is the shrub for a day. Its fine favorite flower to grow indoors or out; and probably no flower is more generally cultivated in America. There are very few homes large or small that do not have a few plants giving forth their blossoms.

Geraniums cannot be expected to bloom summer and winter, so now is a good time to take cuttings to bloom later. However, those cuttings should be kept dis-budded until January 1.

Make each cutting at the node just below a leaf. A cutting can be four or five inches in length. Remove the leaves from that part of the stem that is going into the soil.

Do not plant the cuttings immediately. Leave them in large enough.

## PRE WINTER NEEDS

## Minutes of the Regular Council Meeting of the County of Beaver No. 9

The question of alteration of number for Public Works in the various Councillors was discussed at this time, and it was moved that the following accounts be allowed: W. H. Johnston - $47.00-06 ; J. H. Hedden - $42.00-06; B. H. Starkey - $32.00-06; W. Kreyebohl - $17,000.00; A. L. Gibson $47,000.00; E. M. Mackinnon $42.00-06; H. Westbye - $42.00-06

Carried.

The secretary reported that the Village of Holden had paid a further $600.— on their account re: Sewer Diversion for work done — their water storage dam. Moved that the report be accepted.

Carried.

In regards to the proposed provincial park, the secretary reported that the Dept. of Water Resources appeared to be doing some investigation in this matter at the present time. Moved that the report be accepted.

Carried.

In regards to the request for street lights and water supply at No. 34, Cr. Magnuson reported that he had not as yet had the time to investigate these requests, but would do so as soon as possible. Moved that the request for street lights and water at Diddle be tabled to a later meeting.

Carried.

In connection with the request for permission to install trans-zone dealt with in Resolution No 617 at the August 1961 meeting, the Secretary referred to the Council a letter from Mr. A. M. Brownlee in this matter. The letter outlined the situation very well and Mr. Brownlee requested that, as the whole question of the installation of trans gates and the responsibility for those gates under conditions was of considerable importance, the Alberta Association of Municipal Districts might consider looking into drafting of a standard form By-Law. He also suggested that some Municipality in the southern part of the Province might offer some definite suggestions as to the type of conditions to be included in an authorizing By-Law, by reason of their experience in the past with trans gates. Moved that the information be received and filed and that the Secretary-Treasurer obtain further information in regards to a proper By-Law in this case.

Carried.

CORRESPONDENCE

A letter from the Secretary-Treasurer of the Immanuel Lutheran Church at Bruce, requesting of the pipeline of sewer line from the Bruce school across the church property was referred to the Council by Stirkey information the Council that Mr. and Mrs. Ernie Barth, who was a member of the Immanuel Lutheran Church, had made the arrangements for the sewer line to be placed where it is located and

Mr. Starkey felt that he should have been given an opportunity to explain the situation to the Board. Moved that the Secretary-Treasurer of the Immanuel Lutheran Church at Bruce be advised that Cr. Starkey would appreciate having an opportunity to attend a Board meeting to explain the reason for placing the sewer line across a small portion of the church property

Carried.

A letter from Arthur A. Voice Construction Co. Ltd. advising that a foamed asphalt project had been completed at Cochrane and expressing their confidence in the foamed asphalt method of paving and this would be a very suitable thing for this purpose. The letter indicated where contact could be made to view the work. Moved that the letter be received and filed.

Carried.

Moved that the letter from Canadian National Railways concerning the action necessary in regards to railway crossings before any alterations are made to roads leading on to railway crossings, be received and filed.

The problems generated by the death of Fig Hammarskjold are not all on the free world side, this photo of Soviet Foreign Minister Andrei Gromyko at U.N. indicates.

## Tofield United Church Scene Of Double Ring Ceremony

Baskets of white gladioli, trios of ivy, garlanded white candles and roses were features of the nuptial-ity of the valley formed the background for the wedding recently in the Tofield United Church in which Miss Barbara Anne Phillips became the bride of Mr Harold Neale Conquest. Rev H. B. Richer of Bowmanville performed the double-ring ceremony for the daughter of Mr and Mrs. Neil Phillips of Tofield and the son of Mrs Charles Conquest and the late Mr. Conquest of Edmonton.

The bride, who was given in marriage by her father wore a traditional white gown The yoke, sweetheart sleeves and panel were of patterned lace with a trimmed of silver thread. The bouffant overskirt of peau de soote attended into a slight train. Her floor-length veil of finest tulle, held in place by a sequin-ed headdress, was a family heirloom having been worn by her mother and aunt another She carried a cascade bouquet of silver-sprinkled white and gold phonta daisies, outlined by a shower of ivy and ivy jewellery was a single strand of pearls, the gift of the groom.

The bride's attendants were her sister, Miss Evelyn Phillips, as maid of honor, Miss Sherry Nolan of Edmonton, and Miss Judith Layman of St. Johns Nfld as bridesmaids, and Hilla Miss Susan Beresford, cousin of the bride as flower girl. All the attendants were crystalline bodiced after that of the bride, but in street length. The maid of honor chose aqua; the bridesmaids a dusky rose; and the flower girl, deeper aqua. All were matching white floor headpieces, white shoes, and gloves and carried identical bouquets of silver-sprinkled white Shasta daisies, except the flower girl, who carried a colonial bouquet of similar flowers

Mr Ralph Conquest of Edmonton was his cousin's best man, while another cousin, Mr Raymond Lewis and Mr Emmon Cox were the ushers Master Terrell Andrews was the ring bearer for his uncle and the bride

Immediately preceding the ceremony Miss Glenda Patterson of Camrose, "The Lord's Prayer" She was accompanied by Mrs J. E. Stinson who also played the wedding marches and accompanied Mr Larry Dorward of Vilna who sang "O Happy Home" during the signing of the register

Following the ceremony, a reception was held in the Tofield Church Social Rooms at which the bride's grandparents, Mr and Mrs Neil McKinnon of Mannville received with the parents of the bride and mother of the groom Per her daughter's wedding, Mrs Phillips wore a dress of gold crepe, matching gold hat, with white accessories and corsage Mrs Conquest chose a purple gown with hat and accessories

A letter from the Chief Bridge Engineer Dept. of Highways, concerning Bridge File 7756 6-E-W 6-52-19-W4 was referred to the Council. Enclosed with the letter were two copies of the highway maintenance profile for the location concerned. A proposed grade line had been struck having 6% grades on the approach hills and minimum sight distance curves. It was estimated that about 11,000 cu. yds. fill was required for the road at this location. The letter also advised that how 84" SPCMP culvert would be supplied for 35 ft. fills; 2:1 side slopes, and a 36' top. The Council was further advised that Cr. Haddrick intended to have this work done this Fall and that the request had been made for the right-of-way to be delivered at the location as soon as possible. Moved that the information be received and the correspondence received and filed. Carried.

The Secretary informed the Council that the bridge requests for 1962 would have to be submitted to the Dept. of Highways in the near future, and it was decided that each Cr. bring his requests at the October meeting. Carried.

Cr. Wentzlaff reported that the Bridge at N.W.Y. 1-44-19-W4 was in bad shape. The pilings were apparently breaking down and that a school bus was crossing this bridge Cr. Wentzlaff was advised to make some arrangements so that the bus would not have to cross the bridge, and the Secretary - Treasurer was instructed to refer the matter to the Bridge Branch of the Dept. of Highways.

Mr. A. Bradley appeared before the Council in connection with Imperial Sand Sources Limited proposed subdivision at Inlet Lake. The new subdivision plan as presented at this time, provided 14 lots instead of the former plan which provided for approximately 100 lots. Cr. Wentzlaff was of the opinion that the area set aside for a public park in the subdivision should be placed in a different location to that shown on the plan and be [illegible] Moved that the [illegible] Carried.

[illegible] Mr. Reddish informed the Committee that he and Cr. Starkey had advertised for tenders for the supplying of approximately 15,000 yds. of gravel on S.W. 16-50-12 W4. It was moved that Cr. Starkey and Mr. Reddish be authorized to open the tenders. Carried.

that he did not now wish to purchase Lot 5 in Block 9, Plan 1434 W in Bruce as the location was not very suitable, being next to the Community Hall, and it was used for parking. Mr Mirsch would instead like to purchase Lot 13 in Block 6, Plan 4684W and he offered $15.00 for this lot Moved that we agree to the cancellation of sale of Lot 5 in Block 9 and that we accept the offer of $15.00 for Lot 13 in Block 6 from Mr Mirsch.

A letter from the Bruce Standpole Association offering to purchase Lot 5 in Block 9, Plan 1434 for $25.00 was referred to the Council at this time. Moved that we accept the offer from Bruce Standpole Ass'n to purchase Lot 5 in Block 9, Plan 1434W.

Accounts for weed spraying on Highways 14 and 26 for the Dept. of Highways were now referred to the Council. The Accounts contained a 20% service charge the total amount in regards to Highway No. 14 was $281.16, in regards to Highway No. 26 was $142.14 Moved that the Accounts to be approved and forwarded to the Dept. of Highways. Carried.

A letter from Northwestern Utilities Ltd. stating that they were prepared to give ingress and egress across those Right-of-Way on July 10-48-11 W4, so that the Park at Camp Lake could be maintained was referred to Council. Moved that the previous motioned at the Nov. 1960 Council Meeting be rescinded in reference to Mr. Johnston and that the information be received and filed. Carried.

The Secretary informed the Council that Dr. Lee Office would be in Tofield on September 5th to discuss matters of interest of the Ministry of Home Affairs in Japan had spent the day in the Office getting information on Rural Local Government in Alberta Mr Kosi Saka was studying Local Government in Alberta and British Columbia under a Fellowship from the United Nations. Mr Kosi Saka had appeared to be very interested and quite impressed with our system of Government. One of the Inspectors from the Dept of Municipal Affairs had accompanied Mr Kosi Saka. This was the second time this year that Foreign officials had visited the County Office. In June two members of the Government of Afghanistan, Mr. Ghulam Dastagir and Mr. Mohammad Gul Wardak, had been in the County Office, also with the object of studying Local Rural Government in Alberta.

Cr. Starkey suggested that the County should obtain a rubber tired Tractor loader. This equipment would come in very handy for loading gravel and for doing other work; moving earth at bridge sides, digging in culverts, etc. However the Council felt that the need for this equipment should be further investigated and it was decided to table the suggestion for the time being.

GOOD news!.. I'm here now and BETTER than ever
Canada's BEST selling compact... '62 FALCON

I'm 63 ways new from transmission to carburetor . . . with smoother shifting, quieter ride and even better economy. And as for the rest of me, they're the things that have made me the best-selling compact car in Canada. I go as much as 35 miles to the gallon on regular gas, and I now go up to 6,000 miles between oil changes. There's a new 30,000-mile or 2-year radiator coolant. My price is low. My trade-in value is highest of any compact in Canada. And my brand-new brother is here, too . . . Falcon FUTURA . . . with new interior luxury appointments, including a smart console compartment between the new bucket seats. Now we're here you'd better come see us fast—before the line up's too long. And Ford Dealers give a 12-month or 12,000-mile warranty, whichever comes first.

'62 FALCON FUTURA . . . Compact cousin of the Thunderbird . . . with individually adjustable bucket seats . . . a handy console compartment between the seats for gloves, camera, sunglasses and other personal effects . . . sleek new outside trim. That's the '62 Falcon Futura—an exciting new approach to compact travel.

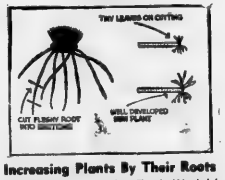
# Garden Graph

By DEAN HALLIDAY



## Increasing Plants By Their Roots

CHOICE perennials can be increased by taking root cuttings from them. Root cuttings can be made of fleshy rooted plants, such as anchusa, poonies, oriental poppy, dicentra, gypsophilia and phlox. In fact, this is the quickest method of propagating phlox. The cuttings can be taken as late as October.

Sections of a root are cut into pieces two or three inches long, as shown in the accompanying Garden-Graph. Plant the cuttings in a mixture of half sand and half rich loam. Set each cutting about one-inch below the soil surface in a horizontal position. Keep the cuttings moist.

Cuttings can be placed in a cold frame or planted in regular flower pots or flats out of doors. They should be shaded at first. Soon a crown will develop on each root cutting, followed by tiny leaves, as shown.

Some of the cuttings planted now will develop new plants before the present growing season ends. This is especially true of phlox cuttings

After the soil freezes, mulch the growing cuttings with peat or straw. Some gardeners prefer to winter over the cuttings in cold frames.

By next summer, the small plants developed from the cuttings will be well established and ready to set out in the garden. Blooms can be expected on the new plants the second year.

## Public Speaking Program Popular

[illegible] Speaking contests [illegible] popular during the past year with virtually every member taking part in the Club presentations and competition.

The members entered on by the opportunity to compete in the Provincial competition. All made earnest efforts to win the Club and County laurels. Each Club contained competitions among their own members, the winners of which went on to compete in the County Finals where the candidate for the provincial finals was selected.

Melvin Wiebkin Tofield Beef Club President won the 4-H County Trophy awarded to the top speaker and earned the privilege to represent the County of Beaver 4-H Clubs at the Provincial Public Speaking competitions at which he placed third.

All who heard Melvin at the provincial meet were certain that he would be a strong contender in future competitions

## 4-H Members Earn Money For Club Funds

4-H clubs like any other organizations require funds to finance their Club Activities. Kentucky Clubs sponsor dinners, calendar raffles and solicit contributions to meet the financial needs of their Clubs

During the past year some of the Clubs struck on new ways to raise funds. The most novel method and one that attracted a great deal of attention were the Silver Auctions held by the Ryley 4-H Dairy Club and the Holden 4-H Beef Club.

The Silver Auctions were just what the name applies. The members were offered for sale to the highest bidder and became the slave of the buyer for a day with the understanding that each would work for the buyer for the entire day.

This proved very successful for the Clubs financially and gave many of the members their first opportunity to work away from home. This was indeed an expensive experiment and a project which the Clubs will very likely continue in the coming year.

The Ryley, Holden and Viking Clubs also undertook to sell name plates, for town boxes. This proved a very worth while project financially is also added something to three communities in that the name signs make it much simpler for strangers to find persons in these three towns

It will be interesting to see what new ideas will spring from the young fertile minds of the 4-H members during the coming year.

The girls homemaking projects need several ideas for earning their monies. The formal tea proved very successful. The Ryley Food Club prepared and sold recipe books. All recipes tested were very good.

The Bruce Clubinas Club raised money by means of a dance in order to buy a sewing machine for their Club

The Ryley Food Club also went caroling at Christmas and received that yearend were good. They brought happiness to many homes by doing this

## 4-H Club Work and its Objectives

4-H Club Work is specifically designed for rural young people. It is a program that places personal responsibility upon each boy or girl taking part. It is compulsory for each member to raise, manage or complete at least one project each year. This project is centered at the member's home. Thus through his or her project the club member learns the value of improved methods and materials, and can demonstrate their usefulness in that most important center of his lifelife home

The project may be in Agriculture or Home Economics in either case "Learning to do by Doing" is the basic principle involved. All the projects are of a practical nature and serve to illustrate improvements in farming as recommended by the supervising extension staff

FIRST FULL MEAL IN 10 WEEKS

Rescued after being lost in the wilds south of the Arctic Circle, William C. Waters, 42-year-old tourist from Erlanger, Kentucky, enjoys his first full meal in 10 weeks at a hospital in Fairbanks, Alaska. Nurse's aide Johanna Clayton is pouring coffee for Waters, who lost half of his 190 pounds while surviving on wild cranberries and raspberries.

## Tofield 4-H Beef Club to Re-organize

The Tofield 4-H Beef Club will be calling a re-organization meeting in the near future to put their 4-H programme under way for another year.

Boys and girls wishing to join are asked to contact the Club Leader, Mr John Moore or any one of the Adult Committee which consists of Mr Stanley Brown, Mr Robert Wyllie and Mr Mel Wood. Prospective members may also obtain information from anyone of the members, particularly the Club executive which consists of Miss Gail Gill, Margaret and Donald Wood

Boys and girls between the ages of 12 and 20 are eligible for membership. Anyone below the age of 12 may join the Pee Wee Class which is something of a 4-H pre school class. Although Pee Wees are not officially club members they are recorded all the privileges of a member and carry on the club project in the same manner as a regular member

Past and prospective members should advise the Club Leader of their intentions in the near future so he may lay plans accordingly for the coming year.

## What does the 4-H Club Member Learn

4-H Club members receive other benefits besides those of practical skill and knowledge. Through 4-H club work they receive a well-balanced training in citizenship. They learn the proper manner in which meetings must be conducted They learn to express themselves ably and well by taking part in group discussions, debates, demonstrations and public speaking programs. In serving as officers, on committees or in other capacities they learn to accept and discharge responsibilities and to work co-operatively with others. They learn to organize their time and materials. This, not only develops them as individuals but also prepare them for a larger field of service in their communities when the opportunity occurs

The keeping of records on production costs, developes their keen interest using judging programs sharpen their powers of observation, judgement, concentration and self-reliance They become aware of the contributions science is making to the field of Agriculture and Homemaking, and learn to value and use these contributions

They develope a feeling of partnership with their families because they rely on the interest and co-operation of parents to support them in their enterprise. They develope a pride in ownership They also develope a pride which stems from the sure knowledge that they have an important place on the team that holds Nature's gifts in stewardship and custody, and that as young Canadians, they have a definite responsibility for their conservation and preservation.

## Holden Beef Club Wins Hardy Trophy

The Holden Beef Club has again won the Hardy Trophy, which is presented annually by Mr Earl Hardy, M.L.A., to the highest scoring 4-H Club in the County of Beaver

This is the second consecutive win for the Holden Club they have won it last year as well it is an award that the Clubs in the County compete keenly for and it's was quite obvious to anyone started by each Club. Mr S.C. Powers, District Agriculturalist, reported that a very few points separated the winning Club from the others

The trophy will be presented at a Winter Function in which all Clubs will participate.

The Club Leader, Mr. A.C Zelesnicks and the entire Club is to be congratulated for their excellent work during the past year which won them this award.

## Four County 4-Her's Win Scholarships

Four members from County of Beaver won $100.00 Scholarships in Provincial Competitions during the past summer

Three of these members won Albert Wheat Pool scholarships during Club Week at the Vermilion School of Agriculture in July, they were Edmund Lefaral of the Viking Beef Club, Norma Zelesnicks, of the Holden Beef Club and Yvonne Tiedeman of the Tofield Clothing Club These scholarships are awarded annually for general proficiency at Club Week, and the winners are selected from boys and girls attending from 36 Clubs in the Northern part of the province.

To have three scholarship winners from the County is a very worthy accomplishment and the winners are to be congratulated on their achievements

The other Scholarship winner was Merlin Minchen of the Viking Beef Club who was awarded the Rotary Scholarship for his outstanding record at the Edmonton Fair Camp.

## Loretta Ferguson Top 4-H Judge

An active member and an accomplished title judge Loretta Ferguson won the silver tray and heraldic of her clothing hobby at the Edmonton Spring Sale early this year

This was not a new experience for Loretta as she had won this competition on several other occasions and has come to be known as one of the best public speaking judges in Alberta

The feminine and competitive side reveals in the Tofield 4-H Beef Club together with the encouragement and assistance she received from her Club Leader, John Moore, have been largely responsible for her developing that unique ability to judge cattle so expertly that she won the provincial competition ever since she was old enough to enter a show ring.

CHEVROLET
A GENERAL MOTORS VALUE
NEW FROM DIESEL TO DAZZLE!
'62 CHEVROLET JOBMASTER TRUCKS!
WITH NEW High-Torque power

New CORVAIR-95 CORVAN. Sure-footed rear-engined hauler that takes 70? cu. ft. of cargo on an easy-handling 95" wheelbase.

New FLEETSIDE PICKUP. Ideal modern version of Canada's most popular pickup. Inches are grain-tight and up to 9 feet long.

New Imported SERIES 40 DIESEL. Diesel savings and euro Chevy durability. Now 17,800-lb. hauler and now available on CHB-40 rear axle.

New SERIES 60 TANDEM. Best choice for the big ones! Has extra-rugged H-braced ladder frame and true-tracking Eaton-Hendrickson tandem bogie.

Here they are — handsome, functional '62 Chevrolet trucks powered to work harder in every weight class. Hefty new V8's with the highest torque in Chevrolet history. New Diesel brawn for 15 imported medium-duty models. And, now, Chevy's hard-working High-Torque 261 Six is available in light-duty models.

There's a wider choice of power, a wider choice of torque, across the board. For heavies, there's the new High-Torque 409 V8*, with 16% per cent more torque than ever before available from Chevrolet. Big news in the middleweight class is the new, imported Chevy-GM 4-53 Diesel. In the light-duty lineup, the High-Torque 261 Six* adds new sock, new savings in extra-tough applications. All told, you can pick from nine never-to-wash, ready-to-save '62 Chevrolet truck engines.

Handsome new work-styling includes forward-sloping hoods that allow drivers to see *a much as 10%-feet more of the road directly ahead. Chevrolet's famous Independent Front Suspension gives you the smoothest riding, easiest working trucks in the business. Rugged new I-Beam front axles are optional* on heavyweight models.

You'll find a total of 198 models in the new '62 Chevy line—including the work-proved, van-selling Corvair 95's. Every model is built to out-haul, out-last and out-value any other truck at anywhere near the price. See your Chevrolet dealer soon!

## Earl S. Ferguson, Ryley Old Timer Dies of Heart Attack in Camrose

[illegible] Earl Sturgeon of Camrose, passed away suddenly on the [illegible] Camrose.

Earl Stanley Ferguson was born [illegible] Ontario and came to Alberta in 1902. He first worked at prospering road grades for the railway and later homesteaded on the farm at present owned by Gunnar Gulland. In 1920 he moved to Ryley and owned the house now owned by R. Grein. He had the John Deere agency and also became well known as a cattle buyer — a business he carried on till just a few years before his death. In 1926 he bought a farm at Rosalind and farmed there until he sold the family moved into Camrose in 1940.

Mr Ferguson was an active Oddfellow for over 50 years and was one of the Charter Members of the Ryley Lodge. He was largely responsible for the founding of the Camrose Lodge of which he was a member.

Funeral services were held on Thursday in the Calvrose United Church and burial took place in the family plot in the Ryley Cemetery Members of the I.O. A.F Lodge conducted the graveside service.

Survivors [illegible] Mrs. Ada Matilda Ferguson, [illegible] children of Ryley; Mrs Frank Bruce (Dorothy) of Calgary and two daughters Mrs Frank Bruce (Dorothy) of Calgary and two daughters Mrs Frank Bruce (Dorothy) of Edmonton A brother, Mark, lives in Tofield.

## Agricultural Service Board Notes

Fall Warble and Lice Control by Spraying Co-Ral

Warble fly in the Fall Warble lice Project, where 120 head were treated in 1960 and over 600 sprayed in 1961, indicate the excellent results of spraying. The results of this fall's spraying are apparent from normally grub counts taken in treated and untreated check herds within the project and in untreated herds outside the area. During February — May 1960 and 1961. The average count before routine began was 12 grubs per animal on side, the new and 14 grubs per animal inside the project. Co-Ral and Rudens control reduced the number of grubs to less than one per animal, giving 91 to 96 percent control. Loose control has been excellent with 4 to 5 months freedom during the winter months. Not a single dose of insecticide toxicity has been reported from the area.

Purebred breeders from the Forestburg area claim that their bulls look better for the Edmonton and Calgary Spring Sales. Their sleazy coats and freedom from warbles bring better prices. Feeders from the area, buying up to one cent per pound over at the stock yards when the auctioneer announces that the pen slip contained a Co-Ral spray tag signed by the operator Published stock from the area bring one half to one cent a pound extra for warble free animals

The price of spraying Co-Ral is reduced this year from 85 cents to 50 cents per head for chemical.

The Agricultural Service Board will be holding Spraying demonstrations within the County this fall Farmers who are interested in this worth while program are urged to attend these meetings and discuss all phases of Warble and Lice control also the forming of Warble Free areas similar to Forestburg and Stony Plain.

Locations and dates for these Meetings will be announced later.

Regulations regarding the setting of 1960 (section Regulations) Coyote Baits

1. Only one compound 1080 bait may be placed in one township.

2. All bait must be placed at least one mile from any dwelling.

3. Warning notices must be placed in local news papers giving locations.

4. All remains of baits must be picked and destroyed after the spring break up, this is the responsibility of the Pest Control Officer.

5. It is unlawful to remove or tamper with 1080 baits.

In order to save time it will be necessary for all applicants for 1080 baits to pick up a prepared application form from the Pest Control Officer and check with neighbors and clearly mark dwelling locations on a township map This will not be necessary where baits are placed in long established areas.

All applications for compound 1-80 baits MUST BE RECEIVED BY OCTOBER 31, 1961.

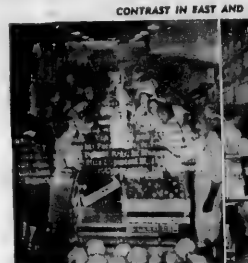
CONTRAST IN EAST AND WEST BERLIN

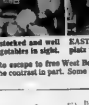


WEST BERLIN—This food store is well stocked and well stuffed. There are plenty of fruits and vegetables in sight.

EAST BERLIN—This sidewalk food market in Alexanderplatz features mostly empty crates, customers just looking.

NO WONDER East Berliners are trying to escape to free West Berlin—consumer goods and jobs are plentiful there, with a choice, even. These photos show the contrast in part. Some East Berlin shops don't even have window samples.

## THE Homemaker's Digest



SPICES AND HERBS

Last week I gave you the uses of some of the common spices and herbs. This week I would like to complete that list

1 GARLIC - a member of the onion family growing in the form of a bulb divided into several small cloves. Used in salads, soups, stews, roasts, dressings, pickles, etc. It is so strong that only small pieces are used, or just the inside of the salad bowl or stewing pan is rubbed with a clove.

2. GINGER (spice) - root of a plant grown throughout the tropics. Used largely for flavoring cakes and cookies, also in most cookery gravies, preserves and pickles

3 Horseradish - a well plant, the fibrous root of which is grated for use as an appetizer. Usually liked with meat (particularly roast beef) and oysters.

4. MACE (spice) - the lacy covering of the nutmeg. Used quality same in a deep orange color Similar in flavor to nutmeg. Just strongly in flavoring fish, fish sauces, stuffings and in baking.

5. MINT (herb) - a family of pungent herbs with a refreshing flavor Used in cold drinks, sauces, both for desserts and meats (especially lamb); in frozen and chilled desserts, in vegetables, soups, appetizers and candy.

6. MARJORAM (herb) - an aromatic sweet herb often grown in Canada. Used for seasoning egg dishes, cheese dishes, meats, fish stuffings, soups and sauces.

7 MUSTARD (spices) - a well-known commodity used in pickling, sauces, salads, crab dishes and soups.

8. NUTMEG (spice) the pit or kernel of a fruit of East Indian trees Widely used in cook- [illegible] Best when purchased whole and grated. Ground nutmeg may contain [illegible]

9 OREGANO (herb) - called the sage of Mexico", is a herb the flavor of which has a fla[illegible] of a cross between sage and marjoram. gives a delightful [illegible] interest to flavor when used [illegible] baked beans, stuffing meats fish, chicken [illegible]

10 ROSEMARY (herb) - leaves [illegible] are used [illegible] Note its aromatic refreshing fragrance [illegible] to season chicken, lamb, pork, fish stuffings, soups, sauces and salads

11 SAGE (herb) a hardy pe[illegible]

12 SAVORY (herb) - a hardy [illegible] used in [illegible] poultry, [illegible] stuffings, sauces and meats

13 TARRAGON (herb) - the [illegible] of a plant grown in India, China, and elsewhere. Sold in [illegible] form. It is dark green in color and has a [illegible] flavor which blends with mustard, other spices is the principle ingredient in curry powder.

ARE YOUR DISHES UNINTERESTING?

Try using some of the above mentioned spices or herbs. Be a little daring. It makes eating and life a little more interesting.

Correction - The herb mentioned as No. 5 should read chives not chelms.

# Shoppers Festival to be held at Tofield October 20 and 21

The Merchants of Tofield are holding a Harvest Festival of Values on Friday and Saturday, October 20 and 21. An advt. elsewhere in this issue lists some of the bargains that are being made available to the public during these two days. Naturally there will be many more specials in all the stores in town. Stores will remain open both Friday and Saturday evenings until 8 p.m. Copies of this weeks Mercury are being distributed on down the line extending an invitation to residents there to shop in Tofield on these two days.

On the Lions club members have been holding a slave Auction. It will be held right in the middle of town and Don Ball and Associates have agreed to come down and sell the slaves. Twenty slaves will go on the block and all agree to give three hours of work. It is understood that a whip will go along with each slave so that the purchaser is sure of getting the work done. Proceeds will all go to help the Lions club continue work on the skating rink this winter. You do not want to miss this as it is sure to be good for some laughs.

Showing Friday and Saturday evenings at the Tofield Theatre will be a cinemascope, Technicolor production "One Foot in hell", starring Alan Ladd

All roads will lead to Tofield on the last two days of next week October 20 and 21 as be sure you take advantage of some of the wonderful savings that will be on hand at that time

## Ballet Interlude to be Presented in Tofield

The Edmonton Ballet Company's Ballet Interlude, Alberta's first professional company of dancers will appear in Tofield on Wednesday, October 18th presented by "Holy Trinity" Women's Auxiliary

Ballet Interlude, formed in '61 will present a repertoire of dances ranging from Classics to Comedy to Modern Jazz; an evening of fine family entertainment.

Included in the works to be presented are excerpts from Tchaikovsky's "Nutcracker Suite," another classic, "Crystal Fantasy," and a full length character ballet, "Coppelia" to music by Johann Strauss. The latter was first commissioned by the Edmonton Symphony Orchestra in 1958 for their popular Christmas Box Concert.

The success of this collective group has been outstanding in that it has since remained as the resident ballet company of Edmonton's Citadel Theatre ballets to Ruth Carse, Artistic Director of Ballet Interlude.

Miss Carse is a native Edmontonian who began her ballet studies there, later travelling to Toronto to become a soloist with the Volkoff Canadian Ballet. While in the east she performed in the Canadian Ballet Festival, the leading ground of many of now famous Canadian dancer. Later she studied at the School of American Ballet in New York City, where she was also a member of the famed Corps de Ballet of the Radio City Music Hall.

Returning to Canada, she became a member of the Don Gillis Quartet, featured regularly on CBC's General Electric "Showtime," on television. Also for TV she choreographed the variety show "Cue For Music." While in Toronto Miss Carse taught at the Canadian School of Ballet, directed by Miss Gwenyth Lloyd, the founder of the famed Royal Winnipeg Ballet. While in the east she was an Artistic Director for a company of dancers similar to the Ballet Interlude which will appear in Tofield, in 1955, while staging in London, England, a leg injury forced a six month rest for Miss Carse, and she took advantage of this time to pay a visit to her hometown, Edmonton

Seeing the vast resources of dance material that was right in her own backyard, she quickly made up her mind to stay and develop the dancers into a calibre worthy of the name "professional."

Since that time, she has wielded together a highly talented, well disciplined company of young dancers, who even for the conservative youth, have behind them a list of dance credits to be envied. Ballet Interlude, although primarily a Concert group here in the past appeared as the dance ensemble for such operas and musical comedies as "Romeo and Juliet," "The Great Waltz" "Oklahoma" "Irma-Doux" "South Pacific" "Plain and Fancy," "The King and I," "Annie Get Your Gun," and "Kiss Me Kate" For the past three years, Ballet Interlude has been featured with the Edmonton Symphony Orchestra in their Christmas Box Programs The Women's Musical Club of Edmonton also sponsors the Company in an Ed monton Spring appearance

Although many of the dancers still attend High School and University, while others hold regular daytime jobs, the company also features several members who have returned from professional dancing careers elsewhere The leading set be, Sheila McCallum, has recently re-joined the company after having spent the summer with the Canadian National Exhibition Grandstand Show in Toronto, Bryan Town, another featured performer, appeared with the Vancouver International Festival in 1958 and recently returned from a year's study in New York to appear with the Ballet Interlude, as well as to choreograph a jazz ballet.

Besides the 14 dancers and Artistic Director, Ruth Carse, Ballet Interlude brings with them Mr Bud D'Amer, the Technical Director, whose job it is to see that the portable lights, spot-lights, curtains and scenery help to create the magic, beauty and excitement of the ballets, and Mrs Eileen Shea, Wardrobe Mistress, who sees to it that Ballet Interludes almost 100 costumes are always neat, clean, pressed and ready for donning.

Ballet Interlude's repertoire is carefully planned to give a good cross section of various styles and periods of dance. There is something for everyone, a program well balanced for young and old alike.

Tickets for Ballet Interlude's, Wednesday, October 18th appearance in Tofield under the sponsorship of the Holy Trinity Woman's Auxiliary may be obtained from any member or at the door

## Reports Seeing Whooping Cranes north of Tofield

Mrs Morris Van Buskirk who lives 12 miles north and one mile east of Tofield reported seeing five Whooping Cranes on a slough in their pasture about 5 30 Sunday afternoon when they were arriving the cows in to be milked. The cows saw them first and thus attracted them to the attention of Mrs Van Buskirk. They were positive of the identification as they had seen a pair on previous they were in Edmonton and had a good look at a stuffed one

The following is taken from the bo k "Birds of Alberta" by Seth "The Whooping Crane, closer to extinction than any other species of American bird, is known by name across the continent but few people have seen any of the twenty-odd survivors (now in the thirty's) of a once populous race. These migrate across Alberta and Saskatchewan twice a year offering an opportunity to bird students of these provinces an opportunity that cannot be duplicated elsewhere in Canada Lone birds or small groups are occasionally seen more often in the fall, beside ponds and sloughs in grain fields Here they rest and feed before continuing their long journey

## AROUND THE TOWN

Mr Ramsay Bruce received Tuesday by phone from a visit to Vancouver where he spent two days with his son-in-law and daughter, and his sister, Mrs Annis Anderson. It was the first time in 54 years Mr. Bruce and his sister had met.

A pleasant afternoon was spent at the home of Mrs. C. H. Williams, when a number of friends and neighbors gathered to wish her a Happy birthday recently on the occasion of her birthday cake. Cup and Saucer and cards were presented to Mrs. Williams.

Mr and Mrs. Sandercock have purchased the Barden property and are nicely settled in their new home.

Mr. J. Cochran of Edmonton and his cousin Mrs. Gray of Alberta, B.C. visited at the Williams and Langstaff home Saturday of last week.

Mrs. Sears Sr entertained a few friends and neighbors on Friday afternoon in honor of Mrs Myrtle Vosgrin who was on a pleasant journey and safe return. On behalf of the guests Mrs. Moore presented her with a box of stationery. Mrs. Vosgrin left Monday for Ontario where she will spend six months. Mr. and Mrs. Maurer will occupy her home in the meantime.

Mr. Mary Moore was hostess at her home recently in a birthday party in honor of Mrs. Mitchell. As a surprise afternoon was spent in conversation and games and a delicious lunch was enjoyed. On behalf of those present Mrs. Baptist presented the gift with a personal gift.

## Holden Seed Cleaning Plant has profitable year

The County Seed Cleaning Plant had a very successful year according to the Financial Statement presented by Mr. Mike Sereiak, Secretary Treasurer of the Association, to the Annual Meeting of Shareholders.

The plant showed a profit of $1,576 00 despite a late start which was considered responsible for the first years operation. It was pointed out by the Treasurer that the 1962 year has been considerably higher had it not been for the expenditures out of earnings for items of a capital nature.

Chairman, Mr. Lyle Gronlund, in his report stated that he was very pleased with the results of the first year's operation. The plant cleaned 182,000 bushels which was more than 14 other plants in the province cleaned, which was an excellent first year record. He felt that the plant was almost assured of financial stability in the future with the existing ground of many of now famous Canadian dancer. Later she studied at the School of American Ballet in New York City, where she was also a member of the famed Corps de Ballet of the Radio City Music Hall

## Hospital problems Aired at Chamber of Commerce Meeting

A good attendance was had at the meeting of the Tofield and District Chamber of Commerce held Wednesday evening in the Legion Hall. Also in attendance at the meeting were Hart Hesley M.L.A. for Bruce and Mr. Floyd Baker. M.L.A. for Clover Bar

The purpose of the meeting was primarily to discuss the overcrowding of the Tofield Hospital and again information on the recent re-distribution of seats.

A very informative discussion to it place in which the problems of the local Hospital were put before the two hons. Included in the problems beside overcrowding was the fact that the old wing was built in 1947 and that the mechanical facilities are now consistently inadequate for the increased size. It was pointed out that the Hospital is rating at 128 per cent of occupancy, whereas it is deemed desirable that a Hospital operate at about 86 per cent It was also pointed out that the natural flow of traffic to this area is east and west so that a new Hospital at Kilkun will do nothing to eliminate the existing situation. Both hons expressed their sympathy with the situation and agreed that they now have a better understanding of the problems involved in this area. They urged the Chamber of Commerce to keep pressing for more facilities and stated that they would certainly be willing to help in this regard.

Mr Hardy had a rough map of the new distribution for the Bruce Constituency which gave everyone present a better idea of what the new area, which will be known as Vegreville-Bruce is comprised of. Basically it will not so far omit cutting off just the city of Vegreville but will go further north so that it takes in the town of Vegreville. The boundaries will come into effect until the next Provincial election

## Eastern Star Grand Matron Visits Tofield

Mrs. Elfreda Dick, Worthy Grand Matron of the Grand Chapter of Alberta, Order of the Eastern Star, was the guest of honor at the occasion of the official visit on October 2. She was guest of honor at a banquet in the United Church social hall, at which the Lakeshore Chapter of the Lakeshore W.A. catered. The head table was decorated to honor Mrs. Dick's choice of colours and flowers. A golden "ship of service" which held a cache of purple iris and golden roses was flanked by candelabra with candles in the floral

Mr. Neil Phillips, Worthy Patron introduced the Grand Officers to the members of the Ionic Chapter and to guests from the Chapter in Vegreville, Mannville, Edmonton, Camrose, Irma and Leduc Mr. Bill Dertland, said grace preceding the banquet. Mrs. Elizabeth Davison, Worthy Matron, welcomed the guests The Toast to the Queen was given by Mrs. Ella Allen Mrs Marjory Everitt proposed the toast to the Grand Chapter of Alberta to which Mrs. Dick replied The toast to the visitors was given by Mrs. Evelyn Nolan and Mrs. Lorraine Brown of Vegreville replied.

Following the banquet a special meeting was held in the Masonic Hall at which members from Fort Saskatchewan and Viking joined the other guests. During the evening, in tribute to Mrs. Dick whose chosen prayer it is Mrs. Daley Young sang "The Lord's Prayer." An addresses to illustrate Mrs Dick's watchwords "Helping Hands and Understanding Hearts" was presented. This featured a solo by Mrs. Faye Dodds and the presentation of Ionic's gift by Mrs. Margaret Arsett, Associate Matron

To close the evening, the social committee under the direction of Mrs Arsett, served lunch Mrs. Blanche Hardy and Mrs. Ida Jacobs, Bruce Star members presided at the tea table

The weathermen dealt us another hoax with more cold weather and showers at intervals over the past week, then finally a snow storm on Monday night and Tuesday and a little again falling today (Wed.). This again delaying thrashing and combining. Some are fortunate enough to be finished but some like myself have grain standing to be combined or in the swaths or stooks. Let us all be thankful we didn't get the 10 to 12 inches of snowfall they received in southern Alberta and hope for clearing skies and a return to warmer weather.

Dodge newness goes a whole lot deeper than its great new looks. Dodge for 1962 is a low price, full size car that'll out-run and out-economize most any car around. It accelerates quicker, yet gets five per cent more miles per gallon than the '61 Dodge. It goes twice as far between oil changes—drives 32,000 miles between grease jobs. Its brakes adjust themselves automatically. The body is rustproofed. Want more? Dodge gives you more! Things like an improved gearshift for smoother, crisper shifts; a smaller transmission hump that gives the man in the middle more legroom; and deep-sprung chair-high seats. There's never been a Dodge like this one. There's never been any car like this one. There's a new lean breed of car for '62 and its name is DODGE

Jeannette Dalling

Are you guilty of having a poor breakfast each day and not insisting that your children eat a good breakfast each day.

REASONS FOR A GOOD BREAKFAST

1. Supplies protein, vitamins and minerals which children and teenagers need for harmonious growth and we all require for vitality throughout the day

2. Essential to your health and sparkling good looks

3. Helps you face the day with a smile and with an alert, bright-eyed feeling

WHAT IS A STANDARD GOOD BREAKFAST?

It should be made up of four essential parts which altogether should provide no with a quarter to a third of our day's normal Post

First should come, citrus fruit or juice, followed by whole grain cereal, or an egg, or some other form of protein. Next then ev joy bread or toast with butter and finally milk, coffee, tea but chocolate as some prefer hot beverage such as postum.

REASONS WHY THE ABOVE BREAKFAST INGREDIENTS ARE IMPORTANT

Citrus fruit or juice gives you most of the Vitamin C that you'll need for the day. Cereal and toast gives us substantial amounts of the B vitamins and minerals such as iron, plus some protein. Butter on your toast gives you vitamin A Milk supplies you with protein, calcium, riboflavin, and other vitamins and minerals.

ADD VARIETY TO YOUR BREAKFASTS

1. Replace orange or grapefruit fruit or juice by tomato juice, half a cantelope, or frozen strawberries.

2. Instead of hot or cold cereal, scramble, poach or boil some eggs, or serve another source of protein such as bacon, ham or cheese.

3. Replace toast by muffins, quickbreads or some brown's savvy rolls.

4. Instead of pla's eggs and milk, whip up an egg nog.

5. Or serve pancakes rolled around a long thin banana slice. Serve with lots of butter and hot syrup sprinkled with nuts.

6. Try serving french toast with lots of butter and hot maple syrup on your main dish

ARE YOUR CHILDREN HUNGRY IN THE MORNING?

Let them up to 15 minutes earlier

2. Make them do all their homework tasks before breakfast. This should help improve their appetites.

**HONG KONG TURNS TO FISH FARMING**

In an attempt to ease the problem of feeding its swollen population, the British Crown Colony of Hong Kong has begun an extensive program of fish farming. They fish, caught locally or imported (left), are raised in specially equipped ponds where they are fattened for eating. At right, Lam Tat Wing, chairman of a fishery co-operative society, displays a fattened carp. Hong Kong, with one of the most acute population problems has been flooded with refugees. An estimated 9,000 persons per square mile live in the city.

## Grain Buyer Reports 2% of Grain Unharvested

Doug McKernan, Grain Buyer for United Grain Growers reports that 98 per cent of the crop in the district has been harvested. He reports that the wheat acreage was 3,500 and averaged 22 bushels per acre, 16,200 acres of oats averaged 45 bushels per acre and 4,500 acres of barley averaged 26 bushels per acre, for a total of 990,000 bushels of grain. Of that amount 400,000 bushels will be fed on district farms during the next 12 months.

Wheat grades have been good this year with the average grade being No. 2 Northern although tertarian buckwheat has caused a large amount to be graded as reject Barley has graded No 1 and No. 2 Feed and oats No 1 Feed.

Mr McKernan also reported that on October 18, 1919, 16 in of snow fell on the district and stayed until April It was one of the hardest winters on record

## Manufacturing Plant Being Constructed In Tofield

Mr Axel Rasmussen arrived in Tofield this week to start operations on the tract of land he has purchased on the east edge of town in Mr Rasmussen's own words he is an investor He currently holds patents on a number of items which he plans to manufacture and has other items to which he has applied for patents which he did not disclose for obvious reasons

Axel, as he prefers to be called picked Tofield as a location for three reasons Economic Natural Gas rates Close to a market for his products and shipping facilities Due to the lateness of the season he does not plan to start construction on his main building, which is of his own design and will be 48 x 96. This he will start on in the spring For winter use he is constructing a prefab unit 16 x 64 with a concrete slab floor. This will be used later for storage, etc. He hopes to be in operation by the middle of winter

When asked how many men would be employ? He did not state the number but said he would be employing a number of men and that he had lots of room for expansion He said "I am here to put Tofield on the map."

By next fall he plans to be marketing an economical grain dryer The principal of which is very simple it works on air being forced through the grain with no heat to burn or shrink the grain. He stated that the one used in the Peace River Country worked very satisfactorily

Working with Mr Rasmussen is Mr Tom Matthews While Mr Rasmussen is a single man, Mr Matthews is married and has two children. He hopes to move his wife and children in Tofield in the near future

## 9-Holes Ready For Action in the Spring

Work is proceeding on the golf course for Tofield and Charlie Kallal reports that if the weather permits, all of the sand greens will be completed this fall and be ready for use in the spring. He hopes to seed the balance of the fairways this fall so that spring rains will bring the grass along. Pat Sears is currently digging 2 dog outs which will fill with water in the spring and supply two good hazards. He says the course will be in full swing next spring.

## Lions to Again Sponsor Friendship Club

An executive meeting of the Tofield Lions club was held on Wednesday evening and it was agreed to again sponsor the Friendship club this year. Rules will be basically the same as last year and persons interested in taking part in the club are asked to contact Bill Francis or Cal Annis. It is hoped that the club will be in action for the month of November

Final plans for the Slave Action Saturday were discussed and contrary to rumors to the opposite John Widynowski will be up for sale to the highest bidder along with the other members of the club Don't miss this event.

## Rural Fire Protection Association Sets Boundaries

At a meeting of the Directors of the Tofield Rural Fire Protection Association L.I. the boundaries were mostly completed Roughly these are East to Ryley, 6 sth to Round Hill, King man, North to N.E. corner of Beaver Lake, West propably to Lakeview

The canvassers will soon be out to fill town Shares are $30. each and the goal is $10,000.00, this entitles a shareholder to services of fire fighting equipment in case of fire. To non-share holders the unit will respond to calls if in reasonable distance at a minimum cost of $200.00 for first hour or portion thereof. $40.00 per hour for any additional hours.

Fire Insurance rates are affected where there is a Fire Fighting Unit as follows:

1 ) If the property does not have a suitable dug out there is a five per cent deduction.

2. If property has a suitable water dug out there is a further five per cent deduction. Making a total of ten per cent reduction in your existing fire premiums.

The Federal Government is now paying half the cost of dug outs if built to certain specifications.

We understand there are several of these dug outs around Ryley and Holden if anyone is interested.

All monies collected are placed in trust until the required amount is collected, in case we don't meet that amount, all share money paid will be returned to the member with no deductions whatsoever No organizing expenses allowed.

## Lorraine Allan to receive Gov. General's Award

Miss Lorraine Allan has been advised by the Department of Education that she is the winner of the Governor - General's Bronze Medal for the County of Beaver, for having attained the highest average in the June, 1961, Departmental Examinations for grade nine, for the entire County.

This is an especially high achievement, as Miss Allan completed her grades seven and eight in one year. Lorraine is the daughter of Mr. and Mrs. Graham Allan Her grade nine teacher was Mr Jack Lampitt.

## Community League to sponsor Hallowe'en Party

At a special meeting of the Community League this week it was agreed to again sponsor a Hall'ween program like last year. A canvass will be made in town next week and country donations may be left with Dick Mather or Norm Glover. At the same time a survey will be made to determine whether or not the people of Tofield is still like to continue the plan in coming years.

## Lakeshore-McKenzie

Theresa Madden and friend Joan Merritt of the Vegreville Hospital nursing staff spent Wednesday and Thursday of last week at the home of Theresa's parents Herb and Mary Madden.

Sunday afternoon visitors at the home of Emil and Martha Tiedemann were Fred and Mabel Schulte and daughter Shelly of Edmonton and Carl Jansen of Tofield.

Harold and Lilly Schultz and family of Ketchamont, Irene and Sandy Scott and family of Lindbrook and Mr. and Mrs. Emil Gosnell and Bill and Mary Tiedemann and daughter Sharron, all of Derwin were Sunday evening visitors and coffee guests at the home of Martha and Emil Tiedemann helping Yvonne celebrate her birthday and also her going away party. Yvonne leaves this coming Sunday to attend Agricultural College at Vermilion.

A shower was held in the Legion rooms at Tofield on Monday, October 9 to honor Myrna Warren on her coming wedding to Billy (Johnson) Schachan. Some 30 guests were present and presented her with many lovely gifts. A very enjoyable evening was spent, followed by a delicious luncheon.

Congratulations go to Myrna Warren and Billy Scrochan who were married in Edmonton on Saturday October 14. Among those attending the wedding from this district besides the relatives were Jack Johnston and Johnny Wood.

Mrs. Mabel Hannan and Enos and Carol Young of Edmonton were Sunday dinner guests and afternoon visitors at the home of Vi and Elmer Coughlin.

Don't forget the Annual Fall Dance to be held at Ministik Hall November 10th at 8:30 p.m. All are welcome.

## Hastings Lake

HASTINGS LAKE — We regret to report that Mr. Arnett is in the Tofield Hospital. We all hope he will soon be home, feeling much better.

Mr. Floyd Baker, M.L.A. called on several homes last week on his way to a meeting in Tofield.

Don't forget the Ladies Bazaar on October 27th. There will be a sale of home baking, sewing, candy, and a fish pond for the children. Twenty games of grocery Bingo will also be played. The Raffle for the coffee table and Electric Corn Popper will also take place.

You Can Save Money — If You Know What Credit Costs

When you buy on credit you are in effect borrowing money it costs money to borrow money. The merchant adds the extra charge, for lending money to the price of what you buy — calling it "interest", "service fee", "carrying charge" or something else. Can you afford to pay this extra charge for credit? Do you need the money for something more essential?

For example, a store sells a refrigerator for $299.95. With a $50 down payment, a so-called "7% per year" charge for credit and 24 months to pay in equal monthly installments, you are paying $51.13 extra for credit — enough to buy 304 quarts of milk at 16c a quart.

Suppose a car costs $2,600.52 with accessories, sales tax and license. With a $600.52 down payment, credit charges at 6% a year on the $2,000 balance on a 36 months contract will cost you $180.00 — enough to pay cash for a washing machine and dryer.

Shop for credit carefully. Credit costs can vary widely. How much it costs you depends on the rate of interest charged and the length of time you carry the loan.

Compare credit charges with what it would cost you to borrow an equal amount of money from your bank.

The smart shopper puts credit at the lowest possible rate of interest for the shortest possible period of time.

It's even smarter — and cheaper — to pay cash!

How to Shop for Credit

When you need to buy to articles for which you do not have ready cash, and for which you must, therefore, obtain credit, we suggest you take the following steps

1. Find out the price at which you can buy the article for cash. Do not be satisfied with the "time" price. This often includes an amount to "knock-off" for cash.

2. Find out what would be the total cost — that is, the cash price, plus interest, plus all service charges — if you buy on the installment plan. Ask what rate of simple annual interest on the cash price you'll these charges represent.

3. Explore the possibilities of borrowing from your bank for a lower rate of interest.

## Canadian Highway Safety Council Urges Motorists to Use Safety Belts

The Canadian Highway Safety Council, in urging the use of seat belts by every driver in Canada, hours today recalled authorities' claims that belts never work. So the Council refers them to such people as Donald Campbell who walked away from his wrecked Bluebird II after it flipped over at more than 300 miles per hour. He was wearing a seat belt. The auditors Dodgers catcher, Roy Campanella, was not wearing seat belts in 1954 when his car skidded on wet pavement at 60 miles an hour and he emerged with par-

contract or a loan from a finance company. Ask your banker what will be the effective rate of interest if you make repayments in regular small amounts over a definite period.

4. Make a contract where you can get the lowest rate of interest — that is, where you can borrow at least cost.

Some Points to Remember:

If you can't afford 10% down, you probably can't afford to buy.

If you need more than two years to pay, you probably can't afford to buy

If you make a large down payment, you are entitled to ask for lower rate of interest

manent paralysis from the shoulders down. But he was wearing belts in 1954 when the car he was in, going 60 miles an hour, crashed. Camay was not injured but three others in the car, not wearing belts, were hospitalized.

The Council points to Col. John Stapp of the United States Air Force who subjected himself to crash stops from 632 miles an hour to zero in little more than one second. He suffered no disabilities. He were seat belts at any time. The Council has no hesitation in declaring the use of door belts in automobiles would prevent one-third of Canada's annual traffic fatalities. But, it cautions, the key word is "use".

Belts, says the CHSC, are useless lying limp on the seat.

## Bardo Lutheran Church Scene Of Fall Wedding

Banked by yellow shrubs decoration and bronze mums arrayed the front of Bardo Lutheran Church on October 7th at 2 p.m. when Miss Arlene Scobkan, a graduate of the Royal Alexandra Hospital School of nursing became the bride of marriage vows with Dale LaVern Stade, Rev. Rue officiated at the double ring ceremony. Mrs. Bernice Norberg was pianist.

The bride is the daughter of Mr and Mrs. Olaf Scobkan of Tofield and the groom's parents are Mr. and Mrs. Emil Rude, also of Tofield.

Given in marriage by her father, the bride was radiantly lovely in a floor-length gown of traditional white peau de soie, featuring lily point sleeves, fashioned with a rounded neckline, fitted bodice and full skirt flowing to a slight train. The shirt and neckline featured a delicate lace appliqus with pearls inset. Her pearl crown headdress held her shoulder length veil of French illusion net in place

She wore a rutten-i pearl pendant and earrings, a gift of the groom, and carried a cascade of Americana Beauty Roses & white stephonies

The bride was attended by her sister Mrs. Robert Hunter of Carnwith as Matron of Honor and the Bridesmaids were Miss Eva Martin and Miss Sandra Leitch, both of Edmonton, classmates of the bride. They were lovely in identical crimson green street length rayon peau de soie dresses. The attendants wore matching almond green veil and leaf designed headdresses, almond green shoes, white gloves and carried crescent shaped bouquets of bronze mums

The matron of honor & bridesmaids were coiffured per ti pendants and earrings, which were gifts of the bride

The groom was attended by his brother Mr Eugene Rude, Mr. Lawrence Rude and Mr Dale Rinnmon, a cousin of the groom. They wore dark suits, black bow ties and white boutonnieres

Following the ceremony to pose marked with white satin bows were Mr Olaf H nave, uncle of the bride and Mr. Charles Rude brother of the groom

During the ceremony Mrs. Nick Burke, cousin of the bride, sang "A Wedding Prayer" and as the couple knelt at the altar, Mr. Leroy Finseth, cousin of the groom sang "The Lord's Prayer."

For her daughter's wedding Mrs Olaf Scobkan chose a brown wool dress at alps absorb dress with beige and brown accessories. Her corsage was yellow sweetheart roses. The groom's mother wore a blue dress with rose and black accessories and a pink sweetheart roses on corsage.

Following the ceremony a reception was held for 150 guests in the United Church Parlors in Tofield.

The bridal table was laid with a white lace table cloth, centered with a three tiered wedding cake set in white satin table decorated with rose buds and tall white tapers and bridal favours.

Mr Harold Scobkin, uncle of the bride was master of ceremonies and called on Rev. B. Rue of Kiarawa in any grace. Rev. O. H. Rinnmon of Camrose proposed the toast to the bride to which the groom very responded. The groom then proposed a toast to the bridesmaids. During the reception Mrs. Harold Scobkin, aunt of the bride, sang, "I'll Walk With You."

Miss Bernadine Scobkin, cousin of the bride was in charge of the guest book. Mrs. Edwin Scobkin, aunt of the bride, was also cousins of the bride presided over the beautiful assortment of gifts.

For travelling the bride changed to a cherry red three piece suit, a fur collar jacket fashioned with a brown mink collar, black and white accessories and white rose corsage.

The couple left for a honeymoon trip to the west coast and U.S.A.

Mr. and Mrs. Dale Rude will make their home in Edmonton after the honeymoon.

Out of town guests were from Camrose Philomath, Oregon, Calgary, Edmonton, Cremona, Edson, La Glace, Peace River, Yellowknife N.W.T. Viking Amisk, and Homehill

## Scientists Report Progress in Controlling Tartary Buckwheat

PROGRESS REPORTED

Better control of Tartary buckwheat would come in the aim of Dr. W. H. Vanden Born in Experiments at the Department of Plant Science, University of Alberta.

Some time more effective than 2,4-D is his objective. With that in mind, he compared 2,4-D with two new chemicals. The new chemicals are known as Dacthal and Benefin. They are not yet available commercially, but Dacthal is holds definite promise.

Dr. Vanden Born used Thatcher wheat in the tests and sowed Tartary buckwheat across the rows. After harvest this year, he compared wheat yield, weight of Tartary buckwheat per acre and number of surviving buckwheat plants.

There was little difference between the yield rates and the volatile forms of 2,4-D or a mixture of the two, he found, so there would appear to be no advantage in using the mixture. When Dacthal D was used, increase in wheat yield was marked; but that is true also when 2,4-D is used. It was in reduction of the weed that Dacthal D was outstanding.

Eight ounces of the chemical per acre reduced the Tartary Buckwheat by 8 per cent of that of the check plot. And there were only 3 surviving plants in the treated area for every 100 in the check plot. Even better was the 16 ounce rate which entirely eliminated the Tartary buckwheat plants.

Cornerstone of grain yield shows 24.8 bushels per acre for the untreated plot, and 42.6 bushels per acre for the Dacthal D 16 ounce treated area. The high rate may have been caused by a inch of lodging in the water bodies in which they hatch (or salamander does not develop fully from its initial tadpole stage it remains it breathes gills with bad feet and tail, and continues it's aquatic existence, although it matures sufficiently to reproduce. This "axolotl" phenomenon is more common among a race of tiger salamanders in Alberta than elsewhere in Canada, and also occurs among salamanders in certain parts of Mexico and in the high altitude regions of Colorado, according to Mr. Taylor.

## Tiger Salamander much misunderstood according to Elmer H. Taylor

There is no such a tiger salamander may reach out your basement for his winter home. If so you'll find him a reasonable tenant he's harmless and may even earn his keep by controlling small insects.

According to Elmer H Taylor member of the Calgary Agassiz who is a member of salamanders are on display, the creature is much misunderstood. Motorists and also the salamander is not really a "tiger" although he's frequently called such; he looks like a miniature alligator but is actually an amphibian, related to toads and frogs rather than a reptile. He'd bite only if seriously provoked, and even then his bit is harmless.

While salamanders abound in all parts of Canada, living at the edge of ponds and shoulder under moist logs or wooded areas, the tiger salamander is most common in Alberta. This type is distinguished by its definite black and yellow markings, sometimes spotted but most often striped. Tiger salamanders frequently migrate between small bodies of water, and with the coming of cold weather often seek out the warmer surroundings of a basement for their winter quarters. Their diet consists mainly of small insects and worms. Their "axolotl" or "spoodjet larvae" is quite prevalent among tiger salamanders. Due to some deficiency, perhaps

## Last Year's Successful Party Prompts Plans for 2nd Annual Hallowe'en Party

The highly successful Hallowe'en party held last year for the children of the Ryley District has prompted plans for a similar event this year.

A committee of ladies, headed by Mrs. Rudy Mixon, met recently to lay plans for the second annual Children's Hallowe'en Party which will be held in the Community Hall on Tuesday, October 31st, beginning at 6 p.m.

The programme will provide a full evening of entertainment for children of all ages. The main feature of the evening will be a full length movie.

There will also be other entertainments including a parade of witches and goblins with prizes being awarded for the best costumes in the various age ranges. Treats will be provided in quantities to satisfy the healthiest appetites.

During the course of the week the town will be canvassed for contributions to cover the cost of this event and it is hoped that all residents of the town and district will contribute that somewhat normally spent on treats. Rural residents may leave their contributions at Fred Linden's Hardware or make their contributions to one of the committee that evening when they bring their children in for the event.

The committee is issuing an open invitation to all children in the district to attend this gala affair. They hope it will be one that the children will enjoy and remember for a long time.

## 4-H Club Starts in Ryley with 15 Members

An enjoyable evening was spent at the home of Mrs. Anita Pope, as the 4-H meeting got under way for another year. The first meeting, held on October 18th, started out with O Canada, and the 4-H Pledge. The groups were divided into the Clothing and the food sections and the officers were elected as leaders for the Clothing Club are Mrs. Annie Pope and Mrs. Doris Upton. The officers are as follows: President Geraldine Kosak; Secretary Miss Gabbelmann; efficiency winner for the Bruce Clothing Club. We are very glad to have Janice with us this year. Treasurer Peggy Fisk; Social President Marilyn Pope. There are 9 new members this year and 15 altogether. The meetings will again begin at 8 o'clock on Monday, the first week of every month. The Club would be pleased to accept any others who are interested in joining the club.

## OF MANY THINGS

(by Ambrose Hiller)

RIGHT TURN, LABOR

A year or two ago I got into a bit of trouble with my socialist because I noted that instead of following Mr. Coldwell's plan to turn left, the movement was turning right and abandoning the old socialist principals. The socialist ginger group went after me hammer and tongs, and the bitterness of their attack on free enterprise were shocking for their downright hatred.

One socialist tied all the evils of the world to the profit motive, even the scandalous quiz programs on television. This, she said, was where free enterprise had led to. She referred, as well, to capitalists buying mink collars for their dogs. She said capitalism had created a terrible mess!

I pointed out at the time that the socialists were in a very sorry standing position when they condemned free enterprise and capitalism because it swung, they would have to substitute farms as well as industry or else admit they were embarking on far fewer ways of capitalism.

Now the socialist British Labor Party has cast out socialization of industry as a party plank. At their recent annual conference in Blackpool, they voted about four to one against a resolution setting out a list of enterprises which left-wingers wanted nationalized, and thus they finally accepted the fact that private enterprise has an important role to play in the economy.

I am very pleased to see this. I am very pleased that socialists in Canada are also dropping nationalization schemes from their platforms. It is wonderful to see that common sense is prevailing at long last. What baffles me is that the poor old silver young retinue to face the new situation and continues to argue old-line socialism.

What is to be feared, of course, is that the NDP might gain power by hiding its socialic planks, but once it was elected to Ottawa the old bitterness and radicalism might prevail and plans to seize control of the means of production, distribution and exchange would be put into effect. Socialism, rejected at the front door, would thus sneak in through the back. That would all be wind up working for the government 100 per cent of our time, instead of 50 percent as at present.

So let us hope that the turn to the right by the British Labor Party is smart statesmanship, and that socialists here in Canada will also turn right.

How to cut your gas heating costs!

CHECK YOUR INSULATION

A poorly insulated house is a heat waster! Loose-fill insulation in the attic may be shifted during repair work or moving stored items. Be sure there are no bare spots in your attic—for most heat loss is through the ceiling. In some homes additional insulation will greatly reduce the heat loss. Why not check YOUR home to be sure?

REPLACE DIRTY FURNACE FILTERS

Dust-laden furnace filters restrict the flow of air, and can cause overheating of your furnace, serious loss of heat to upstairs rooms and wasted fuel costs. All types of filters should be cleaned regularly, and replaced when necessary. (While you're at it, see that your furnace motor and fan bearings are lubricated as instructions indicate.)

TIME FOR STORM WINDOWS

Your home, like you, needs to breathe. Don't turn your house into a "sealed box," but avoid gaps in windows and doors which cause drafts and waste heat. A little weather-stripping usually does the trick! You paid for the heat in your home, keep it there, where it belongs.

A PROPERLY ADJUSTED FURNACE SAVES FUEL

The gas company service department is ready at all times to assist you by adjusting heating equipment to maximum efficiency. With a gas furnace in your home, you are enjoying the benefits of the cleanest, most efficient and dependable house heating fuel in the world. It's yours at reasonable cost and when your heating system is operating efficiently and you avoid heat loss caused by lack of insulation, drafty conditions around doors and windows and plugged furnace filters, you get full value for your heating dollar.

## B of M Celebrates 75th Anniversary in Alberta

CALGARY, Oct 21 The Bank of Montreal celebrates its 75th birthday in Alberta today, with completion of three-quarters of a century of service at its main Calgary branch according to an announcement today by W C Morier B of M superintendent for the province.

When the first B of M office was opened on October 25, 1886, almost 20 years still had to pass before Alberta was carved from the Northwest Territories to form a separate province in 1905. Seventy-five years ago, the little frontier town of Calgary had a population of only about 1,200 and until that time B of M transactions had to be handled by mail or messenger to the bank's offices in Winnipeg or Regina, Mr Morier said.

Then with development from early barter trading methods, regular local banking service became necessary in "the Territory and a representative was sent by the Calgary city fathers of the day to the bank's head office in Montreal requesting establishment of an office in their city.

Since then, the bank has established offices throughout the province often arriving in the new region with early settlers. Today, there are 92 B of M offices throughout Alberta including [illegible] offices in Calgary.

Mr Stanley George returned to his home on Wednesday after a stay in the Tofield Hospital. All members of his family wish to thank all their friends for their kind thoughts and deeds during Mr George's stay in Hospital. Those are very greatly appreciated

## BARDO DISTRICT NEWS ITEMS

BARDO — We have experienced quite wintry weather this last week with a snowfall of about 6 inches and the thermometer down to 6 above. Very few are ready for winter so we hope November brings us fine weather for there are many bales to be made as well as a little combining and threshing left to be done.

## Do You Run Your Money, Or Does It Run You?

One of the loudest things in the world to do these days is to live within one's income.

A survey made a few years ago among people with incomes ranging all the way from $2,500 to $25,000 a year showed almost everyone wanted one thing more than anything else .... just ten per cent more money!

"That would solve all my problems," everyone said.

But they're really wishful thinkers, says Horace Seller, manager of the Bank of Montreal's Tofield Branch. He has found there's only one real way to get on top of the situation. That's to learn to live with your income - and like it.

Mr. Seller doesn't just talk about it, either. He has some sound suggestions about how to do it, too. Why not ask for a copy of the new B of M booklet "Blue-Print for Successful Personal and Family Planning." It's free on request from the Tofield B of M.

It makes interesting reading. And it may do a lot to help you out of those dollar doldrums.

**New Canadians Buy Canada Savings Bonds**

John Vogelaere, who calls his switchover from a Dutchman to a Canadian "a common story" says he buys Canada Savings Bonds by Payroll Selection for "retirement and private reasons". Born in Indonesia in a Dutch officer's family, educated in Holland, he left the security and pensions of the Dutch Navy for a new start in Canada over a year ago.

Ryley, alert, on the payroll deductions plan at the rate of one a month, he has purchased bonds and intends to continue 'as long as he has a salary'.

In cans of tripedy, the Vogelaeres are building up insurances. "But the bonds protect us for emergency and will give us a nest egg for our retirement."

John Vogelaere met his Scots wife, Mary Russell during his naval war career. A captain in the Free Dutch Navy, he patrolled the southern seas for six years.

They have three youngsters — Robin Russell, 14, Lynn Louise, 8, and Ronald Deanne, 5. The new Canadian family love the land of their adoption — "We'd buy the bonds anyhow - even if they weren't such a good buy," he said.

MAKING VISIT TO CANADA

Fred Tinsley, the "Pearly King" of London, and his wife, the "Pearly Queen," pose at London airport before boarding a jet for Vancouver, Victoria and Calgary, Canada. Tinsley has "resigned" as the highly-colorful Pearly King of London for eight years.

## Civil Defence Exercise proves very successful

Once again Tofield has proved itself a co-operative town. The Civil Defence Hospital Disaster Exercise was carried out successfully on Monday with the co-operation of practically everyone in town and country.

The occasion of the simulated disaster was an accident at the school. It was stated that the gas furnace in the High School wing had exploded, causing 12 casualties among the students. To make this story more real, the students were actually taken to the Community Centre in the morning where a team of expert simulators took Emergency Services Organization "made-up" the children most realistically. Every type of injury was most graphically represented. Women from the W. A. T. C. L. fed the patients at the Community League supplied the use of the hall for the exercise

When the signal on the Town siren signalled the official start of the Exercise the people of Tofield were notified, the accident victims were loaded into the waiting ambulances by the unitoy stretcher-bearers. R. C. M. P. Officers Gross and Lesnicki of Ryley with stress blowing cleared the road to the Municipal Hospital where traffic officers under the direction of Constable John Wall directed the ambulances to route leading to the hospital and other Civil Defence officers guarded the surrounding area and all doors to the hospital. More eight stretcher bearers carried the victims into the hospital where another team of stretcher bearers carried them to the sorting and receiving area where Dr. Froebery presided. The victims were logged and tagged and arrived to the appropriate wards by the last team of stretcher - bearers. Here a team of nurses and ward aides administered treatment. Charts were taken by ribbon (1 CUH, and 2 U.S. girls) to the desk where patients chests and records were started

Dr Cale handled patients in the emergency wards. Dr. Price took care of fractures and burns and Dr. Louis handled shock and concussion cases. Representatives of the local Churches were in attendance to reassure the victims and relatives.

Those patients who were in the hospital and could be moved were evacuated to the basement where they were served tea by the members of the Civil Defence Organization.

Official visitors were admitted and registered and then conducted to various observation posts throughout the hospital. These observers were free to inspect any part of the operation

After the exercise was declared officially over, snacks and tea were served lunch by the Matchmaker W. A. in the United Church social rooms.

Dr. Frosbery so host for the occasion called for a few remarks from Dr. McCallum, Deputy Minister of Health, who had been in attendance. Dr. Beasley-Moore, Registrar College Physicians and Surgeons. Mr. Tyler, Deputy Co-Ordinator of Health, Miss Hevior, nursing consultant, H. M. O. and Mrs. Boyles C. D. Director for Tofield

Mr. John Moore on behalf of the town and district spoke a few a standing ovation for Mrs. Boy

## 300 Children attend Hallowe'en Party at Community Hall

Approximately 300 children in assorted costume gathered at the Community Hall Tuesday evening for the annual Hallowe'en party sponsored by the Community League. Practically all the young imps were in masquerade dress, some in masks, but mostly in full length costumes.

Winners in the pre - school groups were Grant McKernan, Barb Klemmen, Jean Clark, Dennon Young, Dean & Blair Wheat, Sharon Hanger, Rosemarie Eberschark and Ivy Mosby

Grades 1 and 2 winners were: Kim Williams; Glenda Mosby; Bobby Christenson; Duane Kallal; Campbell Young; Greg McKernan; Leslie Eberschark; Roberta Clark and L. Lee Kemp.

Grades 3 and 4 winners were: Terry Moore; Doug Everitt; Gerry Hardy; Lonella Eberhart; Evelyn Nieto, Jane Christensen; Barry Mosby and Colin Harris.

Members of the Women's Auxiliary to the Community League met the youngsters at the door and handed each a bag of popcorn. Following the judging and films they distributed bags of candy, nuts and apples by the home hosts. These treats were supplied by donnii as received gifts and the canvass carried out earlier and money left at various business places for this purpose around town.

As soon as the hall was cleared a new party got under way as members of the Junior High and High School and their teachers had a platter party. Again the attendance was almost 100 per cent as the youngsters, enjoyed a Hallowe'en Ball.

The Hallowe'en Party was the third one held in Tofield and has been completely successful in its aim to put an end to ybeh mals, at the door. Youngsters enjoyed a well planned evening at the hall and had the fun of masquerading as well.

The usual number of pranks were pulled such as garbage pails upped over etc. An unfortunate incident occured when a grain auger was pulled into a dark part of a street and then was hit by a truck and wrecked. Some damage was done to the truck.

Other incidents that also took place which should never happen in a civilized town included the turning on or some fire hydrants and burning of straw on main street.

## Large Choir to Start rehearsals

In preparation for the Christmas Carol Festival to be held on Tuesday, December 19th the Community League is again using massed choir rehearsals under the direction of Mr Andrew Kernany from the Department of Extension. The rehearsals will be held in the United Church basement on Friday evenings, November 10, 24 and December 8, at 8 p.m. All those interested in singing with the massed choir whether a member of a choir or not, are invited to take part in these rehearsals.

## Tofield Beef Club Elects Officers

On October 25th the re-organization meeting of the Tofield Beef club was held in the Moore Estate

The meeting was started by the electing of new officers. Ronnie Beach Appleby was elected president. Duane Moore, secretary. Bob Moon, treasurer and Conrad Scott reporter

Mr. J. Moore, Mr. C Appleby, Mr. M Wood and Mr. R. Wyllie were appointed on the adult committee.

The business followed with Mr. Powers D.A. welcoming the new members and explaining the record books. It was decided that the calves would be weighed in on November 6th, at 9 o'clock at the U.C.G. elevator. The Farmers Union asked the club to hold an amateur program and it was decided to try and sponsor same. A discussion followed and a motion passed to have it about the end of January or the beginning of February. The meeting was then adjourned.

## To hold First Aid Course

Mrs. Ken Boyles, Civil Defence Director for Tofield has announced that the St. John's Ambulance Society First Aid course will be given in Tofield this fall The instructors are to be Miss Mona Krause R.N. and Miss Eleanor Heidebrink R.N. of the Tofield Hospital staff. The course will commence in the middle of November and will probably be held on Wednesday evenings in the meeting room of the Community Centre. A class of at least ten will be necessary. Anyone of 18 years of age or over is welcome. Exact or nine two-hour sessions will be held; one hour for lectures and the other for applied work. No charge is made for the course. The students will be examined by officials of the St. John's Ambulance Society and, if successful, will be awarded certificates.

After five years, one's first aid certificate lapses and must be renewed by another successful course. Three successful courses will qualify the student for a medallion.

**TO BE OR NOT TO BE IN COMMON MARKET?**

Here is the European Common Market, with Britain engaging in talks in Paris on whether or not to join. An anti-Common Market storm rages in Britain. The talks will last for months, it is believed, before any decision is made.

## Ballet Program Enjoyed by All

Ballet is one of the more delightful art forms. To the pleasure of music, is added the graceful color, excitement, and sometimes humor, of the dances. This was very ably demonstrated on Wednesday evening, the 25th of October, when ballet interludes staged and their performances under the the sponsorship of the Edmonton Branch of the W.A. (Holy Trinity)

The opening ballet was in the pure Classical tradition, and was performed, most interesting to the student of ballet than to the casual observer. It was followed by three short items, the first, the always popular Tarantella, then a Jazz number which was choreographed by a member of the company, and lastly the Can-Can, beautifully costumed and danced with plenty of verve.

After the main intermission the company danced some numbers from "The Nutcracker Ballet" & these were probably the most popular items on the program. They were well presented and showed off the individual members of the company to advantage. Here again, as throughout the evening, the costumes were perfect, and added considerably to the charm of the dancing. The program ended with a dance story, set in old Vienna, to the music of Johann Strauss, which is deemed by pundits, this book is a tale of life on other planets and an accomplished copy is now available at the local library. Dr. Johnson is professor of Geology at the University of Alberta.

Another new book that is rapidly gaining popularity as is expected to be widely used for gift giving at Christmas is "The Incredible Journey" by Canadian author Sheila Burnford. This tale of three animals is filled with humor, suspense and drama that appeals to all lovers of adventure and nature. Basically this little masterpiece is music for everyone of every age, who has ever been owned by an animal

Miss Burnford first presented this manuscript to Canadian publishers, who turned it down. She then sent it to the States where it was accepted and published and won wide acclaim. The story has been bought by Walt Disney and will be used for a forthcoming movie. The book has been purchased by the Tofield library and is now available to members.

## Local Librarian attends "Meet the Author Night"

Local librarian, Mrs. W. H. Pendery attended the annual "Meet the Authors" luncheon sponsored jointly by the Canadian Authors Association and the Hudson's Bay Co. The luncheon was held Saturday in the H.B.C. Auditorium. The main item of the luncheon was to present local Alberta Authors and stimulate interest in their writings.

The authors were seated at different tables throughout the auditorium so that the other guests had an opportunity to meet and talk with them. At Mrs. Pendery's table was Dr. L. Johansen, author of "In the Time of the Thotans." Science Fiction, much in demand by youths, this book is a tale of life on other planets and an accomplished copy is now available at the local library. Dr. Johnson is professor of Geology at the University of Alberta.

## Popsicel Sot's Fiscal Future Rosy, Says B of M

"You can shorten the odds on future happiness for your youngsters by getting them off to a good start financially and teaching them how important it is to save," says Horace Seller, manager of the Tofield branch of the Bank of Montreal.

A dollar bill is all you need to start a child's savings account at the B of M, "but this is a good beginning and a fine way to develop habits of perseverance and self-reliance which will be so valuable in the future," he adds.

Mr. Sellers continues, "His own personal savings account will be a strong encouragement to put away part of his weekly pocket-money towards buying something he really wants, whether it's a pair of skates or a college education. The habit of planning and thinking ahead is mighty important in the development of any youngster today. In fact, it's a pretty solid foundation on which to build tomorrow's adult."

Any member of the Tofield B of M staff will be delighted to help your boy or girl open a savings account. Bring your child in soon.

**Tofield Town Council Holds Regular Meeting**

Minutes of the Statutory Meeting of the Municipal Council of the Town of Tofield Held Monday October 30, 1961 at 8 p.m
Members present: Mayor Dr. Freebury, Couns. Herndon, Kalbfell, Smith, Allen, Patterson, Jefferson

Minutes of the last meeting and that of a special meeting were read and approved.

E. M O recording Town in 1961 and to which the Council would receive for Type A sheet.

Co. Beaver Civil Defence minutes read and filed

A petition was in hand signed by the the required number of property holders for extension of water and sewer services from Main Street West on 6th Ave to Alberta St and which was supposed to be submitted to Assoc. Engr. Services Ltd. for processing and it is p. Clerk under a Winter Works Program.

Dept. of Provincial Secretary setting out a programme for a workshop for Recreation Regional Boards Some discussion on the matter was that it be referred to the School Committee of the County of Beaver to try on a larger scale

Tofield Historical Society saying that the County of Beaver has granted the Amisk Creek School to the Society as a Museum, the title to the building carrying a proviso that the building must be moved should the County require the site The Society therefore asked the consideration of the Council as to where the Building might be relocated The President of the Society is to be asked to meet the Council to discuss how to do it.

The policy report was perused and filed.

Accounts were initialled for payment as presented.

Mr. H H Tiedemann was present in a re sual, following his application for an increase in wages for garbage removal. It was pointed that Mr. Tiedemann has his own troubles as to how help is secured and paid which could be burned, and some debris thrown on the ground and also understood that he has a goodly number more garbage to attend to it was generally agreed that he will remove garb ge twice a month from Residential and Commercial premises, and that he would be given an increase of $2 00 per month commencing November 1, 1961, and would include Tofield School twice a year at no cost to the County

Mr G. H Arnett was present as representative of the Town of Tofield on the School Committee for the County of Beaver Nov 8 and to discuss School Bus Routes. Mr. Arnett was agreeable to do what he could, and asked the Council for their direction of travel to avoid less possible annoyance to all concerned. It was suggested that a possible complete circle route could be designated north on Main St to Logan Ave East thereon to the Rural Allowance thence South and West on Cookson Avenue Mr. Arnett would also present the matter to the County Committee

Some time was spent as to a Winter Works Program of graveling some of the streets, and this to be followed up by the Public Works Committee.

Plumbing Permits were approved to Watson Tofield Lots 5-6 Block 15, Plan 8206R.

Bldg Permits to W. L. Rogers $250 addition in dwelling; John Rudzicki $120 00 Garage.

Water and Sewer — J. Earl Francis Lot 5 Block 13.

Ile showed a colored film of just how the Bank would process the application of loan and the help the borrower could expect from the Bank.

Mr. Ken Pendzie, asst.-manager of the new town of St Albert outlined some of the problems they had run into and how they had r ssolved them.

Ken Remington of the Hremit Corp. and former Mayor of Innisfail suggested that to a small town often the thinking of some of the people has not been projected on a high enough plane. He advocated a good public relations program between businessmen and members of the Rural population. He stated that often a farmer does not realize just how important he is to local business.

Also in attendance at the meeting were Bill Hogal of C. F. E. M. and Art Wood and Doug Jones.

**Improvement of Tofield discussed at Chamber of Commerce Meeting**

The meeting room of the Tofield Community Centre was almost full (Wednesday evening for the meeting of the Chamber of Commerce

Mr McArthy, an architect with the Edmonton and District Planning Association had taken some pictures of t.e town and then made some sketches as to how he felt it could be improved.

The most revolutionary was the planting of a few trees along Main Street, other ideas included the fencing of empty lots, a little tree lifting, addition of awnings, etc. He felt that in some instances great improvements could be made in a period of years for little cost.

Bill Norman Lawrence, representing the Professional Engineers of Alberta felt that of prime consideration was a good entrance to the town. This could be followed by a long range plan for drainage and street improvement.

Mr McCord of the I. D. B. gave a very informative description of the operation of the Industrial Development Bank.

**Post Office Lists Christmas Mailing Dates**

With Christmas approaching, The Canada Post Office have set the deadline mailing dates for Christmas letters, cards and parcels sent via surface transportation to points overseas

Parcels for Asia and Hong Kong should be mailed by November 25th Philippines, Navata Islands, Caribbean Countries — November 7th Fiji Australia and New Zealand, November 15th and Great Britain - November 30, 1961

To date for the European Continent also apply for mail to United Arab Republic Egypt other Middle East countries and the Republic of Congo

It is emphasized these are dead line dates The Post Office urges mailers not to delay posting parcels to friends and relatives overseas Last minute postings, if properly made, render it impossible for the Post Office to find sufficient accomodation on the first steamers leaving in time to ensure Christmas delivery.

Postal authorities advise that parcels should be packed firmly and securely in strong corrugated containers in turn, the containers should be wrapped with several thicknesses of heavy wrapping paper and then tied securely with strong twine. Full particulars of address, and return address should be placed inside parcel as well as on cover. All parcels for overseas points require fully completed Customs Declaration forms which are obtainable at all Post Offices

## BARDO DISTRICT NEWS ITEMS

BARDO — The annual bazaar-tea of the Lutheran Church Women was held at the church on Thurs. evening. Mrs. Philip Anderson, President of the L. C. W. was chairman for the following program: Opening Hymn, "Make Me A Captive Lord." The devotion was given by Mrs. Lacey Plouch. A ladies chorus sang two lovely numbers. Pastor Buu based his message on the first five verses of the 67th Psalm. A trio consisting of Mrs. I. Brekkan, Mrs. Philip Anderson and Mrs. Cliff Anderson sang a song, Mrs. Bernice Solberg played a selection on the organ. Mrs. Lester Severson gave the meditation while her daughter Patricia played softly on the organ before the offering was taken and trustees' thanks were laid on the altar. Another hymn and the benediction, brought the program to a close after which lunch was served in the basement by Mrs. Ivan Pasbang, Mrs. Leonard Sandifer and Mrs. Leif Pasbang. Mrs. M. Erickson was the hostess.

Gifts for C. L. B. L. C. L. C. Children's Home at Gwynn and Lutheran World Relief were on display. The offering amounted to $186.00 and the treasure chests brought $99.00.

**Business Arising from the Minutes.**

In connection with the request from the Department of the District Boards for street lights and a proper water supply Cr. Mar now reported that he had made certain investigations in regards to the type of well that would be most suitable in the District. All the water in the vicinity contains a fairly large amount of salts and it was a matter of deciding whether a bored or a drilled well would be most suitable, depending on the contents of salt at the various depths. Some of the residents had suggested that possibly the old well could be cleaned out to its original depth of 190 feet. However, Mr. Mar reeve felt that further investigation was advisable before any action was taken in connection with the street lights, the Secretary reported that he had referred the request to the Calgary Power Ltd. at Camrose but had not had any reply from them.

Moved that the reports be accepted. Carried

In connection with the By-Law for the installation of Town Gas in the County, the Secretary informed the Council that he had contacted the Secretary of the County of Forty Mile No 8, where a large number of town gates were being used, and had been advised that no By-Law had been passed under the relative section. Section 240-A of the Municipal Districts Act, but a copy of the By-Law now in use in the County of Forty Mile No 8 had been received. This did not appear to be of much help and it was decided to take the advice of Mr. Allan Brownlee and refer the matter to the Alberta Association of Municipal Districts, and it was moved that the report be accepted and the matter of a By-Law under Section 240-A if the Municipal Districts Act be referred to the Alberta Association of Municipal Districts and tabled to a later meeting of the Council. Carried

The Chairman for J. H. Robertson attended the meeting at this time, appealing against the Council's decision to give Mr. Hilldrup the Brucefields variation in the area of the County east of the west boundary of sec 15 by Robertson pointed out that approximately 4,000 cubic yards were located in that area and only 3,200 in the area to the west and he felt that this division was very unfair. He also felt that the area allocated to Mr. Hilldrup was much easier worked with larger herds & better roads than the area allocated to himself. In Robertson pointed out that it was his intention to live on the area & he therefore should have at least three fifths of the Brucefields variation. It was pointed out by Mr. Roberts that numerous complaints of overcrowding by him had come to the attention of the Council and that it appeared to be very poor relations between himself and the ratepayers in the County. After Mr. Robertson retired considerable discussion took place and it was finally Moved that no change in the boundaries of the area allocated to Mr. Hilldrup should be made. Carried.

The Secretary informed the Council that Mr. Joseph Stefura had stated that he was making arrangements with Mr. Mike Zacherchuk to rent the house, bunk house and yard at the Ryley Coal Co. property on Pt. S.E. 6-50-19-W4th. This property had gone through the tax sale of January of 1961 and had not been in production for some years. The Council felt that the reopening of this mine would seriously affect the mines now operating, and the Secretary was instructed to ascertain what could be done in this regard. Moved that this Council goes on record as not being in favor of the reopening of the Ryley Coal Co. mine on Pt. S.E. 6-50-19-W4th as there are already sufficient coal mines operating in the area. # Minutes of the County of Beaver Council Meeting

The Field Supervisor, Mr. Rex Barker attended the meeting at this time and reported on the Weed and Brush Spraying done the past season, presenting figures as to mileage sprayed and cost per mile and other relevant information. It was mentioned by Mr Boyles that if the County was going to continue and enlarge on its Weed and Brush spraying program, it would be necessary to obtain more and better equipment for this work and he presented to the Council certain figures in this connection, these estimates being contained in the minutes of the Service Board. The Council felt that, in order to do the work in a satisfactory manner, considerably more would have to be spent on this work than obtained by Mr. Boyles and it was decided to look over the equipment used by the M.D. of Flagstaff No. 62 and 21 of Camrose No. 61 and it was moved that Cr. Gilson and Reeve Bennett, Bev Hill and Mr. Boyles together with the Field Supervisor look over the spraying equipment at M.D. of Camrose and M.D. of Flagstaff and bring back a report to the next meeting of the Council. Carried

Moved that the Dept. of Agriculture be advised that it is the intention of the C. many to place fresh soils during the coming season as in former years. Carried

**Business Arising from the Minutes.**

In connection with the request from the Department of the District Boards for street lights and a proper water supply Cr. Mar now reported that he had made certain investigations in regards to the type of well that would be most suitable in the District. All the water in the vicinity contains a fairly large amount of salts and it was a matter of deciding whether a bored or a drilled well would be most suitable, depending on the contents of salt at the various depths. Some of the residents had suggested that possibly the old well could be cleaned out to its original depth of 190 feet. However, Mr. Mar reeve felt that further investigation was advisable before any action was taken in connection with the street lights, the Secretary reported that he had referred the request to the Calgary Power Ltd. at Camrose but had not had any reply from them.

Moved that the reports be accepted. Carried

In connection with the By-Law for the installation of Town Gas in the County, the Secretary informed the Council that he had contacted the Secretary of the County of Forty Mile No 8, where a large number of town gates were being used, and had been advised that no By-Law had been passed under the relative section. Section 240-A of the Municipal Districts Act, but a copy of the By-Law now in use in the County of Forty Mile No 8 had been received. This did not appear to be of much help and it was decided to take the advice of Mr. Allan Brownlee and refer the matter to the Alberta Association of Municipal Districts, and it was moved that the report be accepted and the matter of a By-Law under Section 240-A if the Municipal Districts Act be referred to the Alberta Association of Municipal Districts and tabled to a later meeting of the Council. Carried

The Chairman for J. H. Robertson attended the meeting at this time, appealing against the Council's decision to give Mr. Hilldrup the Brucefields variation in the area of the County east of the west boundary of sec 15 by Robertson pointed out that approximately 4,000 cubic yards were located in that area and only 3,200 in the area to the west and he felt that this division was very unfair. ## Tofield and Ryley Hold Remembrance Day Ceremonies

Comrade Gifford Main, First Command was guest speaker at the Vice President of the Provincial of the Armistice Day Service in the Tofield Community Centre on Saturday

Preceding the service, Members of the Canadian Legion assembled at the cenotaph for the purpose of wreaths. Those taking part in the ceremony were Comrade Main, Comrade Bill Lambert, Comrade Bill Christensen and Comrade Georgia Christensen.

Chaplain Rev. Walter Hammett led out in the Memorial Services. Between the sounding of the Last Post and Reveille by Ken Boyles, the traditional two minutes silence was held in honor of those who gave their lives. Allan Maxwell performed the flag ceremonies.

As the service closed the Legion members formed ranks behind Bagbearers Ed Reeder and Conrad Simonson and Piper Don Dagnal and marched to the Community Centre for the regular services.

Services were also held in Ryley at the Community Hall when the addresses were given by the Rev. Mr Hessels and Bob Wennekamp. The Last Post was sounded by John Booth Fuller.

### METHODS OF MEASURING INGREDIENTS

Do you measure the ingredients of a recipe carefully or do you just cram in an approximate amount and then wonder why the recipe failed.

To measure dry ingredients properly you fill the cup or spoon to overfull and then level off with a spatula or straight edged knife. This is especially true for flour, baking powder, baking soda, powered spices, sugars.

To measure flour correctly, the flour should be sifted at least ONCE before measuring out the required amount.

To measure liquids set a glass measuring cup on a level counter and bring your eyes to the measuring line and then add the liquid to what is needed.

The standard accepted fats such as butter, lard, crisco etc. fill a measuring cup with cold water until the water level is reached. Pack the fat in, pressing it down well. Pour off the water. You need no added cup allowance. You fill your measuring cup to overflowing full and then add fat until water level reaches the full mark.

Here are a few measurements that we need you will your baking.

1 teaspoon equal 1 tablespoon
16 tablespoons dry ingredient equal 1 cup
12 fluid ounces liquid equal 1 cup.
2 cups equal 1 pint
2 pints equal 1 quart
4 quarts equal 1 gallon.
1 pound equals 2 cups
1 pound water equals 2 cups
1 oz butter powder equals 2 tablespoons
1 pound walnuts equals 4 cups
1 pound granulated sugar equals 2 cups
1 pound brown sugar equals 2 cups
1 pound butter or lard equals 2 cups
1 p und pastry or bread flour equals 4 cups
1 pound sifted bread crumbs equals 4 cups
1 pound dates equals 2½ cups

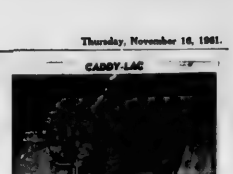
CADDY-LAC



This self-propelled caddy follows Rae Demier around a golf course in Schenectady, N.Y. Powered by a General Electric motor, the electric caddy can be sent across the course to a partner, or be made to precede or follow the golfer by the push of a button. It is being manufactured in Oakland, Calif.

General Motors is Proud to Present-

Here is a car excitingly new and refreshingly different, created by General Motors to satisfy, and satisfy completely, those Canadians who want modern style yet family-sized dimensions—ample room for six adults, with plenty of legroom, headroom, hiproom and doors that let you in and out with ease.

Acadian has been precision-engineered, quality-built and exhaustively tested to meet the highest standards of excellence. Its low price and economy of operation make it thrifty to own. Its spirited performance gives you quick response in traffic and effortless cruising on the highway.

Part and practical in design, tasteful in appointments, refined in every detail, Acadian has a versatility that sets it apart.

Proudly, then, we present this totally new car—Canadian in name, Canadian in style, Canadian in craftsmanship—the Acadian from General Motors.

CHOOSE THE POWER THAT SUITS YOU BEST! Engine 4 or twelve 6-cylinder! Both are great performers—and both of them economical!

STANDARD EQUIPMENT! Acadian has it all—and how much! For a few pennies more, many favorites like Power Steering, Power Brakes, Powerglide gearing, Body by Fisher!

TRANSMISSIONS TO SUIT YOU! SAFETY AND SMOOTHNESS! The new car has big, rust-proof brakes—of course! For constant driving safety—that stop you evenly, quickly!

NEW COLORS AND UPHOLSTERY DESIGNS! Gaiety, from a whole new range of decor designs and colors—and so popular!

MODEL'S REALLY BELOW COMPARISON FOR ECONOMY! Credited to Body by Fisher, smooth-flowing contours, generous roominess, wide-opening doors—and more!

A GREAT NEW RIDE. VINYL PEVEL IN! New coil suspension is found—not those Flint-Pick weights—a variety of the car—like you never felt before! Ride Level!

TRANSMISSIONS THAT TAKE ALL THE CARE OUT OF DRIVING! That's the joy of Acadian Left Synchro-Mesh transmission! Powerglide Automatic is available at extra cost with 4 and 6-cylinder engines!

## CHARTING 20-YEAR PROGRAM FOR COMMUNISTS

Here are 12 of the better known Communist party leaders charting communism's program for the 1960s and 1970s at the 22nd Soviet Communist party congress in Moscow: Janos Kadar, Hungary; Walter Ulbricht, East Germany; Wladyslaw Gomulka, Poland; Antonin Novotny, Czechoslovakia; Todor Zhivkov, Bulgaria; Anastas Mikoyan, USSR; Nikita Khrushchov and Frol Kozlov, all of the USSR; Ho Chi Minh, North Viet Nam; Palmiro Togliatti, Italy; Maurice Thorez, France; Chou En-lai, Communist China, and Gheorge Gheorghiu-Dej, Romania. The East leaders are representing approximately 38 million card-carrying members.

## Anti-Smoking Education Introduced in Hamilton

The introduction of anti-smoking education as an integral part of Canadian school systems is the only logical follow-up to the effort and money being expended on health and physical education, Dr. Harry Pulkin, chairman of the Hamilton, Ontario, board of health, says in an article in the October issue of the Canadian Cancer Society newsletter "Progress Against Cancer".

Dr. Pulkin was one of the prime movers in the survey of smoking among secondary school children currently being conducted by Hamilton board of health with the co-operation of the board of education, the Hamilton Separate School Board and the Canadian Cancer Society. It is the second such survey to be undertaken in this country, the first having been initiated in Winnipeg last year.

"It saddens me to drive past a high school and see cigarettes dangling from the lips of students," said Dr. Pulkin. The school system, he said, was at fault in not emphasizing "the harm that smoking can do to the health and physiques of our boys and girls."

The 53-year-old general practitioner, besides being chairman of the board of health, has been a school trustee for the past 13 years and recently became vice president of the Hamilton and of the Canadian Cancer Society. He said he gave up all smoking himself two years ago when he became convinced that it was not only harmful to himself but a bad example for a doctor to be seen smoking.

"As much as it hurts," he said, "I think every doctor who smokes should give it up because people are more impressed by doctors as a living example of how they should live than they are by the theory of

"I am convinced that smoking is a definite factor in the cause of lung cancer. But even if it were not, there are still five poisons in every cigarette which are detrimental to health. I'm sure cigarettes are a factor in peptic ulcers, diseases of the arteries and heart diseases."

The Hamilton survey was taken following approval of a resolution by the board of health, which also requested the support of the Hamilton Academy of Medicine for a general campaign against cigarette smoking. The Academy has asked all Hamilton doctors to pass out anti-smoking pamphlets provided by the Canadian Cancer Society in their waiting rooms.

Coincident with the survey was distribution of pamphlets among all of Hamilton's junior secondary school pupils.

Features of the new Ford car

FAIRLANE IS A NEW SIZE—BETWEEN A FULL-SIZE CAR AND A COMPACT...

The Fairlane series is a completely new line of cars. It gives you the room, ride and performance of a big car at a price below many compacts. It's available in two series, Fairlane or the deluxe Fairlane 500.

SO WELL BUILT YOU CAN FEEL IT!
Visit your Ford Dealer now . . . take a ride in the '62 Fairlane—and actually "feel" the difference. Its solid unit construction brings you a new level of quiet and quality. That is because the floor, sides and roof are all welded into one piece. And so that there's no place for rattles to start.

HOW V-8 ENGINE ...
Ford has developed a completely new V-8 engine that combines the strength of iron with the lightness of aluminum. As a result, the 221 cu. in. Challenger V-8, the newest from the world's V-8 leader, brings you responsive power with smoother, quieter, more economical performance. A new Fairlane Six will deliver substantially better mileage than any other in its class and it is actually more economical than many of the compacts!

ROOMY AND COMFORTABLE FULL-SIZE INTERIORS ...
Inside, Fairlane is not a compact. It boasts traditional big car roominess for six passengers. Posture-perfect Ford seats are generously form padded. There is a wide selection of luxurious interiors. And the optional choice of power steering and power brakes completes the remarkable standard of built-for-people comfort everywhere!

AS SERVICE FREE AS A CAR CAN BE!
The new Fairlane enjoys Ford's famous built-to-take-care-of-itself features. You go up to 30,000 miles between chassis lubrications . . . up to 6,000 miles between oil changes. There's a new 30,000 mile or two-year radiator coolant. Brakes adjust themselves—automatically. Ford Dealers give a 12-month or 12,000-mile warranty, whichever comes first.

See the new Ford Fairlane now!

The new Ford car – Fairlane – a completely new car (especially in size and value). Sized between a full-size car and a compact... priced below many compacts...and so well built you can feel it... Fairlane is probably the most sensible car you can buy today...

## Curling Club to hold drive for funds

President of the Tofield Curling Club Charlie Kallal stated this week that the club is now in a position to consolidate its liabilities into a One Loan Plan.

Under the plan, the club's only obligation will be to the residents of Tofield who will therefore reap the interest on their investment.

The loan drive is expected to get underway in the next few days and the committee is confident of having the necessary amount of money raised by the middle of December First part of the loans will be used for the retirement of outstanding accounts, and the second part of the money raised will go for the completion of the interior of the rink to supply better spectator facilities and

If you are interested in getting a good return on your investment contact any member of the rinks executive right away or drop in and discuss it with the manager of the Bank of Montreal, Horace Seller.

## Province Aids Three Towns to Overcome Water Shortages

The Provincial government has come to the aid of three towns with low water supplies in one case there was a threat of a town being without water for the winter

At Hilden, crews pumped 2 million gallons of water into the town's reservoir. Crews presently are working at Viking and late will move on to Thorsby

A series of difficulties have hampered operations at Viking. Normal spring run-off into the reservoir there is from 30,000,000 to 50,000,000 gallons. Last year run-off amounted to 15,000,000 gallons and this year only 1,500,000 gallons was accumulated. The Town officials fear that the water in the reservoir will freeze solid this winter, cementing their source of water.

Two weeks ago crews moved into the Viking area to intercept from a large shrub seven miles to the town's reservoir. Before operations started, a cold snap hit and water froze in the seven-inch aluminum pipes. A number of breaks in the pipe resulted and the line had to be taken up and repaired. When it was put back, many of the welds, be the coming the pipes to leak Then one of the pumping units caught fire and burned and an auxiliary pump failed to work.

Town officials Friday said that when normal pumping begins, probably next week, it will take about 10 days to pump sufficient water into the reservoir to last the winter. The town is being charged $10 per hour while the pumping takes place.

## Around the Town

Mrs A G Hoover and Mrs Larry Webster who have been visiting their parents left Wednesday and the latter is to be taken up and repaired. When it was put back, many of the welds, be the coming the pipes to leak Then one of the pumping units caught fire and burned and an auxiliary pump failed to work.

Town officials Friday said that when normal pumping begins, probably next week, it will take about 10 days to pump sufficient water into the reservoir to last the winter. The town is being charged $10 per hour while the pumping takes place.

## R.C.M.P. urge all drivers to make Safe Driving Week a success

The R.C.M.P request the full cooperation and assistance of all motorists and pedestrians in make "Safe Driving Week" December 1 to 7th. sponsored by the Canadian Highway Safety Council, a success. All types of motor vehicle accidents are on the increase this year.

From January 1 to September 30, 1961, 141 fatal motor vehicle accidents took place in areas policed by the R.C.M.P. with 154 persons being killed and 199 persons receiving injuries During this period there were also 5,925 accidents involving personal injury and property damage accidents.

As of June 30 — 79 fatal accidents had taken place on Alberta Highways in 1961, 16 per cent below the total for the same period last year Between July and September 77 fatal accidents took place bringing the death toll to 6 per cent below the 83rd month total for 1960. September was one of the worst fatality month, on record and October's death rate continued high

Of the fatal accidents, 41 were single car accidents, 38 accidents involved pedestrians, 31 accidents were head-on collisions, 9 were rear-end collisions, 23 involved poor driving conditions, 14 interior accidents, 6 carcycle accidents All could have been avoided.

Highly-one fatal accidents took place on main highways and 58 on district roads. Liquor was involved in 46 accidents. The drivers at fault were killed in 77 accidents and prosecutions were entered against 32 other drivers. Of these fatal accidents 84 occurred in the daylight hours with 57 occurring at night.

Many of these accidents were caused by too much speed for road conditions and curves, careless or inattentive driving, lower and poor driving habits.

Accidents can be greatly reduced both in number and magnitude by the drivers and the pedestrians observing the rules of the road, frequent inspections of their lights, brakes and other equipment and by driving and walking in an alert manner.

Improved patrols will be made during "Safe-Driving Week" With common sense and care on the part of drivers, there need be no accidents.

**QUEEN ELIZABETH TELLS DEFENCE PLANS**

Queen Elizabeth II of Britain, wearing crown jewels, waves from her car as she arrives for the opening of the new session of Parliament in London. There, with due solemnity, she announced defense plans that could double the size of the British army to protect her realm from the "threatening times." About 50,000 national servicemen and 140,000 reservists would be affected, it was reported. The Queen's statement followed expressions of grave government concern over the worsening Berlin crisis.

# County of Beaver School Committee Holds Meeting

A permanent position is open, to be given the first consideration and that no meal, to be paid for the cost of his medical and transportation in this connection.

A letter from the Village of Ryley, proposing to make Second Avenue, west of Queen Street intersection a "one way" street at all times, to continue west to Prince Street, then south along Prince Street, was referred to the Committee. The proposal was considered quite in order. Moved that we agree to the proposed "one way" street and further, that the County supply the necessary signs.

Mr. Arbuti reported that he had attended a meeting of the Tofield Town Council, in connection with a proposed route for the school buses to take within the limits of the Town of Tofield and that it was suggested, that the buses entering the Town from the South, would proceed north on Main Street to Cushman Ave., then north on 4th street to Logan Avenue, then go on Logan Ave. to Govt. road allowance, south on the Govt. road allowance to Second Ave. and west on Cushman Avenue to the School. In the afternoon the buses would proceed west on Cushman Ave., to Main street and then south to 1st Avenue, and from there leaving the Town limits. It was considered that the Town of Tofield would have to pass the necessary By-Law and supply the necessary signs. Moved that we have no objections to the proposed bus route, within the limits of the Town of Tofield

The Secretary referred to the Committee a paper delivered at the Quarterly Meeting of the Edmonton Union of Municipalities by the Medical Health Officer of the Strathcona Health Unit, concerning communicable health hazard problems in our public and high schools and reported that this paper had been formed into a Resolution, that would be placed before the Alberta Association of Municipal Districts Convention on November 14-17th with the request that the Provincial Government fully investigate the problem with a view of devising appropriate action. Moved that the information be received and filed.

The Secretary informed the Committee that the balance of the school building assistance grant in connection with the Industrial Arts and Home Economics buildings at Ryley and Viking in the amount of $22,000.00 had been received.

Moved that approval be given for a Teacher Exchange, involving Miss Roberta Cumming of Tofield, with a teacher from Rosland for the 1962-63 school year.

The Superintendent referred to the Committee a bursary application from Miss Diana Davis of Camrose, this applicant being from outside the County. Mr. Pike mentioned that he had had three applications, but would only recommend Miss Davis. Moved that the application for bursary from Miss Diana Davis of Camrose be approved.

There being no further business, it was moved that the meeting adjourn.

# County of Beaver School Committee Holds Meeting

The regular meeting of the County of Beaver No. 9 School Committee Meeting was held on Monday, November 7th, 1961.

Mr. Hardy mentioned that on [illegible] day the grade two [illegible] at Bruce due to [illegible] combined with high [illegible] causing a draughft there and been some occurrence of [illegible] possessing among the [illegible]ns, and that, in his opinion, this being conveyed to by the Superintendent, a new heater was necessary for this building. It was moved that the school repair foreman, Nick Shishinski, be authorized to obtain the necessary heater for this building.

The Secretary informed the Committee that he had not advertised for standard and overhaul schools as instructed at the last meeting. The reason being that he had been unable to get any information as to whether or not the overhaul School had been sold previously. Moved that the report be accepted and that the schools be advertised for sale when the Secretary has the proper information.

The Secretary informed the Committee that School Committee members from Town and Villages were not covered under the Workman's Compensation Act and that he had discussed this matter with Mr. Hough, who had suggested that a Resolution from the A.A.M.D. Convention, requesting coverage for these persons, would no doubt receive favourable consideration.

Moved that a Resolution requesting that the Workman's Compensation Act be amended to provide coverage for town and village members on the County School Committee be submitted to the A.A.M.D. Convention and the A.S.T.A. Convention in 1961.

In regards to the request from the Tofield Curling Club (Mrs. [illegible] of the October meeting), for some type of subsidy by the Committee in connection with the plan of the Tofield Curling Club, whereby students are allowed to curl after school for the nominal fee of 25c per student per game, this matter having been tabled at the October meeting for further suggestions from the Tofield Curling Club as well as from the Viking Curling Club, Mr. Arnett advised in regards to Tofield, that there was no curling during the day on P.T. periods, all curling was done after school or at the games and hours when he could curler this appeared to be quite satisfactory to the Curling Club members. Mr. Hedditch mentioned that at Viking there was the same arrangement for curling during P.T. periods and it was questioned that this being the only school where curling during P.T. periods was feasible, as the rink was very close to the school. Any curling done by students after school hours was done entirely on their own. It was moved that no subsidy be paid to the School Curling Club.

Mr. Pike reported that he had been making arrangements for final inspection of the schools prior to the meeting, as per Resolution of the October meeting, and that he had now an agreement with the final inspection at Viking on Wednesday 8th November 9th and that the final inspection of the Ryley [illegible] could be made any time in the following week. It was decided to do the inspection at Ryley on Monday, November 13th and it was moved that the report be accepted and the dates for inspection concurred in.

The Secretary Treasurer informed the Committee that, as instructed by Res. 224 of the October meeting, he had written Mr. K. C. Parton in connection with the position of Bus Supervisor for the County and had been informed by Mrs. Parton that Mr. Parton was in the hospital having had an operation for cancer, and Mr. Parton would be unable to attend today's meeting, and that he would not likely be able to attend the Council meeting on the 9th either. Moved that Mr. Parton be requested to, if possible attend the December meeting of the Committee.

Moved that the letter from the Secretary of the Tofield Historical Society, expressing the gratitude of the Society for the Amiak Creek school building, be received and filed.

Moved that the letter from Petra Stauffer, expressing her regret in not being able to continue as a school bus driver for the County and expressing her appreciation for having had the opportunity to drive a school bus for a number of years and for the cooperation that she had received from all the County officials that she had dealt with, be received and filed and that a letter of appreciation be written, tendered be forwarded to Mrs. Stauffer.

A letter from Mrs. William Davis of Brule, referring to the odor of carbon monoxide poisoning resulting from a faulty heater in the grade two room in Brule, was referred to the Committee. Moved that Mrs Davis be informed that a new heater is being obtained for this room, that the cause of the fumes building up in the room no doubt resulted from the old stove which was not in the best condition although it had been accepted and passed by the fire inspector, and that it was thought that the high wind on the day in question had resulted in a downdraft, causing the fumes to build up in the room rather than escape through the chimney.

Application for the position of bus driver from Mr. Wesley Ingram of Kingman was referred to the Committee. It was considered that Mr. Ingram was residing far from Tofield, and it was moved that due to the distance from Tofield to Mr. Ingram's residence, the application not be considered.

A letter from Mr. John Manor, [illegible]

. . . Put Your Advertising
Where People, Ready-To Buy,-
Must See It

An advertisement can't begin to sell unless and until it is SEEN by those who are in the market for what is offered for sale. Best way to make sure that your advertisement will be SEEN by the right people at the right time is to advertise in this newspaper. It's as simple as one-two-three.

(1) Folks who want to buy something like to get all the information they can get about what's for sale.

(2) They turn naturally to the advertising columns of this paper for a quick, comprehensive look at the market.

(3) Your advertisement here is never an intrusion or an interruption; instead, it is exactly what your best prospects are LOOKING for! Take the shortest distance to your largest, most responsive market . . . via advertising in this newspaper.

To help you get the most out of your advertising dollars, we place at your command (without extra cost) the hundreds of illustrations and hand-lettered headings supplied monthly by the METRO Newspaper Service. ### LET.S TALK ABOUT FOOD FADISM

**What is Food Fadism?** A fad's a pet notion or craze that becomes a widespread fashion usually for only a brief period. A food fad may be based a certain misconceptions with some half truths thrown in. The fad is usually fostered by cranks who have been able to capitalize on it. They pretend to have vast knowledge which they claim the experts are keeping from the rest. They use this knowledge to sell "health-ful" products at high prices.

**Is Food Fadism Harmful?** A number of studies have been made of current fads. Many of these are harmless or annoying but some do represent a potential threat to health. Some fads include the food of needless superstitions where no cure is possible. Diabetics have been told to abandon carefully controlled diets in favor of one or more special foods with tragic results.

**Types of Fads:** Food fadists prey on human desires (and gullibility). Obesity is a serious problem and reducing is a slow, frustrating experience. All reducers would love to be beautifully slim overnight. The fadists are all too aware of this desire so the market is flooded with "wonder" diets, pills and gadgets which will certainly reduce the pocket book but will have only temporary effect on the figure.

Weight lost quickly is usually regained just as quickly because the over-weight person has learned nothing on nutrition and will go back to her former habits in weeks.

There is another new fad, that of using multi-vitamin preparations. There is no evidence of actual harm from this practice except for the possibility of overdosing with Vitamins A and D, or of causing imbalance among the nutrients. However, it is a very expensive fad.

The fad of "nature foods" has a grain of popularity every now and again. "Wonder foods" such as yeast, wheat germ, yoghurt, molasses, sesame seeds, millet, honey, etc., are attributed with all sorts of wonderful powers — a cure for a variety of diseases, a quick weight reduce a cure of vitality, etc.

Who list could be expanded to include many other examples but there is ONE COMMON FACTOR in each case — someone has something to sell at a very high price.

Remember

1 Be a little suspicious of any food, diet plan or piece of equipment for which exorbitant health claims are made.

2 Get accurate nutrition information from reliable sources.

3 Keep a copy of Canada's Food Rules handy.

4 Even if there is not a health issue at stake why should you pay a fabulous price for food nutrients readily available at a much lower price?

5 Consider this quote from a Canadian nutrition review. "It seems strange that adults and children alike rebel against eating the nutritious foods recommended by recognized authorities in the field, yet willingly eat very distasteful concoctions recommended by fad diets."

### THE NUCLEAR BOMBS

It is a sad thing that in homes across the nation there are discussions about whether or not to build fallout shelters, how much food to stock for survival, and all the rest of it. What a terrible impression this must make on the minds and hearts of children. Even adults are losing the strain of such threats far more than they realize, particularly the ones who let their nerves get worn down to [illegible] [illegible] everywhere.

One organization [illegible] Women's Institutes [illegible] Mrs. Ramsbotham, Fulford, Harbour, Va is conducting a campaign to get all young women in the Commonwealth over and The Way In Life broadcasts on Nov 1st, 2nd and 3rd.

Vol. 10 — No. 15 TOFIELD MERCURY, TOFIELD, ALBERTA Thursday, November 30, 1961

Well known Alberta cattlemen at the recent Royal Agricultural Winter Fair at Toronto are left to right; Lawrence Kallal and C. Kallal, Tofield and Stuart Fenton of Irma. These Alberta breeders captured two of the top awards at the Fair.

## Agricultural Service Board Holds November Meeting

The regular meeting of the Agricultural Service Board of The County of Beaver No. 9 was held in the Council Chambers, Ryley Alberta on November 8, 1961

The Chairman, Cr. Gibson called the meeting to order at 1:40 p.m with the following members present: Cr. Reddish, Mr. Peter Hrabec, Mr. Leo Maruszenko. Mr Stan P wers, District Agricultural, and Mr. Ray Boyles, Field Supervisor were also present

Moved by Peter Hyabec that the minutes of the meeting of September 27, 1961 be accepted.

The Secretary advised that the use of 1000 crystal bait had been approved by the County Council and the Department of Agriculture has been notified.

The Secretary also advised that the C unty Council had not changed the area allotted to Dr. Robertson for brucellosis vaccination

Regarding signs for the County as discussed at the last meeting, the secretary said that Howco Metal Products Ltd. had been contacted and were to send quotations on these signs

Cr R eddish said that pay for hangs captains had not been discussed by the County Council but would be brought up at the next meeting on November 8th, 1961.

Mr. George Goldberg of Niastra Chemicals, Ltd. attended at this time to discuss new weed and brush spraying equipment.

Cr. Reddish said that they had looked at the equipment of the M.D. of Wainwright equipment Cr. Reddish said the M.D. of Wainwright equipment was a 20 gallon per minute pump mounted on a 3 ton truck. The total cost of their equipment was about $6,000.00

Mr. Goldberg outlined the differences in the 20, 35 and 60 gallon per minute Hesa Pumps. He said that in his experience the 35 at suitable pump in the 60, due to the fact that there is only a short period when the spraying [illegible] done

Mr. Goldberg gave the prices for the 35 and 60 gal p.m sprayers. The model 35 complete with 1000 gallon tank but less hoses, guns, reeller and hose reels is priced at $3,856.80 The reeller pump would be $1424.00 and a double hose reel is $241.00

The Model 60 with a 1000 gallon tank, but less hoses, guns, reeller and hose reels is priced at $4580.00. The reeller pump would be $1722.00 and the hose reels would be $264.00.

The trade-in on our Hesa 20 pump would be $250.00 on either pump

Mr Goldberg said that at present there are two Model 60's at Realtor. If the County wishes to purchase a 60 and orders in time to get one of these items there will be a discount of 5 per cent.

Moved by Cr. Reddish that the new contract between Dr Robertson and the County include the Spring vaccination and if this work is done by Dr. Robertson alone he will receive 15c per head but if the County requires assistance he will receive 60c per head as is the case for the Fall campaign.

Peter Hrabec said that something should be done to improve the appearance of the Municipal Dog Pitch. He said the dust comes out of the ashes and sand sticks to the side of the building

Stan Powers said that this problem had been discussed by the Board of the Road Cleaning Plant but they had not arrived at a solution

Stan Powers said that in a survey conducted in the Vegreville district it was shown that 80 per cent of the grain delivered by elevators was rejected because of tartary buckwheat He said he had contacted some elevator agents who said that there was considerably more tartary buckwheat in this district this year than in previous years. He said that he, in conjunction with Ben Boyles, were going to do a survey to find out the tartary buck wheat situation for the County.

Mr Goldberg said that, in tests they have made, tartary buckwheat can be controlled with 2-4-D. He said that farmers can eliminate 90 per cent to 95 per cent of tartary buckwheat with an application of 2-4-D at 6 to 8 ounces per acre.

As there was no further business it was moved by Councillor Reddish that the meeting adjourn at 4:50 p.m

Mr Goldberg showed the slides mentioned previously until 5:45 pm

**Bank of Montreal Financial Statement Shows Most Active Year**

Local material and international operations of the Bank of Montreal have added up to make the most active 12 months in the bank's 143-year history, according to Horace Feller, manager of the Tofield B of M

Releasing the bank's annual statement covering the period to October 31, he said it showed that the local branch and 576 other offices further had established new records in almost every phase.

Resources rose almost half-a-billion dollars to a new high of $2 856 million, he said, while deposits, including Canadians' personal savings of some $1,749 million, amounted to a record $2,647 million

LOANS INCREASE

Loans of all categories including N.H.A. mortgages, farm and home improvement loans, call loans, Family Finance Plan advances and loans to business and industry — totalled $1,584 million, an increase of 9.06 per cent over the 1960 figure

B of M earnings also reached a new peak at $14,378,971 but this figure was only realized after income tax payments of 12,867,791 the manager said. The earnings figure was 2.5 per cent more than a year ago.

SHAREHOLDERS NOW 52,000

Of this amount, the bank's shareholders, now numbering a the 52,000, are receiving dividends of $2.06 per share — a total of $15,453,750, or $5,300,011 less than the income tax bill.

The manager said the amount that "quick" assets amounted to $2,042 million, representing 54.56 per cent of liabilities to the public of $3,742 million, versus 53.97 per cent last year.

The value of premises is shown at $43,062,263, an increase of 13.3 per cent over the 1960 figure of $35,551,917, an indication of the extent of the bank's building and modernization program in this province and across the country.

## Wedding of Local Interest

ERICKSON — MACK

A pretty Presbyterian Church, at Lewiston, N.Y. was graced by a centerpiece of white mums, and flanked by candelabra white baskets of mums decorated the chancel for the marriage of Miss Janet Ruth Mack and Mr. Olaf Stanley Erickson.

Miss Anna Caley was the organist and Mr. Henry Mess cousin of the bride was the soloist.

The bride is the daughter of Mr. and Mrs. George John Mack of Lewiston. The groom is the son of Mr. and Mrs. Mikael Erickson of Tofield, Alberta.

Given in marriage by her father, the bride wore a gown of white peau de soie and imported Chantilly lace. The long bodice was styled with a scoop neckline and long tapered sleeves. The dome shaped skirt featured lace appliques trimmed with seed pearls and tiny crystals. A bouffant bow accented the chapel length train and a matching lace and seed pearl head band held in place her veil of imported silk illusion. She carried a bouquet of white roses and carnations

Miss Gretchen Mack, cousin of the bride, was maid of honor. She was attired in a street length gown of fern green. The bodice was fashioned of dark green chiffon velvet with a scoop neckline and short length sleeves. The bell shaped skirt of satin featured a deep flounce trimmed with a tiny bow. A fabric matching bow held her circular veil. She carried a bouquet of multi colored fall mums accented with wisps of wheat. The bridesmaids, Miss Marjorie Hintz and Mrs. Robert J. Gandy, Jr. were attired similarly to the maid of honor.

Mr. Donald H. Macdonald acted as the best man and Mr. James A. Sazras and Mr. W. Grant Hollenback served as the ushers.

A reception was held for the guests at the Niagara Falls Country club at Lewiston Heights at 5 o'clock.

The bride's mother wore an apple green dress of lace and chiffon with a bar of green velvet bows. Her corsage was of brown cymbidium orchids. The mother of the groom chose an autumn brown silk dress and with matching accessories her corsage was of yellow cymbidium orchids.

For travelling the bride chose a wine and black flecked tweed dress with a matching waist length jacket. She wore a black brushed fur hat and matching accessories. A corsage of feathered white carnations completed her ensemble.

From return from their wedding trip through New England the couple will reside at 1350 Wyoming Avenue Niagara Falls New York.

How your Money worked at my Bank in 1961

Horace Seller, Manager
Tofield Branch
Bank of Montreal

This is my personal report to you on what the dollars you entrusted to us did in 1961. It must start with a "thank you" for the trust which you — and three million fellow Canadians — have shown in the Bank of Montreal, by depositing your savings with us.

Throughout 1961 your bank kept that money working hard for private individuals and for the community as a whole, through loans and investments. Much of that money went to people in all walks of life, to finance purchases of all kinds. It went to small and large businesses, expanding their operations. It helped create new jobs, it assisted farmers to improve their farms... built new schools and financed research and education . . . it paid for new roads and community modernization.

Every section of the country, and people in every walk of life, benefited by the money Canadians entrusted to the B of M.

Clearly, in 1961 those deposit-dollars of yours did a double job of work. They helped to build your future, and they did a big job in helping to make for a better future for Canada as a whole.

Horace Seller

Facts behind the Figures in the B of M's 146th Annual Report

DEPOSITS: These stood at the highest figure in the history of the Bank. Nearly half is the personal savings of customers. The remainder is money deposited by business firms, community organizations and governments. At the end of the Bank's 146th year on October 31st, 1961, total deposits amounted to $5,646,622,250.

LOANS: Besides investments in government and other high-grade public securities, many thousands of loans were made throughout the year to people in all walks of life — to farmers, miners, fishermen, oilmen, lumbermen, ranchers, salaried people; to industrial and business enterprises large and small; to community organizations; and to Provincial Governments and Municipalities. Total loans at year-end — $1,933,790,636.

When you save money at the B of M you not only keep it safe and earning interest for you, but you make a sound investment for yourself in Canada's growth now and in the years ahead.

Whether you want to save money or borrow it for some useful purpose, you'll like doing business at the B of M. So, if it's about money, see Canada's first bank first!

Mr. Patterson suggested that the scheme of the Tofield Mercury service the area now served by the Holden Herald as well as the area presently served by the Tofield Mercury, be tried for a year, and he also stated that he would discuss the matter with the Councils of the Villages of Holden and Ryley & the Town of Tofield. Mr. Patterson then retired.

The Council felt that more information was needed, before any decision could be made, as to the number of ratepayers taking the Tofield Mercury, also that some opinion should be obtained from ratepayers in the Holden district and further that Mr. Pon, the publisher, of the Holden Herald, should be given an opportunity to state his case, and it was MOVED that the matter be tabled to the next meeting. ## Fashions

The overblouse is having quite a season just now, both with suits and as one part of a two-part dress plot. To give a long-torso look to this one, made of wool jersey in bone white, which also goes in for an Empire effect in its stitched yoke.

The shirt is a bright red waffle weave, souffle wool made with unpressed pleats front and back.

HOMEMAKER —— HANDS

Your hands are always on display. Even a hard worked pair can be beautiful You may doubt this at this time of year, or any time as far as that goes. The cold winds and Christmas housecleaning are not the best combination for beautiful hands but there are methods of combating them

Good habits will turn tell habits into an attractive pair in one week.

All hands, should start and end the day with lotion or cream body lotion is good, but cream is better. The first rub is absolute insurance. A small soft nail brush, kept at the bathroom, should be used as regularly as your tooth brush Wash your hands often to keep germs from rubbing in cuticles and nails, smooth on lotion, and rub.

Sometime hands may need rubber or plastic gloves as shields against detergents and cleansers. All hands should gloves for jobs unusually hard on the skin. Always wear gloves outdoors — especially during cold or wet weather

Once a week take time out to manicure your nails — perhaps while you are watching your favorite T.V. program Brittle, broken nails grow stronger with care. Wearing polish sets as armour-like coats of nails. A rounded nail on every hand — never a metal file to shape your nails.

Here are a few tips for manicuring your nails:

1 Shape nails gently with fine edge of emery board File toward centre and avoid pushing down to sides of nails. A rounded nail that follows the lines of your fingers is prettiest and smartest.

2 Soak hands for about two minutes in soapy water, using small brush.

3 Dry hands thoroughly. Push cuticles (the skin around the half-moon at the base of the nail) back gently with a soft cloth or tissue. Never pull, cut or bite the cuticles: it is a definite, fragile tissue that can easily become damaged

4 Wrap a bit of tissue or cotton around an orange stick and clean gently under the nails. Cotton saturated in pHaMide will remove any stains under the edge of the nail.

5 If dirt or stains remain undo nail, try a few days of extra nail-scrubbing. Or try washing a few stubborn or blouses that will keep your hands in warm suds Peppermint minutes. Never dig under the nails with a file: it may cause infection.

6 Fingers all neat, clean and shapely? Dry carefully, rub in hand lotion or cream, and admire!

For your hands remember the following little habits will make a big difference

1 Damp hands chap easily, always dry them thoroughly

2 If hands are rough and [illegible] use cotton gloves and wear loose cotton mitts for [illegible]

3 Wear gloves when you do dishes, wash the scrubbing necessary to remove ingrained dirt is hard on the skin

4 If your hands do become very dirty, massage them well with cream, and then scrub lightly with soap and brush

## Garden Graph

By DEAN HALLIDAY

### Avoid Damage By Ice and Snow

If you added some of the pyramidal evergreens to your landscaping this year, they deserve special winter protection.

They often become badly damaged by heavy snow, wire guards may be used to sheet or ice, as shown in the accompanying Garden-Graph. A simple method of protection is to wrap the tree with tape or soft twine, as shown.

If conifers of the tall-growing type are not protected over winter their vigor as well as their beauty is apt to be damaged. Trees badly overbroken down or injured are more subject to disease and than undamaged ones

Pet control also is just as important in wintertime as it is during the summer. The lower limbs of evergreens are frequently ruined by dogs, summer or winter. Small trees actually die from this damage. Cats sometimes ruin the bark of trees by sharpening their claws against the tree trunks

For protection of choice specimen evergreens, pointed guards may be used to ward off dogs. Wire garden fence, 18 inches high, will also afford protection. If the wire fencing is painted green it will not be too conspicuous

Mortality among newly planted evergreens is frequently the result of their not being staked, especially in very windy areas Strong winds often loosen the roots in the soil before they have had time to become firmly established.

Evergreens planted in exposed positions should have a windbreak on the exposed side to protect them against winter burning.

IN MEMORIAM
In loving memory of Darleen Joyce Reinhardt who passed away November 29, 1960
Though a year has passed since that tragic day
When God so quickly called you away.
We have so many memories dear
Dear to us you always will be near
Of you Darleen we were so proud
Dear as your death has been a cloud
We know in heaven you do reign
So we must carry on until we meet again
Sadly missed and ever remembered by mother and dad, Sharon Barry and Marlyn Reinhardt

IN MEMORIAM
In treasured memories of our dearly loved twin daughter and sister Kathleen Edith Malcolm who so tragically lost her life November 29, 1960
God gave a wonderful gift
She was one who never grew old
He has taken back our darling
To place a bud among His flowers
Taken back the girl He lent us
To a better home than ours
Sadly missed by mother and dad, Elsie and Ken
Sister Barbara Edith Malcolm

It was decided to contact The Battle River Planning Commission along this line in due time. Some ideas were tentatively suggested to the Chamber of Commerce to improve the approach to and the appearance of the Town in general.

Annual Christmas Carol Program to be held on Thursday evening

On Thursday night December 14 at 8 p.m. the popular annual Christmas Carol Festival will be held under the sponsorship of the Tofield Community League. The festival has become very popular, since its beginning, a few years ago and the children of the numbers rendered has been left for every year. Advance billings indicate that this year will be no exception.

A Jr Girls Chorus, has been added from Ryley this year to replace one of the local choirs that felt they had to drop out. Under the direction of Mrs [illegible] a mass choir under the direction of Mr Greene of the U. of A. thrilled the audience. This year this choir has again been practicing only that time under the direction of Andrew Kortmany of the U. of A.

As in past years Mrs Mildred [illegible] in charge of the programme arrangements for the various choirs.

So don't miss this wonderful Festival of Christmas Music in the Community Centre on December 14.

COMPASSIONATE UNDERSTANDING

[illegible] ...ed this week's [illegible] of de... ...ding along with the philosopher Emerson, who said that the secret of charity is that the little you are asked to give are not worth pre... ...so big there is a work going on in Manitoba which I believe merits financial support.

This work is being done at the Harbour Light Centre in Winnipeg's skid row, for the rehabilitation of alcoholics. It is run by The Salvation Army with some of the counselling done by men who were themselves afflicted with alcoholism but found a way out.

There the alcoholic who wants to find a new life is given compassionate understanding, physical and mental health treatment, and finally — and most efficiently — spiritual help.

I am fond of the little doctor who runs there to work for free, a dedicated man who is no doubt bewildering his own practice to do this service, but is getting rewards of another kind — a deep sense of spiritual satisfaction few persons ever experience. His face lights up when he tells you about drunks who get well again. They are, he says, almost invariably above - average persons who have somehow taken the wrong path. He helps them, physically, the Army ministers to give them a spiritual re-birth.

"What would you like said about them?" I asked the doctor. He is not idealistic but a tough pragmatist. "I'd like you to know that these men are not the ne'er-do-well bums. Many of these alcoholics are ex-... ...they have useful lives. They ... ...and helpless when they once ... ...and liberty. And I would humbly add," he continued that we tired money.

Okay, then, this is the plug. I never thought I'd use my space for pegging a charity, because I do not believe there is too much misdirected giving, too much government spending along these lines, which does little good, and sometimes harm. The best charity is the individual kind, where one gives a bit of himself along with his money to someone he knows needs help. But you said me on this deal, doctor: I saw no drunks looking like new men, with a glow about them that couldn't be found without a spiritual experience I saw men whose hands were still shaky, but whose eyes were steady and full of hope. There are men who are no long... ...by whining that society owes them a living, they are re-born men who know they owe a great deal to society.

I think too much money might spoil this work, lead to empire building rather than soul-building like there's not much danger of too much being heaped upon them. Any person who needs some money to The Harbour Light Centre, 231 Rupert Avenue, Winnipeg, can be sure that it won't be wasted on bureaucratic administration or ballyhoo, but will really help men who are working for help.

## Attention

### Owners and Operators of Mobile Equipment

Effective January 1, 1962, all mobile equipment coming within the definitions quoted below is again subject to licensing.

Inspectors are constantly in the field checking all such mobile equipment.

Provision is made for the imposition of a fine and possible impoundment of equipment where a violation of the Act occurs.

The following definitions are taken from The Mobile Equipment Licensing Act:

(d) "MOBILE EQUIPMENT

(1) means machinery or equipment capable of being moved to its place of use under its own power or by being towed, pulled or carried and not intended to be affixed to land, and

(2) includes equipment used for the purpose of seismographic exploration and, without restricting the generality of the foregoing, includes

(A) seismographic recording equipment and all appurtenances thereto,

(B) conductor cables and cable reels geophones, amplifiers and cameras,

(C) explosive and detonating equipment,

(D) drilling units and all the component parts and appurtenances thereof, and

(E) water tanks and pumping equipment, but

(3) does not include

(A) vehicles licensed under The Vehicles and Highway Traffic Act, or The Public Service Vehicles Act, exclusive of mounted equipment on such vehicles, and

(B) equipment, other than vehicle mounted equipment, used to drill a gas or oil well;

(e) "municipality" means a town, village, municipal district, county, improvement district, special area, metis improvement district or forest reserve;

(f) "owner" includes a person renting mobile equipment or having the exclusive use thereof under a rental agreement or otherwise;

NOTE:

Mobile Equipment having an original list price of less than $2,000 does not require a license under this Act.

A copy of The Mobile Equipment Licensing Act may be obtained upon payment of ten cents from the Office of the Queen's Printer, 10255 - 104th Street, Edmonton, Alberta.

Address all inquiries regarding Mobile Equipment Licenses to the Department of Municipal Affairs, Edmonton. Licenses are also available at Department of Municipal Affairs Offices at Medicine Hat, Lethbridge, Calgary, Rocky Mountain House, Red Deer, Edson, Evansburg, Bonnyville, Lac la Biche, Wastlock, High Prairie, Peace River, Spirit River, Grande Prairie and Drumheller, and the Special Areas Officer at Hanna, Oyen and Consort.

Time was, when relaxation and fun for all the family meant an evening with the stereopticon or magic lantern. Fun, sure — but how limited your scope of entertainment was. Then there were the hand-wound phonographs with cylindrical records. They're museum pieces now, but not so long ago they were the only way to enjoy your favorite classical or popular music.

Today, the world of entertainment is at your beck and call. The magic of electronics has produced beautiful high-fidelity and stereophonic dimension in recorded music. Radio and television have brought a wealth of information, news and entertainment right into your living room. Electricity has changed your way of life this past fifty years. Now, you LIVE BETTER ELECTRICALLY.

## Village of Ryley Council Hold Regular November Meeting

The regular meeting of the Council of the Village of Ryley was held on November 6, 1961.

Present were: Mayor Fred Lunden, Councillors Ed. Schmidt, Robert Hunt, Jack Plumbe, Ron Kubitz, Secretary-Treasurer Doug. Hrushchak, School Representative Carl Nord, Police Constable Thomas Harris and Town Foreman Rudy Mierau.

The Minutes of the last regular meeting and the monthly statements were accepted as read.

The report of the school representative was discussed thoroughly and also in his report the school representative stated the school committee agreed on the decision of the Council in making second avenue a one way street along the school. It was also discussed that the Council write the County in regards to the students with cars should keep their cars parked until after school let's out. The Council decided that the School representative talk this over with the County Board and advise the Council if this is acceptable with the County school board.

The report of the Town constable was discussed and was moved satisfactory. After considerably discussion on this matter it was decided by Council that the Village hire a part-time constable on an hourly rate to help out the present constable in any matters that the Town constable deems it necessary. It was also decided that Mr. Donald Schmalzbauer's Application for this position be accepted and he be sworn in for a period of three months.

The report of the Town furnace was discussed and was satisfactory. It was also noted that the Town caretaker should start making ice at the skating rink and start selling season tickets at the same rate as last year. It was also discussed that there be installed wire mesh along the rink shack so as to protect the windows from the hockey players.

After a long discussion on this matter it was moved by Councillor Hunt that the Ryley Theatre be open-

Who is our 3 millionth customer?

A housewife in Hamilton . . . a youngster in Yarmouth . . . a farmer in Brunswick?

Frankly, we'd just be guessing. This year our total customers soared above the three-million mark. But which new customer in our network of 875 branches was the one between 2,999,999 and 3,000,001, we have no way of knowing.

But we do know our 3-millionth customer will probably use the B of M in many ways . . . to save for the things he wants, to finance his automobile or low cost, to pay his household bills and to keep his valuables safe.

If he is a businessman, he might use Canada's first bank to finance his day-to-day operations, to pay his employees, to collect and remit money the world over . . . If he is a farmer, "MY BANK" might be called upon to finance new trucks, modern barn and labour-saving electrical equipment.

He's very important to us, that 3-millionth customer. Never before in our long history have we been privileged to serve so many. We number with a good deal of pride those three million expressions of trust from people who call the Bank of Montreal "MY BANK".

AS
*Dow*
PRODUCTS

A great Canadian brewing company has now entered the Alberta Market, and will operate the plant of The Big Horn Brewing Company Limited which will henceforth be known as DOW BREWERY (WESTERN) LIMITED manufacturing DOW products for sale in Western Canada.

The longest-established brewery in Canada and one of the nation's largest, Dow has historic associations with the three great names in the Canadian brewing industry, having been founded by Thomas Dunn in 1790, partnered by William Dow in 1818, and amalgamated with the Dawes brewery in 1905.

The Dow Quebec City plant — though one of the most modern in Canada — is located on the site of Canada's first brewery built by the Intendent of New France, Jean Talon, in 1668. The vaults of the DOW plant at Quebec are the original storehouse used to stock the colonists' "biere" nearly 300 years ago.

Thousands of visitors pass the booth daily, where they have access to information of the industrial and travel resources of the province.

## PFAA Payments of $25,000,000 to Prairie Farmers by Christmas

JIGGINS — Prairie Farm Assistance Act payments of $25,000,000 of an expected $80,000,000 to be paid during the current crop year, are to be in the hands of prairie farmers by Christmas. This was announced today by Mr. Alvin Hamilton, Minister of Agriculture, at the annual convention of the Saskatchewan Farmers' Union, being held in Saskatoon. The Minister stated that he had been advised by H. S. Riddell, Director of P.F.A.A., that cheques would commence going in the mail on December 1. The work of processing the balance of the claims will be proceeded with as rapidly as possible so that the expected balance of $25,000,000 in payment will be completed by the end of January.

The Administration has been requested by Ottawa Civil Defence to make crop inspections covering some 3,500 townships in the three prairie provinces. This field survey will be 95 percent complete by Christmas, it is hoped, for reason to believe that the estimate of sixty million dollars made by the Prime Minister in August would be changed it is expected $6,000,000 of this figure will go to approximately 25,000 Manitoba farmers $8,000,000 to some 34,000 Saskatchewan farmers and $12,000,000 to about 54,000 Alberta farmers.

This is the largest payment to be made in the 21 year history of the Act. Since the inception of the Prairie Farm Assistance Act in 1939 to the end of the 1960 crop year, $250,514,000 has been paid by way of 1,132,000 individual awards. Farmers have paid into the fund $127,585,000 by way of a 1 percent levy collected on grain over the same period. It is expected that the contribution by the Canadian Government out of the consolidated revenue fund to pay the 1961 awards, will amount to approximately $53,000,000.

Under the Prairie Farm Assistance Act there are three categories of payment, based on whether the average yield of wheat in a township or block of sections is from zero to three bushels per acre; three to five bushels or five to eight bushels an acre in a crop failure year.

If the average yield of wheat for the township or block of sections, excluding those sections having a yield of 12 or more bushels per acre, is three bushels or less per acre, the payment is $4 per acre on one-half the total cultivated acreage of the farmer.

If the average yield is more than three and not more than five bushels an acre, the payment is $3 per acre on one-half the total cultivated acreage of the farmer.

In the zero to five bushel categories the minimum payment is $200, but to qualify for this minimum award, a farm must have at least 25 acres under cultivation or in development stage other than land seeded to grass.

The maximum payment is $800 to farmers in the zero to three bushel category; $600 in the three to five category and $400 to farmers in the five to eight bushel category. The maximum payment is reached when the cultivated acreage amounts to 400 acres.

## Fire Hazard High in Holiday Season

The Peace and Goodwill of Christmas is often interrupted by the roar and devastation of fires. Last year in the months of November and December here in Alberta there were over 700 fires which burned to death six persons and caused almost 2,000,000 property loss," said Austin H. Bridges, Provincial Fire Commissioner this week. "Three of the five victims were children — children left without the care and watchfulness of their parents, and five of the six deaths were in the home. This week we are shocked by a tragic accident in Edmonton.

This does not mean that dwellings and apartments are the only places that need guarding from fire during the Christmas season but solid timbers and service stations have extra hazards during early winter. Retail stores are loaded with merchandise in preparation for the Christmas rush so that reassessment has added problems to contend with the heavy burden your home and loved ones are in danger from fire be asked an owner of fire prevention is an issue of vital concern needed to mind a few precautions that will help keep your Christmas joy. Help our firemen to have a Merry Christmas, too."

Automobiles were offered to customers "complete equipped" for the first time in 1911.

The Cowen Lumber Company store in Tofield is taking on a new look as t'ly is being laid. Hugo Hickson and his son are doing the work.

Welcome are again playing Christmas music from a loudspeaker mounted on top of their store.

Both ofield Curling teams won on Sunday as they played host to two Edmonton teams in the Edmonton and district curling schedule. The winning skips were Art Francis and Ed Regehr. Tofield now has 3 wins and 1 losses in the league standings.

Miss Evelyn Chilkowich is a new employee at the Tofield Creamery.

The missionary conference held recently in Tofield United Church was a wonderful success in spite of the bitter cold weather. A new, Bible based, system of latch hook mine gining was instituted where by each person promises by faith in God prosper, to give to world missions and the local church.

Over twelve hundred dollars was pledged toward the support of missionaries in over nine countries on four continents. To represents two hundred dollars more than the proposed budget.

Cond. — Joyce Swift, Secretary — Pam Biddle, Treasurer — Elizabeth Larson, Organist — Esther Letourneau, Marshall — Debbie Thiessen, Chaplain — Lillian Olson, Adah — Evelyn Nolan, Ruth — Ella Hardy, Esther — Pearl Baker, Martha — Muriel Turner, Electra — Myrna Francis, Warder — Ina Bell, Sentinel — Ned Phillips.

Carol singing was enjoyed preceding the Christmas lunch served by Ida Jacobs, Ella Hardy and Inza Hardy.

## Another Turkey Shoot Slated For Saturday

It was unanimously agreed by all concerned that the turkey shoot held in the Bowling Alley last Saturday night was such a success that it should be repeated this coming Saturday. Five sharpshooters took home overweight turkeys, after the smoke had cleared away. The winners were Lars Rude, 13 turkeys; Arnold Hugger, Ken Knudsick Charlie Kallal, A. Warner, K. Knudsick, L. Stauffer and George Thiessen. High scores for the night were posted by Lars Rude and Charlie Kallal who each shot a 56 with 4 shots in the 3-6" X ring. K. Knudsick was the winner of the inch competition, after breaking a tie with J. R. Wagner. Len Stauffer and George Thiessen each won their birds with a 45 from the standing Bible stand.

This coming Saturday the rules will be slightly modified to allow the youngsters to compete against each other only. There will be a separate competition for those under 17. The shoot will also start earlier 2 p.m. and will run through till about 10 p.m with time out for supper Anyone interested should knock down to the bowling alley on Saturday, where the weather is nice and warm.

## Lodges Honor Senior Citizens of Ryley

Last Thurs evening members of the Oddfellows and the Rebekah Lodges gathered in the Ryley Legion Hall to honor the Senior Citizens of Ryley district. This can become an annual event when the Senior Citizens are invited to a Turkey Supper.

Each Noble Grand of the Oddfellows and Mrs. Dorothy Clark, Noble Grand of the Rebekah each welcomed the guests on behalf of their respective Lodges. They expressed their appreciation for the way the honored guests had served their community in days gone by.

On behalf of the 56 guests present Mr. Hallberg expressed their appreciation.

Following a sing song led by Hazel Patterson an informal visit was enjoyed.

## Pot-Luck Supper Planned for January 8

On January 8, 1962 at 6:30 p.m. at the Community Centre the Tofield Community League will hold its annual pot luck supper, after which the annual meeting of the League will take place. At this time, those who have become residents of the Tofield Community during the past year will be guests of the League. Postmaster Norman Clegg is compiling a list of Tofield's new residents so that invitations may be sent to them. Should anyone be inadvertently omitted, in the invitation list, it is hoped this will serve as cordial invitation to attend. These guests are not expected to bring dishes or food but older residents are expected to do both. Meat will be supplied by the League.

President Dick Mallow is arranging some entertainment to follow the supper and the welcome to new residents.

Be sure to keep the date open, Jan. 8 at 6:30 pm at the Community Centre.

# A Review of Operations

In the 1960-61 crop season the Alberta Wheat Pool — farmer-owned co-operative:

- Handled 53,802,000 bushels of grain and oilseeds and over 15,000,000 pounds of forage seed.
- Operated 561 country elevators, and terminals at Vancouver, Victoria and Port Arthur
- Operated a Seed Division with 2 cleaning plants and 52 seed warehouses.
- Increased membership to 48,886.
- Made savings for members of $2,000,000 (before income tax).
- Declared patronage dividends totalling nearly $2,500,000 to be divided on approximately the following basis per bushel:
  - — wheat and flax ..... 5.0c
  - — oats, barley, rye and rapeseed ..... 2.5c
  - — cash rebate on fertilizer sales ..... 9%

Since its inception in 1923, the Alberta Wheat Pool has:

- Handled over 1,500,000,000 bushels of grain.
- Distributed patronage dividends worth $36,870,000.
- Purchased nearly $14,400,000 worth of reserves from members.
- Has continuously worked in the interest of grain producers.

## MINISTIK NEWS ITEMS

MINISTIK — A very cold day didn't prevent church goers from attending services on Sunday with Mr. Howard Usher once again taking the services.

Mr. Blake Anderson will be taking services on the Sunday before Christmas and we are almost sure this will be a candle light service in the evening but we'll know more next week.

Mr and Mrs Buden Bowerman and Myron of Bassan's, Alberta were week end guests of Mr and Mrs. Ben Bowerman

Mrs Claude Leach was an Edmonton shopper on Thursday She went along with Mr and Mrs. Ralph Leach

Mr and Mrs. Andrew Foran are spending the best snow storm on Tuesday to stay in Edmonton. A terrible day, but Christmas shopping must be done Time is flitting away.

Wednesday evening found several of our home lovers at the Gardens trying their luck for a new ... These included Donald Grose (Mr and Mrs Lloyd Grose), Mrs Lloyd Anderson and Mr. Albert ...

Hope the weathermen won't get us a break from the cold spell so much different from last year when it was 20 degrees above ... instead of below

... Mrs. ... was ... Edmonton ... Wednesday ...

The month of the Women's Association was a big success Total at the kitty of Mr. Art Ferrel Members were all in force to exchange Christmas gifts and decide on a party for the Sunday School and W. A. Banquet on December 21. We hope this will be little year to date to the accident just year it had been cancelled The new officers were elected for the coming of '62, then it will be under the name of United Church Women, rather than Women's Association A delicious lunch was served by Mrs. Lillian Van Hauskirk and Mrs. Annie Kofman.

The Church Service was cancelled Sunday due to the cold building. We sincerely hope to have better Weather for the coming Christmas services. The Sunday School children are practising for their Christmas party on the 22nd.

Congratulations, to Art and Violet Bailey being grandparents again A new little grandson born to Douglas and Doreen recently.

Sympathy is extended to Mrs. Ellen Eaton and family on the death of her brother recently.

Bessie and Kenneth Pedersen were Sunday visitors in Edmonton.

## Moren Manchak Dies After Tronic Accident

A tragic accident about 1:00 p.m. Wednesday afternoon took the life of Mr. s Manchak, of Tofield. Moren's late model car was hit by a gas transport truck about 15 miles west of Tofield on highway 14. The truck, travelling past, blew a front tire just prior to meeting the car, driven by Moren. Moren, alone at the time of the accident died on the way to Tofield Hospital. The other driver was not hurt.

Besides his loving wife, Kay, he leaves to mourn 2 sons, Barry 10 and Dennis 3½, years. Five brothers, Walters, Lester, Allan and Andrew of Calmar and Ernest of Calgary. Four sisters, Mrs. Bessie Faulkner of Marcelbarge, Jean Dockter and Nora Hlucsko both of Edmonton and Stella Turpin of Leduc, and a host of friends.

Mr. Manchak had been employed with Woodland Dairies for the past 2½ years and manager of the Tofield Creamery for the past 8 years. He was an ardent curler and a charter member of the Lions Club in which he took a great interest and an active part.

Funeral services will be held Saturday afternoon at 2:00 p.m. from St. Johns Greek Orthodox Church, 10045 - 107 Street, Edmonton.

## Vialta Lodge Christmas Party Held Dec. 17

The regular monthly meeting of the Management Committee of Vialta Lodge was held on Dec. 7th at the Lodge, with all members in attendance.

Minutes of the November meeting were read by the Secretary-treasurer and declared adopted as read by the chairman, Mrs. Crowley.

Accounts amounting to $18.86 were approved for payment on a motion by Miss Hoskins, seconded by Jack Tisdale. Carried.

Final plans for the Christmas party were discussed and it was moved by Miss Hoskins that said party be held in the evening of Dec 17 Seconded by R. A. Hafso. Carried. A date was also set for the members of the committee to meet at the Lodge to attend to the matter of decorating.

Miss Hoskins reported that Mrs. Clyde Hoskins had kindly offered to send fresh Christmas greenery from the west coast to be used in decorating the Lodge.

Meeting adjourned at 7:55 on a motion by J. Reddick.

## Tofield 4-H Club Holds Monthly Meeting

The December meeting of the Tofield 4-H Club was held in the meeting room of the Tofield Community Hall. The roll call was answered. How you Quieted You. Calf. Husbandry on pets. Girls fall wed. The president Kenneth Appleby suggested the club buy a sign with emblem and name of club at $17.75 for each family in the club. Each member was to buy his own name plate at $1.00. This idea was accepted. The club required John Moore's invitation to have a judging competition at a place on December 27 at two o'clock. This decided on, the project sheet asked for correction of some names making projects. A demo and Bingo were suggested. Wilfred Hess' ideas on a committee was carried to look into the matter. Bobby Moore, Margaret Wood and M. Wylie were elected.

The meeting was then adjourned and a debate followed with Mr. Annis as judge. The topic to be debated was Farm Life is Better than City Life. Conrad Scott and Conrad Ross were the negative side and Kenneth Appleby and Duane Sears on the affirmative side. The affirmative side won.

## Christmas Spirit

I am the Christmas Spirit!

I enter the home of poverty, causing pale-faced children to open their eyes wide, in pleased wonder.

I cause the miser's clutched hand to relax, and thus paint a bright spot on his soul.

I cause the aged to review their youth and to laugh in the old, glad away.

I keep romance alive in the heart of childhood, and brighten sleep with dreams woven of magic.

I cause eager feet to climb dark stairways with filled baskets, leaving behind hearts amazed at the goodness in the world.

I cause the prodigal to pause a moment on his wild wasteful way, and send to anxious loved ones some little token that releases glad tears which wash away the hard lines of sorrow.

I enter dark prison cells, reminding scarred manhood of what might have been, and pointing forward to good days yet to be.

I come softly into the still, white home of pain, and sips that are too weak to speak just tremble in silent, eloquent gratitude.

In a thousand ways I cause the weary world to look up into the face of God, and for a little moment forget the things that are small and wretched.

I am the Christmas spirit!

## Christmas Feast Huge Affair In Olden Days

Possibly one of the greatest Christmas feasts of all time was that sponsored by King Henry VIII in Westminster Hall in 1515. He had tents erected and artificial gardens planted within the spacious hall of his palace.

Knights came out of the tents to joust in tournaments and fantastically dressed dancers covered from head to foot with gay ribbon streamers emerged from gussis.

Clad of the gold cloth used in the celebration amounted to 600 pounds alone

Preparation for the feasting on such occasions can only be vaguely comprehended by considering that Richard II normally employed 2 000 cooks to prepare food for his 10 000 persons who shared his festive board.

## To Celebrate Golden Wedding

Mr. and Mrs. H. B. Billerud of Ryley will have Open House on Sunday, December 31. All their friends are cordially invited to call in, from 2 to 5 and 7 to 9 p.m.

## Mr. and Mrs. Stanley George Celebrate 50th Wedding Anniversary

Mr and Mrs Stanley George of the Minituk district celebrated their Golden Wedding Anniversary recently.

Mr George came west from Port Elgin, Ontario with his parents in 1906. They settled in Minituk, on the homestead where the Minituk Community Hall is now located. He returned to Kitchener later where he and Mrs. Georga were married at Bethune Baptist Church on December 30, 1911.

Some three weeks later they arrived at North Cooking Lake via C. N. R. where they were met by Mr. George Sr. with a team and sleigh plentifully supplied with horse blanket and in the oven and covered with blankets. There was no stable at North Cooking Lake at that time, so it was surprise no 1 for the bride from Eastern Canada to step out of the train directly onto cinders covered with straw, with the thermometer registering 53 degrees below zero. Then came the long, cold drive across the ice of Cooking Lake, to a new home in a vast new country. There have been many changes in the district since that day when Margaret George had her first glimpse of the homestead which was destined to be her home for the next fifty years.

The small houses, mostly built of logs, the wood stoves, the non-existant plumbing, the poor roads which were mere trails meandering through the virgin forest all meant hardships, to be faced, which took courage from a girl who had spent all her life in the city. There was perhaps more social life during the early years than we have at present, everything moved at a more leisurely pace, with none of the calls second timing to meet appointments, that seems necessary today. Money was scarce, practically non-existent and I've heard many oldtimers say that if it had not been for the rabbits and saskatoons, Alberta would not be settled today, but through it all we had fun.

The first outlay for our new bride was another frosty drive across the ice, when three sleigh loads of us drove across the lake to the home of Mr and Mrs. J. M. Verge there to attend a long evening of dancing & supper with a supper at midnight, then the long drive home.

There was always a rink open on the lake for skating parties those years, and on the open lake in the fall we spent many afternoons skating, dragging a couple of babies asleep in apple boxes alley oa on the ice

We walked miles picking berries and Mrs. George had a buggy and a horse named Minnie which was a familiar sight on the roads during the early years around 1915 When Hastings Lake School was built, there was a wonderful amateur play erected on the opening night. The surrounding districts attended en masse The types of transportation were many and varied and away up front was Minnie and the buggy. It was pitch-black that night and a pole sticking out into the trail caught in the spokes of the buggy wheel and as the wheel turned, the side of the buggy rose into the air, Mrs. George's side, and out into the night and rose beside Margaret disappeared, hollering blushingly as she fell, at least so the story goes, but she was always a good sport, so ready for a laugh on herself as on anyone still.

Looking back through the years of hardships and fun, it is hard to realize that half a century has past and gone

Mr and Mrs George have always taken a very active interest in the activities of the district, Mrs. George with her music and Mr. George as coach and member of the boys hockey team for many years.

The couple were blessed with five children, one daughter and four sons They are Stanley Herbert and now in being together facing the sunset years with all their children and grandchildren around them.

Congratulations Margaret and Stanley

— Mrs. Irene Williams.

## A Christmas Message

"Yes I'm ridiculous the way they try to bring religion in Christmas" remarked a Christmas shopper looking into a store window. Such is the attitude of one to whom the message of the Christ Child is unknown. Christmas has a message that transcends far beyond the tinsel and bright lights, Santa Claus and parties. It is the message that each one of us should come face to face with this Christmas season. It is the message of the angel as he appeared to the shepherds on that night many years ago. "Behold I bring you good tidings of joy, which shall be to all people. For unto you is born this day ... a Saviour, which is Christ the Lord." This is the purpose of Jesus' birth ... that he might redeem us from our sin. The heart of a Christian thrills as he contemplates the love of God displayed in his gift to mankind.

It is the message of Mary the mother of Jesus as she exclaimed "My spirit hath rejoiced in God my Saviour." Most certainly if the virgin Mary needed a Saviour we too must recognize the need of forgiveness from God.

This is the message that Jesus brought us He said of Himself, "The Son of Man is come to seek and to save that which was lost". This message is as timely and urgent today as it was to the shepherds who left their sheep to worship their Saviour

1962 has seen the nations of the world teetering on the brink of World War III. The moral fiber of our nation is disgrace to us all some low Never has our country needed a revival more and — turning to the simple message of Christmas, to the simple faith of our fathers, to the simple acceptance of the Babe of Bethlehem as the only refuge for the sin sick soul

What will be the object of worship in our homes this Christmas? Will it be the gifts the tree the Santa Claus the parties or the Christ Child? May God grant you each one a blessed Christmas and prosperous New Year

Rev. Ernest Kennedy

## THE BABE WHO CHANGED THE WORLD

The prophet Isiah stated "Unto us a Child is born;" that Child was born not merely to a Jewish family but to the families of all the nations. The sovereign fact of all time is the incarnation of the Son of God. This is indeed the cornerstone of the Christian faith and the beginning of a new era.

The Gospel writer and historian, Luke, gives us the setting for that event. He says, "In those days, . . . there went out a decree from Cesasr Agustus." Those were the days when liberty was unknown and life was cheap; poverty was regarded with contempt, and inhumanity was looked upon as the hallmark of progress. But in those days and into that world God sent His Son. How low He stooped when He took humanity! Veiling Himself in human flesh, He became a Man among men that He might raise the sons of earth.

The coming of that Baby, cradled among cattle in the unpretentious town of Bethlehem, brought a change into the whole pattern of human relationships. The sob of the slave could not harmonize with the song of the angels, so slavery was doomed. Motherhood was vested with a new glory, and woman was no longer the drudge, crouching at the feet of her lordly superior, but was now seated by his side as his companion and counselor. Childhood, too, became a sacred thing as the evils of centuries were swept away. Sin and vice melted like icebergs in the warm rays of the Sun of Righteousness.

In Luke 3:1,2 appears a list of names, important names, powerful personalities, whose word meant life or death in that generation. There they hang: Caesar, Pontius Pilate, Herod, Philip, Lysanias, Annas, Caiaphas. What pomp and circumstance were represented by such as these! The world trembled at their command. But today their names mean nothing. Like foam on the hurrying stream of life they have been borne away into oblivion; in fact, they would not even be mentioned in this scripture except that they happened to be on the scene when God in human flesh entered world history.

*Come to Bethlehem*

Have you ever been to the place where Jesus was born?

Approaching this ancient town, we see shepherds and their flocks just as they were nineteen centuries ago. Nearby is the Shepherd's Field, where the angel of the Lord made his startling announcement. It was not to pomp and pageantry that the message of Heaven came, but to simple, hard-working men of childlike faith. Those shepherds were not absorbed with bank balances, budgets, plans, programs, councils, and committee. They were ready for the announcement: in fact, they had been praying that God would fulfill His promise and send the long-looked-for Saviour.

No sooner had the angel given the news than the heavens were radiant with the glory of the angelic choir singing, "Glory to God in the highest, and on earth peace, good will toward men;" or, as many translators from Wycliffe to Phillips render it: "Peace on earth among men of good will".

The shepherds listened, then said to one another, "Let us go and see." There was no doubt in their minds about what had happened. They did not seek counsel from others to ascertain if they should obey. They did not begin a research project. They simply believed. But belief in itself was not enough. They acted. And so we read, "They came with haste." They left their flocks, for the claims of the Saviour were greater than the claims of the sheep. And in that there is a lesson for us. All of us have flocks of cares, but the claims of the Christ are more urgent than the claims of the sheep.

Stepping into the stable they "found . . . the Babe lying in a manger." They came back to their cares, but ever after they were more than shepherds, they were witnesses. Their lives had been enriched. Poor in this world's good and low in social status, they were rich with the blessings of Heaven and ready to repeat the story with confidence.

But something else: Those shepherds found the Lord because their hearts were right. What a contrast they were with the innkeeper! He, too, was a busy man. In fact, business was his life. He was one of those "practical men." On another night he would have been the very soul of kindness. But this was no ordinary night. The little town was crowded. Heated arguments, impatience, men yelling at stupid beasts, others cursing the government; surely it was a motley crowd. Excited parents, troublesome children, crying babies! What a night. Sometimes we sing, "Silent night, holy night," but that night was neither silent or holy. Ribald songs and coarse laughter turned the night into a nightmare. And who cared about what was going on in the stable? Everywhere was frustration, irritation, squalor, and sin. When the Prince of Peace came to this world the hope of hope was burning very dim. The practical innkeeper naturally gave the best rooms to special guests. Yet of all the many who stayed in him that night, the only names we know are Mary and Joseph. But there was no room for them in the inn.

Let us not judge the innkeeper too harshly. We, like him, may be putting unworthy guests in the best rooms of our hearts. Malice, greed, selfishness and pride are all too often sheltered, while the Lord is sent to the stable. Think of that little innkeeper shutting the door, taking his lantern, and going to bed! Poor man. He missed the great. est event of history! He remains anonymous. In fact, his sole claim to fame is that he sent the mother of our Lord to keep company with the cattle. But lest we miss the point, we should remind ourselves that Christmas is more than a date on a calendar: it is a state of mind. It is not merely a season of the year; it is an attitude of heart. Only those who wait and listen can hear the angel's song.

We repeat that Christmas is more than a date on a calendar: it is a spirit. Once in a year we are reminded anew that God so loved that He gave. And only as we give can we be like Him. Let us encourage the spirit of good will in our communities. Let us build bridges of love that can reach those who through misunderstanding have separated themselves from our company. What possibilities there could be in our world if only men would permit the Lord to be reborn in their hearts.

## O Little Town of Bethlehem

By Rev. Phillips Brooks

And they shall call his name Emmanuel; which is being interpreted, God with us — Matthew 1:23.

When Rev. Phillips Brooks was Rector in Philadelphia about a century ago, he was given a year's leave of absence to visit Europe and the Near East. He chose to spend Christmas in Palestine. Writing home in the last week of 1865, he said: "After an early dinner, we took our horses and rode to Bethlehem. As a we came to the town, situated on an Eastern ridge of a range of hills surrounded by its terraced gardens. Before dark we rode out of town to the field where they say the shepherds saw the star. It is a fenced piece of ground with a cave in it. As we passed shepherds were still keeping watch over their flocks, or tending them home to the fold." But it was the sight of Bethlehem itself, as he looked down upon it from a hill, on a star-lit night that gave Phillips Brooks the impulse to write this hymn.

Two years later, at home, at the age of 32, he wrote the carol which was first used in the Christmas service of his Sunday school. The music for it was written by Lewis Redner, the church organist. Of the time he wrote: "I was roused from sleep late one night bearing an angel-strain whispering in my ear, and setting a piece of music paper I jotted down the treble of the tune as we now have it, and on Sunday morning before going to church I filled in the harmony.

From this humble beginning this carol of simple words and melody has come into nearly all hymnaries of the Christian Church, and is surely one of the most popular of all songs of the happy Christmastide. The verses run smoothly on telling out the glorious story of the holy birth, and of the mystery and majesty of God's coming to earth in the silence of Bethlehem. Wherever the gospel of Christ has gone on the wings of song, and wherever the Festival of the Christ-Child is observed, there is Phillips Brooks remembered and there hearts are lifted up by his doubtless words in praise of "Our Lord Emmanuel."

The closing verse is a fervent prayer of acceptance of God's greatest gift to mankind.

O holy child of Bethlehem
Descend to us we pray;
Cast out our sin, and enter in
Be born in us today.
We hear the Christmas angels,
The great glad tidings tell;
O come to us, abide with us,
Our Lord Emmanuel.

## LET US KEEP CHRISTMAS

Whatever else be lost among the years
Let us keep Christmas still a shining thing;
Whatever doubts assail us, or what fears,
Let us hold close one day, remembering
Its poignant meaning for the hearts of men.
Let us get back our childlike faith again.

## As With Gladness Men of Old

By W. Chatterton Dix

The star which they saw in the East went before them — Matthew 2:9.

The author of this lovely hymn was a layman, and son of Dr. Dix a surgeon of Bristol, England. There is then an appropriateness in the tribute paid to the journey of those "laymen" of old, the wise men of the East. The writer was but 23 years of age when the hymn was written, about 1860, during his recovery from a serious illness. It is therefore a song in the night and expresses a longing for a new life — day or light and joy. In this period he wrote many other Christmas and Easter carols.

The setting of the hymn is in that entrancing story of the Magi which in pageantry and song has stirred the imagination of all who read it. Who the Wise Men were, whether they were Arabians, Chaldeans or Persians, we do not know. We merely know that they "came from the East", and that they had inspired something through the prophecies of the coming of a King, and that which is

**THE HOMEMAKER CHRISTMAS HOLIDAY SNACKS**

Are ou having a group in and as usual, a lo what to serve them. Here are a ew suggestions.

**YULETIDE PARTY LOAF**

Serve a round sandwich loaf that looks like a cake for a Yuletide party conversation piece.

Buy or bake a round loaf of bread. Carefully remove all the crust. Cut into three or four lengthwise slices depending upon the size of loaf. Place bottom slice on large sheet of waxed paper, plastic film or foil. Spread with barley and cover generously with well-seasoned egg salad sandwich filling. Cover with next slice of bread centered on both sides. Top with turkey sandwich filling that is chopped cooked turkey, drained crushed pineapple, and chopped toasted almonds, moistened with salad dressing. Butter next slice of bread on bottom only. Wrap loaf closely in the waxed paper, plastic or foil and refrigerate.

Three or four hours before serving time, beat half a pound of relish cream cheese with enough milk or flavored vinegar (off sweet pickles) to make it the consistency of fluffy icing. Unwrap loaf and place on serving dish. Cover top and sides generously with cheese swirling it to give the effect of icing.

Garnish with Christmas decorations of bells, bows or holly made with canned pimento and green peppers or gherkins. Tuck ar garli olive dip Mix with 2 4½ oz. can of deviled ham. Form mixture into roll 6" long. Place on cheese. Frost ham with cheese to form log. Before serving, cover with cupped nuts, garnish with cut, an attractive party menu for any one group.

Another suggestion might be if you are having a buffet supper.

**FROSTY YULE LOG**

Soften 8oz. package cream cheese with milk. Spread strip of cheese 1" x 6" on serving plate, combine 1 package onion dip mix or garli olive dip Mix with 2 4½ oz. can of deviled ham. Form mixture into roll 6" long. Place on cheese. Frost ham with cheese to form log. Before serving, cover with cupped nuts, garnish with cut, an attractive party menu for any one group.

Another suggestion might be if you are having a buffet supper.

## Fashions

What a wonderful variety of sophisticated leisure wear from which to choose this year!

A charming fireside fashion, this short, back-zipped robe of suede finish is of brushed nylon in such delectable colors as bittersweet, hot pink, Capri blue and toast. The satin fold at the deep V yoke and the bow with streamer ends are all in a darker tone.

The shaping is narrow at top, flaring away to generous fullness at the hem.

The Board of Directors and Management of United Grain Growers Limited take this means of thanking the farm families of this Province for their continued patronage of U.S.G. elevators during the year now nearing its end . .

May the Joy and Peace of Christmas bless your household and bring happiness to those within and to those who cross your threshold during the Christmas Season

## No change in Sunday Laws for New Years Eve

With New Year's Eve falling on a Sunday this year, the Alberta Government has announced that enforcement policies governing public dancing and showing of motion pictures, will be similar to those of 1960, the last year in which December 31 fell on a Sunday. Dancing in entertainment halls where dances are held is not prohibited after midnight Sunday December 31, 1961.

There will be no relaxation of the regulations prohibiting dancing prior to midnight Sunday, December 31. There will be no objection to dance halls, and theatres and other places of amusement opening prior to midnight usually for the serving of supper or for the providing of entertainment, other than dancing up the exhibition of motion pictures.

Artist Jack Reppen's impressions of Danny Gallivan (left) and Bill Hewitt, picture them with a mock appropriate prop — a CBC microphone — although chels faces may not be familiar the voices of the two men are known to millions of Canadian homes. They describe the action during Hockey Night in Canada telecasts saturday on CBC-TV. Gallivan covers Montreal Canadiens home games from the Montreal Forum and Hewitt is his counterpart for Toronto Maple Leafs from Maple Leaf Gardens.

## Decorated at Christmas Time Country Homes Beautifully

By IRENE LOUISE HARRISON

A drive through the silent white countryside, past lovely farm homes, with bright lights twinkling out on the shimmering snow, is, I think, the nearest thing that we will ever find to "Peace on Earth Goodwill to Men".

Beautifully decorated trees with strings of bright lights, stand in every picture window at this time of year, sending out their messages of love to the passersby.

We always make a point of driving past one farm house, although it is miles from our usual route, to see the huge fir tree that grows in the front lawn.

The tree towers well above the house, and the spreading branches move with a stealthy sound over the shingles of the roof, when the wind blows.

For days, the men of the house has been busy with ladder, wire, and strings of bright lights. Then just at dusk, on Christmas Eve, a button inside the house is pressed, and the tree becomes a magic thing, ablaze with warmth.

The whole farmyard is transformed into a fairyland, as the tree flings its warmth in a glory to reflect its colors on the snow & white piling of the snug little house, as it radiates out its message of Hope and Peace to all the world.

We go on our way, cheered. As long as people such as these, continue to send out those messages of Love, surely one day, Peace will envelope all the world.

We turn at the next corner, for we know that a mile up the road, we will pass another home sending out a different message of hope.

In front of the home stands a little white church, built with painstaking care from plywood. It is about four by two feet, built in the style of country churches with a steeple, front entrance and three painted windows on each side.

The windows are covered with red imitation glass and the light inside the little church, shines through them with a special kind of message in their brilliance.

Another home has a group of carol singers cut from plywood, and painted appropriately standing in front of the door. We wonder at the brightness of the display, until we realize that the man of the house, has made a cone of tin to fit over a bright light bulb. This he has concealed in the snow and focused on the singers.

We pass other yards showing similar display of Santas, with reindeer, angels, etc. The tin cone focusing the light on the ornaments seems to have caught on fast, for they stand out in the darkness with a clear brightness.

We feel a strange peace in our hearts as we turn the car towards home.

The girls in the back seat begin to sing carols very softly. "Away in a Manger," is followed by "Little Star of Bethlehem," and soon we are all joining in with gusto.

Presently, I see a blue light to our left, beckoning to us through the darkness.

It is our own personal contribution to the Christmas scene.

It is a large wreath fastened to the outside of our front door, with a blue light bulb fitted to resemble a candle and nailed inside of it. The wreath is made of fir branches and gold into cones, fastened by wire to a large circle made from a strong pliable willow branch. Red cranberries here and there amongst the foliage lends a note of bright color, and little bells fastened to the ribbon bow with wire add a cheerful note, for they tinkle merrily as the door is opened and closed.

The home is warm and cozy. We switch on the lights as we enter.

One of the girls, rushes for the coffee pot and plugs it in. I put the toaster out.

Coffee and toast, warmth and light, and a new found peace in our hearts reflected there by the bright displays we have just seen, who can deny that the country was meant for Christmas.

## Saint Winfried to have had first Christmas Tree

The time story claims that Saint Winfried, an eighth century missionary in Scandinavia brought about the erection of the first "pine" Christmas tree. He tried to show the people that the Druid priests had made them worshippers of trees, instead of a living God.

On Christmas Eve, he bowed down the great oak tree around which the people had gathered to offer a human sacrifice.

As the big tree fell, a young fir tree seemed to appear miraculously beyond it and Sir Winfried exclaimed: "Here is the living tree, with no stain of blood upon it, that shall be the sign of your new worship. See how it points to the sky. Call it the tree of the Christ Child. Take it and carry it to your chieftain's hall. You shall go no more into the shadows of the fir tree to celebrate your feast with secret rites of shame. Now you shall keep them at home, with laughter, song and cries of love. The thunder oak has fallen and I think the day is coming when there shall not be a home in all the land where children are not gathered around a tree."

## Christmas Traditions In The Old and New Worlds

One Christmas tradition, fast becoming popular in Canada, is carol singing, and though carols are heard in many lands, in Britain it seems the whole population breaks into song.

The cathedrals, with the most eminent conductors in charge, do it grandly. In taverns gentlemen who don't quite know whether they are tenors or baritones, sing merrily:

"God bless you, merry gentlemen. May nothing you dismay."

But the children for weeks and weeks do their caroling on the streets. A group sings before your door until you come out with a coin or two. But the choir will be back tomorrow. The young minstrels are called "waits."

Britain is a land of midnight masses and joyful Christmas eve services, in the churches. Then Christmas itself is a day at home, with not even a dog in the streets. It is a day of dozing, plum pudding, the queen, the toys, the gleaming tree and, in the afternoon, listening to the queen's broadcast to the world.

**Christmas starts early in Manila**

The Christmas season in the Philippines begins on December 16 at 4 a.m. and just before dawn on this day, churches throughout the islands celebrate the Misa de Gallo (Mass of the Cock's Crow.) This is the signal for parades, parties and carol singing right up until Christmas Day.

New Brunswick with its loyalist and Old Country influence, & its considerable Acadian population, is steeped in the tradition of its forebears. Christmas in New Brunswick has become an intriguing blend of the old and the new, but, not too new

The Christmas season begins early with shopping expeditions, parcel wrapping, card writing, church bazaars and suppers. Young people are welcomed home for the holidays and Christmas baskets and stockings are filled.

The religious aspects of Christmas are stressed and faithfully observed. Midnight services are well attended in response to the peal of church bells ringing out on the frosty air.

Homes and churches are decorated with garlands of native balsam fir. Red ribbon bows and gilded cones adorn the doorways. Carol singers move from house to house, where cheery open fireplaces cast flickering shadows on the decorated tree.

Santa comes at last and gifts, large and small, are exchanged and, as in every Canadian Christmas celebration, the climax of the entire Yuletide season is the Christmas Dinner. A goose or a turkey, plump with savory bread stuffing, is the highlight of the meal. Dessert is a combination of old fashion plum pudding (probably made by a favorite baker using mother's old recipe as a guide) mince pie and fancy cakes and fruit. A glass of sherry or a fruit juice cocktail lead off the modern day meals, often with fond memories of the cup of "good cer" which cheered Loyalist hearts in days gone by.

**Happy New Year in Hong Kong**

The Chinese New Year is a festive occasion in Hong Kong with parades, dragon dances and gala banquets. Gifts of food, packed in red lacquer boxes, are exchanged, but the receiver must return the box. He also must return part of the food, which is a Chinese way of saying that the original gift was too generous.

The food for the Chinese New Year banquet is always prepared well in advance. The Chinese say that it is unlucky to use a knife on the first day of the year lest it cut the luck of the house.

**In the Outports of Newfoundland**

From England comes much of the color and tradition so evident in the Newfoundland Christmas. The twelve days of Christmas significantly include all celebrations of the famous festival.

In the coastal towns and villages or the "outports", as they are often called, much of the pre-Christmas preparation takes place in the kitchen. Christmas cakes and puddings and a special batch of sweet raisin bread are made in most homes. Fruit syrups and homemade wines are ready to serve when guests drop in. Christmas dinner is a family affair, with the most very similar to our typical "turkey and plum pudding" meal. The rest of Christmas day is spent outside and in, visiting friends, enjoying family get-together, and, for the children, breaking in new toys. A Christmas night square dance concludes the day's activities in many small communities.

From Christmas to Epiphany, the traditional mummers (usually children and young people) go from house to house, dressed in strange costumes and masks, with voices disguised, they sing or recite for rewards, of apples, candy, spruce drinks and Christmas cake.

On the Twelfth Night parties begin in the evening, and before the night is over, the Christmas tree and greens are taken down and burned, to avoid, according to legend, the misfortune that many befall those who burn them up after Old Christmas Day.

**MISTLETOE CUSTOMS**

The ancient Druids worshipped mistletoe because it grew on their sacred oak. At the end of each year, a Druid priest would cut down the mistletoe with a golden sickle, and not one twig was allowed to touch the earth. Later, sprigs of mistletoe were fastened over doorways to ward off evil spirits.
